AI Algorithms II

Mosaliganti, Kishore Rao

Fall 2024

This course aims to teach students advanced AI algorithms and covers neural networks, deep learning architectures, and reinforcement learning. The course provides a high-level theoretical overview of each section and discusses practical applications through hands-on projects. The course uses Python as the programming language. Prerequisites: Data analysis and feature engineering, traditional machine learning theory and practice, python programming (intermediate level e.g., familiarity with sci-kit learn, matplotlib, NumPy, pandas), linear algebra, and first-order derivatives.

Software Tools for Data Analysis

Parravano, Stefano A

Fall 2024

The course provides students with an overview of popular software packages used today for data exploration, analysis and visualization. The first part of the course will offer an overview of the non-programming tools Excel and Tableau. In Excel we will cover basic charts with the emphasis on their use with pivot tables. In Tableau students will be introduced to more advanced data exploration and visualization methods via a variety of advanced charts and dashboards. The second part of the course will cover exploratory data analysis in R. Here students will learn how to write their own code for importing, cleaning and exploring large datasets, as well as how to create, modify and export complex charts and summaries for visual, qualitative and quantitative analysis of the data. The third part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter and manipulate the data.

Data Analysis

Vicentini, Gustavo J

Spring 2025

This course is designed to introduce students to the concepts and data-based tools of statistical analysis commonly employed in Applied Economics. In addition to learning the basics of statistical and data analysis, students will learn to use the statistical software package Stata to conduct various empirical analyses. Our focus will be on learning to do statistical analysis, not just on learning statistics. The ultimate goal of this course is to prepare students well for ADEC 7320.01, Econometrics.

Predictive Analytics/Forecasting

Bradley, Robert J

Spring 2025

Econometrics This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

ML/AI Algorithms I

Sharma, Arvind

Spring 2025

This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding big data. This course will provide a hands-on experience with the terminology, technology and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naive Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

Algorithmic Ethics and Governance - from traditional to AI/ML

Mc Gowan, Richard, Society of Jesus

Spring 2025

This is a survey course of governance frameworks & techniques for algorithms that are used to make decisions within an organization or in servicing clients. The recent acceleration in the use of Artificial Intelligence (AI) and specifically Machine Learning (ML) techniques have introduced unique opportunities and risks that require governance to encourage their responsible and ethical use. We will start with the intent of governance, its roots, its current manifestations and identify trends that are shaping algorithmic decision-making governance with a focus on for-profit firms, mainly the US. Industries covered will vary but may include the Financial Industry, Healthcare, Manufacturing, Defense, and Biotech for illustrative examples.

ADBI112301

Nutrition for Life

Tucker, Sheila, RD

Summer 2024

Course acquaints the nonspecialist with the basic scientific principals of nutrition and energy metabolism. Includes an examination of the six nutrient groups (carbohydrates, proteins, fats, vitamins, minerals and water) and their impact on health, disease prevention, and growth and development. Explores current dietary recommendations, nutrition for athletes, dietary supplement use, weight management, and other current hot topics in nutrition. Students assess their own nutrient intakes and compare them to national standards. Material designed for practical use.

Nutrition for Life

Tucker, Sheila, RD

Spring 2025

Course acquaints the nonspecialist with the basic scientific principals of nutrition and energy metabolism. Includes an examination of the six nutrient groups (carbohydrates, proteins, fats, vitamins, minerals and water) and their impact on health, disease prevention, and growth and development. Explores current dietary recommendations, nutrition for athletes, dietary supplement use, weight management, and other current hot topics in nutrition. Students assess their own nutrient intakes and compare them to national standards. Material designed for practical use.

Business Management Courses: Summer 2024

ADBM143001

Corporate Communication

Whalen, Martha A

Summer 2024

In a globally competitive and technologically advanced world, the ability to convey ideas and persuade diverse audiences is critical to professional success in every organization. This course provides a learning environment which develops proficient communication skills. Focusing on business writing and oral presentations with particular attention to purpose and audience, the curriculum offers strategies for effective business communications in letters, memos, e-mail, reports, proposals, resumes, meetings, and presentations. Class interaction, written assignments, collaborative media design, and team presentations provide multiple opportunities to demonstrate and enhance skills and to receive personal feedback on your professional communication style.

Entrepreneurship

Cronin, Mary J

Summer 2024

Entrepreneurship is much more than starting a new venture. Entrepreneurial thinking is the force that drives global innovation, social change, and economic growth. This course provides a framework for students to apply an entrepreneurial mindset to creating business and social value, analyzing market opportunities, developing new products and services, growth planning, and exploring career paths. Course topics include entrepreneurial values and ethics, the stages of creating a new business from defining the mission and market opportunity, to competitive analysis, developing business and revenue models, customer acquisition strategies, team building, financing, and launch planning. Students will analyze startup case studies in multiple industry sectors, hear guest presentations by successful entrepreneurs and venture investors, and learn to build, evaluate, and improve startup business plans.

Business Management Course: Fall 2024

ADBM177101
Applied Data Analysis and Interpretation
Johnson, Tristan
Fall 2024

This course will introduce students to the basics of data analysis and interpretation. Students will critically engage with actual data from across disciplines in order to develop their own interpretations of the underlying meaning. We will explore how these skills can apply to making decisions in academic, professional, and community contexts. The skills developed and practiced here will assist the students in critically evaluating and drawing meaning from data as well as making well-informed decisions from that data.

Design Thinking
Whitcavitch-Devoy, Julia
Fall 2024

This course seeks to introduce Design Thinking as an action-oriented creative process for engaging deeply with the problems that matter to you. The course is designed to help you: develop habits of mind and tools for thinking to make creativity a reliable resource in your life; cultivate empathy for both others and yourself as the starting point for creative problem-solving; think flexibly by reframing problems and finding ways to move beyond your first good ideas; and adopt an experimental mindset that allows you to try test out your ideas and collaborate with others. The course will take a learn-by-doing approach combined with ample opportunity for reflection. The goal is to integrate Design Thinking with the rest of your liberal arts studies so you leave the course with a broad-based, personalized creative toolkit for tackling problems in your life and in the world.

Strategic Leadership

Bonfiglio, Andrew

Spring 2025

Positioning organizations and individuals for success amid global financial, economic, technological, and political uncertainty demands principled, visionary leadership as well as imaginative and innovative operational expertise. Successful organizations exhibit three critical competencies: vision, strategy, and execution. Vision charts a direction through the chaos. (Where are we going?) Strategy tells the organization how to achieve the desired results. (How will we get there?). Execution translates strategies into results. (Let's get it done!). This course will develop competencies in each of these critical areas through readings, discussions, case studies, presentations, and more importantly, practice. Vision is taught by studying successful organizations and visionary individuals. The course examines disruptive sources (e.g. rapidly changing markets, new legislation, scandals), the accelerating pace of change that renders past experience and knowledge insufficient, and the need for leaders making decisions about the future to think and behave like innovators. Thomas Edison invented the electric light when electrification was uncommon. (Vision). Vision can only be successful if you turn an idea into a useful product. Steve Jobs was able to turn his idea about a portable phone into a ubiquitous handheld computer. (Strategy). Organizations are only successful if they can implement strategies in a timely and effective manner with the complete buy-in of the organization. The focus is on creating open, optimistic climates that engage employees, develop skills and talents, and promote continuous knowledge sharing, smart work designs, and creative problem-solving.

The Age of Misinformation

Carroll, Jaclyn

Summer 2024

Are we living in the Age of Misinformation? Scholars across the social sciences and humanities are united by a fear of how fast false information can spread. Misinformation appears everywhere our workplaces, our social media feeds, our family dinners. But what is misinformation and where does it come from? Why are some people drawn to it while others remain unaffected? How does anyone distinguish good information from bad, experts from dupes? This course is an interdisciplinary examination of misinformation, its character, its origins, and its impact on social and political life. By surveying the leading theoretical explanations of misinformation from sociology, communication & media studies, psychology, and political science, students will be exposed to cutting edge research on the nature of misinformation and will cultivate tools to hinder its spread in their personal and professional lives.

The Society of the Selfie: Social Media and Political Crisis

Morelock, Jeremiah C

Summer 2024

This course explores how the Internet is connected to the global crisis of liberal democracy. Through social media people have new ways of rating and judging themselves and one another, via metrics such as likes, shares, followers and friends. There are new thirsts for authenticity, outlets for verbal aggression, and social problems. Information technologies provide channels for public engagement where extreme ideas reach farther and faster than ever before, and political differences are widened and inflamed. They also provide new opportunities for protest and resistance. Topics covered. Social theories from Debord, Foucault, Giddens, Goffman, and Fromm will be discussed in relation to the topics covered, which include the global history of communication technologies, personal branding, echo chamber effects, alienation, fear of abnormality, authoritarianism, populism, and resistance.

Digital Marketing Strategy

Fortney, Erin M

Fall 2024

This course is intended to introduce students to the world of digital marketing and the many different facets that work together in shaping an online digital branding presence to meet strategic business goals. A digital marketing strategic plan is one that helps achieve specific digital goals through carefully selected online marketing channels such as paid, earned, and owned media. Areas of focus include the origins of the digital marketing channel, how it has transformed the way customers interact with brands and products, as well as how marketers leverage different digital channels to optimize sales, awareness, and engagement goals. Students will gain a deeper understanding of how marketing teams function based on different organizational structures and will develop their own strategic plan based on a real-world company or organization.

Persuasive Communication

Whalen, Martha A

Fall 2024

In our culture, image is about conveying success. It is what makes us want to buy a brand or vote for a candidate. Course explores the powerful role of imaging, the use of trademarks as a vehicle to convey a corporate image, and how a "marketable personality" (for a product, service, organization, or individual) is defined, developed, and communicated. Examines strategies for balancing the emotional and rational factors of a message, finding a position with "soul," and using research to full advantage in relation to image failure and crisis management. A look at how imaging is affected by the exploding world of media and how it influences the corporate bottom line. Video and audio presentations and case studies provide stimulating examples. Students will better understand the imaging process and develop the know-how to evaluate and use it.

Digital Storytelling

Hacunda, Michelle A

Spring 2025

The evolution of the internet has created new ways to tell and deliver stories. Digital Storytelling explores the world of interactive narratives through social, mobile, and digital media. These channels include, but are not limited to podcasts, videos, social media posts, blogs, and infographics. This course is designed to provide students with new skills to produce compelling online stories that will resonate with target audiences and encourage them to take action for artistic, educational, and commercial purposes. To do this, we need to examine the changing role of storytellers in the communication field and how digital stories differ from traditional storytelling tactics, such as print, radio, and television. Students will critique digital stories throughout the semester and share feedback with other developing (peer) storytellers.

Crime and Punishment

Seim, Joshua D

Summer 2024

This course examines crime and punishment as two distinct, yet related, forms of social action. The first half focuses on the social roots of criminality. The second half concerns the social relations of punishment. While we will treat these as relatively autonomous topics, we will also spend time addressing the mismatches between the forces that promote criminality and the organized reactions to crime. We will also study a number of general structures and processes that simultaneously affect crime and punishment. For example, we will study how capitalism and racism shape crime. We will then study how these same systems shape and are shaped by punishment. Special attention will also be paid to the contradictions of criminal justice and social justice in the contemporary United States.

Criminal Justice Courses: Spring 2025

ADCJ110001

Introduction to Social Justice

Carroll, J P

Spring 2025

What is social justice? This phrase has been used so frequently that we often lose sight of its meaning. In this course, students will investigate the many meanings of the term social justice and will be introduced to social justice issues in the US. Students will begin by locating themselves within systems of power, privilege, and oppression and then use their experiences and perspectives in discussion as we analyze and dissect these concepts. The course focuses on studying systems of oppression, methods of resistance, and visions of possibility.

Special Topics: Perspectives and Concepts of the Juvenile Justice System

Thompson, Antonia S

Spring 2025

The course provides a comprehensive examination of the juvenile justice system's structure and operations, highlighting its distinct approach to addressing youth offenses. A significant portion of the curriculum is dedicated to comparing and contrasting the juvenile justice system with its adult counterpart, emphasizing the unique philosophical foundation and rehabilitative focus of juvenile justice. Key topics include the process of transferring juveniles to adult courts, essential due process protections for juveniles, and international perspectives on juvenile justice. Students will explore the multiple factors contributing to delinquent behavior among youth and analyze current trends in juvenile crime rates.

American Institutions

Paxson, Peyton J

Spring 2025

The word institution has many meanings. In sociology, it means a large-scale arrangement created and maintained to serve the needs of society. The criminal justice system is one example. Another is marriage. In political science, institutions are the organizations that generate economic and social policy and mediate conflicts. The courts are an example; trade unions are another. In history, institutions are what shaped political, economic, and social outcomes in the past. One example is slavery. Another is the civil rights movement. This course uses these different yet often overlapping meanings of institutions to examine the American experience. In many cases the American experience is a shared one, yet in many cases the experiences of particular groups of people are distinctly different from those of others. Some Americans had to fight for their freedom. Some had to fight to be recognized as U.S. citizens. Women had to fight to be able to vote and to enter into contracts without their husbands permission. Some Americans had to fight to marry a person of another race or of the same gender. Others had to fight for a living wage. Some Americans accused of crimes had to fight to ensure that their rights were protected. Many of these fights occurred in courtrooms. This course uses summaries of important court decisions that were both shaped by, and helped to shape, the American institutions we have today. It also uses writings and speeches by individuals whose efforts made them key figures in their respective movements.

International Cybersecurity

Kearns, Nathan W

Summer 2024

Course provides an in-depth global perspective of international networking and communication, including foreign government and industrial espionage, global economies, international privacy and liability laws, sovereign threats, non-U.S. government agencies, international security standards, cybercrime, cyber terrorism, cyber warfare, and import/export requirements. Course also examines the requirements for data location, international policing, and the role of Global Security Operating Centers (GSOCs) in monitoring and responding to international security events.

Security in the Cloud

Fitton, Julie A;Hiatt, Alison L

Summer 2024

Course provides an understanding of basic cloud deployment models, including private, public, hybrid, and community, and the various service platforms (e.g., SaaS, PaaS, IaaS). Course addresses governance control and responsibility for cloud security together with cloud security components, and covers service provider security and its evaluation, security standards (e.g., SSAE-16, CSA-CCM, Shared Assessments, NIST, CIS), procurement, and service level agreements (SLAs). Security topics include traffic hijacking, data isolation/storage segregation, identity management, virtualization security, continuity, data recovery, logging, notification, and auditing.

National Security: Law, Policy, & Government Investigations

Noone, Gregory P;Siegmann, B S

Summer 2024

National security law is often inaccessible and can be particularly hard to follow when divorced from the context of historical tradition, governmental structures, and operational reality in which it functions. This course will examine the law governing national security investigations and related litigation and will provide an in-depth examination of national security from the U.S. Government's perspective. Through class lectures, case studies, and hands-on application, students will learn how Federal intelligence and law enforcement agencies work together (and sometimes not) and their interplay with Foreign intelligence and law enforcement agencies to investigate and prosecute national security crimes, starting with the collection of evidence and proceeding through trial and sentencing. The course will highlight the investigative tools and laws used by intelligence and law enforcement agencies to investigate national security concerns and the varying challenges faced in prosecuting such cases. The class will incorporate guest speakers and experts from government organizations and other stakeholders in the national security field.

Cybersecurity: Designing Offensive and Defensive Capabilities

Maor, Etay

Summer 2024

This technical course examines both offensive and defensive tools, tactics, and procedures in cybersecurity. The course focuses on the technical aspects of cybersecurity, including online attacks and the development of counter measures, varying threats (phishing, malware, social engineering, mobile attacks, network exploitation), defensive technologies, tactics, and strategies, and policy issues pertaining to privacy v. national security. This course will analyze offensive capabilities used by cyber criminals, nation states, and other adversaries to attack private and government infrastructures to develop and design proper detection capabilities, mitigation strategies, and response plans to recover from such attacks. Through hands-on simulations, topics covered include cryptography (e.g., PKI, encryption techniques, digital signatures), open source intelligence (OSINT), IoT vulnerabilities, software and hardware based attacks, and recovery procedures, among others.

Ethical Issues in Cybersecurity

Hurley, Deborah

Summer 2024

Course provides "real life" complex, ethical situations for students to evaluate, as both decision-maker and advisor, by addressing the various issues confronted by senior government and corporate professionals, nation states, and other parties of significance, involving the receipt and protection of critical and sensitive data. Specific topics include standard professional ethical frameworks of beneficence and non-maleficence; rights and justice; and issues related to privacy, intellectual property, and corporate espionage and fraud, while contrasting same with freedom of information and intellectual creativity. The course compares and contrasts global governments' and cultures' differing approaches to ethics, and enhances, from a framework of dialogue, discernment of action, and deliberation, the ability of students to make reasoned and responsible business decisions in a global economy. The course also examines aspirational versus mandatory ethical standards (i.e., the "right thing to do" vs. what is "legal" or "compliant"), through additional frameworks of reference, including review, reflection, and refinement of decisions.

Organizational Effectiveness: Governance, Risk Management, and Compliancy

Aldrich, Philip

Fall 2024

Technical proficiency is not enough to manage business risk. Every potential or identified threat cannot be mitigated, and organizations must choose where to focus their often limited resources to support business goals. This course focuses on Governance, Risk and Compliance (GRC) as an organizational capability that all organizations require in today's complex world. Topics include understanding the business context of key stakeholders, corporate culture, and organizational risks. Students will understand how GRC capabilities such as enterprise risk management (ERM), compliance management (SOX, ISO, PCI, NIST, etc.) and policy management should work together to build a cohesive and balanced risk management strategy within the business context. Students will learn about GRC technology and GRC program management required to support and grow GRC capabilities. Lastly, students will hear from guest lecturers about the roles and responsibilities of the Board of Directors, Risk/Audit Governance Committees, Chief Executives (Chief Information Security Officer (CISO), Chief Risk Officer (CRO), Chief Security Officer (CSO), etc.) and how they rely on GRC capabilities to support the business.

ADCY662001

Cybersecurity Litigation & Strategy

Meal, Douglas Harlan

Fall 2024

Criminal cyberattacks, which were essentially unheard of two decades ago, have now become daily events in the U.S. and around the world. And equally predictable and pervasive is the litigation that today inevitably flows from major cyberattacks, whether brought by means of a civil lawsuit or a regulatory enforcement proceeding. The stakes in such cybersecurity litigation are extremely high, with millions of dollars of damages liability and/or regulatory fines and penalties regularly being claimed. This course will explore the key issues that regularly arise in U.S. litigation arising from major cybersecurity events. It will be taught by a former private practitioner who has long been recognized as the leading privacy and cybersecurity litigator in the country. Students will learn about the various U.S. legal regimes that govern cybersecurity; how private litigants and government regulators seek to enforce those regimes in the context of major cybersecurity events; and how the targets of such enforcement efforts defend against the claims they are facing by reason of the cybersecurity event in question. The course will be structured around the various phases of a typical cybersecurity litigation, whether brought by a private litigant or a government regulator. The course will start with an overview of the theories of liability and injury, and the corresponding defenses to those theories, that are most often advanced by parties to a cybersecurity litigation. The course will then move to the discovery, class certification, and expert testimony issues that are unique to cybersecurity litigation. Along the way the class will take deep dives into some of the core issues in cybersecurity law such as what constitutes reasonable cybersecurity for personal information of another and what sort of injury must be shown in order for a private litigant or a regulator to be able to make a federal case out of a cybersecurity event. Throughout the focus will be on providing students with an understanding of both the key legal issues that tend to become focal points of cybersecurity litigation in the United States and the practical considerations that parties to cybersecurity litigation and their counsel must weigh in deciding how to address those issues in the particular case at hand.

Cyber Crime

D'Addio, David J;Queenin, Mackenzie A

Fall 2024

Our increasingly digital world has led to a wealth of opportunities for cybercriminals and other bad actors. This class, taught by a current and former federal prosecutor, will provide an in-depth examination of cybercrime, including the federal statutes implicated in computer hacking and other computer-based crimes, such as network attacks, identity and data theft, and cyberstalking. Through illustrative case studies, students will learn how federal law enforcement investigates and prosecutes cybercrime, starting with the collection of digital evidence and proceeding through trial and sentencing. The course will highlight the investigative tools law enforcement uses as well as the current challenges law enforcement faces in prosecuting cybercriminals. We will examine legal, procedural, and policy issues surrounding the search and seizure of digital evidence. The class will incorporate guest speakers from government organizations and other stakeholders in the cybersecurity arena.

The course focuses on the technical aspects of cybersecurity, including online attacks and the development of counter measures, varying threats (phishing, malware, social engineering, mobile attacks, network exploitation), defensive technologies, tactics, and strategies, and policy issues pertaining to privacy v. national security. This course will analyze offensive capabilities used by cyber criminals, nation states, and other adversaries to attack private and government infrastructures to develop and design proper detection capabilities, mitigation strategies, and response plans to recover from such attacks. Through hands-on simulations, topics covered include cryptography (e.g., PKI, encryption techniques, digital signatures), open source intelligence (OSINT), IoT vulnerabilities, software and hardware based attacks, and recovery procedures, among others.

ADEC738001

Empirical Health Economics

Bowser, Diana M;Mauricio, Kaili

Summer 2024

At its root, the study of health economics is the study of market failure and of government failure. We will begin the course by studying the ways in which incentives facing players in the health care industry are different from those present in other industries. We will use economics to explore how firms in the health care sector should behave, given the sometimes perverse incentives they face. As the course progresses, our emphasis will shift: in small groups, students will complete and present a data-driven (or empirical) project investigating a question relevant to healthcare providers, pharmaceutical companies, insurance companies, and/or government regulators. Skills developed in this class will allow students to think critically about incentives present in health care settings, analyze various types of health care data, and present ways to improve the performance of different players in the health care industry.

Predictive Analytics/Forecasting

Fulton, Lawrence V

Summer 2024

Econometrics This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

Big Data Econometrics

Veliche, Razvan

Summer 2024

This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding "big data." This course will provide a hands-on experience with the terminology, technology, and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naïve Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

Credits: 3

Room and Schedule: On-line Asynchronous

Satisfies Core Requirement: None

Ethics, Economics, and Public Policy

Mc Gowan, Richard, Society of Jesus

Summer 2024

The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof!) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

Software Tools for Data Analysis

Parravano, Stefano A

Summer 2024

The course provides students with an overview of popular software packages used today for data exploration, analysis and visualization. The first part of the course will offer an overview of the non-programming tools Excel and Tableau. In Excel we will cover basic charts with the emphasis on their use with pivot tables. In Tableau students will be introduced to more advanced data exploration and visualization methods via a variety of advanced charts and dashboards. The second part of the course will cover exploratory data analysis in R. Here students will learn how to write their own code for importing, cleaning and exploring large datasets, as well as how to create, modify and export complex charts and summaries for visual, qualitative and quantitative analysis of the data. The third part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter and manipulate the data.

Economics Courses: Fall 2024

ADEC110101

Principles of Economics

Lopez Rago, Ricardo A

Fall 2024

This course analyzes prices, output, and income distribution through the interconnections between households and businesses in a Western economy. It studies economic agents, their behavior and interactions, and the outcome of these interactions taking into account government interventions. It analyzes national income and employment, economic fluctuations, monetary and fiscal policy, inflation, growth, interest rates and international aspects of macroeconomic policy such as the trade balance, exchange rates, and the purchasing power parity. The appropriate role of the monetary authority (Central Bank) and government intervention is also examined. Basic analytical tools are applied to current economic problems.

Operations Research in Applied Economics

Chale, Marc W

Fall 2024

This course provides an introduction to the use of operations research methods in economics. For this purpose, the course starts with a brief review of the basics from microeconomic theory, calculus and linear algebra, which is followed by the conceptual foundations of economic modeling and the applications of optimization techniques on various economic problems. The course provides a very sound perspective on how to use operations research techniques in any kind of economic and managerial decision making, which has becoming an increasingly sought after skill. We will work on various problems, including portfolio management, resource management, environment and energy related regulations, etc.

We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

Big Data Econometrics

Sharma, Arvind

Fall 2024

This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding "big data." This course will provide a hands-on experience with the terminology, technology, and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naïve Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

Credits: 3

Room and Schedule: Gasson Hall 210 M 06:30PM-09:00PM

Satisfies Core Requirement: None

Prerequisites: ADEC7310 AND ADEC7320. Must have successfully completed ADEC731001 Data Analysis or obtain department approval.

Ethics, Economics, and Public Policy

Erbil, Can

Fall 2024

The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof!) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

Empirical Behavioral Economics

DeGeest, Lawrence R

Fall 2024

Behavioral economics combines insights from economics and the cognitive sciences to study how human beings make decisions in various contexts. This course will introduce you to the key concepts in this field and give you the tools you need to start designing your own experiments for business or policy applications. Beginning from the standard rational model, we first study the decision-maker in isolation and then move on to the decision-maker in strategic settings. As we go, we will learn how to use simple theoretical models to describe and predict behavior, as well as analyze data from canonical published experiments using R. We will then see how firms and policy makers can design interventions help people make better decisions.

Economics of Innovation and Entrepreneurship

Sile, Ayse E

Fall 2024

Innovation and entrepreneurship have been the key drivers behind economic growth across developed economies and even more so in the U.S. However, innovations and entrepreneurship develop under a high degree of risk and uncertainty and, in most cases, rupture existing structural and traditional patterns and practices. Economic policies along with regulation set the incentives for innovation and entrepreneurship. Intellectual property rights and competition ensure that innovators receive a fertile and collaborative market structure to reach their potential.

Software Tools for Data Analysis

Parravano, Stefano A

Fall 2024

The course provides students with an overview of popular software packages used today for data exploration, analysis and visualization. The first part of the course will offer an overview of the non-programming tools Excel and Tableau. In Excel we will cover basic charts with the emphasis on their use with pivot tables. In Tableau students will be introduced to more advanced data exploration and visualization methods via a variety of advanced charts and dashboards. The second part of the course will cover exploratory data analysis in R. Here students will learn how to write their own code for importing, cleaning and exploring large datasets, as well as how to create, modify and export complex charts and summaries for visual, qualitative and quantitative analysis of the data. The third part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter and manipulate the data.

Economics Courses: Spring 2025

ADEC225101

Special Topics: Economics of Sustainable Development

Sabyrbekov, Rahat

Spring 2025

Growing economies have led to significant challenges for natural ecosystems, threatening human well-being. This course aims to provide students with a basic understanding of how economic analysis is applied to subjects in environmental sustainability and development. Topics include the analysis of situations in which the behavior of individuals indirectly affects the well-being of others, the relationship between the economy and the environment, and the use of policies to promote environmental stewardship.

Mathematics for Economists

Gerraughty, Lorin E

Spring 2025

This course introduces students to mathematical methods used in the analysis of economics and business problems. It focuses on multivariable calculus, optimization, and its economic applications. This includes optimization with equality constraints, utility maximization and consumer demand, and Kuhn-Tucker conditions. The course concludes with lectures on economic dynamics and the application of integral calculus to problems in investment and capital formation, present value analyses, and economic growth models. This course is an upper-level Economics elective, and it also fulfills Calculus II requirement for MS in Applied Economics program.

Predictive Analytics/Forecasting

Bradley, Robert J

Spring 2025

Econometrics This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

ADEC743001

Big Data Econometrics

Sharma, Arvind

Spring 2025

This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding "big data." This course will provide a hands-on experience with the terminology, technology, and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naïve Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

Credits: 3

Room and Schedule: Gasson Hall 310 M 06:30PM-09:00PM

Satisfies Core Requirement: None

Prerequisites: ADEC7310 AND ADEC7320. Must have successfully completed ADEC731001 Data Analysis or obtain department approval.

Ethics, Economics, and Public Policy

Erbil, Can

Spring 2025

The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof!) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

ADEC750202

Empirical Industrial Organization

Vicentini, Gustavo J

Spring 2025

Introduces students to both theoretical and empirical models of industrial organization, which is a branch of economics that studies how firms compete against each other via pricing, quantity, entry, location, advertising, research and development, and other strategic decisions. Given that most real-world markets are not perfectly competitive nor strict monopolies, emphasis will be placed on game-theoretic models of strategic competition, both static and dynamic, and both non-cooperation as well as cooperative (e.g., collusion) models. As theoretical models are introduced, reduced-form and structural econometric methods utilized to estimate equilibrium outcomes of such theoretical models are reviewed. Econometric methods of demand function and supply function estimation are also covered.

Transfer Pricing

Dimitrijevic, Stanko

Spring 2025

Transfer pricing involves the valuation of goods, services, and other assets exchanged between affiliated companies. Based on economic principles and governed by the U.S. tax code, international transfer pricing has continued to be a focal point for both multinational companies and tax authorities as a means to evaluate the allocation of income resulting from intercompany transactions conducted across borders. This course will include an introduction to basic tax and transfer pricing concepts, accounting and financial statement analysis, and an application of economic principles underlying transfer pricing analysis. Students will use real case studies and work in groups to consider the economics associated with conducting an international business, and apply transfer pricing methods to develop and support their analysis.

ADEC753001

Measuring Business Cycles, Trends and Growth Cycles

Ozyildirim, Ataman K

Spring 2025

This course will focus on the measurement and analysis of business cycles with a special emphasis on business forecasting. Leading indicators are used as forecasting tools to predict when economies move from expansion to recessions and vice versa. Taking an applied empirical approach, we will cover data and tools used for analysis of short term conditions. While business cycle analysis is concerned with short-term fluctuations, understanding the long-term growth path of an economy is important to interpret short-term movements. Applications of trend estimation methods will also be covered. We will study cycles in developing economies which have experienced long periods of continuous growth. Our focus is on important economic indicators and a discussion of data issues such as price indexes, deflation, and seasonal adjustment. How can these indicators be applied and interpreted to understand short term trends in the economy? How can they assist in economic and business decision making?

Communication and Leadership in Applied Economics

Bradley, Robert J

Spring 2025

This course on "Leadership and Communication for Applied Economists" has been specifically designed to meet the needs of graduate students in the Applied Economics program. Each individual session focuses on helping students understand leadership traits and develop commensurate written or oral communication skills to reinforce their influential skills. Students will discuss their current writing projects in the context of each session's topic. Also, the course will also focus on the topics related to leadership, effective written and oral communications tailored to specific audiences. In addition to leadership and communication skills, students will practice elevator speeches, short written communications and other presentations.

Management of Projects in Applied Economics

Sile, Ayse E

Spring 2025

From an economics perspective, the success of a project mostly relies on the maximization of profit to allow for reinvestment and further growth and profits. The course will focus on best practices that enable the successful implementation of and excellence in project management with a focus on economics. The course also discusses the technical, cultural, and interpersonal skills necessary to successfully manage projects from start to finish. It emphasizes that project management is a professional discipline with its own tools, body of knowledge, and skills. Concepts are reinforced by case studies covering a wide variety of project types and industries.

Software Tools for Data Analysis

Parravano, Stefano A

Spring 2025

The course provides students with an overview of popular software packages used today for data exploration, analysis and visualization. The first part of the course will offer an overview of the non-programming tools Excel and Tableau. In Excel we will cover basic charts with the emphasis on their use with pivot tables. In Tableau students will be introduced to more advanced data exploration and visualization methods via a variety of advanced charts and dashboards. The second part of the course will cover exploratory data analysis in R. Here students will learn how to write their own code for importing, cleaning and exploring large datasets, as well as how to create, modify and export complex charts and summaries for visual, qualitative and quantitative analysis of the data. The third part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter and manipulate the data.

Market Research and Analysis

Sile, Ayse E

Spring 2025

Market research is the systematic gathering and interpretation of information and data using the statistical and analytical methods and techniques of the applied economics and statistics to gain insights or support decision making. This course provides you with the skills and tools needed to understand and evaluate market research. Market research and analysis involve developing research questions, collecting data, analyzing it and drawing inference, with a view to making better decisions. To this end, the course is organized into two basic parts: (1) Data collection and research design, and (2) Tools and applications of research and data analysis. The course will provide a framework for conducting research, knowledge to properly design research, techniques and tools to analyze data and infer insights, and practical information sources.

Fundamentals of Private Equity

Yanmaz-Karsligil, Gul

Spring 2025

This course is for students who wish to gain a high-level understanding of the private equity ecosystem. Private equity is no longer niche, but a large and global asset class with trillions of dollars under management that touches many aspects of people's daily lives all over the world. There are now thousands of private equity firms globally, and the industry has evolved to the point where different players offer distinct investment strategies and execution styles. Topics will include LBOs, venture capital, structures, economics, due diligence, portfolio construction, performance measurement, impact on society, agency issues, and ethical considerations. Through class discussion, guest lectures, and case studies, students will develop an understanding and appreciation for this unique asset class that is not well understood by many.

Environmental and Natural Resource Economics

Olcum, Gokce A

Spring 2025

This course examines where the tension between economic activities and environment stems from, how economic activities cause environmental degradation and what kind of regulatory actions should be taken in order to maintain the balance between economic growth and environmental sustainability. The course has two main parts, theory and applications. We will start with analyzing the underlying economic theory of market failures, economic valuation, economic incentive instruments, and then move onto the applications of the economic theory to real world cases, i.e., air pollution control and climate change mitigation policies, water quality management and waste management.

American Crime Stories

Crow, Andrea

Summer 2024

Why are we fascinated with crime? This course investigates how true crime stories from the nineteenth-century murder ballads to the Tonya Harding scandal to the notorious case of Jeffrey Dahmer attempt to make sense of problems at the heart of U.S. society. We will analyze a range of media, including prose fiction, graphic novels, poetry, and film, developing students' abilities to critically examine the narratives they encounter. By studying the strategies storytellers use to shape our sense of what's true, students will learn to recognize how true crime narratives mediate our understanding of our culture, and to perceive how the stories we tell impact the lives of real people.

Studies in American Ethnic Literature

Sarr, Akua

Fall 2024

Ethnic difference has a profound effect on personal and social understandings of what it means to be an American. Multicultural fiction navigates the complex terrain of race and ethnicity in America. Fiction depicts a variety of experiences and suggests that what constitutes an American identity is far from settled. A discussion of the literature invites students to share their own personal narratives - stories of race, ethnicity, class, gender, faith, and nationality - to further uncover what it means to be ethnic in America. Writers include: S. Alexie, E. Danticat, J. Diaz, J. Eugenides, and J. Lahiri.

Literature of Transformation: System-Impacted Voices

Brooks, Michelle

Fall 2024

In this class, students will join a community of learners to read texts that visualize life beyond the bounds of the carceral system. The class focus is two-fold: 1) to delve into the liberatory power of literature and 2) to engage in the practical cultivation of college skills that will ensure student success at BC. Students will collaboratively read poetry, philosophical consolation, memoirs, essays, and short fiction to examine the ways that authors use literary expression to critique systems, to humanize individuals who have been incarcerated, and to imagine new futures. The assignments, activities, and projects will introduce students to college technologies, offer practice in planning and scheduling time, help students identify and utilize resources geared for student success, and prepare students to conduct library research. Students will also engage in self-reflection and create an academic plan that empowers them to make the most of their educational experience.

Writing With Precision

Santiago, Elizabeth

Fall 2024

Our personal and professional worlds are driven by the rapidly changing technology tools we use to communicate. The ability to write clearly and effectively using multiple mediums for multiple audiences are vital and necessary skills. Strengthening these writing skills will give you the ability to create and maintain relationships, explain ideas efficiently and effectively, and persuade others to take specific actions. Yet, whether communicating in business, disseminating information online, or blogging for pleasure, writing with precision, economy, and style, are skills that take practice and development. This course expands powers of expression, develops a large and dynamic vocabulary and enables learners to write with precision. We will sharpen writing skills through exercises and brief assignments, with special attention paid to writing for the Web and other forms of online communication.

College Writing Success Seminar

Adams, Lauren

Spring 2025

The College Writing Success Seminar's curriculum is designed as a refresher, or in some cases an introduction, to the essential concepts needed to be successful in a college writing course. It is mandatory for students who have been identified as needing this additional support and instruction.

ADEN126601

Studies in American Ethnic Literature

Sarr, Akua

Spring 2025

Ethnic difference has a profound effect on personal and social understandings of what it means to be an American. Multicultural fiction navigates the complex terrain of race and ethnicity in America. Fiction depicts a variety of experiences and suggests that what constitutes an American identity is far from settled. A discussion of the literature invites students to share their own personal narratives - stories of race, ethnicity, class, gender, faith, and nationality - to further uncover what it means to be ethnic in America. Writers include: S. Alexie, E. Danticat, J. Diaz, J. Eugenides, and J. Lahiri.

Literature of Transformation: System-Impacted Voices

Brooks, Michelle

Spring 2025

In this class, students will join a community of learners to read texts that visualize life beyond the bounds of the carceral system. The class focus is two-fold: 1) to delve into the liberatory power of literature and 2) to engage in the practical cultivation of college skills that will ensure student success at BC. Students will collaboratively read poetry, philosophical consolation, memoirs, essays, and short fiction to examine the ways that authors use literary expression to critique systems, to humanize individuals who have been incarcerated, and to imagine new futures. The assignments, activities, and projects will introduce students to college technologies, offer practice in planning and scheduling time, help students identify and utilize resources geared for student success, and prepare students to conduct library research. Students will also engage in self-reflection and create an academic plan that empowers them to make the most of their educational experience.

Special Topics: Studies in Poetry

Roberts, Susan A

Spring 2025

In Studies in Poetry, we will cover a wide range of areas concerning our subject, from the structure and marvelously fluid forms of poetry to its emotive force and analysis of its parts. While students will learn to explicate poetry and write critical analysis by the end of the course, most of our class time will be focused on reading and discussion of poems. The purpose is to get comfortable with poetry, which, by many accounts, is experiencing a new vitality and growing audience in this country. You will be expected to write comprehensively about poetry and will be given a weekly short assignment on a poem or poems of your choice. You will also be writing poems yourself to experience a bit of what a poet faces. Additionally, you will be responsible for participating in all discussions and for fulfilling all reading assignments.

Writing With Precision

Santiago, Elizabeth

Spring 2025

Our personal and professional worlds are driven by the rapidly changing technology tools we use to communicate. The ability to write clearly and effectively using multiple mediums for multiple audiences are vital and necessary skills. Strengthening these writing skills will give you the ability to create and maintain relationships, explain ideas efficiently and effectively, and persuade others to take specific actions. Yet, whether communicating in business, disseminating information online, or blogging for pleasure, writing with precision, economy, and style, are skills that take practice and development. This course expands powers of expression, develops a large and dynamic vocabulary and enables learners to write with precision. We will sharpen writing skills through exercises and brief assignments, with special attention paid to writing for the Web and other forms of online communication.

Entrepreneurship Courses: Summer 2024

ADET210401

Social Entrepreneurship for Business and Nonprofits

Frechette, Edward K

Summer 2024

Social Entrepreneurship focuses on developing innovative, market-based solutions to long-standing social issues. Social entrepreneurs are motivated to create profitable, sustainable companies that have a positive impact on the community, the broader society, and the planet. In this course, students will learn how to design, build, and lead profitable, impactful social enterprises. They will analyze best practices for measuring and assessing the impact of social entrepreneurship in a variety of organizational, enterprise, and community settings. Case studies and guest speakers will illustrate the challenges and expanding opportunities of social entrepreneurship models in the private and public sector. Course topics include defining social entrepreneurship as distinct from traditional entrepreneurship; analyzing the essential components of a sustainable, scalable social enterprise; understanding organizational, governance, and funding options; reflecting on the interpersonal, analytical, and leadership skills that characterize successful social entrepreneurs; developing innovative solutions using strategies for co-creation with core stakeholders; and applying tools for measuring social impact and sustainable change.

Entrepreneurship

Cronin, Mary J

Summer 2024

Entrepreneurship is much more than starting a new venture. Entrepreneurial thinking is the force that drives global innovation, social change, and economic growth. This course provides a framework for students to apply an entrepreneurial mindset to creating business and social value, analyzing market opportunities, developing new products and services, growth planning, and exploring career paths. Course topics include entrepreneurial values and ethics, the stages of creating a new business from defining the mission and market opportunity, to competitive analysis, developing business and revenue models, customer acquisition strategies, team building, financing, and launch planning. Students will analyze startup case studies in multiple industry sectors, hear guest presentations by successful entrepreneurs and venture investors, and learn to build, evaluate, and improve startup business plans.

Design and Prototyping for Entrepreneurs

Kenney, Macauley R;Young, Emily J

Fall 2024

This course introduces entrepreneurs to product design and prototyping principles, including the fundamentals of Design Thinking. Design Thinking has demonstrated its value in developing innovative, user-friendly products and services for all types of organizations. The course provides a detailed overview of design and prototyping techniques and best practices through case studies, demonstrations, guest experts, and lectures. Students will work individually and in small teams to apply these techniques through project-centered assignments grounded in specific design challenges. These projects foster critical thinking, creative exploration of options, customer research, experimentation, rapid prototyping, feasibility testing, and iteration. Design and Prototyping for Entrepreneurs will build problem-solving, creativity-boosting skills that are essential components of an entrepreneurial mindset.

Funding for New Ventures

Frusztajer, Elisabeth

Fall 2024

This course presents the landscape of venture funding and provides entrepreneurs with qualitative and quantitative decision-making tools to make well-informed, strategic choices about how to fund their new ventures. It covers the broad spectrum of startup funding options, from bootstrapping and loans, tapping friends and family resources, competing for accelerator and government funding, to seeking angel and venture capital investments. Within this spectrum, students will learn how to assess the feasibility of raising external funds for different business models at different stages of company growth, and how to analyze the tradeoffs of various funding options. The course also provides students with a grounding in the structure of venture capital investing, including term sheets, valuation, capitalization tables, boards of directors, preparing for due diligence, and the risk-reward perspective of traditional venture investors. Students will develop skills in analyzing the early-stage growth, revenue, and financial projections required for different types of funding through assigned business cases. They will prepare and present a funding pitch for a new venture of their choice as a final course project.

Business Planning for New Ventures

Reske, David A

Spring 2025

This course teaches students the core components of business planning for new entrepreneurial ventures through lectures, case studies, guest speakers, peer discussions, and self-directed, interactive assignments. It highlights the tools and best practices for each key step in the business planning process, from identifying critical problems and innovative solutions, feasibility and market testing, developing a business and revenue model, to creating an investor pitch and a market launch timeline. Students will reinforce their mastery of these core components through practice and feedback; in parallel with each course module, students will develop and present a full business plan for the startup idea of their choice. Students may opt to develop their business plan individually, or as part of a small team.

The Examined Life

Welch, Christopher J

Summer 2024

The Examined Life is an interdisciplinary course that addresses perennial questions by linking them to contemporary issues of significant ethical import that have bearing on daily living and social life. It is meant to bring multiple lenses to bear on topics related to our shared condition and deepen our understanding of the complex realities of human existence. Through thoughtful engagement with these topics and in community with others, students will attend to and reflect upon their personal experiences with the end goal to form ideas and opinions on how we are called to respond to the challenges confronting our world today. This course is restricted to Woods College BA students.

Purposeful Life

Klein, Timothy R

Summer 2024

The Purposeful Life course is the capstone experience to the Woods College Core Curriculum. The course builds upon the personal values and strengths students will concurrently explore in the Designing Your Career course. Students will grapple with and dig deeper into the following big-picture questions: What is my purpose and how do I pursue it? What problems of purpose do I care most about? How can I make a meaningful contribution that also brings me satisfaction? Research posits that having an awareness of how to approach work and the meaning that derives from it is crucial in achieving the best possible outcomes for both individuals and organizations. Course perspectives will combine psychology, adult learning, and organizational leadership topics to help students frame their purposeful path. Students will engage in a semester-long problem-based learning project that explores a local ethical issue they would like to understand better. This project will refine students reflection skills, incorporate their strengths, and enhance practical knowledge needed for future professional aspirations and lifelong learning. This learning experience will help students combine the competencies they have acquired in their Woods College coursework and co-curriculum with practical application in successful project implementation. This course is restricted to Woods College students with more than 100 credits. Students must register for the corequisite course, ADEX4151 Designing your Career.

Designing your Career

Heaney, Michael C

Summer 2024

Guided by Ignatian principles of self-knowledge and discernment, students will learn how to connect the value of their liberal arts education to their futures. Through self-assessment exercises, lively discussion, and thought-provoking activities, students will identify and reflect upon their values, interests, and skills and then connect them to career options. In addition, students will explore the skills most desired by employers and learn how to develop those competencies during their BC careers. We will also discuss ways to research various career paths and learn targeted search strategies to achieve meaningful profession goals. Using a design thinking framework, students will approach the career exploration process with curiosity and creativity, learn how to identify their unique career interests, take ownership of their career development, and address challenges that often occur in the process. The skills developed will serve students throughout their life by teaching them to focus on possibilities and exploring various career pathways. Students who are considering questions like "what do I want to major in?", "what kind of internship do I want?", or "what sort of career should I pursue?" will all benefit from this course.

Designing your Career

Heaney, Michael C

Spring 2025

Guided by Ignatian principles of self-knowledge and discernment, students will learn how to connect the value of their liberal arts education to their futures. Through self-assessment exercises, lively discussion, and thought-provoking activities, students will identify and reflect upon their values, interests, and skills and then connect them to career options. In addition, students will explore the skills most desired by employers and learn how to develop those competencies during their BC careers. We will also discuss ways to research various career paths and learn targeted search strategies to achieve meaningful profession goals. Using a design thinking framework, students will approach the career exploration process with curiosity and creativity, learn how to identify their unique career interests, take ownership of their career development, and address challenges that often occur in the process. The skills developed will serve students throughout their life by teaching them to focus on possibilities and exploring various career pathways. Students who are considering questions like "what do I want to major in?", "what kind of internship do I want?", or "what sort of career should I pursue?" will all benefit from this course.

Documentary Film

Michalczyk, John;Michalczyk, Susan A

Fall 2024

The aim of this course is to provide a history of the evolution of the documentary film, as well to develop a critical skill in interpreting documentaries. Parallels in American history and literature will be included in order to offer an historical and literary context. The student should be able to identify the various elements of documentaries in their historical setting and indicate the type of technique and format used to convey a narrative.

Film, Literature, and Law

Michalczyk, John;Michalczyk, Susan A

Spring 2025

Interest in the rapport between film and literature as it relates to the law intrigues us as much today as ever. Literature captures the drama of a legal trial or an investigation into a brutal, racial murder. Film then takes this rich material and shapes it into a compelling form with dynamic visuals and other narrative techniques. The course explores the power of story-telling and the impact of film to embody and inhabit law and its relationship to ideas about inferiority, liberty, citizenry, race, justice, crime, punishment, and social order. Film adaptations from short stories, plays, and novellas will comprise the body of the curriculum.

Principles of Finance

Ryan, Edmond F

Spring 2025

This course introduces the theory and practice of corporate finance in both a theoretical and practical manner. The course is designed to give students a basic understanding of the financial tools managers need to cope in a rapidly changing and dynamic business environment. Finances lie at the heart of every major corporate decision whether it is strategic in nature or operational. The course examines how corporations raise capital in the financial markets and decide upon its deployment in the enterprise. Topics treated extensively include the time value of money, valuing bonds and stocks, concepts of risk/return, capital budgeting, project evaluation, and working capital management. The course will provide students with a theoretical foundation in Finance, but the emphasis is on applying that theory to solve practical problems and increase the value of the enterprise.

Personal Finance: Your Money and How to Use It

Allgood, Cecil Thomas

Spring 2025

Course provides an overview of all aspects of personal financial management including budgeting, retirement planning, life and health insurance, income taxes, auto and real estate transactions, estate planning, and personal investments (stocks, bonds and mutual funds.) Challenging market conditions over the past years, financial, housing and economic crisis, excessive risk taking and the unraveling of Ponzi schemes (such as Madoff) have highlighted the need for all investors to better understand and manage their personal finances in order to make prudent decisions and leverage increasingly sophisticated and complex financial products. Course provides a foundation to further one's knowledge and understanding of a broad range of personal finance topics.

Health Policy

Sibley, Erin M

Summer 2024

Federal and state-level healthcare policies affect a wide range of issues, including access to care, quality, cost, and modes of delivery. Effective healthcare managers must interpret and anticipate a changing policy landscape, and strategically apply that interpretation as part of the process of organizational planning and execution. In this course, the social and economic implications of contemporary healthcare policies are explored. Emphasis is placed on how public policy (e.g., Patient Protection & Affordable Care Act of 2010) influences human resources/capacity, values, needs, reimbursements and regulation of individuals, insurers, and medical and healthcare organizations.

Healthcare Innovation-Based Strategy: Managing Change

Smith, Karen M

Summer 2024

This course examines how health care organizations can innovate and adapt to the ever-evolving needs and demands of a dynamic, competitive, and regulatory health care environment. To do so, the course explores: What types of innovations are possible and how individuals/organizations develop innovations; Factors that affect the adoption and implementation of these innovations; and Approaches to evaluating whether these innovations had their intended effect. Readings, concepts, and cases focus on the areas of organizational innovation/organizational change, quality improvement, and implementation science. The course ensures that students will be able to Identify different approaches to developing innovations in healthcare; Articulate the opportunities and challenges to implementing innovations; and Analyze real world circumstances that impact the innovation and implementation process.

Health Analytics: Assessing & Critiquing Evidence and Decision-Making

Sibley, Erin M

Summer 2024

In today's highly competitive healthcare environment, data-driven decision making is key to assuring quality, increasing access, and minimizing cost. In an industry focused on evidence-based practices, healthcare managers must be able to use analytic tools and methods to critically evaluate care and practice to better inform decisions. Tomorrow's leaders must be able to make decisions based on research, evidence, and data to inform continuous improvement and innovation. The course will review data analysis principles and statistical analysis (e.g., probability, regression modeling, decision science, predictive forecasting, and time series analysis). Students will conduct data analyses and use results to make decisions. Students will focus on how to analyze and interpret data to optimize the decision-making process and assure evidence-based management practice.

ADHA705501

Strategic Planning and Marketing

Dupuis, Jason M

Fall 2024

Strategy is the result of an organizations choices: both affirmative actions taken, as well as actions not taken. A well-crafted strategy is coherent: it reflects a perspective on an organizations capabilities, an understanding of the competitive dynamics of the market, and a knowledge of customers needs. Ultimately a strategy is bounded by the vision, mission, and values of the organization itself. The interaction of these variables produces an unlimited set of choices for an organization, which is why there is not a right strategy. Rather, there is a chosen strategy that balances these factors, defines a set of actions with the support of both management and a companys board of directors, and then relies on successful implementation to produce results. And then the process begins again. The course is an opportunity to: understand the core components of developing a strategy, reflect on how these components have taken shape in your career to date, and delve into the strategy development process.

Special Topics: AI for Healthcare Leaders

Hertelendy, Attila Julius

Fall 2024

AI for healthcare leaders is designed to equip healthcare leaders with the knowledge and skills necessary to integrate Artificial Intelligence (AI) into healthcare business strategy effectively. Students will explore the use of AI-based tools and applications to enhance business productivity, decision-making, and innovation. Throughout the course, topics such as Machine Learning basics, Neural Networks, Deep Learning, Computer Vision, Natural Language Processing, and Robotics are covered. Additionally, the course provides an in-depth analysis of real-world case studies, emphasizing the impact of AI in healthcare and its role in driving business growth and transformation. Special attention is given to the ethical and moral responsibilities associated with AI deployment, ensuring students understand the importance of responsible AI use in healthcare contexts. In summary, in this course, we study all the possibilities with AI, converting them into tangible projects to create values, and human contributions to implement them.

Health Policy

Sibley, Erin M

Spring 2025

Federal and state-level healthcare policies affect a wide range of issues, including access to care, quality, cost, and modes of delivery. Effective healthcare managers must interpret and anticipate a changing policy landscape, and strategically apply that interpretation as part of the process of organizational planning and execution. In this course, the social and economic implications of contemporary healthcare policies are explored. Emphasis is placed on how public policy (e.g., Patient Protection & Affordable Care Act of 2010) influences human resources/capacity, values, needs, reimbursements and regulation of individuals, insurers, and medical and healthcare organizations.

Leadership in Healthcare

Guarino, Richard J

Spring 2025

The course introduces leadership models, theories, and skills needed to successfully manage and lead healthcare organizations through transformational versus transactional leadership-styles. Students use a variety of self-assessment tools (e.g., Myers-Briggs, SWOT analysis of self, leadership-style inventory) to develop self-awareness and to better understand the role of emotional intelligence in effective leadership. Students gain knowledge and skills for building and growing the interpersonal relationships and political skills required to develop and lead teams, and to successfully advance from organizational management roles to leadership roles.

Current Issues in Health Economics

Robbins-Murphy, Jeannine G

Spring 2025

This course uses an applied economic framework to help understand the economic and financial landscape of health care systems. The course begins with an overview of economic principles including supply and demand and perfect markets and then describes the economic challenges of healthcare economics and how health and health services are different from other goods. Considerable attention will be given to topics of current public concern including market failure, government interventions, health insurance, rapidly increasing cost, value, and expensive new technologies.

Healthcare Innovation-Based Strategy: Managing Change

Smith, Karen M

Spring 2025

This course examines how health care organizations can innovate and adapt to the ever-evolving needs and demands of a dynamic, competitive, and regulatory health care environment. To do so, the course explores: What types of innovations are possible and how individuals/organizations develop innovations; Factors that affect the adoption and implementation of these innovations; and Approaches to evaluating whether these innovations had their intended effect. Readings, concepts, and cases focus on the areas of organizational innovation/organizational change, quality improvement, and implementation science. The course ensures that students will be able to Identify different approaches to developing innovations in healthcare; Articulate the opportunities and challenges to implementing innovations; and Analyze real world circumstances that impact the innovation and implementation process.

Healthcare Quality Management

Reid Ponte, Patricia A

Spring 2025

The course explores applications of quality improvement measures to the healthcare environment. Topics covered include an understanding of high reliability organizations, utilization review, risk management in healthcare, quality management, the use of outcomes research in improving patient care efficacy and safety, and performance management through training. This course is consistent with Lean Six Sigma (Green Belt) competencies and can partly contribute to preparation for the certification exam.

Health Analytics: Assessing & Critiquing Evidence and Decision-Making

Sibley, Erin M

Spring 2025

In today's highly competitive healthcare environment, data-driven decision making is key to assuring quality, increasing access, and minimizing cost. In an industry focused on evidence-based practices, healthcare managers must be able to use analytic tools and methods to critically evaluate care and practice to better inform decisions. Tomorrow's leaders must be able to make decisions based on research, evidence, and data to inform continuous improvement and innovation. The course will review data analysis principles and statistical analysis (e.g., probability, regression modeling, decision science, predictive forecasting, and time series analysis). Students will conduct data analyses and use results to make decisions. Students will focus on how to analyze and interpret data to optimize the decision-making process and assure evidence-based management practice.

Healthcare Information Technology

Tarab, Basel

Spring 2025

This course explores the critical role of e-health and information systems in the planning, operation, & management of healthcare organizations. Students will learn how to assess and evaluate health information systems and business requirements in a variety of settings such as health systems, hospitals and medical practices. Students will develop skills in healthcare technology implementation design that addresses such industry-specific requirements as translating HIPPA and other regulations into specific technology decisions while implementing medical systems (EMR, lab, clinical services, medical database providers, etc.). Students will also learn how to manage multi-institutional relationships as they are expressed in technology implementations, including the many vendor configurations but also cross-provider organization relationships. Specific topics include data & systems integrations, communications protocols, security standards, procurement, and authentication and authorization.

ADHA705501

Strategic Planning and Marketing

Dupuis, Jason M

Spring 2025

Strategy is the result of an organizations choices: both affirmative actions taken, as well as actions not taken. A well-crafted strategy is coherent: it reflects a perspective on an organizations capabilities, an understanding of the competitive dynamics of the market, and a knowledge of customers needs. Ultimately a strategy is bounded by the vision, mission, and values of the organization itself. The interaction of these variables produces an unlimited set of choices for an organization, which is why there is not a right strategy. Rather, there is a chosen strategy that balances these factors, defines a set of actions with the support of both management and a companys board of directors, and then relies on successful implementation to produce results. And then the process begins again. The course is an opportunity to: understand the core components of developing a strategy, reflect on how these components have taken shape in your career to date, and delve into the strategy development process.

ADHS180101

Themes of African History

Shlala, Elizabeth H

Summer 2024

If you want to go fast, go alone. If you want to go far, go together.- African proverb African history is an exciting subject to study. Human history is longest in Africa and our understanding of this long history is changing because of new discoveries and also because of the changing perspectives of scholars themselves in recent years. In this course, we will work on gaining an understanding of the events and developments of human experiences in Africa over the millennia and we will also examine how perspectives of scholars and people involved in African history have changed. Frequently in the past, people have emphasized how African history relates to the history of other regions, but currently, more emphasis is being given to understanding African history on its own terms. In addition, we will try to see the significance of the African historical experience in a more global or world historical perspective. We will look at major themes, and the myths surrounding them, in our study of African history. These will include: writing the history of Africa, encounters, the Atlantic slave trade, imperialism and colonialism, the history of movements of distinctive African identity (including the rise of nationalism), and the experience of independence. We will also give consideration to Africa's role in globalization to the present day (and looking to the future).

Remaking Europe - Marshall Plan to Brexit

Paul, Michael G, PHD

Summer 2024

This course is an examination of European history since the end of World War Two. In this course, students will analyze how the politics, culture, and society of both Western and Eastern Europe were transformed after 1945. Topics covered include the end of World War Two; emergence of Cold War; decolonization; the economic, political, and cultural forces integral to the development of the European Union; the fall of communism; internal migration and its effects on relations between European states; the role of economics, politics, culture, and migration in facilitating the path to the decision by the people of Britain to leave the edifice of the European Union (Brexit). Special focus is placed on identities and interests of individual European countries, how these identities and interests have changed since 1945, and how these changes have affected the European experiment.

Women and Gender in World History

Miller, Marlyn L

Summer 2024

This course covers the major events in the history of the modern world (roughly 1450-1990) through the lens of gender in order to discover the way gender shapes political, intellectual, religious, economic, and social developments; how it intersects with race, class, sexuality, and relations of power; how it is differently understood and employed in various cultural and historical contexts; and how contact between peoples and their cultural and political systems changes understanding of gender roles. It will look at topics such as the development of the family, female rulership, religion and gender, gender in colonial and imperial contexts, gender and slavery, masculinity in nationalism and war, and changing ideas of gender in the twentieth century. Students will be asked to work with primary source material to craft historical arguments.

An Emerging World

Paul, Michael G, PHD

Fall 2024

Focuses on events in Europe to view how the world community of nations defined their role in and came to terms with the twenty-first century. Novels, memoirs, essays and documentaries reveal the events and decisions that forced or allowed nations to define themselves in the modern world. Topics include Europe and World War I; the Great Depression; World War II; decolonization and the Cold War; and resurgent nationalism and the "new world order, globalization and terrorism." Books include *Regeneration*, Pat Barker; *The Road to Wigan Pier*, George Orwell; *The European Home Fronts*, Earl Beck; *Blood and Belonging*, Michael Ignatieff; and brief readings.

History of New England

Hannan, Christopher W

Fall 2024

For nearly four centuries, this region has managed to maintain an identity broadly American and distinctly New England. Course examines the region's social, cultural, and political history, with particular attention to the Boston area in periods of momentous change. Topics explored include witchcraft in Salem; the Minutemen and the American Revolution; nineteenth-century immigration from Ireland; Boston's Civil War; urban and suburban growth and the social crises of the 1960s and 1970s. Analysis of local historical sites serves to deepen understanding of New Englanders' enduring attachment to the past.

Government, Globalism, Capitalism: A History

Paul, Michael G, PHD

Spring 2025

This course involves a comprehensive survey of the connection between politics, economics, and internationalism, and the effects of this connection in the development of World History. In particular, the course takes an in-depth look at the beginnings of capitalism in the sixteenth century; at how capitalism affected, and was affected by, the growth of the nation state; and at how capitalism became the dominant economic, social, and, in some cases, the religious belief system for many countries, particularly those in the West. We will also look at how the concept of capitalism has fared against global challenges from newer political/economic/religious ideologies such as Socialism, Marxism, Communism, Fascism, and international terrorism. And, finally, we hope to identify just how the theory and practice of global capitalism has proven to be so resilient, despite its evident flaws, to the extent that it remains one of the major forms of economic, cultural, social, and political systems practiced by many countries in the world today. Throughout this course, issues of race, gender, class, nationality, religion, and age will be to the fore, as we strive to discover how the world came to be as it is today.

Special Topics: From Lagoon to Legend: Venice in World History

Shlala, Elizabeth H

Spring 2025

This History core course explores the rich history, art, and culture of Venice, from its founding as a marshy refuge to its flourishing as a maritime republic. Students will examine the city's iconic architecture, including its stunning churches, and the evolution of its founding myths over time. Looking at the role that religion and commerce played, the course will highlight iconic landmarks like St. Mark's Basilica and the Doge's Palace. In addition, contemporary challenges such as overtourism, climate change, and migration, will foster critical thinking about the balance between preservation and modernization in a fragile environment.

C++

Tam, Mimi

Spring 2025

An introduction to programming with C++. This course is meant for students with little or no programming experience. We will start with the basics of programming using the C++ programming language. C++ is the cornerstone programming language used to develop many of the fundamental applications we use on a daily basis. For example operating systems, web browsers and other programming languages such as Java, Python, and SQL are built with C++. We will use the low level nature of the C++ programming language to learn about the fundamental aspects of how a computer works. In this course we will develop basic command line applications, explore how data is stored in memory and how we may use logic to manipulate the data to produce different results.

Computer Security

Bernier, Brian

Spring 2025

This course provides a strong starting foundation for understanding the complex threats system managers face today and what they need to do to harden their systems against attack. Today's business system managers need to understand these threats and know how to protect their digital assets. Students in this course will look at computer security through a variety of lenses. Specific topics will include: protecting the physical infrastructure, computer system design considerations, identity and access management functions and how they fit in, the role of network security tools, the importance of audits and having the right security processes and policies in place, business continuity and disaster recover planning, managing vendor contracts and special consideration for cloud-based systems, and ethical considerations.

Computer Networks

Albrecht, David M

Spring 2025

This course is an in-depth study of networking utilizing the Open Systems Interconnection (OSI) and Transmission Control Protocol/Internet Protocol (TCP/IP) models. A granular discussion of each layer of the model structure included reviewing core components, security vulnerabilities and options for mitigating risk. The building blocks of the Internet will be discussed including ethernet, routing, and secure communication. Network related software and utilities will be utilized throughout the class to provide a greater understanding of the technologies.

Data Visualization

LoPiano, Antonio

Spring 2025

In today's information age with ever pressing demand for data skills, data visualization becomes a critical component of data science. By utilizing visual presentations, data visualization achieves an effective way of communicating insights from data, identifying hidden data patterns and trends, and telling the full story behind data. In this course, students are introduced to the foundations of data visualization along with various data visualization tools. We will introduce the key design principles, how to present data using a number of common data visualization tools (such as Excel and Tableau software). This course will provide students from all backgrounds the opportunity to learn data skills and have hands-on experience working with various datasets, creating visualizations and telling data stories. Students will develop data visualization skills that can be applied to their fields of study and future career. Topics covered include best practices in use of color, visualization principles, static and interactive visualizations, visualization types, and others.

Project Management

Cann, Scott

Spring 2025

Participation in IT projects can happen from a variety of angles; from individual contributor, to project team member, to project manager and executive sponsor. As such, this course will take a 360-degree perspective on project management, incorporating the important peripheral elements that influence the discipline. This course will help students develop practical skills for functioning in a variety of roles on projects, including project manager, while developing an appreciation for the importance of governance and project and portfolio management (PPM) in an IT environment, looking at the concept and the practice of projects from the perspective of participant, practitioner, and executive sponsor.

Business Law

Lu, John T

Spring 2025

This course will introduce students to the legal framework applicable to business. It will begin with an overview of the U.S. legal system, including the process by which government and courts establish laws and resolve disputes. The bulk of the course will then review those areas of the law that business leaders regularly encounter, including business formation and governance, finance, securities, employment, contract, real estate, intellectual property and torts. The course will give particular focus to the practical implications for business leaders, including how leaders identify and manage risks to the business when the law is unsettled or ambiguous, or otherwise raises ethical considerations. The course will regularly draw on the experiences of current business leaders and their lawyers and advisors.

Leading Change from the Middle

Arora, Gary

Summer 2024

The contemporary business environment is constantly changing. Global and domestic markets are in flux, and the workforce is subject to the ebb and flow of generational dynamics. Whether Fortune 500 or small business, the ability to be nimble and strategically change in response to the fluidity of business trends is the key to success. Yet, leading and managing change in the corporate setting is extraordinarily challenging. Change is unsettling. Change challenges the security of how things have been done. Change tests the mettle of project implementation and teams. The prospect of change often impedes creativity rather than promotes innovation in the workplace. No one wants to be wrong or make a wrong decision in the face of change. Hence, managers and the workforce they oversee tend to be change resistant. In order for the organization to change, the people in the organization must be willing to change work/management styles, approaches, and attitudes. In today's highly competitive business environment, rapid and smooth decision-making and implementation is the basis for competitive edge. This course will be presented in three parts. First, students will gain a detailed understanding of change at the macro (organizational) and micro (individual) levels. We will identify the problems associated with anticipating, initiating and implementing change in both for profit and not for profit corporate settings. The second part of the course will explore various techniques in promoting sound analytical corporate response to change at the senior and mid-level managerial levels. The final part of the course is applied. Student teams will assume leadership roles in a fictional company needing change and present their change process in class. Students will also each prepare an analysis of a case studies of corporate change experience. Emphasis will be placed on the process of change in the business context. The class discussions will be grounded in empirical realities rather than theoretical suppositions.

ADLP700401

Problem Solving Through Critical Thinking

Bent, Lauren G

Summer 2024

In an era of uncertainty and disruptions, being able to identify, formulate, and solve problems is a critical leadership competency. In fact, among the many facets of leadership, solving the wrong problem is among the most common, costly, and consequential. Research shows that leaders and teams end up solving the wrong problem >75% of the time. Leaders who master various thinking modes critical, strategic, and systems will significantly improve an organizations capability of solving the right problem, a strategic imperative in todays environment. Students will learn the attributes of wicked, ill-defined, complex problems and how to recognize them. This recognition is important because wicked problems are the ones that can easily spark thinking traps or cognitive fixedness - that prompt solving the wrong problem. These traps cause people to quickly think of and promote solutions to old problems rather than identify the novel elements of the problem that require different answers. Students will be equipped with tools to recognize thinking traps and intervention strategies. Also, students will learn several thinking processes and tools to formulate wicked problems comprehensively. Each thinking process is designed to specifically avoid the thinking traps and promote comprehensive formulation before trying to solve the problem. Students will have the opportunity to apply new tools and processes in real-world situations, reflect upon the results, and develop mastery in problem-solving.

Fostering Dignity and Belonging

Nickerson, Jack

Summer 2024

This course will explore the neuro-psychological foundation of the concepts and beliefs of dignity and belonging. Since dignity violations undermine any efforts to create belonging, the course first will cover a set of principles and practices that eliminate dignity violations in organizations through an understanding of three duties of dignity. From there, students will learn how to generate feelings of belonging. Belonging is the positive feeling of organization-based self-esteem and affiliation that emerges from striving with a group to achieve a common goal or mission. The process of fostering belonging is dynamic and is affected by the specific way one engages in face-to-face counters, whether in a team or in one-on-one meetings. To foster belonging, students will learn how to employ a framework that avoids threat responses which often trigger sets of biases, decisions, and behaviors that lead to alienation and loneliness. They will be presented with five strategic principles that, if followed, can generate genuine feelings of belonging and inclusion.

GenAI for Business Leaders

Arora, Gary

Summer 2024

Generative Artificial Intelligence (GenAI) is radically reshaping the business landscape by automating complex tasks, personalizing customer experiences, and unlocking untapped avenues for innovation. This course is designed to equip current and future business leaders with a tactical understanding of GenAI through a mix of lectures, case studies, hands-on learning, and interviews with industry experts. Understanding Generative AI is essential for leaders in business, government, and not-for-profit organizations to identify and seize transformative opportunities across enterprises and markets. Students will learn how to integrate GenAI into core business processes, navigate competitive and ethical landscapes, and emerge with actionable strategies to elevate both their organization and their career, in an increasingly AI-driven business landscape. No prior background in analytics, computer science, or machine learning is required.

Strategies for Communications

Sheehy, Erin M

Summer 2024

This course will introduce students to the role that strategic communications plays in achieving organizational goals. Students will examine the major disciplines and channels of strategic communications including organizational communications, integrated campaign strategy development, audience analysis, messaging, public relations, social media, branding, advertising, community outreach, thought leadership, content creation, data analysis, and measurement. The course will strike a balance between the latest academic and industry scholarship and the practical application of strategic communications skills. Students will develop and present an integrated communications strategy to achieve a real-world business objective. They also will examine case studies from campaigns of successful organizations, businesses, and influencers.

Human Resource Development

Klayman, Stephen A

Summer 2024

This course focuses on employees and how to get the highest level of performance out of employees. What motivates your employees? What makes them want to stay? How do you prevent attrition? This course will start with an introduction to organizational design and relevant organizational development theories. It will then move to talent acquisition and employee training, where use of analytics and metrics will be introduced. Next, students will learn performance management methods and appraisal, including use of instruments and rating scales. The course will then move to career development and leadership development including assessing talent, developing career paths, and succession planning. The course will conclude by helping students understand the differences between coaching and mentoring, and how to effectively manage organizational talent.

Talent Management

Casey, Kerry G

Summer 2024

Companies often describe the people they employ as their most important asset. The best companies view talent as competitive differentiator and one where the acquisition, engagement, development, and retention of talent is a strategic priority. This course exposes you to methods and practices to acquire, engage, and develop talent, focuses on the development of leaders within an organization, and examines how executive succession is managed. Through readings, cases studies, on-line and in class discussions student will develop their definition of talent management and perspectives on the most effective practices. The course will culminate with a research project and in class presentation that allows learnings throughout the semester to be shared and reflected with the full cohort group.

Internship

Heaney, Michael C

Summer 2024

An internship can provide a student with valuable experience in an industry or company of interest; it may even lead to a permanent job. When approached intentionally, internships can provide students with a host of skills and information that can enhance career opportunities, imbue that career with purpose, and significantly improve the odds of long-term professional success. In this course, students will develop and articulate a simple statement of purpose that will connect them more explicitly with their work and enable them to articulate their personal brand more effectively. They will proactively create a network of collaborators and mentors, simultaneously build the capacity to work in teams, learn from the experiences of those ahead of them, and enhance their ability to speak persuasively in professional settings. This experiential-learning course uses a variety of activities to support student development including articles, podcasts, videos, and guest speakers from the entrepreneurial and corporate worlds. Course experiences will equip students with the tools to perform more effectively in their internships and to extend what they learn to their careers.

Daring to Lead

Noone, Gregory P

Fall 2024

What role can ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers or shareholder value, and without reflection. Any collateral damage is then justified as being just the "cost of doing business." We have an obligation to each other and to ourselves to personally engage and make decisions in a moral context. Using Ignatian discernment and values as a guide, this course will explore strategies and options for integrating values into leadership decision-making. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise values or disengage from our moral compass.

Leadership Fundamentals: Articulating Your Leadership Vision and Values

Caswell, Christine A;Johnson, Tristan;Joyce, Mary E

Fall 2024

Leadership Fundamentals presents the knowledge and skills that students need to develop a formal leadership foundation. This foundation includes exploring students' philosophy for leadership and it also challenges students to articulate their vision orally and in writing. This course emphasizes effectively sharing students' leadership vision to engage others in the pursuit of creating the future. In addition, this course introduces the importance of reflection as a key principle of leadership toward finding meaning and purpose in life. The course also presents fundamental skills in written and oral communication. Students learn how to write with clarity and precision, crafting and honing their written communication skills. Students will learn oral communication skills including public speaking, storytelling, and messaging. Students practice composing and delivering their personal statements of leadership principles, that include their values and vision for leadership excellence.

ADLP700201

The Self-Aware Leader

Poepsel, Matthew Alan

Fall 2024

Self-awareness is the starting point for leadership excellence. While Socrates believed the first step to true wisdom is to "know thyself," the maxim is equally true for leaders. It is fundamental for leaders to deeply know their values, assumptions, and beliefs to be effective in organizational settings. Knowing oneself is vital for individuals who seek to shape and create the future. Self-aware leaders are more open to receiving candid feedback and pursuing self-improvement. They also are attuned to the needs, feelings, and experiences of others. Deep understanding of self helps leaders be more aware of the impact of their actions on those around them. They make decisions more thoughtfully and are more likely to consider the needs and perspectives of others. Therefore, grounding in emotional and social intelligence is fundamental to leader success. This course will equip students with insight on their current EI competence and provide tools to increase self-awareness, self-regulation, social awareness, and relationship management. Students will take two self-assessments (Predictive Index and EI survey) to establish a baseline of their current levels of self-awareness. They will have the opportunity at the end of their studies to retake the assessments to learn how they have increased their self-awareness and EI skills.

Leading Thinking

McKeon, Kerry A

Fall 2024

Successful leadership can be viewed through many lenses. Common to all lenses is the acknowledgment of the ability of leaders to think and make decisions. Such decision-making typically confronts highly complex environments and uncertainty about the present as well as the future. How then do learners hone the skill of making good leadership decisions by employing theories that they generate? This course is built on the premise that leaders implicitly and explicitly develop, refine, and replace theories that guide decision-making under complexity and uncertainty. Consequently, this course explores the definition of a theory; offers methods for leaders to create context-specific and practical theories to guide decision-making; highlights indicators for when leaders should consider updating their theories, which involves considerations of when to create new theories to supplant existing ones. Central to theory building is a toolset to help leaders comprehensively find, frame, and formulate challenges in complex and uncertain environments.

Johnston, Frances;Llonso, Megan K

Fall 2024

Emotions are woven into every interaction and influence how people react to challenges and opportunities. Research finds that emotionally intelligent leaders are essential for organizational success. The World Economic Forum 2020 Future of Jobs report suggested the emotional intelligence (EI) will be among the top in-demand leadership skills in the U.S. by 2025. Among the benefits of EI leadership are improved job satisfaction among subordinates; increased performance and productivity; and less conflict in the workplace. Leaders proficient in the EI competencies develop a positive work culture in organizations, thereby increasing efficiency and productivity. Further, emotional and social intelligence spur innovation and creativity in organizations and among team members. Emotionally intelligent leaders are known to make right decisions in difficult times; they develop strong bonds among team members; and are better able to collaborate to resolve conflict. This course equips leaders with a deep understanding of the competencies of emotional and social intelligence to enable them to achieve leadership excellence. This course can be considered a practicum. Students will be coached in the practical application of the EI/SI concepts they learn in the course.

The Art and Science of Strategy

Garrett, Kelly Eugene

Fall 2024

The history of strategy has roots in military planning, focused on predicting the future based on historic trend lines. Strategy was issued from the C-suite with the rest of the organization responsible for execution. In an era of uncertainty and volatility this model no longer meets the needs of today's organizations. Instead, leading strategists suggest that an agile approach to strategy is needed; one in which a roadmap and navigational tools are essential to adapt and respond to emerging conditions. This course equips students with new lens by which to view strategy development. Students will learn how to think strategically, focused more on questions than answers. They will be equipped with the tools and techniques to discern an organization's capabilities and its unique value proposition. They will learn how to evaluate competitive dynamics and how to assess externalities and potential disruptors. They also will be prepared to contribute in a meaningful way to the planning, implementation, and evaluation of their organization's strategy.

Power, Influence, and Persuasion

Bent, Lauren G

Fall 2024

In an increasingly complex environment and ever-flattening organizational structures, the skills of "informal leadership" are essential for effectiveness and success. Informal leadership is the ability to influence the behavior of others by means other than formal authority. It requires empathy, engagement, and energy. Students will be grounded in the theory of influence and provided a wide range of tools and techniques to accomplish personal and professional goals. The course will instruct students how to build and maintain high-quality relationships to create a network for influence and informal power. They will uncover the secrets of leading without power to successfully manage up and across the organization.

Flourishing Through Inclusion

Corcoran, Elizabeth F;Myles, Tamara Schwambach Kano

Fall 2024

Among the top capabilities of leaders today is the ability to create work environments and conditions in which all may flourish. Flourishing is a holistic framework for well-being; a vital component of which is caring relationships with people and communities. Human flourishing embraces shared humanity. Hence, a vital ingredient of flourishing is inclusion, the central learning component of this course. A flourishing organization is one that has a clear purpose, a positive culture, and a drive for innovation and growth. Flourishing requires a humanistic approach to leadership; one in which organizations not only are oriented toward driving results but are focused on the people who produce those results, with an emphasis on the dignity of each person. In this course, students will learn how to engage in a process of mutual discovery and dialogue to learn about others' values and uncover shared experiences.

Strategies for Communications

Sheehy, Erin M

Fall 2024

This course will introduce students to the role that strategic communications plays in achieving organizational goals. Students will examine the major disciplines and channels of strategic communications including organizational communications, integrated campaign strategy development, audience analysis, messaging, public relations, social media, branding, advertising, community outreach, thought leadership, content creation, data analysis, and measurement. The course will strike a balance between the latest academic and industry scholarship and the practical application of strategic communications skills. Students will develop and present an integrated communications strategy to achieve a real-world business objective. They also will examine case studies from campaigns of successful organizations, businesses, and influencers.

Media Relations and Community Management

McDonough, Kerry Ryan

Fall 2024

Whether in the public or private sector, leaders are responsible for gaining the trust of their audience and guiding them toward the best possible outcomes - ensuring personal health and safety, spearheading operational efficiency, or driving profit. This course puts you in the shoes of these leaders, preparing to build meaningful partnerships with other agencies and counter skepticism from apprehensive audiences. By investigating others blunders during critical moments, understanding the motivations of your audience, and examining your own communication skills and public perception, you'll be ready to serve as an adaptable, innovative leader. Course Outcomes: Educate others about the evolution of the perception of media, and how to build trust with an apprehensive audience. Evaluate your audience and generate nuanced engagement programs based on their motivation and bias. Determine and execute simultaneous communication to varied target audiences. Examine your current digital footprint and develop your public persona. Create a meaningful partnership with other public and private organizations.

Fundamentals of DEI

Walton, Kimberly

Fall 2024

Students will begin to understand the business case for DEI, major laws and policy related to DEI history. Rooted in critical race theory, the course will examine systemic contexts around social justice and social change, language and terms, difference between diversity and inclusion, what equity means, the concept of privilege and power differentials (dominant vs. non-dominant concept), and analyze current state (e.g., statistics around representation of diverse groups in the workforce). The course will look at major groups and understand some of the challenges that each faces (age, race, sexual orientation and identity, gender, and ability) and go deep by exploring each group's most common challenges and barriers, e.g., for POC, understanding concepts like Imposter Syndrome, Covering). Finally, the course will explore DEI business use cases.

Bias in the Workplace

Lowe, Patricia N

Fall 2024

Understanding bias is critical to one's ability to "rewire the system to rewire behaviors" to make sustainable change. This course will examine Implicit Bias, Gender Bias, Cognitive Biases, Affinity Bias, Confirmation Bias, etc. In addition to broad topics of bias, course will examine emotional intelligence, self-awareness, self-knowledge, and empathy. The course will incorporate cases on bias in the workplace and give students practice on how to identify bias and be able to explore how that thread pulls through and can adversely affect advancement, opportunity, compensation, and other key employment aspects. The course will examine how even small biases in seemingly minor people systems can amplify exclusion over time.

Talent Management

Jauman, Amy Lynn

Fall 2024

Companies often describe the people they employ as their most important asset. The best companies view talent as competitive differentiator and one where the acquisition, engagement, development, and retention of talent is a strategic priority. This course exposes you to methods and practices to acquire, engage, and develop talent, focuses on the development of leaders within an organization, and examines how executive succession is managed. Through readings, cases studies, on-line and in class discussions student will develop their definition of talent management and perspectives on the most effective practices. The course will culminate with a research project and in class presentation that allows learnings throughout the semester to be shared and reflected with the full cohort group.

Internship

Heaney, Michael C

Fall 2024

An internship can provide a student with valuable experience in an industry or company of interest; it may even lead to a permanent job. When approached intentionally, internships can provide students with a host of skills and information that can enhance career opportunities, imbue that career with purpose, and significantly improve the odds of long-term professional success. In this course, students will develop and articulate a simple statement of purpose that will connect them more explicitly with their work and enable them to articulate their personal brand more effectively. They will proactively create a network of collaborators and mentors, simultaneously build the capacity to work in teams, learn from the experiences of those ahead of them, and enhance their ability to speak persuasively in professional settings. This experiential-learning course uses a variety of activities to support student development including articles, podcasts, videos, and guest speakers from the entrepreneurial and corporate worlds. Course experiences will equip students with the tools to perform more effectively in their internships and to extend what they learn to their careers.

Leadership Courses: Spring 2025

ADLP700001

Daring to Lead

Noone, Gregory P

Spring 2025

What role can ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers or shareholder value, and without reflection. Any collateral damage is then justified as being just the "cost of doing business." We have an obligation to each other and to ourselves to personally engage and make decisions in a moral context. Using Ignatian discernment and values as a guide, this course will explore strategies and options for integrating values into leadership decision-making. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise values or disengage from our moral compass.

Leadership Fundamentals: Articulating Your Leadership Vision and Values

Johnson, Tristan

Spring 2025

Leadership Fundamentals presents the knowledge and skills that students need to develop a formal leadership foundation. This foundation includes exploring students' philosophy for leadership and it also challenges students to articulate their vision orally and in writing. This course emphasizes effectively sharing students' leadership vision to engage others in the pursuit of creating the future. In addition, this course introduces the importance of reflection as a key principle of leadership toward finding meaning and purpose in life. The course also presents fundamental skills in written and oral communication. Students learn how to write with clarity and precision, crafting and honing their written communication skills. Students will learn oral communication skills including public speaking, storytelling, and messaging. Students practice composing and delivering their personal statements of leadership principles, that include their values and vision for leadership excellence.

ADLP700201

The Self-Aware Leader

Poepsel, Matthew Alan

Spring 2025

Self-awareness is the starting point for leadership excellence. While Socrates believed the first step to true wisdom is to "know thyself," the maxim is equally true for leaders. It is fundamental for leaders to deeply know their values, assumptions, and beliefs to be effective in organizational settings. Knowing oneself is vital for individuals who seek to shape and create the future. Self-aware leaders are more open to receiving candid feedback and pursuing self-improvement. They also are attuned to the needs, feelings, and experiences of others. Deep understanding of self helps leaders be more aware of the impact of their actions on those around them. They make decisions more thoughtfully and are more likely to consider the needs and perspectives of others. Therefore, grounding in emotional and social intelligence is fundamental to leader success. This course will equip students with insight on their current EI competence and provide tools to increase self-awareness, self-regulation, social awareness, and relationship management. Students will take two self-assessments (Predictive Index and EI survey) to establish a baseline of their current levels of self-awareness. They will have the opportunity at the end of their studies to retake the assessments to learn how they have increased their self-awareness and EI skills.

Leading Change from the Middle

Yeyinmen, Karen Coskren

Spring 2025

The contemporary business environment is constantly changing. Global and domestic markets are in flux, and the workforce is subject to the ebb and flow of generational dynamics. Whether Fortune 500 or small business, the ability to be nimble and strategically change in response to the fluidity of business trends is the key to success. Yet, leading and managing change in the corporate setting is extraordinarily challenging. Change is unsettling. Change challenges the security of how things have been done. Change tests the mettle of project implementation and teams. The prospect of change often impedes creativity rather than promotes innovation in the workplace. No one wants to be wrong or make a wrong decision in the face of change. Hence, managers and the workforce they oversee tend to be change resistant. In order for the organization to change, the people in the organization must be willing to change work/management styles, approaches, and attitudes. In today's highly competitive business environment, rapid and smooth decision-making and implementation is the basis for competitive edge. This course will be presented in three parts. First, students will gain a detailed understanding of change at the macro (organizational) and micro (individual) levels. We will identify the problems associated with anticipating, initiating and implementing change in both for profit and not for profit corporate settings. The second part of the course will explore various techniques in promoting sound analytical corporate response to change at the senior and mid-level managerial levels. The final part of the course is applied. Student teams will assume leadership roles in a fictional company needing change and present their change process in class. Students will also each prepare an analysis of a case studies of corporate change experience. Emphasis will be placed on the process of change in the business context. The class discussions will be grounded in empirical realities rather than theoretical suppositions.

Problem Solving Through Critical Thinking

Bent, Lauren G

Spring 2025

In an era of uncertainty and disruptions, being able to identify, formulate, and solve problems is a critical leadership competency. In fact, among the many facets of leadership, solving the wrong problem is among the most common, costly, and consequential. Research shows that leaders and teams end up solving the wrong problem >75% of the time. Leaders who master various thinking modes critical, strategic, and systems will significantly improve an organizations capability of solving the right problem, a strategic imperative in todays environment. Students will learn the attributes of wicked, ill-defined, complex problems and how to recognize them. This recognition is important because wicked problems are the ones that can easily spark thinking traps or cognitive fixedness - that prompt solving the wrong problem. These traps cause people to quickly think of and promote solutions to old problems rather than identify the novel elements of the problem that require different answers. Students will be equipped with tools to recognize thinking traps and intervention strategies. Also, students will learn several thinking processes and tools to formulate wicked problems comprehensively. Each thinking process is designed to specifically avoid the thinking traps and promote comprehensive formulation before trying to solve the problem. Students will have the opportunity to apply new tools and processes in real-world situations, reflect upon the results, and develop mastery in problem-solving.

Spring 2025

This course will introduce students to the role that strategic communications plays in achieving organizational goals. Students will examine the major disciplines and channels of strategic communications including organizational communications, integrated campaign strategy development, audience analysis, messaging, public relations, social media, branding, advertising, community outreach, thought leadership, content creation, data analysis, and measurement. The course will strike a balance between the latest academic and industry scholarship and the practical application of strategic communications skills. Students will develop and present an integrated communications strategy to achieve a real-world business objective. They also will examine case studies from campaigns of successful organizations, businesses, and influencers.

Business and Marketing Analytics

Baker Hearld, Kristine R

Spring 2025

As industries become increasingly competitive, companies rely more and more on marketing to attract buyers and prove the value of their spending from brand awareness to impact on revenues. Doing so in today's digital world requires a clear understanding and management of metrics and analytics. The Internet promises to revolutionize the dynamics of international commerce and permits new types of measurement tools that will expand the data available to marketers, including advertising measurement and customer profiling. This course will provide students with the main tools to lead marketing performance and help them answer key questions such as: How can I lead marketing performance by designing the appropriate metrics? What are the most important marketing metrics and analytics for me to use? How can I measure my various marketing programs' impact on revenue and profit? How can I best communicate marketing results with my executive team and board?

Cross-Cultural Communication

McKeon, Kerry A

Spring 2025

Successful organizational leaders recognize the enormous potential of globalization, and the absolute need to interact competently with complex multicultural work environments. Students learn to better understand the subtle cultural dynamics and nuances that build and maintain relationships at work and at home as well as in corporate negotiation. Topics include addressing the tension between culture as something fixed, and the push for change, the dynamics of men and women working in partnership, leaders as influencers of a collaborative culture. Media influences, nonverbal cues, and the formation of worldviews are examined. Explores values, stereotyping and cultural biases through readings, presentations and films.

HR Analytics

Thompson, Gregory C**Spring 2025**

A growing number of businesses are applying analytics to processes such as recruiting and retention, talent management, and employee performance. As organizations strive to ground decision-making on data, it is increasingly essential for HR professionals to develop analytic skills to assess critical HR issues and leverage analytics to make smarter talent and strategic decisions. In this course, students will develop and sharpen HR analytics skills as they analyze and visualize data to inform recommendations and decisions. Students will learn how to translate analytical findings into HR solutions and how to communicate their findings through visualization and storytelling. The course also will explore the challenges and limitations of HR analytics and examine ethical and legal issues that could arise when using analytics to make HR decisions.

Powerful forces continue to reshape how, where, and why people work. After several years of disruptive change, the only thing clear about the future is that HR leaders need to be better prepared for whatever comes next. A successful long-term partnership with business leaders requires a heightened awareness of trends, a deep understanding of organizational change, and a well-designed action plan. The term future of work addresses a wide range of issues from how the work is done; who does the work; where and when work is done. Today, employers and employees face novel challenges in the workplace and a labor market affected by globalization, automation, artificial intelligence, and social inequality. This course explores the impact of these issues on work and equip managers with knowledge and strategies to shape the evolving nature of work.

Project Management

Cann, Scott

Spring 2025

This course introduces students to the basic tenets and components involved in project management. The primary objective is to provide frameworks that make it possible to track and measure project performance, overcome challenges, and adapt to changes in a variety of professional environments. Specific topics covered in the course include project scope, time, cost, quality, human resources, communications, risk and stakeholder management and a variety of other operational issues that emerge during project planning initiation, monitoring, and execution.

Risk Management/Quality Management

Chirkova, Aza

Spring 2025

This course introduces you to the fundamentals of risk and quality management. Managing quality and risks are important elements of effective project management. You will learn how to identify risks, assess probabilities and potential impacts, plan risk response strategies, and monitor, control, and communicate risks throughout the project life cycle. You will also learn principles of quality management, how to successfully assure quality and ensure customer satisfaction by monitoring results using quality control tools. This hybrid course will consist of in-class sessions and online asynchronous work.

Agile Methodologies

Musserian, Lalig J

Spring 2025

Companies that produce software are increasingly turning to agile development practices to help them stay competitive. Strategic project management is focused on the rapid and repeatable delivery of software, speed to market and risk mitigation as part of the project management process. Project Managers and project teams need to become well-versed in Agile practices and the highly collaborative and iterative methods which have made Agile and experienced "Agilista's" in high demand. This course starts with an overview for project managers and project teams on a variety of Agile methods, followed by a deeper dive into the most popular Agile process called Scrum. We will cover a prescriptive methodology for "Scrumming," with activities grouped into categories of People, Process and Technology within the 3 recommended phases for the successful implementation of projects with Scrum. For each phase, we will review a set of inputs and outputs, definitions and common terminologies, tips for success, inputs and outputs and the various Scrum ceremonies for a comprehensive course on running a Scrum project. This will be an interactive, hands-on class, so we can practice Scrum principles and not just learn them from a theoretical perspective.

Internship

Heaney, Michael C

Spring 2025

An internship can provide a student with valuable experience in an industry or company of interest; it may even lead to a permanent job. When approached intentionally, internships can provide students with a host of skills and information that can enhance career opportunities, imbue that career with purpose, and significantly improve the odds of long-term professional success. In this course, students will develop and articulate a simple statement of purpose that will connect them more explicitly with their work and enable them to articulate their personal brand more effectively. They will proactively create a network of collaborators and mentors, simultaneously build the capacity to work in teams, learn from the experiences of those ahead of them, and enhance their ability to speak persuasively in professional settings. This experiential-learning course uses a variety of activities to support student development including articles, podcasts, videos, and guest speakers from the entrepreneurial and corporate worlds. Course experiences will equip students with the tools to perform more effectively in their internships and to extend what they learn to their careers.

Digital Marketing Strategy

Fortney, Erin M

Fall 2024

This course is intended to introduce students to the world of digital marketing and the many different facets that work together in shaping an online digital branding presence to meet strategic business goals. A digital marketing strategic plan is one that helps achieve specific digital goals through carefully selected online marketing channels such as paid, earned, and owned media. Areas of focus include the origins of the digital marketing channel, how it has transformed the way customers interact with brands and products, as well as how marketers leverage different digital channels to optimize sales, awareness, and engagement goals. Students will gain a deeper understanding of how marketing teams function based on different organizational structures and will develop their own strategic plan based on a real-world company or organization.

Social Media Marketing Strategy

Fortney, Erin M

Spring 2025

Social Media is an ever-evolving marketing channel that has fully infiltrated and redirected consumer behavior over the 20 years. We, as consumers, now have more access to businesses, brands, and products at the touch of a button or click of a mouse; from posting, to blogging and vlogging, to social ecommerce, and social marketing through celebrities and influencers- the lines of traditional marketing have become more skewed to the digital landscape over the last two decades, and is continuously driving behavior changes in the space. Fully understanding the social media landscape, and what is involved in fully utilizing the space, is critical to a fully robust marketing strategy in today's marketing and communication environment. This course will delve into all the different aspects of the social media channel, providing history of the channel, consumer behavior changes, and past, present, and potential future trends of the channel. This course will also incorporate individual case study work throughout the course, as well as a final group project that will be a Strategic Social Media Analysis of an existing company, due at the end of the term.

Summer 2024

This course is designed to provide students with a foundation in statistical analysis and computing. This class focuses on the concepts, language, and application of statistics to social sciences. In particular, students will learn to produce and interpret descriptive statistics and graphical and numerical representation of information; additionally, students will learn about measures of location, dispersion, position, and dependence, and how to conduct exploratory data analysis. Additional topics will include elementary probability theory (to aid with interpretation and understanding), point and interval estimation, hypothesis significance testing, and linear regression. To help facilitate understanding of the data analysis process, students will routinely apply what they have learned to real data using SPSS. Students will become familiar with SPSS through class lectures, in-class lab exercises, and take-home assignments. SPSS is available to BC students through BC Apps. Real-world data sets will be provided to students for use in coursework.

ADPL148301

Philosophy of Human Sexuality

Clemente, Matthew J

Summer 2024

This topic generates more talk and less light than almost any other subject. Course considers what is sexuality? Why is it so mysterious? How important is it to self-identity, self-knowledge and relationships? How can we think clearly and fairly about current controversies such as surrogate parenting, AIDS, contraception, gender identity and roles, relation between sex and family, marriage, religion and society? Philosophers, novelists, scientists, theologians, psychologists and even mystics shed light on this issue.

World Philosophies

Severson, Eric

Summer 2024

World Philosophies contributes to a project that is at the core of Jesuit education and its intellectual tradition: global conversations on the meaning of human existence. This course will introduce students to global philosophical accounts of the human person. Exploring diverse philosophical approaches also presses students to engage their own thinking in dialogue with a variety of views. By embarking on the quest to understand what it means to be human, around the world and across history, students take up a heritage that they share with past and future generations and their contemporaries across the globe: they will learn to reflect critically on their own culture, assumptions, and responsibility. This course is concerned with foundational topics in philosophy, particularly: what does it mean to be a human person? Such a question is inevitably personal and at the same time vast in scope. This question has been taken up and addressed in some form or another by a wide range of thinkers from around the globe and across human history. The course will be organized around an investigation of the philosophical foundations for living, loving, and dying well. In search for answers to these questions, we will review how they are addressed in the western philosophical tradition, as well as a broad sampling of wisdom from around the world, including Indigenous philosophy, Buddhism, Hinduism, Islam, Judaism and Chinese philosophy. We will discuss the role of feminism in reshaping the ancient question of the human person, which has been for centuries predominantly answered by male voices. Particular attention will be paid to the Jesuit tradition and its focus on justice and reconciliation. Ultimately, the course will press students to reconsider their own human personhood in light of this global collection of movements and ideas.

ADPL201101

True Detectives: Investigating the Crimes and Mysteries of Existence

Clemente, Matthew J

Summer 2024

For modern readers, detectives stand as the image of the ideal thinker. In literature, cinema, and on TV, we see the hold detectives have on our cultural imagination. They are viewed as purveyors of wisdom, personifications of reason, logical thinkers defined by their commitment to the facts and their unflinching pursuit of truth at all cost - especially hard, uncomfortable truths, the kind most of us prefer not to see. From the time of Aristotle, philosophers have approached the world as if it was the scene of a crime, a mystery to be solved, a riddle to be deciphered. Philosophers, it might be said, act as investigators whose job it is to uncover hidden truths. Like detectives, they are late on the scene, arriving after the crime has been committed. Like detectives, they rely upon the facts of existence to question and reason their way to probable answers, to what happened here and why. In this course, students will learn the art of philosophical investigation by learning to think like a detective. Questions of epistemology - what can be known - and metaphysics - why things are the way they are - will be explored in relation to mystery novels, detective shows, and works of philosophical literature.

Special Topics: Our Common Home: Philosophies of Ecology

Severson, Eric

Fall 2024

This course is a journey through the diverse landscape of ecological thinking as shaped by diverse world philosophical systems. "Our Common Home: Philosophies of Ecology" delves into the intersections of ecology, philosophy, religion, and cultural perspectives to unravel the intricate relationships between humans and the natural world. The title, and course, emphasize the bond of responsibility between human communities as the home we share. The title, and course, also emphasize that earth is the common home not just between human beings, but also between humans and all other plants and animals. The word ecology means literally the study of home. The way we think and feel about our home shapes how we interact with it, and how we relate to one another within it. The course will feature diverse readings from ancient philosophy and religion, to poetry and literature, to contemporary articles in ecological science. Our efforts to understand the various ways of thinking about ecology will take us around the world and down through history.

This topic generates more talk and less light than almost any other subject. Course considers what is sexuality? Why is it so mysterious? How important is it to self-identity, self-knowledge and relationships? How can we think clearly and fairly about current controversies such as surrogate parenting, AIDS, contraception, gender identity and roles, relation between sex and family, marriage, religion and society? Philosophers, novelists, scientists, theologians, psychologists and even mystics shed light on this issue.

Just as some of the world's greatest philosophy is to be found in novels, some is to be found in cinema, both films of philosophical novels or plays or original screenplays. This course will be much more than "philosophical discussion of movies." It will raise and debate fundamental issues in the history of Western philosophy in and through selected films. We will also read the books or screenplays on which the films are based and compare the written texts with the film version.

Ethics

Connors, Colin E

Spring 2025

This course introduces students to the main schools of ethical thought in the Western philosophical tradition. We examine works by philosophers such as Aristotle, Kant, and Mill, and we ask how the ethical systems developed by these figures can help us to think through issues like economic inequality, the treatment of animals, and euthanasia.

World Philosophies

Severson, Eric

Spring 2025

World Philosophies contributes to a project that is at the core of Jesuit education and its intellectual tradition: global conversations on the meaning of human existence. This course will introduce students to global philosophical accounts of the human person. Exploring diverse philosophical approaches also presses students to engage their own thinking in dialogue with a variety of views. By embarking on the quest to understand what it means to be human, around the world and across history, students take up a heritage that they share with past and future generations and their contemporaries across the globe: they will learn to reflect critically on their own culture, assumptions, and responsibility. This course is concerned with foundational topics in philosophy, particularly: what does it mean to be a human person? Such a question is inevitably personal and at the same time vast in scope. This question has been taken up and addressed in some form or another by a wide range of thinkers from around the globe and across human history. The course will be organized around an investigation of the philosophical foundations for living, loving, and dying well. In search for answers to these questions, we will review how they are addressed in the western philosophical tradition, as well as a broad sampling of wisdom from around the world, including Indigenous philosophy, Buddhism, Hinduism, Islam, Judaism and Chinese philosophy. We will discuss the role of feminism in reshaping the ancient question of the human person, which has been for centuries predominantly answered by male voices. Particular attention will be paid to the Jesuit tradition and its focus on justice and reconciliation. Ultimately, the course will press students to reconsider their own human personhood in light of this global collection of movements and ideas.

Challenge of Justice

Snyder, Joshua R

Spring 2025

The pursuit of justice is a dominant concern of our age. But it appears that there are nearly as many understandings of justice as there are persons and communities to claim them. The goal of this course is to consider the principal understandings of justice and peace that have developed in the Western philosophical and theological traditions and assess how these alternative understandings affect personal decisions and social policy choices. We will pay attention to how these theories relate to concrete, practical, political and social issues. Special attention will be paid to the contribution of the Catholic intellectual tradition in formulating an approach to justice and peace. This course highlights what is at stake when we choose one way of justice rather than another. Ultimately, we need to think about how we ought to treat other people and what kind of society we want to build. Over the course of the semester, we will examine issues of justice related to human rights, hunger and poverty, racism, sexuality, ecology, and peace-building.

Philosophy of Religion

Clemente, Matthew J

Spring 2025

The work of philosophy involves critically examining life, as we know it, and the influence and impact of religion on human life is nothing short of significant; the vast majority of people in this world are affiliated with or affected by religion in some way, shape, or form. In this course, we will probe the nature and meaning of religion, religious beliefs, and key religious themes by analyzing seminal texts within the Western philosophical tradition. The following questions will guide us through this class: what is religion? And what leads one to it? What does it mean to be religious? Or to undergo a 'religious experience'? What is faith? What is the relationship between faith and reason? Who (or what) is God? Does God exist? Can we prove it? And if God exists, why and how can there be so much suffering in the world? How does religion relate to morality? Or more specifically, the notions of 'good' and 'evil'? Is religion (or being religious) conducive to living a good life? If so, why and how? We will focus on the existential, metaphysical, epistemological, and political dimensions of these questions by exploring the nature and 'limits' of knowing, and what it means to live well in a world with diverse others.

The Society of the Selfie: Social Media and Political Crisis

Morelock, Jeremiah C

Summer 2024

This course explores how the Internet is connected to the global crisis of liberal democracy. Through social media people have new ways of rating and judging themselves and one another, via metrics such as likes, shares, followers and friends. There are new thirsts for authenticity, outlets for verbal aggression, and social problems. Information technologies provide channels for public engagement where extreme ideas reach farther and faster than ever before, and political differences are widened and inflamed. They also provide new opportunities for protest and resistance. Topics covered. Social theories from Debord, Foucault, Giddens, Goffman, and Fromm will be discussed in relation to the topics covered, which include the global history of communication technologies, personal branding, echo chamber effects, alienation, fear of abnormality, authoritarianism, populism, and resistance.

ADPO200211

Special Topics: The Politics of Public Education

Berkshire, Jennifer C

Spring 2025

Fighting about public education is a pastime nearly as old as the nation itself. While the school culture war have flared decade after decade, dating back 100+ years, conflicts over the place of evolution, sex education, and critical race theory in schools aren't the only issues that divide us. Fundamental questions remain deeply contested, including who gets to determine where and how children are educated, who should pay for public education, whether education is a public good or a private one, and the role of education as a counter to poverty. In this course, will examine contemporary education debate through the lens of deeper, unresolved conflicts, viewed from a variety of political perspectives. Among the topics will be delving into parent rights; the place of virtue in schooling; meritocracy and discontent; how to measure school performance (when we can't even agree on why we have schools;) the views of education within the populist new right,; and whether we still need public education. Education is at the very center of our current culture wars. This course delves into the deep, unresolved conflicts to help us understand why.

Positive Psychology

Clucas Leaderman, Emilie

Summer 2024

Psychology has often focused on deficits and disability. Recently, however, added focus and research has been placed on the more positive aspects of human life. This course is designed to provide a systemic understanding of what we have learned about human capacity related to positive characteristics and processes, and how these tenets and skills can be learned and applied to improve our well-being. We will explore how a variety of components including biology, emotions, personality, lifestyle, culture, and environment continually interact in a dynamic process to promote a fulfilling and flourishing life. The course will foster creative thinking about concepts and methods of positive psychology. While focusing on each person's unique potential for growth and development, social and professional contexts will also be emphasized, such as thriving within communities and organizations. Students will be encouraged to think critically about well-being and integrate their own personal experiences.

Forensic Psychology

Barros, Joanne T

Summer 2024

This course focuses on key theories in the field of psychology. Forensic Psychology goes beyond traditional interpretations and interventions, to examine the complexity of factors present in any case.

Environmental, biological, psychological, emotional, and social factors, as well as acute stressors, are examined to demonstrate these dynamics. Reviewed theories are integrated to provide a critical analysis of forensic cases, utilizing a comprehensive evaluation and threading in all key information. Moving beyond the acute care system and community guidelines for assessing clinical needs, this course promotes an in-depth review of all factors, inclusive of historical data, risk factors, mitigating factors, forensic assessment of clinical needs, treatment planning, as well as the use of multi-disciplinary and integrated approaches (for example threading in the behavioral health system with the criminal justice system). This course also examines how forensic psychology applies in court systems, state hospitals, correctional facilities, law enforcement work, and overall community care. Given the increasing complexity and acuity in clinical presentations, co-occurrence disorders, and contact with the criminal justice system as a result of increased risk factors, the field of forensic psychology is critical to the well-being of the individual, the community, and the system as a whole.

The Age of Misinformation

Carroll, Jaclyn

Summer 2024

Are we living in the Age of Misinformation? Scholars across the social sciences and humanities are united by a fear of how fast false information can spread. Misinformation appears everywhere our workplaces, our social media feeds, our family dinners. But what is misinformation and where does it come from? Why are some people drawn to it while others remain unaffected? How does anyone distinguish good information from bad, experts from dupes? This course is an interdisciplinary examination of misinformation, its character, its origins, and its impact on social and political life. By surveying the leading theoretical explanations of misinformation from sociology, communication & media studies, psychology, and political science, students will be exposed to cutting edge research on the nature of misinformation and will cultivate tools to hinder its spread in their personal and professional lives.

Psychology of Trauma

West, Jennifer

Summer 2024

This course is designed to introduce students to the psychology of trauma and explore what it means to experience trauma, manage in the aftermath, and find paths to healing. Students will become familiar with the impact and nature of a variety of interpersonal psychological traumas, such as childhood abuse, intimate partner and domestic violence, transgenerational trauma, and race-based and gender-based trauma. The course will explore the evolution of our understanding of trauma, diagnosis of trauma, and treatment of trauma-related disorders. We will investigate the various outcomes of trauma, including psychological disorders (e.g., posttraumatic stress disorder), interpersonal difficulties, and the psychophysiological alterations associated with trauma. We will also explore factors that predict resiliency as well as ways to support and promote personal growth after trauma. A variety of media will be used in this course to cover these topic areas, including empirical and clinical research, classic texts written by trauma experts, case histories, popular media, and personal narratives.

Industrial and Organizational Psychology

Payne, Adam M

Spring 2025

Industrial and Organizational (I-O) Psychology is a scientific discipline that studies human behavior in the workplace. I-O psychologists help institutions with hiring, managing, developing, supporting employees, while working to align employee efforts with business needs. Some intended outcomes of I-O psychology include better talent to achieve the strategic goals of the organization, reduced turnover, increased productivity, and improved employee engagement. The tools and methods used in I-O psychology are highly transferable, as they are based upon the application of scientific processes toward studying people at work which incorporate aspects of statistics, research techniques, and other evidence-based approaches.

Race, Surveillance, and Society

King, Candace

Summer 2024

Under the institution of slavery, Black bodies were heavily surveilled through severe monitoring, disciplining, and punishing practices. Although slavery has been abolished, these technologies for surveillance continue to resonate in the contemporary era. From data collection to ancestry tests or artificial intelligence, this course focuses on how society defines, automates, and monitors racial difference. Students will explore the concept of surveillance and its impact on conceptions of race and society from enslavement to the present day. The sociological framing of surveillance equips students with a language to not only unpack, but address contemporary issues within societal institutions such as prisons, health centers, and mass media.

Special Topics: Captive Bodies: Race, Resistance, and the Archive

King, Candace

Fall 2024

Archives are powerful tools that we use to document ideas and thoughts about the world around us. Most of what we know about race and other aspects of our social identity stem from the existing archives that we are often taught and encouraged to study in school. However, history has shown us that the archives were not entirely written from an objective perspective. Moreover, critical voices were left out of the pages in the archives. In this course, we will study the role and power of the Archive. We will identify and explore representations of Black identity as they are reproduced in archives including literary texts, films, and music. In addition, we will also examine responses to these images and how they have carved out opportunities to showcase their self-definition. We will discuss various topics including the legacies of slavery and colonialism as they are enacted on the Black body and the ways that Black people have forged a space to create their own narratives for themselves.

Sociology Courses: Spring 2025

ADSO250101

Sociological Theories

Seim, Joshua D

Spring 2025

Sociological theory explores many complex questions that people have pondered for centuries, including the nature of human interdependence and how it evolves, inequality and why it is tolerated, social change and how it occurs, and social order and how it is maintained. This course introduces students to the major thinkers, classic texts, and relevant theoretical questions that have been and continue to be central perspectives within sociology. Through examining both classic and contemporary schools of sociological thought, we explore the basis for many of the core questions, debates, and methodological approaches within the discipline of sociology. Attention is paid to social and intellectual contexts, conceptual frameworks and methods, and contributions to contemporary social analysis. Throughout this course, we will also consider the application of theory and how these emergent ideas are relevant for contemporary society and current sociological research.

The Society of the Selfie: Social Media and Political Crisis

Morelock, Jeremiah C

Spring 2025

This course explores how the Internet is connected to the global crisis of liberal democracy. Through social media people have new ways of rating and judging themselves and one another, via metrics such as likes, shares, followers and friends. There are new thirsts for authenticity, outlets for verbal aggression, and social problems. Information technologies provide channels for public engagement where extreme ideas reach farther and faster than ever before, and political differences are widened and inflamed. They also provide new opportunities for protest and resistance. Topics covered. Social theories from Debord, Foucault, Giddens, Goffman, and Fromm will be discussed in relation to the topics covered, which include the global history of communication technologies, personal branding, echo chamber effects, alienation, fear of abnormality, authoritarianism, populism, and resistance.

Sports Finance

Ayer, David J

Summer 2024

Sports today is a big business. At all levels, revenues currently exceed \$65 billion. Colleges and universities have seen their cost per athlete increase by 52% over the past 5 years. With the vast amount of money involved and the visibility of the athletic programs, sports management has necessarily become a separate discipline. Sports Management shares many similarities with other businesses, but there are critically important differences. This course focuses on the financial management of sports programs. The course is designed to provide students with a fundamental understanding of the basic concepts in sports finance. It will focus on creating an understanding of basic financial concepts applicable to all organizations, including financial statement analysis, analyzing risk and return, and the time value of money. It will then apply these concepts to create an understanding of the financial drivers underlying sports management at the collegiate and professional levels. This will be accomplished through readings, videos, online class discussions, group projects, and individual reports.

Athlete Entrepreneurship: Opportunities Created by Name, Image, & Likeness

Okoli, Chimaeze

Summer 2024

This course will explore the rights of college student-athletes to access entrepreneurial opportunities based on their common law rights of publicity, often called rights of Name, Image, and Likeness (NIL) that has been created. Historical amateurism rules had prevented college student-athletes from using these rights going back to the 19th Century. The 2021 law change represented a major shift in how intercollegiate athletics may both operate and relate to its athletes, sponsors, and fans. For student-athletes, the ability to use and potentially profit from these rights offer a range of challenges and opportunities and this course will cover including the legal environment around NIL opportunities, the NCAA rules still applicable to NIL, key contractual terms and provisions related to NIL, opportunities allowed and limited under NIL laws and regulation, institutional responsibilities created by NIL, and strategies for limiting risk in pursuing entrepreneurial opportunities.

Diversity and Inclusion in Sports

Buenano, Andrea L

Summer 2024

This course is designed to provide students with an overview of the major diversity and inclusion issues in the world of sports. All prime issues impacting contemporary sports are covered, including gender and sex, race and ethnicity, disability, religion, student-athlete welfare, media involvement, and globalization. Students will learn about their own bias, general bias, and how an inclusive and diverse sport organization creates a stronger culture. This course will place a heavy emphasis on critical dialogue and discussion and is designed to challenge students to think critically about the information they are receiving while applying the knowledge they have gained to specific intersections between sport and society. Students will be expected to be a participant in the learning process, including researching on their own, asking poignant questions when they might seem ambiguous, and learning from classmates different experiences all while being open and respectful. This course is considered a collective learning experience between students and the instructor (and occasional guest speaker and/or site visit). Students have diverse backgrounds, experiences, training, and education that they each bring to the classroom, thereby potentially enhancing the classroom exchange and learning experience.

Health and Wellness in Athletics and Sports Administration

Morris, Jade M;Ramos, Douglas J

Summer 2024

This course, with a multidisciplinary perspective that involves athletes, health care providers, and administrators, will provide a basic overview of key health and wellness aspects within sport and the administration and delivery of that health care. It will explore the regulatory and medical legal landscape affecting sports health and wellness, beginning with the history and development of sports medicine at all levels and the evolving models currently being established. In addition to the athletes it will address the personal health and wellness of those nonathletes such as administrators and health care providers involved with athletic programs. Included in the course will be the administration and roles of members of the healthcare team. An overview of the history of sports medicine and the interaction of various health care systems in the U.S. with athletic entities will be discussed. Health and wellness priorities within the construct of an athletic department, team or program will be introduced on such topics as concussion, catastrophic injury, emergency action plans, supplement and drug usage, drug appeals & therapeutic use exemptions, mental health best practices, sexual violence, mind-body interactions in sports & injuries, strength & conditioning and sports performance, impact of select sports in society, families and the health & wellness of athletes, sleep, rest & recovery, health services in large sporting venues & national events and insurance and disability.

Applied Goal Achievement

Utzschneider, Cathy

Summer 2024

Leaders in all industries often set lofty goals with plans that are not, eventually, realized. This course introduces the MOVE! method: a proven method used by individuals, organizations, and teams to achieve high performance goals. The course is both theoretical and practical. Students will learn foundational concepts of goal achievement including theories of excellence, habit, willpower, grit, resilience, positive mindsets, and transitions. Students will also experience the four phases of MOVE!: planning for goals, setting goals, managing goals, and evaluating goal achievement. Setting and achieving a 10-week performance goal in the semester, students will experience the methods three main principles: setting small, successive short-term goals based on a long-term vision; tracking progress in calendars with range goals for flexibility and weekly check-ins for accountability; and reflecting back on progress and planning forward weekly.

Sports Finance

Parker, Christopher J

Spring 2025

Sports today is a big business. At all levels, revenues currently exceed \$65 billion. Colleges and universities have seen their cost per athlete increase by 52% over the past 5 years. With the vast amount of money involved and the visibility of the athletic programs, sports management has necessarily become a separate discipline. Sports Management shares many similarities with other businesses, but there are critically important differences. This course focuses on the financial management of sports programs. The course is designed to provide students with a fundamental understanding of the basic concepts in sports finance. It will focus on creating an understanding of basic financial concepts applicable to all organizations, including financial statement analysis, analyzing risk and return, and the time value of money. It will then apply these concepts to create an understanding of the financial drivers underlying sports management at the collegiate and professional levels. This will be accomplished through readings, videos, online class discussions, group projects, and individual reports.

Athlete Entrepreneurship: Opportunities Created by Name, Image, & Likeness

Okoli, Chimaeze

Spring 2025

This course will explore the rights of college student-athletes to access entrepreneurial opportunities based on their common law rights of publicity, often called rights of Name, Image, and Likeness (NIL) that has been created. Historical amateurism rules had prevented college student-athletes from using these rights going back to the 19th Century. The 2021 law change represented a major shift in how intercollegiate athletics may both operate and relate to its athletes, sponsors, and fans. For student-athletes, the ability to use and potentially profit from these rights offer a range of challenges and opportunities and this course will cover including the legal environment around NIL opportunities, the NCAA rules still applicable to NIL, key contractual terms and provisions related to NIL, opportunities allowed and limited under NIL laws and regulation, institutional responsibilities created by NIL, and strategies for limiting risk in pursuing entrepreneurial opportunities.

Sports Leadership and Ignatian-based Ethics

Utzsneider, Cathy

Spring 2025

Sports leadership based on Ignatian ethics helps individuals, teams, and organizations realize high achievement with integrity and compassion. In this course coaches, managers in sport, and student athletes study Ignatian values and how they inform leadership tasks: determining mission, values, and goals; communicating for positive impact; developing and motivating teams; identifying individual and organizational strengths; and in times of constant change, adapting to it and managing organizations through it. Assignments will include a leadership log and a paper and presentation about leaders whom the students identify as role models. Students will also initiate a leadership goal that they will present to the class and then write a paper applying concepts from the course. Students will also practice a range of leadership exercises and discuss current case studies.

Globalization of Soccer in the United States

Cronin, Michael

Spring 2025

This course will examine how soccer has sought to grow as a sport and a business within the United States and will focus on the impact that global mega events such as the FIFA Club World Cup (2025) and the FIFA World Cup (2026) will have on soccer in the US and how the USWNT started the grassroots effort after the 1996 Olympic games held in Atlanta, GA. The course will also explore the complexities that soccer has in breaking the traditional sporting interests of Americans. It will analyze how the first pioneers of a popular sport in the US were centered around the womens game and how this perforated into the mens game. Students will also examine the leveraging of global talent such as Messi and the staging of mega events within the US that are being used to disrupt the economic sport landscape in the US.

Coaching for Performance and Student Athlete Development

Utzschneider, Cathy

Spring 2025

High performance with life balance is a focus for coaches, student-athletes, and athletic administrators, requiring an understanding of overlapping fields, concepts, and skills. Students will learn theories of excellence and goal achievement; the role of nature versus nurture in athletic performance; how our physiology reinforces our training; student-athlete challenges including mental health issues, time management, transitions, and career planning beyond college; and theories and skills to form optimal habits and to build positive mindsets, willpower, and best teams. In addition to learning theories, students will practice relevant skills and set goals for high performance in their own lives.

The Athletic Director

Lynch, Michael P

Spring 2025

The role of the collegiate athletic director has evolved greatly over the years, from "former football coach turned administrator" to seasoned business executive. The Athletic Director today, particularly at the highest levels of Division I, holds roles and responsibilities similar to a chief executive officer in a corporation and must have the acumen to match in order to be successful. This course will examine the myriad responsibilities that today's AD's hold in running the athletic enterprise on a college campus. The course will also delineate and define the most important leadership aspects of the position and those that are most determinate of successful careers in the field. The course will review the evolution of the position and describe the differences that are inherent in the position, based on university NCAA classification.

Athletic Facilities and Operations

Stroud, Michael

Spring 2025

As the sport industry continues to grow, so do the number of sport-related event management jobs. Event management is one of the most sought-after skills in the sports and entertainment industry. With the construction of massive new facilities, there is a growing need for skilled individuals who can fill arenas, stadiums, and coliseums with programming on a yearly basis. Today's sport event planner must be able to manage his personal life along with having strong conceptual, interpersonal, technical, and time management skills. The event planner must also be able to negotiate with sport event venues and recognize the importance of sport tourism and the need for collaborating with a wide variety of network organizations. This course provides you with necessary foundations of event management, including conceptualization, staffing, budgeting, financing, promoting, securing, and managing. You will have the opportunity to understand the competencies necessary for managing and operating sport events through theory and application.

ADSB202601

Sustainable Design As A Way Of Thinking

Foley, David M

Fall 2024

Do you ever dwell, work, eat, sleep, or recreate indoors? Do the location, layout, light, acoustics, air quality, or thermal comfort of buildings affect you? Do you ever rely on wires, pipes, or ductwork to provide you with services you need? Do you use roads, bridges, rail lines, airports, water supplies, sewage treatment systems, or utilities? Then you have a stake in the built environment. Do you agree that providing for our present needs should not diminish the chance for future generations to provide for their needs? Then you have a stake in sustainability. The built environment and environmental sustainability are connected, through energy and water use, alteration of habitats, manufacture and disposal of materials, indoor environmental quality and human well being, transportation of people and goods, and in other important ways. In this course we will examine and think hard about those connections. By the end of the course, we will all develop a broader overview and better understanding of how to think about, assess, measure, advocate for, inhabit, design, and build a more sustainable built environment.

The pursuit of justice is a dominant concern of our age. But it appears that there are nearly as many understandings of justice as there are persons and communities to claim them. The goal of this course is to consider the principal understandings of justice and peace that have developed in the Western philosophical and theological traditions and assess how these alternative understandings affect personal decisions and social policy choices. We will pay attention to how these theories relate to concrete, practical, political and social issues. Special attention will be paid to the contribution of the Catholic intellectual tradition in formulating an approach to justice and peace. This course highlights what is at stake when we choose one way of justice rather than another. Ultimately, we need to think about how we ought to treat other people and what kind of society we want to build. Over the course of the semester, we will examine issues of justice related to human rights, hunger and poverty, racism, sexuality, ecology, and peace-building.

Family, School and Society

Whitcavitch-Devoy, Julia

Spring 2025

This course introduces students to the multiple dimensions of child development, and the place of education in promoting healthy development for all children. This course considers the social and cultural contexts that shape developmental and educational processes. Focuses on understanding the nature of contemporary social problems including racism, sexism, ethnic prejudice, poverty, and violence, as they affect children, families, and schooling. Emphasizes special role of education in linking community resources for an integrated approach to serving children and families.

General Biology

Serrato-Capuchina, Gerardo

Fall 2024

General Biology provides students with a basic introduction to cellular and molecular biology of cells. A major focus of this course is the eucaryotic cell. An introductory section on biochemistry will provide the framework for understanding the biology underlying cellular organization and function, nutrient transport, cellular respiration, mendelian genetics and the cell cycle. The course examines information flow, including integration of DNA replication, gene transcription, and protein synthesis. General Biology is a particularly good choice for students whose interests lie within the life sciences. The course fulfills one requirement of the natural science core.

MCBI130001

Anatomy and Physiology 1

Serrato-Capuchina, Gerardo

Fall 2024

This course lays the foundation for the understanding of human anatomy and physiology. The first portion of the course covers cellular and molecular aspects of eukaryotic cell function: basic chemistry, macromolecules, cell structure, membrane transport, metabolism, gene expression, cell cycle control, and genetics. The course continues with the study of several organ systems. Beginning with the Integument, which is followed by the Skeletal and Muscular Systems, and ending this first semester with the Nervous System. The cellular and molecular basis for the functions of these systems is an integral element of this portion of the course.

Data, Ethics and Society

Hurley, Deborah

Spring 2025

If you tried to live for one day without generating any data, how would you spend it? The use of data has proliferated and is pervasive. This timely, topical course examines key ethical questions of the Information Age. These issues pervade numerous, diverse aspects of the economy and society, from human rights to international trade. Students will learn about these topics, beginning first with acquaintance with the dominant ethical frameworks of the 20th and 21st centuries. They will then employ these frameworks to understand, analyze, and develop solutions for leading problems in the Information Age and their technological, social, economic, policy, and legal implications. Subjects include artificial intelligence (AI), big data, privacy, bias, accountability, mis/disinformation, human rights, hate speech, liberty, autonomy, international and global concerns, and emerging issues. You will come away with useful tools to understand and craft answers to some of the most pressing problems of our time.

First Year Writing Seminar

Zimmerman, Brian T

Summer 2024

As in all First Year Writing Seminar (FWS) sections, this course is intended to prepare students for writing at the college level. Exploring themes of culture and crossing borders, we will write in a variety of genres from personal narratives to critical essays drawn from interviews and research. We will delve into experiences of crossing borders to raise questions about identity and community. Students will read published texts and works by BC writers. You will be encouraged to compose fresh, innovative prose and learn to give and receive productive feedback. On occasion, student writers will present their polished work to their peers in the classroom and online.

First Year Writing Seminar

Alvarez, Amy

Fall 2024

As in all First Year Writing Seminar (FWS) sections, this course is intended to prepare students for writing at the college level. Exploring themes of culture and crossing borders, we will write in a variety of genres from personal narratives to critical essays drawn from interviews and research. We will delve into experiences of crossing borders to raise questions about identity and community. Students will read published texts and works by BC writers. You will be encouraged to compose fresh, innovative prose and learn to give and receive productive feedback. On occasion, student writers will present their polished work to their peers in the classroom and online.

Literature Core

Woodward, Julia

Fall 2024

Literature Core: Crossing Borders Reading, Thinking, Writing is a college level introductory course to literature. We will study texts of different genres (fiction, graphic novels, drama, and films) that deal with the experience of border crossing. In this course, we will take borders to mean both spatial or geopolitical boundaries (e.g., between towns, states, countries, continents, etc.) and boundaries based on social and cultural categories (gender, social class, race, ethnicity, etc.). We will be interested in the ways texts represent these borders and the people who inhabit these spaces. How do literary texts, graphic novels or films creatively depict the experience of crossing borders? How do these texts imagine the way these borders and the act of crossing borders shape peoples understanding of themselves, others, and the world? How do these texts imaginatively represent how people negotiate, transgress, and shape these borders? How do literary texts represent the challenges and the possibilities for peoples of different backgrounds to learn to live together harmoniously?

Modern History I

Sterrett, Isaiah Z

Fall 2024

This course is the first half of the History Core. Fulfills the Core History I requirement. This course covers several centuries of time (prior to 1800) and traces the political, social, economic, and cultural changes that created the modern world. Depending on the expertise of the instructor, different parts of the world may serve as focal points for examining the complex historical processes behind modern-day transnational relationships, values, and ideas. As part of the Core Curriculum, this course seeks to broaden students' intellectual horizons by exposing them to new places, periods, and perspectives.

Messina College Courses: Summer 2024

MCMC109101

First Year Discovery Seminar

Potter, Mark

Summer 2024

The First Year Discovery Seminar is an interactive and engaging course designed to facilitate the transition to Messina College. Students will be introduced to University resources, engage with the tenets of the Boston College mission, and reflect on their own identities as learners and college students. This course is rooted in concepts of student formation, reflection, and engaging with justice and the common good. Lecture sessions will expand student knowledge through panel discussions and invited speakers. Students will reflect on their own experiences and build skills for success through small group discussions.

First Year Discovery Seminar

Sprinkle, Sarah

Summer 2024

The First Year Discovery Seminar is an interactive and engaging course designed to facilitate the transition to Messina College. Students will be introduced to University resources, engage with the tenets of the Boston College mission, and reflect on their own identities as learners and college students. This course is rooted in concepts of student formation, reflection, and engaging with justice and the common good. Lecture sessions will expand student knowledge through panel discussions and invited speakers. Students will reflect on their own experiences and build skills for success through small group discussions.

Messina College Courses: Fall 2024

MCMC101601

Career Exploration Fellowship

Smith, Julianne M

Fall 2024

This asynchronous course accompanies an on-campus, experience-based internship that will enable students to engage in career exploration through direct project involvement in varied functional areas. Through reflection and assignments, students will connect their internship experience to their academic and professional goals and be empowered to explore the ways in which their vocational discernment and internship experiences influence their understanding of themselves and contribute to their sense of purpose and meaning in life. This course provides space for students to reflect on the professional skills they are gaining in their on-campus internships as well as their broad interests, skills, and values. Through regular meetings with their supervisors and reports, students will consider how well their interests, skills, and values align with the internship experience, helping them to further clarify and gain confidence in achieving their long term career goals.

Messina Purpose Initiative (MPI): First-Year Mentoring Experience

Department

Spring 2025

This experience provides reflective space for students to explore and strengthen their sense of identity, purpose, and belonging in college and beyond. Through meaningful dialogue, shared experiences, and hands-on activities, students cultivate deeper connections to themselves, their peers, and their expanding communities at Messina and Boston College. Guided by experienced student mentors, group sessions engage students in thoughtful conversations and experiential activities that explore their personal journeys, evolving relationships, and roles within their academic and social communities. Each student's authentic presence and participation enriches the group's collective experience and deepens our shared understanding. Participation Requirements: Attendance at 10 scheduled mentoring sessions per semester
Active engagement in reflective discussions and activities Collaborative involvement with mentors and peers Note: Connection and community are vital to student success. Students who miss more than three sessions will meet with their dean to explore ways to strengthen their participation in this transformative community experience. *This is a required program and will appear on your transcript

Philosophy of the Person

Maryanovich, Daniel J

Spring 2025

What is philosophy? What can philosophy do for our lives as individuals as well as for society? This course will introduce you to major themes and debates in the Western philosophical tradition, from its emergence in Ancient Greece to the early 21st century. We will explore philosophy as a practice of questioning and reflection, as an academic discipline, and as a way of life. We will consider how philosophers engage with issues like wisdom, justice, and freedom. At different points along the way, you will encounter questions concerning the relation between philosophy and politics, virtue and practical deliberation, faith and reason, mind and body, and various claims about what belongs to human selfhood. Our goal is to become more reflective and engaged human beings, equipped with the tools necessary to better understand ourselves, the world, and others. Students will study both canonical texts in the history of philosophy and more recent works by authors addressing these topics.

Inequality in America

Berrelleza, Erick, Society of Jesus

Fall 2024

This course examines class inequality in American society. It not only describes how the rich, the poor, and the middle classes live, but also how they relate to one another. Topics include the strategies used by the rich for maintaining the status quo, the hopes cherished by the middle class for improving their position, and the obstacles that keep the poor in their place. The class is writing intensive, with half the papers focused on readings that emphasize the dynamics of inequality as they are enacted by men and women, and by people of color and Caucasians, and the other half focused on diverse research experiences: simulations, interviews, observations, documentary analysis, fiction writing, etc.

Examining Self, Community, and Society

Bolin, Jessica L

Fall 2024

Examining Self, Community, and Society offers a 6-week interdisciplinary seminar (sociology, social psychology, and readings in contemporary literature) that examines the self as a personal construction and situates this agentic self in local communities and society. At every level the course examines the balance between individual choice and the weight of a structured menu of choices, noting the challenge of constructing meaningful identity development and steering a course between possibilities, some of which are fruitful and some of which are harmful to both personal fulfillment and social justice. In this way, the class seeks to make the perennial questions about social justice into personal choices that can shape the students educational and community commitments.

University Policies & Procedures

Accreditation of the University

Since 1935, Boston College has been accredited by the New England Commission of Higher Education (NECHE). NECHE is recognized by the U.S. Secretary of Education as a reliable authority on the quality of education and adheres to the standards of the Council for Higher Education Accreditation. As part of NECHE guidelines, member institutions undergo a peer review process every ten years which involves the preparation of a comprehensive self-study. Boston College's most recent full review for accreditation occurred in March 2017.

Inquiries regarding Boston College's accreditation status, including requests for a paper copy of this information, should be directed to the Office of the Provost and Dean of Faculties, Boston College, 270 Hammond Street, Chestnut Hill, MA 02467 (617-552-3260); individuals may also contact the New England Commission of Higher Education, 301 Edgewater Place, Suite 210, Wakefield, MA 01880 (781-425-7785).

In addition to NECHE, a variety of schools and programs at Boston College are affiliated with discipline-based accrediting agencies such as: Connell School of Nursing: [American Association of Colleges of Nursing, Commission on Collegiate Nursing Education](#); Carroll School of Management: [Association to Advance Collegiate Schools of Business](#); Law School: [American Bar Association](#); Boston College School of Social Work: [Council on Social Work Education](#); School of Theology and Ministry: [The Association of Theological Schools](#); Morrissey College of Arts and Sciences, Chemistry Department: [American Chemical Society](#); Lynch School of Education and Human Development, Teacher Education, Special Education, and Curriculum and Instruction programs: [Council for the Accreditation of Educator Preparation](#); Counseling Psychology Programs: [American Psychological Association, Masters in Psychology and Counseling Accreditation Council](#). For distance education, Boston College is an approved member of the National Council for State Authorization Reciprocity Agreements (NC-SARA), and Boston College's public safety and police department is an accredited program of the Massachusetts Police Accreditation Commission.

Annual Notification of Rights

The University Registrar and the Vice President for Student Affairs are responsible for notifying students annually of their rights under FERPA. The annual notice is to appear in the *Boston College Bulletin* and in the *Boston College Student Guide*.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student.

Student Rights Under FERPA

Boston College maintains a large number of records regarding its students in the administration of its educational programs, as well as its housing, athletics, and extracurricular programs. The University also maintains employment and financial records for its own use and to comply with state and federal regulations. Boston College is committed to protecting the privacy interests of its students and to maintaining the confidentiality of student records in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA).

These rights are as follows:

- The right to inspect and review the student's education record within 45 days of the day the University receives a request for access.

Any student who wishes to inspect and review information contained in an education record maintained by any office of the University may, with proper identification, request access to the record from the office responsible for maintaining that record. Unless the circumstances require the existence of a formal request, an oral request may be honored.

Whenever an office responsible for maintaining education records is unable to respond, the student may submit to the Office of Student Services, dean, academic department head, or other appropriate official a written request that identifies the record he or she wishes to inspect. The University official shall provide access within 45 days after the University receives the request, and shall notify the student of the time and place the record may be inspected. If the record is not maintained by the University official to whom the request is submitted, that official is to advise the student of the correct official to whom the request is to be addressed.

- The right to request the amendment of the student's education record if the student believes that information contained in his or her record is inaccurate, misleading or in violation of his or her rights of privacy.

Any student who believes that information contained in his or her education record is inaccurate, misleading, or in violation of his or

her rights of privacy is to write to the University official responsible for the record, clearly identifying the part of the record he or she wants changed, and specifying why the record should be amended.

If the University concludes that the record should not be amended as requested, the University will notify the student, advise the student of his or her right to a hearing and provide information about the hearing process.

- The right to consent to the disclosure of personally identifiable information contained in the student's education record, except to the extent permitted under FERPA. One exception that permits disclosure without consent is disclosure to University officials with legitimate educational interests, which may include employees in administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); members of the Board of Trustees; and students serving on an official committees, such as a disciplinary or grievance committees, or assisting another University officials in performing their tasks. University officials may also be contractors, consultants, volunteers or other outside parties to whom the University has outsourced institutional services or functions that would ordinarily be performed by University employees. The University may disclose education records without consent to officials of other educational institutions that have requested the records and in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.
- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. Written complaints may be directed to the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

Confidentiality of Student Records

Certain personally identifiable information from a student's education record, designated by Boston College as directory information, may be released without the student's prior consent. This information includes name; term, home, local, and electronic mail addresses; telephone listing; date and place of birth; photograph; major field of study; enrollment status; grade level; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; school/college of enrollment; anticipated date of graduation; degrees and awards received; the most recent previous educational agency or institution attended; and other similar information.

Electronic access to selected directory information is available to both the Boston College community and the general public. A student who so wishes has the right to prevent the release of all directory information including verification of enrollment, or to suppress selected directory information at bc.edu/myservices ("Privacy Preferences Confirm/Review)." This must be done by the end of the first week of enrollment.

Disclosures to Parents of Students

When a student reaches the age of 18, or attends a postsecondary institution regardless of age, FERPA rights transfer to the student. Guidelines for the disclosure of information to parents are as follows:

- Parents may obtain directory information at the discretion of the institution.
- Parents may obtain nondirectory information (e.g., grades, GPA) at the discretion of the institution and after it is determined that the student is legally dependent on either parent.
- Parents may also obtain nondirectory information if they have a signed consent from the student.

Certificate of Enrollment

Visit the [Certificate of Enrollment](#) page for more information.

Certifying enrollment can be done for the following audiences:

- For current students and employees with access to the Agora Portal
- For alumni and external audiences, including employers

Disability Services Office

The Disability Services Office (DSO) serves undergraduate and graduate students with physical, medical, psychological, and temporary disabilities. The Assistant Dean works with each student individually to determine the appropriate accommodations necessary for the student's full participation in college programs and activities. The Assistant Dean of Student Disability Services also works with university administrators to develop policies and procedures pertinent to students with disabilities while acting as a general referral service on disability issues.

All accommodation requests must be submitted by June 9, 2023 to the DSO. This deadline does not apply to the Connors Family Learning Center and students registering for accommodations based on a learning disability or Attention Deficit Hyperactivity Disorder (ADHD).

For more information, contact:

Disability Services Office
Maloney Hall—Suite 448
140 Commonwealth Ave
Chestnut Hill, MA 02467
Phone: 617-552-3434
E-mail: disabsrv@bc.edu

Services for students with learning disabilities and ADHD, as well as all testing accommodations, are coordinated through the Connors Family Learning Center (CFLC). The CFLC, located in O'Neill Library, provides academic support services and accommodations to undergraduate and graduate students. The CFLC's services are extensive and vary depending upon the unique needs of the individual student.

For more information, contact:

Kathleen M. Duggan, Ph.D.
Director, Connors Family Learning Center
The Connors Family Learning Center (CFLC)
Thomas P. O'Neill Jr. Library, Room 200
140 Commonwealth Avenue
Chestnut Hill, MA 02467
Phone: 617.552.8093
E-mail: dugganka@bc.edu

Family Educational Rights and Privacy Act (FERPA)

Visit the [Notices and Disclosures](#) page for information regarding the Family Educational Rights and Privacy Act (FERPA).

- The page enumerates student rights under FERPA.
- It also contains other notices and disclosures of interest to students and parents.

Financial Aid

Visit the [Financial Aid](#) page for more information about financial aid at Boston College.

Immunization

The state of Massachusetts requires that all full-time, part-time Health Sciences and part-time visa-carrying students entering college must submit proof of the following:

- **Tetanus, Diphtheria, and Pertussis (Tdap):** 1 dose. It must have been given at or after age 7. If Tdap was given before 2013 (≥ 10 years ago), you must also provide a current Tdap or Td.
- **MMR (measles, mumps, rubella) Vaccine Series:** 2 doses. These doses must be given at least four weeks apart beginning at or after 12 months of age.

- **Hepatitis B Vaccine Series:** 3 doses at varying intervals or two doses of Heplisav-B given on or after 18 years.
- **Meningococcal Conjugate Quadrivalent Vaccine:** 1 dose of (MCV 4- A, C, Y, W-135) (Menactra, Menveo Nimenrix, or MenQuadfi) for all full-time students 21 years of age and younger. The vaccine must be on or after the sixteenth birthday, or a signed waiver is acceptable.
- **Varicella Vaccine:** 2 doses of the vaccine or a reliable history of varicella disease documented by a health care provider.
- **Tuberculosis Screening/Testing Form** complete the form and accompanying testing if needed.

If proof of immunization for measles, mumps, rubella, hepatitis B, and/or varicella is unavailable, a blood titer showing immunity will be accepted.

Failure to show proof of immunizations within 30 days from the start of classes will result in a block on your registration, and an administrative fee of \$90 will be charged to your student account.

Important Notices and Disclosures under the HEOA

Boston College maintains a web page that provides all notices, disclosures, and other information required to be disclosed under the Higher Education Opportunity Act (HEOA). This web page is available at bc.edu/content/bc-web/offices/executive-vice-president/notices-disclosures.html. This page includes links to disclosures with the following information:

- **Institutional and Student Information**, including information regarding the University's academic programs, facilities, faculty, academic improvement plans, accreditation, student rights with respect to the privacy of student records, transfer of credit policies, resources for students with disabilities, the diversity of the student body, voter registration, copyright and file-sharing, and how to reach the Office of Student Services, which maintains additional resources and information for students and prospective students;
- **Financial Information**, including the cost of attendance, withdrawal and refund policies, information regarding financial aid programs (including information about eligibility requirements and criteria, forms, policies, procedures, standards for maintaining aid, disbursements and repayment), student employment information and exit counseling information, and how to reach the Office of Financial Aid;
- **Student Outcomes**, including information regarding retention rates, graduation rates, and placement and education of graduates;
- **Health and Safety Information**, including the Annual Campus Security and Fire Safety Report which describes the University's campus safety program policies and includes statistics for the previous three years concerning reported crimes and fires that occurred on campus; the Drug-Free Campus and Workplace Program; and the University's policies with respect to immunizations required under Massachusetts law; and
- **Athletic Program Information**, describing how to request a report about the University's athletic programs that includes participation rates, financial support, and other information on men's and women's intercollegiate athletic programs.

Each disclosure explains how you may request a paper copy of the information. Alternatively, you may request paper copies of these disclosures by calling the Office of the Executive Vice President (617) 552-3255 or sending a written request to: Boston College, Office of the Executive Vice President, Botolph House, 140 Commonwealth Avenue, Chestnut Hill, MA 02467.

Notice of Nondiscrimination

Founded by the Society of Jesus in 1863, Boston College is dedicated to intellectual excellence and to its Jesuit, Catholic heritage. Boston College recognizes the essential contribution a diverse community of students, faculty, and staff makes to the advancement of its goals and ideals in an atmosphere of respect for one another and for the University's mission and heritage. Accordingly, Boston College commits itself to maintaining a welcoming environment for all people and extends its welcome in particular to those who may be vulnerable to discrimination on the basis of their race, color, national origin, sex, religion, disability, age, marital or parental status, sexual orientation, military status, or other legally protected status.

Boston College rejects and condemns all forms of harassment, wrongful discrimination, and disrespect. It has developed procedures to respond to incidents of harassment whatever the basis or circumstance. Moreover, it is the policy of Boston College, while reserving its lawful rights where appropriate to take actions designed to promote the Jesuit, Catholic principles that sustain its mission and heritage, to comply with all state and federal laws prohibiting discrimination in employment and in its educational programs and activities on the basis of a person's race, color, national origin, sex, religion, disability, age, marital or parental status, genetic information or family medical history, or military status, and to comply with state law prohibiting discrimination on the basis of a person's sexual orientation.

To this end, Boston College has designated its Associate Vice President for Institutional Diversity to coordinate its efforts to prevent discrimination in accordance with this notice and applicable laws. Individuals are welcome to raise any questions regarding this notice and the requirements of state and federal nondiscrimination laws with the Associate Vice President for Institutional Diversity:

Boston College Office for Institutional Diversity (OID)
140 Commonwealth Avenue (Office location: 129 Lake Street)
Chestnut Hill, MA 02467
Patricia Lowe,
Associate Vice President for Institutional Diversity/Title IX Coordinator
patricia.lowe@bc.edu
Phone: 617-552-3334
Email: TitleIXCoordinator@bc.edu

The Associate Vice President for Institutional Diversity oversees the efforts of the following additional Title IX coordinators: (i) Melinda Stoops, Associate Vice President for Student Affairs and Student Affairs Title IX Coordinator (for student sexual harassment complaints), Maloney Hall, Chestnut Hill, MA 02467 (617-552-3482); (ii) Marie Elena Gioiella, University Harassment Counselor, 129 Lake Street, Brighton, MA (617-552-3340); and (iii) Reshauna Cobb, Senior Associate Director Athletics, Internal Operations, 310 Conte Forum, Chestnut Hill, MA 02467 (617-552-8303).

The following federal laws and regulations require the University not to discriminate on the basis of race, color, national origin, disability, sex, or age in treatment, employment, admission or access to Boston College and its educational programs and activities: Title VI of the Civil Rights Act of 1964 (Title VI), Section 504 of the Rehabilitation Act of 1973 (Section 504), Title IX of the Education Amendments of 1972 (Title IX), the Age Discrimination Act of 1975 (Age Act), and their respective implementing regulations at 34 C.F.R. Parts 100, 104, 106, and 110. Inquiries concerning the application to Boston College of each of the statutes and implementing regulations outlined above may be referred to the U.S. Department of Education, Office for Civil Rights, 5 Post Office Square, 8th Floor, Boston, MA 02109-3921 (617-289-0111).

Tuition and Fees

- Laboratory/course fees
- Tuition refund schedule

Veterans Benefits and Transition Act of 2018

The university will adhere to the requirements of Section 3679 of Title 38 of the Veterans Benefits and Transition Act of 2018 (referred to below as the "Veterans Benefits and Transition Act").

Boston College shall permit any student who is a covered individual (as defined in Section 3679 of the Veterans Benefits and Transition Act) to attend or participate in the course of education during the period beginning on the date on which such student provides to Boston College a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 of Title 38 of the Veterans Benefits and Transition Act and ending on the earlier of (i) the date on which the U.S. Secretary of Veterans Affairs provides payment for such course of education to Boston College, or (ii) the date that is 90 days after the date on which Boston College certifies for tuition and fees following receipt from the student such certificate of eligibility.

Boston College shall ensure that it will not impose any penalty (including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual (as defined in Section 3679 of the Veterans Benefits and Transition Act) borrow additional funds) on any student who is a covered individual because of such student's inability to meet his or her financial obligations to Boston College due to the delayed disbursement of a payment to be provided by the Secretary of Veterans Affairs under chapter 31 or 33 of Title 38 of the Veterans Benefits and Transition Act.

The University reserves the right to deny access to services or impose additional fees in accordance with University policy on the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement if not paid by the student by the required due dates.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

Academic Integrity

Academic Integrity (Undergraduate)

The pursuit of knowledge can proceed only when scholars take responsibility and receive credit for their own work. Recognition of individual contributions to knowledge and of the intellectual property of others builds trust within the University and encourages the sharing of ideas that is essential to scholarship. Similarly, the educational process requires that individuals present their own ideas and insights for evaluation, critique, and eventual reformulation. Presentation of others' work as one's own is not only intellectual dishonesty, but it also undermines the educational process.

- Undergraduate: Standards
- Undergraduate: Promoting Academic Integrity: Roles of Community Members
- Undergraduate: Procedures

Standards

Academic integrity is violated by any dishonest act which is committed in an academic context including, but not restricted to, the following:

Cheating is the fraudulent or dishonest presentation of work. Cheating includes but is not limited to:

- the use or attempted use of unauthorized aids in examinations or other academic exercises submitted for evaluation;
- fabrication, falsification, or misrepresentation of data, results, sources for papers or reports, or in clinical practice, as in reporting experiments, measurements, statistical analyses, tests, or other studies never performed; manipulating or altering data or other manifestations of research to achieve a desired result; selective reporting, including the deliberate suppression of conflicting or unwanted data;
- falsification of papers, official records, or reports;
- copying from another student's work;
- actions that destroy or alter the work of another student;
- unauthorized cooperation in completing assignments or during an examination;
- the use of purchased essays or term papers, or of purchased preparatory research for such papers;
- submission of the same written work in more than one course without prior written approval from the instructors involved;
- dishonesty in requests for make-up exams, for extensions of deadlines for submitting papers, and in any other matter relating to a course.
- work generated through unsanctioned and/or undocumented artificial intelligence (A.I.) assistance.

Plagiarism is the act of taking the words, ideas, data, illustrations, or statements of another person or source and presenting them as one's own. This includes using the assistance of artificial intelligence (A.I.) text generators to perform central requirements of an assignment (i.e. reading, synthesizing, interpreting, writing, coding, programming, etc.) without both the explicit permission of the instructor and complete attribution and citation of A.I. assisted components.

Each student is responsible for learning and using proper methods of paraphrasing, quotation, footnoting, and other forms of citation, to ensure that the original author, speaker, illustrator, or source of the material used is clearly acknowledged.

Other breaches of academic integrity include:

- the misrepresentation of one's own or another's identity for academic purposes;
- the misrepresentation of material facts or circumstances in relation to examinations, papers, or other evaluative activities;
- the sale of papers, essays, or research for fraudulent use;
- the alteration or falsification of official University records;
- the unauthorized use of University academic facilities or equipment, including computer accounts and files;
- the unauthorized recording, sale, purchase, or use of academic lectures, academic computer software, or other instructional materials;
- the expropriation or abuse of ideas and preliminary data obtained during the process of editorial or peer review of work submitted to journals, or in proposals for funding by agency panels or by internal University committees;
- the expropriation and/or inappropriate dissemination of personally-identifying human subject data;

- the unauthorized removal, mutilation, or deliberate concealment of materials in University libraries, media, or academic resource centers.

Collusion is defined as assistance or an attempt to assist another student in an act of academic dishonesty. Collusion is distinct from collaborative learning, which may be a valuable component of students' scholarly development. Acceptable levels of collaboration vary in different courses, and students are expected to consult with their instructor if they are uncertain whether their cooperative activities are acceptable.

Promoting Academic Integrity: Roles of Community Members

Student Roles in Maintaining Academic Integrity

Students have a responsibility to maintain high standards of academic integrity in their own work and thereby to maintain the integrity of their degree. It is their responsibility to be familiar with, and understand, the University policy on academic integrity.

Students who become aware of a violation of academic integrity by a fellow student should respond in one of the following ways:

- Students may discuss their concerns with the student whom they suspect of a violation. Direct contact by another student may be the best means of resolving the problem. Repeated demonstration of student concern for academic integrity will, in the long run, build a peer-regulated community.
- If the incident is a major violation or part of a repeated pattern of violations, students should bring their concerns to the attention of the instructor or to the appropriate department chairperson or associate dean. Suspected violations by students reported to members of the faculty or to an associate dean will be handled according to the procedures set forth below.

Students who have serious concern that a faculty member is not living up to his or her responsibility to safeguard and promote academic integrity should speak with the faculty member directly or bring their concern to the attention of the department chairperson or associate dean.

Faculty Roles in Fostering Academic Integrity

Faculty members should provide students with a positive environment for learning and intellectual growth and, by their words and actions, promote conditions that foster academic integrity.

Faculty should be concerned about the impact of their behavior on students. Students are sensitive to messages communicated in informal discussions and in casual faculty remarks about personal decisions and value judgments. Students are perhaps most sensitive to how responsibly faculty members fulfill their obligations to them in the careful preparation of classes, in the serious evaluation of student achievement, and in their genuine interest in and availability to students.

Faculty should promote academic integrity in the following specific ways:

- At the beginning of each course, instructors should discuss academic integrity in order to promote an ongoing dialogue about academic integrity and to set the tone and establish guidelines for academic integrity within the context of the course, e.g., the extent to which collaborative work is appropriate. Where relevant, instructors should discuss why, when, and how students must cite sources in their written work.
- Instructors should provide students with a written syllabus that states course requirements and, when available, examination dates and times.
- Instructors are encouraged to prepare new examinations and assignments where appropriate each semester to ensure that no student obtains an unfair advantage over his or her classmates by reviewing exams or assignments from prior semesters. If previous examinations are available to some students, faculty members should ensure that all students in the course have similar access. Course examinations should be designed to minimize the possibility of cheating, and paper assignments should be designed to minimize the possibility of plagiarism.
- Proctors should be present at all examinations, including the final examination, and should provide students with an environment that encourages honesty and prevents dishonesty.
- Faculty should respect students' intellectual property and the confidentiality of student academic information.
- Assignment of grades, which is solely the responsibility of the instructor, should be awarded in a manner fair to all students.

Academic Deans

Academic deans have overall responsibility for academic integrity within their schools. In particular, deans' responsibilities include the following:

- promoting an environment where academic integrity is a priority for both students and faculty,
- ensuring that students who are honest are not placed at an unfair disadvantage, and
- establishing procedures to adjudicate charges of academic dishonesty and to protect the rights of all parties.

Procedures

Academic integrity is central to the educational and formative mission of the University. A University-Wide Undergraduate Academic Integrity Committee, made up of Academic Officers from each of the Undergraduate Schools and Colleges, reviews all reports of academic dishonesty. Faculty and students are consulted on an ad-hoc basis depending on the case.

When a faculty member determines that a student's work violates the standards of academic integrity, the faculty member is encouraged to discuss the matter with the student. The faculty member should notify the student of the substance of the violation and the action that the faculty member proposes to take. If the faculty member decides to impose a grading penalty, a letter of notification describing the incident, the evidence supporting the allegation, and the proposed grading penalty is to be sent to the Associate Dean of the school or college in which the course is taught.

On receipt of such a notification, the Undergraduate Academic Integrity Committee will notify the student of the allegation and the evidence. If the course is outside of the student's home school or college, the student's class Dean will also be notified. The student will be given an opportunity to respond to the allegation in writing (within 5 business days). The Committee is dedicated to resolving cases in a just and timely manner and to maintaining the confidentiality of any students involved. While a case is pending, the student may not withdraw from or change status in the course.

Each reported violation of the standards of academic integrity will be reviewed by the University-Wide Undergraduate Committee on Academic Integrity. This will ensure that, in cases involving students from more than one school or students in joint or dual degree programs, the process and penalty will be consistent.

The committee's approach is a formative one that expects students to reflect on their experience, understand the impact of their choices, and make decisions differently based on what they've learned. The approach is meant to be educational and restorative, rather than punitive. Consequences for students found responsible for violations will depend upon the seriousness and circumstances of the violation, the degree of premeditation involved, and the student's previous record of violations. The committee may simply affirm the faculty member's penalty and issue the student a "warning," which will be kept in a confidential electronic file until the student graduates and will not be reportable to professional schools or outside agencies. The Committee may recommend a different grading penalty and/or impose additional administrative penalties. The most severe penalties may include university probation, suspension, or expulsion, all of which become part of a student's academic record and are reportable to graduate/professional schools and outside agencies.

The Associate Dean of the school in which the course is taught will convey to the faculty member and the student the Committee's findings as to responsibility and recommended sanctions. Appeal of the Committee's decision may be made by written request to the Dean of the school or college of the course not later than ten days following notification. The decision of the Dean will be final.

Summary of Process

Step 1: The faculty member is encouraged to discuss the matter with the student.

Step 2: The faculty member should notify the student of the substance of the violation and the action that the faculty member proposes to take.

Step 3: If the faculty member decides to impose a grading penalty, a letter of notification describing the incident, the evidence supporting the allegation, and the proposed grading penalty is to be sent to the Associate Dean of the school or college in which the course is taught.

Step 4: The Undergraduate Academic Integrity Committee will notify the student, who will be given an opportunity to respond to the allegation in writing (within 5 business days).

Step 5: The case will be reviewed by the University-Wide Undergraduate Committee on Academic Integrity.

Step 6: The Associate Dean of the school in which the course is taught will convey to the faculty member and the student the Committee's findings as to responsibility and recommended sanctions.

Step 7: Appeal of the Committee's decision may be made by written request to the Dean of the school or college of the course not later than ten days following notification. The decision of the Dean will be final.

Academic Integrity (Graduate)

The pursuit of knowledge can proceed only when scholars take responsibility and receive credit for their work. Recognition of individual contributions to knowledge and of the intellectual property of others builds trust within the University and encourages the sharing of ideas that is essential to scholarship. Similarly, the educational process requires that individuals present their own ideas and insights for evaluation, critique, and eventual reformulation. Presentation of others' work as one's own is not only intellectual dishonesty, but it also undermines the educational process. Cases of falsification, fabrication, and plagiarism that occur in the course of research are also subject to Boston College's research misconduct policy, which can be found at

www.bc.edu/bc-web/research/sites/vice-provost-for-research/integrity-and-compliance/research-misconduct.htm.

- Dishonesty in requests for make-up exams, for extensions of deadlines for submitting papers, and in any other matter relating to a course.
- Work generated through unsanctioned and/or undocumented artificial intelligence (A.I.) assistance.

Plagiarism is the act of taking the words, ideas, data, illustrations, or statements of another person, program, or source, and presenting them as one's own. This includes using the assistance of artificial intelligence (A.I.) text generators to perform central requirements of an assignment (i.e. reading, synthesizing, interpreting, writing, coding, programming, etc.) without both the explicit permission of the instructor and complete attribution and citation of A.I. assisted components.

Each student is responsible for learning and using proper methods of paraphrasing and footnoting, quotation, and other forms of citation, to ensure that the original author, speaker, illustrator, or source of the material used is clearly acknowledged.

Other breaches of academic integrity include:

- The misrepresentation of one's own or another's identity for academic purposes;
- The misrepresentation of material facts or circumstances in relation to examinations, papers, or other evaluative activities;
- The sale of papers, essays, or research for fraudulent use;
- The alteration or falsification of official University records;
- The unauthorized use of University academic facilities or equipment, including computer accounts and files;

- The unauthorized recording, sale, purchase, or use of academic lectures, academic computer software, or other instructional materials;
- The expropriation or abuse of ideas and preliminary data obtained during the process of editorial or peer review of work submitted to journals, or in proposals for funding by agency panels or by internal University committees;
- The expropriation and/or inappropriate dissemination of personally-identifying human subject data;
- The unauthorized removal, mutilation, or deliberate concealment of materials in University libraries, media, or academic resource centers.

Collusion is defined as assistance or an attempt to assist another student in an act of academic dishonesty. Collusion is distinct from collaborative learning, which may be a valuable component of students' scholarly development. Acceptable levels of collaboration vary in different courses, and students are expected to consult with their instructor if they are uncertain whether their cooperative activities are acceptable.

Promoting Academic Integrity: Roles of Community Members

Student Roles in Maintaining Academic Integrity

Students have a responsibility to maintain high standards of academic integrity in their own work, and thereby to maintain the integrity of their degree. It is their responsibility to be familiar with, and understand, the University policy on academic integrity.

Students who become aware of a violation of academic integrity by a fellow student should respond in one of the following ways:

- Students may discuss their concerns with the student whom they suspect of a violation. Direct contact by another student may be the best means of resolving the problem. Repeated demonstration of student concern for academic integrity will in the long run build a peer-regulated community.
- If the incident is a major violation or part of a repeated pattern of violations, students should bring their concerns to the attention of the instructor or to the appropriate department chairperson or Associate Dean. Suspected violations by students reported to members of the faculty or to an Associate Dean will be handled according to the procedures set forth below.

Students who have serious concern that a faculty member is not living up to his or her responsibility to safeguard and promote academic integrity should speak with the faculty member directly, or should bring their concern to the attention of the department chairperson or Associate Dean.

Faculty Roles in Fostering Academic Integrity

Faculty members should provide students with a positive environment for learning and intellectual growth and, by their words and actions, promote conditions that foster academic integrity.

Faculty should be concerned about the impact of their behavior on students. Students are sensitive to messages communicated in informal discussions and in casual faculty remarks about personal decisions and value judgments. Students are perhaps most sensitive to how responsibly faculty members fulfill their obligations to them in the careful preparation of classes, in the serious evaluation of student achievement, and in their genuine interest in and availability to students.

Faculty should promote academic integrity in the following specific ways:

- At the beginning of each course, instructors should discuss academic integrity in order to promote an ongoing dialogue about academic integrity and to set the tone and establish guidelines for academic integrity within the context of the course, e.g., the extent to which collaborative work is appropriate. Where relevant, instructors should discuss why, when, and how students must cite sources in their written work.
- Instructors should provide students with a written syllabus that states course requirements and, when available, examination dates and times.
- Instructors are encouraged to prepare new examinations and assignments where appropriate each semester in order to ensure that no student obtains an unfair advantage over his or her classmates by reviewing exams or assignments from prior semesters. If previous examinations are available to some students, faculty members should insure that all students in the course have similar access. Course examinations should be designed to minimize the possibility of cheating, and course paper assignments should be designed to minimize the possibility of plagiarism.

- Proctors should be present at all examinations, including the final examination, and should provide students with an environment that encourages honesty and prevents dishonesty.
- Faculty should be careful to respect students' intellectual property and the confidentiality of student academic information.
- Assignment of grades, which is the sole responsibility of the instructor, should be awarded in a manner fair to all students.

Academic Deans

Academic deans have overall responsibility for academic integrity within their schools. In particular, deans' responsibilities include the following:

- promoting an environment where academic integrity is a priority for both students and faculty,
- ensuring that students who are honest are not placed at an unfair disadvantage, and
- establishing procedures to adjudicate charges of academic dishonesty and to protect the rights of all parties.
- work generated through unsanctioned and/or undocumented artificial intelligence (A.I.) assistance.

Procedures

Graduate and professional students should refer to their department or school for procedures for adjudicating alleged violations of academic integrity. Penalties for students found responsible for violations may depend upon the seriousness and circumstances of the violation, the degree of premeditation involved, and/or the student's previous record of violations. Appeal of decision may be made to the representative of the department or school whose decision will be final.

Undergraduate Academic Regulations

Academic Regulations are effective from September of the current academic year except where a different date is explicitly stated. If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student's readmission to full-time study will apply, unless the Academic Dean specifies otherwise in writing at the time of readmission.

Undergraduate Admission

Admission Information

Founded by the Society of Jesus in 1863, Boston College is dedicated to intellectual excellence and to its Jesuit, Catholic heritage. Boston College recognizes the essential contribution a diverse community of students, faculty, and staff makes to the advancement of its goals and ideals in an atmosphere of respect for one another and for the University's mission and heritage. Accordingly, Boston College commits itself to maintaining a welcoming environment for all people and extends its welcome in particular to those who may be vulnerable to discrimination on the basis of their race, ethnic or national origin, religion, color, age, gender, marital or parental status, veteran status, disabilities, or sexual orientation.

Boston College seeks to maintain an undergraduate student body that represents a broad variety of abilities, backgrounds, and interests. Therefore, in selecting students, the Committee on Admission looks for demonstrated evidence of academic ability, intellectual curiosity, strength of character, motivation, energy, and promise for personal growth and development. Requests for financial aid do not affect decisions on admission. The [Undergraduate Admission website](#) provides further details on the application requirements and deadlines.

Admission from Secondary School

While specific courses are not required, the Office of Undergraduate Admission recommends that students pursue a strong college preparatory program that includes four units of English, mathematics, social studies, and foreign language, as well as four units of a natural science. Such a program provides a solid foundation for high quality college work, as well as a stronger application in a highly selective admission process.

Standardized Testing

- The SAT or
- The American College Test (ACT)

Boston College will continue its test-optional admission policy for the 2024-25 application cycle. Students may send official score reports from a testing center, list their test scores on their applications, and/or upload scores through their Applicant Status Portals. Enrolled students who provided scores with their applications will be required to submit official test score reports upon matriculation. At that time, students' results will be verified.

The full policy can be viewed at bc.edu/admission.

All submitted standardized test results are used in the admission process. Applicants are required to take all standardized tests no later than the October administration date of their senior year for Early Decision and by December of their senior year for Regular Decision.

The Committee on Admission will select the best combination of individual section scores when evaluating an application. International students for whom English is not their primary native language are required to submit scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the DuoLingo English Test (DET). Students who score 650 or above in the SAT EBRW or 29 or better on the ACT English section may have this requirement waived.

Application Procedures

Regular Freshman Admission

Students applying to Boston College should submit the Common Application, the Boston College Writing Supplement and an \$80 application fee no later than January 1. Both the Common Application and Boston College Writing Supplement are available on the Common Application website. Candidates are notified of action taken on their applications no later than April 1.

Early Decision

Early Decision I and II are binding programs for candidates who view Boston College as their unequivocal top choice institution. If admitted to Boston College through Early Decision, candidates must immediately withdraw applications to other institutions and enroll at Boston College. Students are required to submit an Enrollment Confirmation Fee to Boston College within ten days of receiving their admission offer.

Competitive Early Decision candidates present academic credentials, extracurricular engagement, and personal qualities that fit the profile of currently enrolled Boston College students. Because Early Decision attracts a small, but competitive pool of candidates, the acceptance rate will be higher at Early Decision. Completed Early Decision I applications and the Common Application Early Decision Agreement form must be submitted no later than November 1 for consideration. Candidates will learn of the Admission Committee's decision by December 15. Early Decision II applications are due by January 1 and candidates will learn of the Admission Committee's decision by February 15.

Applying to an Undergraduate Division

All applicants must designate to which of the four undergraduate divisions they are making their application: Morrissey College of Arts and Sciences, Carroll School of Management, Lynch School of Education and Human Development, or Connell School of Nursing. Students are only considered for admission to the division to which they applied. Students may not change divisions following admission, but may be eligible to apply for an internal transfer to a new division after: one semester for those seeking a transfer to Morrissey or Lynch and two semesters to Connell or Carroll. Transferring internally is not guaranteed and selectivity varies by division; interested students should complete the Internal Transfer Form found on the [Academic Forms](#) page.

International Student Admission

International students are expected to submit the same credentials (transcripts, recommendations, standardized tests, etc.) as domestic applicants. All documents should be submitted in English. If the credentials must be translated, the original must be submitted along with the translation. All international students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) exam, the International English Language Testing System (IELTS), or the DuoLingo English Test (DET). Minimum scores of 100 on the TOEFL iBT, 7.5 on the IELTS, or 130 on the DET are recommended.

Transfer Admission

Transfer admission applications are available to students who have successfully **completed** three or more transferable courses (9 credits minimally) at a regionally accredited college or university. Transfer students must have a minimum cumulative grade point average of 3.0 to be considered for admission. Competitive applicants typically have above a 3.5 cumulative grade point average. Students are encouraged to finish one full year of studies before seeking admission-in-transfer.

All candidates for transfer admission should submit the Transfer Common Application and all other required forms along with the \$80 application fee. All portions of the Transfer Application can be found on the transfer website at bc.edu/transfer.

NOTE: An Academic and Disciplinary Report must be submitted for every undergraduate institution attended full-time by the applicant. Additional copies of this form may be obtained from the transfer website.

All supporting documents must be sent directly to the Boston College Office of Undergraduate Admission by the sending institution.

Transcripts issued to students and photocopies will not be accepted. The deadline for submitting applications is March 15 for the fall and November 1 for the spring. Fall candidates will be notified of action taken on their applications no later than May 20. Spring candidates will be notified no later than December 15.

Please consult the transfer admission website for additional information about transfer policies.

Transfer of Credit

Boston College transfer credit policies are established by the Deans and Faculty of each undergraduate division. Course evaluations are completed by the Office of Transfer Admission. Any questions regarding the evaluation of courses, either before or after enrollment, should be directed to the Office of Transfer Admission.

At Boston College, transfer credit is established on a course-by-course basis. Transferable courses must have been completed at regionally accredited colleges or universities and must be similar in content, depth, and breadth to courses taught at Boston College. In addition, a minimum grade of C- must have been earned. Boston College students must complete the following number of credit hours for graduation: Morrissey College of Arts and Sciences—120, Carroll School of Management—120, Lynch School of Education and Human Development—120, and Connell School of Nursing—117. A maximum of 60 credit hours will be allowed in transfer. The unit of credit at Boston College is the semester hour. Most courses earn 3 semester hours of credit. Lab sciences usually earn 4 semester hours of credit.

No credit will be granted for internships, field experiences, practica, military training, or independent study.

Applicants seeking to have online courses accepted in transfer by Boston College should submit a syllabus for each course, including information about contact hours and exam requirements.

Grade point averages do not transfer with students. A new grade point average begins with the commencement of a student's career at the University and reflects only work completed as a full-time undergraduate at Boston College.

For transfer students, courses taken during the summer prior to enrollment at Boston College should be approved in advance by the Office of Transfer Admission to avoid difficulty in the transfer of credits. For all incoming freshmen and currently enrolled students, all summer courses must be approved in advance by the appropriate deans.

College credit courses taken in high school with high school teachers and other high school students cannot be used for credit. These courses may be assigned advanced placement units only if a corresponding College Board AP exam is taken and a qualifying score is earned.

Date of Graduation

All undergraduate students are expected to spend four years enrolled as full-time students in order to earn a bachelor's degree.

Students generally may not accelerate the date of graduation stated in the acceptance letter, with the following exception: students who enter Boston College after three or four semesters at a school where the normal credit requirements are less than those at Boston College and who experience a loss of one semester in their status as a result. If students have attended only one school prior to Boston College and the loss of status is due solely to differences between academic systems, students will be allowed to make up their status and graduate with their class.

A transfer student's date of graduation is determined by the number of credits accepted in transfer and the number of Boston College semesters these satisfy. The normal academic load for undergraduates is five 3- or 4-credit courses per semester. Thus, students are expected to have completed 30 credits at the end of one year, 45 at the end of a year and a half, and 60 credits at the end of two years. In determining a transfer student's date of graduation, leeway of 6 credits is allowed without loss of status. For example, students completing 24–30 credits are accepted as first-semester sophomores.

Residency Requirement

The requirements for the bachelor's degree generally include a minimum of eight semesters of full-time enrollment, at least four semesters of which must be at Boston College.

Transfer students may need more than eight semesters in total in order to complete all the university's degree requirements. As long as transfer students abide by all relevant University academic regulations, including at least four semesters at Boston College, they may seek to regain their original graduation-year status through course overloads and summer courses. Transfer students who seek to regain their original graduation date should consult with their associate dean to confirm that they are eligible to do so.

Special Students

Only those persons who wish to be enrolled as full-time day students are admitted by the Office of Undergraduate Admission. All other students wishing to attend Boston College on a part-time basis, for either day or evening classes, should contact the Dean of the James A. Woods, S.J., College of Advancing Studies, St. Mary's Hall South, Ground Floor, Boston College, Chestnut Hill, MA 02467.

Advanced Placement Units

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Qualifying scores will be assigned advanced placement units as detailed at bc.edu/advancedplacement.

College Courses Taken During High School

Advanced placement units can be earned for college courses taken during high school. For more information, visit bc.edu/advancedplacement.

Language Proficiency Requirements

Refer to the Language Proficiency Requirements section below.

Introductory Note on Academic Regulations

Academic Regulations are effective from September of the current academic year except where a different date is explicitly stated. If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student's readmission to full-time study will apply, unless the Academic Dean specifies otherwise in writing at the time of readmission.

Academic Grievances

Any student who believes he or she has been treated unfairly in academic matters should consult with the chairperson of the undergraduate or graduate department or his or her Academic Dean to discuss the situation and to obtain information about relevant grievance procedures.

Academic Record

A record of each student's academic work is prepared and maintained permanently by the Office of Student Services. While cumulative averages for academic majors are made available to undergraduate students who are currently enrolled, these averages are not maintained as part of a student's academic record. The student's semester averages and final overall cumulative average appear on the academic record. Student academic records are sealed at the time the degree is conferred. After this date changes may not be made, with the exception of errors or omissions.

Attendance

Students are expected to attend classes regularly, take tests, and submit papers and other work at the times specified by the professor on the course syllabus. Students who are absent repeatedly from class or practica will be evaluated by faculty responsible for the course to ascertain their ability to achieve the course objectives and to continue in the course.

Professors may include, as part of the semester's grades, marks for the quality and quantity of the student's participation in class.

Professors will announce, reasonably well in advance, tests and examinations based on material covered in class lectures and discussions, as well as other assigned material. A student who is absent from class on the day of a previously announced examination, including the final

examination, is not entitled, as a matter of right, to make up what was missed. The professor involved is free to decide whether a make-up will be allowed.

A student who is absent from class is responsible for obtaining knowledge of what happened in class, especially information about announced tests, papers, or other assignments.

In cases of prolonged absence, the student or a family member should communicate with the student's Academic Dean as soon as the prospect of extended absence becomes clear. The academic arrangements for the student's return to classes should be made with the Academic Dean's Office as soon as the student's health and other circumstances permit.

Absences for Religious Reasons

Any student who is unable, because of his or her religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination, or study or work requirement, and shall be provided with an opportunity to make up such examination, or study or work requirement, that may have been missed because of such absence on any particular day. However, students should notify professors at the end of the first class meeting or at least two weeks in advance of any such planned observances, and such makeup examination or work shall not create an unreasonable burden upon the University. No fees will be charged and no adverse or prejudicial effects shall result to any student who is absent for religious reasons.

Audits

Undergraduate students may not audit a course with the exception of undergraduates in the Woods College of Advancing Studies.

Core Curriculum—Undergraduate University Core Requirements

The following fifteen courses comprise the Core Curriculum and are required for all students at Boston College to graduate. All Core courses must be three credits or more and cannot be taken pass/fail. In addition to the specific courses named below, Complex Problem and Enduring Question courses count for Core credit and are limited to first-year students.

- One course in the Arts—Art History, Studio Art, Film, Music, or Theatre
- One course in Cultural Diversity—The Cultural Diversity requirement may be fulfilled by an approved course taken to fulfill a Core, a major or minor requirement, or an elective. Engaging Difference and Justice and Difference, Justice, and the Common Good courses satisfy the Cultural Diversity requirement and can be found on the Core website (bc.edu/core). LSEHD students take APSY/EDU1031 or FORM1051. The CSON curriculum satisfies the Cultural Diversity requirement.
- Two courses in History—One History I course (pre-1800) and one History II course (post-1800)
- One course in Literature—Classical Studies, English, Romance Languages and Literatures, or Eastern, Slavic, and German Studies
- One course in Mathematics—For CSOM students, BZAN1135 is required and fulfills the Mathematics Core. CSON students take MATH1180. For LSEHD students, APSY2217 and MATH1190 can also fulfill the Mathematics Core.
- Two courses in Natural Sciences—Biology, Chemistry, Earth and Environmental Sciences, Environmental Studies, or Physics
- Two courses in Philosophy—One Philosophy I course and one Philosophy II course, PHIL1070-1071 Philosophy of the Person I and II (in sequence), PHIL/THEO1088-1089 Person and Social Responsibility I and II (PULSE), or PHIL/THEO1090-1091 Perspectives on Western Culture I and II (in sequence). Complex Problem or Enduring Question courses may fulfill one Philosophy Core course. For LSEHD students, FORM1050 satisfies the Philosophy II Core course.
- Two courses in Social Sciences—Economics, Political Science, Psychology, Psychology in Education, or Sociology. ECON1101 is required for all CSOM students. CSON students take NURS2122 and NURS4264. LSEHD students take APSY1030 and either APSY/EDUC1031 or FORM1051.
- Two courses in Theology—One Christian Theology (CT) and one Sacred Texts and Traditions (STT) course, THEO/PHIL1088-1089 Person and Social Responsibility I and II (PULSE), THEO/PHIL1090-1091 Perspectives on Western Culture I and II, or Complex Problem or Enduring Question Theology courses
- One course in Writing*

*Students for whom English is not their first language have special options for meeting this requirement.

Students are encouraged to use the Core to explore their interests, broaden their intellectual horizons, and discover more about themselves. Core courses are identified on the EagleApps Course Information and Schedule page (at bc.edu/myservices) as well as on the Core website (bc.edu/core). For more information on the University Core Curriculum, please visit bc.edu/core.

University Core Curriculum at Boston College

As a Jesuit, Catholic University, Boston College shares a 450-year-old tradition of integrating the intellectual, moral, and religious development of its students. The centerpiece of Jesuit education has always been a common curriculum that emphasizes the study of the defining works of the humanities, natural sciences, and social sciences.

Our ongoing efforts to renew the University Core Curriculum aim to ensure that engagement with the Core “broadens the intellectual horizons of students; introduces them to the best of contemporary pedagogy, research, and teaching; promotes their integration of knowledge, beliefs, and actions; and prepares them for lives of freedom, integrity, leadership, and service” (*The Vision Animating the Boston College Core Curriculum*, 2014). Guided by this vision, students completing the University Core Curriculum will:

1. Demonstrate the critical, mathematical, informational, analytic, expressive, and creative skills that are essential tools of the educated person well prepared for a meaningful life and vocation.
2. Understand the major ideas and methods of inquiry of the scholarly disciplines that comprise the University and be able to use them as beginning practitioners to address complex contemporary problems.
3. Be able to identify and articulate the strengths and limitations of the disciplines and the relationship of the disciplines to one another, and demonstrate an understanding of the breadth and diversity of human knowledge as well as its openness to integration in more comprehensive wholes.
4. Be conversant with and able to discuss intelligently enduring questions and issues that are fundamental to human inquiry and that have shaped the traditions from which the University has emerged.
5. Demonstrate the ability to apply more than one disciplinary perspective to the same enduring question or complex contemporary problem.
6. Be familiar with the scholarly exploration of religious faith and understand how faith and reason are related in the search for truth.
7. Demonstrate the ability to examine their values and experiences and integrate what they learn with the principles that guide their lives.
8. Be prepared and disposed to use their talents and education as engaged global citizens and responsible leaders in service of the common good.

For more information on University Core Curriculum at Boston College, please visit bc.edu/core.

Cross Registration

Woods College of Advancing Studies

All full-time undergraduate students are limited to one Woods College of Advancing Studies (WCAS) course each semester. Freshmen may not enroll in any WCAS course.

WCAS courses can be used to fulfill elective requirements. Students must check with the appropriate department if they want to inquire about using about the possibility of using a Woods College of Advancing Studies course to fulfill a Core or major requirement. Any exception to this policy must be made with the appropriate department and Academic Dean’s approval.

Boston Theological Interreligious Consortium

The Boston Theological Interreligious Consortium (BTI), a consortium of theology faculty primarily in the Boston-Newton-Cambridge area, has as its constituent members the following institutions:

- Boston College’s Department of Theology
- Boston College’s School of Theology and Ministry
- Boston Islamic Seminary
- Boston University Graduate Program in Religion
- Boston University School of Theology
- Gordon-Conwell Theological Seminary
- Hartford International University for Religion and Peace
- Harvard Divinity School
- Hebrew College
- Holy Cross Greek Orthodox Seminary

- St. John's Seminary and Theological Institute

This consortium offers complete cross-registration in several hundred courses, the use of library facilities in the nine schools, joint seminars and programs, and faculty exchange programs. This program is only available to graduate students in a Theology program or in the School of Theology and Ministry.

Students who want to cross register through the Boston Theological Interreligious Consortium should visit the [Boston Theological Interreligious Consortium](#) website to create an account and submit a cross registration request. Students are expected to consult with their advisor or department chairperson before cross registering. Graduate Theology majors may take up to half of their courses through BTI.

The Consortium

Under a program of cross registration, sophomores, juniors, and seniors may take one elective course during each fall and spring semester at Boston University, Brandeis University, Northeastern University, Regis College, or Tufts University if a similar course is not available at Boston College. Cross registration forms are available in the Office of Student Services, Lyons Hall.

Dean's List

The Dean's List recognizes the achievement of undergraduates, semester by semester. Students will be classified into two groups: First Honors (3.700–4.000) and Second Honors (3.500–3.699).

In order to be eligible for the Dean's List, students must earn at least 12 or more credits in courses evaluated with a letter grade, excluding the P (pass) grade, and receive a passing grade in all courses. Students who have withdrawn from or failed a course and students who have received an incomplete grade (see Grading section) will not be eligible for the Dean's List.

Degree Audit

A degree audit is a computer-generated analysis that enables an undergraduate or law student and his or her advisor to assess the student's academic progress and unfulfilled requirements. Students in the Woods College of Advancing Studies can meet with an advisor to review their progress at any time.

The degree audit is a valuable tool for academic planning because it matches the courses that the student has taken with the requirements of his or her degree program or anticipated program. Students receive degree audits each semester prior to registration and have access to actual and simulated degree audits at bc.edu/myervices ("Degree Audit"). Students are responsible for completing all the requirements listed on the degree audit prior to graduation.

Degree with Honors

Academic honors printed in the Commencement program are based on averages at the end of the second semester senior year.

Starting with the class of 2021, the cumulative average for degrees with honors will be as follows:

- *summa cum laude* (with the highest honors)—3.9–4.0
- *magna cum laude* (with high honors)—3.8–3.899
- *cum laude* (with honors)—3.667–3.799

Prior to the class of 2021: The *summa cum laude* was awarded to the top 4.5 percent of the graduating class, *magna cum laude* to the next 9.5 percent, and *cum laude* to the next 15 percent.

Enrollment Status

Undergraduate Full-Time Enrollment Status

To be considered full-time, students must be registered for courses totaling at least 12 credits per semester. At least 9 of the credits must be in courses of 3 credits or more. Ordinarily, students should average 15 credits per semester with a target of completing 30 credits per academic year.

Woods College of Advancing Studies students must be enrolled in 12 credits to be considered full-time.

Undergraduate Part-Time Enrollment Status

Visiting or special students may enroll in one, two, or three courses each semester through the Woods College of Advancing Studies. Additional courses require the Dean's approval.

External Courses

After admission to Boston College, the only courses that a student may apply towards a degree will be those offered at Boston College in a regular course of study during the academic year. Any exceptions to this rule must be approved in writing by the Academic Dean before the courses are begun. Exceptions may be granted by the Academic Dean for official cross-registration programs, external summer study abroad and certain special study programs at other universities.

A student must earn a grade of C- or better to receive credit for any course taken at another university. In some instances, the Academic Dean may stipulate a higher grade. After the course has been completed, the student should request that the registrar at the host university forward an official transcript to the Office of Student Services at Boston College.

Final Examinations

The final examination schedule for most courses is set before classes begin. It is available to the public, and students are responsible for consulting it. A student who misses a final examination is not entitled, as a matter of right, to a make-up examination except for serious illness and/or family emergency. No student should make travel arrangements to return home which are at odds with his or her examination schedule. Students who schedule a departure without regard to their schedules risk failure in their final examinations.

Courses with multiple sections may have common departmental final examinations at a date and time determined by the Office of Student Services. Students with three final examinations scheduled for the same day are entitled to take a make-up exam at a later date during exam week. If one of the three exams is a common departmental exam, this is the exam that is taken at the later date.

In the Graduate School of the Morrissey College of Arts and Sciences, seminars and teacher-training courses may or may not have a semester examination at the discretion of the instructor.

No exams or final assignments are to be scheduled during the Study Days designated on the Academic Calendar.

Language Proficiency Requirements

The study of language, literature, and culture other than one's own enables the Jesuit-educated student to appreciate the world better, to seek commonalities, and honor cultural differences. Therefore, students in the Morrissey College of Arts and Sciences will demonstrate intermediate-level proficiency in a foreign or classical language in order to graduate from Boston College. Intermediate proficiency is defined as completing the fourth semester of a language. Students continuing a language previously studied will take one to four courses, depending on their placement. First-year students should begin/complete the language requirement during their first semester.

The Advanced Placement (AP) test scores below demonstrate intermediate-level proficiency at Boston College.

Subject Test	AP Score
--------------	----------

Chinese	4
French	3
German	4
Italian	3
Japanese	4
Korean	N/A
Latin	4
Modern Hebrew	N/A
Spanish	3

If you have taken the AP Test but have not yet received your score, take the placement test and register for the course recommended when you complete the test. When you receive the AP score, you may make necessary changes. If you have questions, speak with the language advisor at your registration session.

Other Exams and Exam Score Minimums

- British A levels: Languages other than English A/B/C levels
- International Baccalaureate: Higher level foreign or modern classical language 6 or 7
- General Certificate of Education: German A level
- DELE exams (Diplomas de Español como Lengua Extranjera): B1 or higher level
- Successful demonstration of native proficiency by documentation. Documentation of native proficiency ordinarily assumes evidence of post-elementary school education in the native language.

Fulfillment of the proficiency requirement by the examinations listed above does not confer course credit.

Course Work Meeting Language Proficiency Requirement

- Successful completion of the second semester of an intermediate-level Boston College modern or classical language course
- Successful completion of one Boston College modern or classical language course beyond the intermediate level

Students may not take foreign language courses on a pass/fail basis until they have completed the university's language proficiency requirement. Language courses will count as Morrissey College of Arts and Sciences electives. Students with documented learning disabilities may be exempt from the foreign language requirement and should consult with the Connors Family Learning Center (bc.edu/connors).

Grading

The grading system consists of 12 categories, as follows: A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F. A is excellent; B is good; C is satisfactory; D is passing but unsatisfactory; F is failure.

Students who withdraw from a course after the drop/add period will receive a grade of W. The grade of W is not included in the calculation of the grade point average.

Students in the Connell School of Nursing must achieve a grade of C- or higher in designated nursing courses, or they will be required to retake the course.

With the approval of the Academic Dean of their school or college, students may be permitted to take courses for enrichment. Courses approved for enrichment only, may, with the approval of the relevant department, go toward fulfilling a Core, major, or minor requirement. However, grades for courses taken for enrichment are not computed into the cumulative average and are not counted toward the total course or credit requirement for graduation.

A student's cumulative average is based on grades in courses taken in the full-time program at Boston College, plus other courses specifically approved for credit towards the degree by the Academic Dean. If a student fails a course, the course is not credited toward the degree, but the failing grade remains on the student's transcript and a 0.0 is calculated into the student's cumulative average. A failed course may be retaken for credit, with the new grade added to the GPA, but the original failure remains on the transcript and continues to be counted in the GPA. If a student retakes a failed course and fails it again, the course is again entered on the transcript and the grade is counted in the GPA. If a student retakes a course in which she or he has already received a passing grade, the repeated course is again entered on the transcript and the grade is calculated in the cumulative GPA, but the course is not credited toward the degree.

Grades will be posted at bc.edu/myservices ("Current Courses and Grades") at the close of each semester. Any student who believes there is a grade discrepancy on a semester grade should resolve the discrepancy with their professor within the first six weeks of the following semester.

Grading Scale

In computing averages, the following numerical equivalents for the twelve (12) letter grades are used:

- A 4.00
- A- 3.67
- B+ 3.33
- B 3.00
- B- 2.67
- C+ 2.33
- C 2.00
- C- 1.67
- D+ 1.33
- D 1.00
- D- .67
- F .00
- P No effect on GPA
- U No effect on GPA

Student Work and Assessment

The grading of student work serves as the primary means of individual evaluation; additionally, student work generally may be used to assess course, program, and the related, learning outcomes in support of continuous improvement.

Incomplete and Deferred Grades

All required work in any course must be completed by the date set for the course examination. A student who has not completed the research or written work for a course taken in the fall or spring semester or is absent from the course examination in either semester, may, with adequate reason and at the discretion of the instructor, receive a temporary grade of Incomplete (I). All such I grades will automatically be changed to F on March 1 for the fall, August 1 for the spring, and October 1 for the summer.

After that time, generally no further grade change will be allowed.

A faculty member may only assign a grade of J for a 2-semester course when the grade in the first semester is dependent on the grade issued at the end of the semester. The J grade has no GPA value. Instructors should assign a grade for each semester at the end of the second semester. Such courses may include an Internship, Dissertation Direction, or Student Teaching.

Pass/Fail

Sophomores, juniors, and seniors may elect to designate a course as pass/fail before the deadline. The deadlines are November 1 for the fall and April 1 for the spring. Only electives can be taken pass/fail. Courses being used to fulfill major, minor, Core, or corequisites **cannot** be taken pass/fail.

Second-semester freshmen who have been approved by their Academic Dean for an overload of a sixth course of 3 credits or more may take that course on a pass/fail basis, in which case the course may not be used to fulfill a major, minor, Core requirement, or corequisites.

No more than one course of 3 or more credits may be taken pass/fail in any semester. No student may take more than six pass/fail courses of 3 or more credits for credit toward a degree.

Courses in the Carroll School of Management may not be taken on a pass/fail basis. Departments may designate some courses as not available in general for pass/fail enrollment.

Students may not take foreign language courses on a pass/fail basis until they have completed the University's language proficiency requirement. Any foreign language course being used to fulfill a major, minor, Core, or corequisite cannot be taken pass/fail.

A student enrolled in a course on a pass/fail basis who earns a grade of D- or higher will receive a grade of Pass for the course.

Pass/Fail Option for 1-Credit Courses in the Major

At the discretion of the school or department, some 1-credit courses that are required for a major or minor may be offered on a pass/fail basis only (e.g., practica, performance).

Grade Change

Grade changes should be made only for exceptional reasons. For all students, the grades submitted by faculty at the end of each semester are considered final unless the faculty member has granted the student an Incomplete to provide time to finish his or her course work. Such Incompletes should only be granted for serious reasons, e.g., illness, and only when the student has been able to complete most of the course work but is missing a specific assignment, e.g., a final paper, an examination, etc. Incompletes are not to be granted to allow the student to complete a major portion of the course work after the end of the semester.

Graduation, Advanced Standing, and Acceleration

Students are expected to satisfactorily complete eight semesters of full-time study (excluding summer terms) in order to earn the bachelor's degree. The University awards degrees in May, August, and December of each year, although commencement ceremonies are held only in May. A diploma will not be dated before all work is completed. Students who graduate in December may participate in commencement exercises the following May. In order to ensure timely clearance, all students who plan to graduate should confirm their diploma names online.

With permission from the student's Academic Dean, there are two ways the time to degree can be shortened (accelerated): (1) by qualifying for Advanced Standing or (2) by completing all requirements in less than 8 full-time semesters. Details of these two paths are given below.

Advanced Standing

Beginning with the Class of 2024: Students who earn a minimum of 30 Advanced Placement units may be eligible for Advanced Standing and complete their undergraduate studies after six semesters of full-time study. Ordinarily, Advanced Standing is for one full year only. Students interested in this option should be in touch with their Academic Dean no sooner than the completion of their first semester at BC. No decisions on Advanced Standing will be made prior to this time. Students seeking Advanced Standing must be able to complete all degree requirements by the proposed graduation date and be approved for Advanced Standing by the Academic Dean before the start of the third year of undergraduate study. No more than 30 Advanced Placement units may be credited toward the degree.

For further details, visit bc.edu/advancedplacement.

Acceleration

After being in residence for at least three semesters, and no later than the end of the drop/add period in the seventh semester, full-time undergraduate students may apply to their Academic Dean to accelerate their degree program by one semester. The following conditions apply:

- Summer courses intended for acceleration must be taken at Boston College.
- Any credits attempted over 15 in a semester used for acceleration are charged the per credit rate for the semester they are taken. Students receiving financial aid should consult their financial aid counselor to determine the impact of accelerating before officially applying for acceleration.
- Students transferring into Boston College with first-semester sophomore status or above are not eligible to accelerate their program of study.
- Students in the 4-4-2 program through Disability Services are not allowed to accelerate.
- Students who have elected to take Advanced Standing are not eligible to accelerate their graduation further.

Internal Transfers

Matriculated students wishing to transfer from one undergraduate college to another within Boston College should contact the Academic Dean's Office of the school to which admission is sought. Students may be eligible to apply for an internal transfer to a new division after: one semester for those seeking a transfer to Morrissey or Lynch, two semesters to Connell, and three semesters to Carroll. Transferring internally is not guaranteed and selectivity varies by division; interested students should complete the Internal Transfer Form found on the [Academic Forms](#) page. WCAS students interested in transferring into Morrissey, Lynch, CSON, or CSOM must apply to do so through the Office of Undergraduate Admission.

[Leave of Absence Checklist](#)

Leave of Absence

There may be times—due to personal, medical and/or other reasons—when an undergraduate student may need or want to take a leave of absence from the University. This policy describes the process to take and return from a leave of absence as well as addresses additional expectations and questions about the process.

Taking a leave of absence can be a difficult decision and the University wants to support students as they consider taking a leave. We encourage students to outreach to their Undergraduate Associate Dean of their school or college ([MCAS](#), [CSOM](#), [LSEHD](#), [CSON](#), or [WCAS](#)) to ask questions, discuss options, and be referred for additional support if needed.

Undergraduate students may take either a personal or medical leave. In order to request a leave of absence, students must complete the [Withdrawal/Leave of Absence Form](#) and indicate whether they are taking a personal or medical leave of absence. In addition, residential students must complete a housing cancellation form.

General Policies

Classes and Tuition

Students who take a personal leave of absence once classes have started will be withdrawn from those classes and receive "W"s on their transcript for those classes. Students may be eligible for a [tuition refund](#) depending on the date of the requested leave of absence.

In some cases, students may not be eligible for the full amount of their financial aid package if they do not complete the semester. Fees are non-refundable. Residential Hall charges and Meal Plans are canceled based on the day students move out and in accordance with Residential Life policies. Students may be eligible for a housing and/or meal plan refund depending on the date of the requested leave of absence; this schedule follows the tuition refund schedule. Please contact [Residential Life](#) for further details.

If a student takes a leave of absence during the 100% tuition refund period, any classes they are registered for will be dropped and not appear on transcripts.

Registering for classes in future semesters: generally, students cannot register for classes while on a leave of absence. Please see the readmission process section below regarding registering for future classes.

On-Campus Housing

Students cannot remain in University housing once they have taken a leave of absence and cannot participate in room selection while on leave. Students taking a leave should also complete a housing cancellation form through the Agora Portal: Agora > Other Services > My Reslife > Forms. Please see the [Residential Life Conditions of Residency](#) for details. Please see the readmission process section below regarding participating in the room selection process.

Personal Leave of Absence

A **personal leave of absence** may be taken for any reason. To request a personal leave of absence, students must complete the [Withdrawal/Leave of Absence Form](#) no later than the [semester's last date for a withdrawal from the University](#).

While on a leave of absence, students:

- Cannot take courses at BC or another university to advance their degree or maintain their original graduation date at Boston College without obtaining prior approval from their Undergraduate Academic Associate Dean's Office.
- Will have their graduation term adjusted to reflect their new anticipated graduation date.
- Normally, a student returning from a leave of absence may not regain their original graduation date.
- May not participate in BC extracurricular activities.

Medical Leave of Absence

A **medical leave of absence** may be taken because of a student's medically documented illness, including physical and/or mental health. Once your request and the supporting documentation have been reviewed, the Directors of UCS and UHS will make a recommendation to your academic dean regarding the medical leave of absence.

Physical Health

To request a physical health leave of absence, students must take the following steps.

- Complete the [Withdrawal/Leave of Absence Form](#).
- Complete the [Authorization for Release of Medical Information](#) form and submit it to [University Health Services \(UHS\)](#).
- Request that a licensed health provider submit a statement to Boston College indicating
 - Your diagnosis;
 - a proposed treatment plan;
 - a recommendation for the anticipated length of the leave (when possible).

A licensed health provider must submit this statement to the [Director of University Health Services \(UHS\)](#).

Both the Withdrawal/Leave of Absence Form and your provider's statement must be submitted to the Director of UHS no later than [the semester's last date for a withdrawal from the University](#). **Permission for a medical leave after that deadline is rare and requires additional documentation.**

Mental Health

To request a mental-health leave of absence, students must take the following steps.

- Complete and submit the online Withdrawal/Leave of Absence Form.
- Complete the [Authorization to Release/Exchange Information](#) form and submit it to [University Counseling Services \(UCS\)](#).
- Request that a licensed health provider submit a statement to Boston College indicating
 - your diagnosis;
 - a proposed treatment plan;
 - a recommendation for the anticipated length of the leave (when possible).

A licensed health provider must submit this statement to the [Director of Counseling Services \(UCS\)](#).

Both the Withdrawal/Leave of Absence Form and your provider's statement must be submitted to the Director of UCS no later than [the semester's last date for a withdrawal from the University](#). **Permission for a medical leave after that deadline is rare and requires additional documentation.**

Classes and Tuition

- Students approved for a medical leave of absence may also be eligible to receive a tuition credit. If a student is eligible for a tuition credit, it will be applied only during the semester they return as a full-time student to Boston College.
- The student's bill for the semester in which they are taking the leave must be paid in full in order to be eligible for a tuition credit.
- Students are eligible to receive a tuition credit only **once** during their tenure at Boston College.
- Students must use a tuition credit within 3 years of the semester in which they took the leave. After that three year period, the tuition credit is voided. In NO case will money be refunded in lieu of the tuition credit.
- Tuition credits are not transferable to siblings.
- Tuition credits are not guaranteed and are granted based on the medical circumstances. Generally, students cannot register for classes while on a leave of absence. Please see the readmission process section below regarding registering for future classes.

While on a medical leave of absence, students:

- Cannot take courses at BC or another university to advance their degree or maintain their original graduation date at Boston College without obtaining prior approval from their Academic Associate Dean's Office. In instances where students are deficient in credits, they may request prior approval from their Academic Associate Dean's Office to take limited courses to address those deficiencies while on leave. Taking classes at the Woods College must be approved by the WCAS Associate Dean's Office.
- Will have their graduation term adjusted to reflect their new anticipated graduation date. Normally, a student returning from a leave of absence may not regain their original graduation date.
- May not participate in BC extracurricular activities while on leaves of absence.

Requesting Readmission from a Leave of Absence

When you can request readmission: Students on a leave of absence must request to be readmitted no later than August 1 for the fall semester and December 1 for the spring semester. To make this request, students must complete the [online form for readmission](#). This form will be transmitted to their Undergraduate Academic Associate Dean.

If students wish to participate in course registration, or room selection upon return from a leave, the deadlines are earlier. Students can not participate in the room selection process during the spring semester unless they are already readmitted for the fall semester.

Final Deadline	Fall Semester	Spring Semester	Summer Session
To return	August 1	December 1	April 15
To participate in course registration	April 1	November 1	February 15
To participate in the room selection process	February 1	December 1	N/A

Additional information regarding returning from a medical leave: when a student takes a medical leave of absence, the Directors of UCS/UHS will provide a recommended length of leave. Generally, Boston College recommends students on medical leave follow that recommendation to ensure that a student can obtain adequate treatment and demonstrate readiness to return.

For a physical health leave of absence: your licensed health provider must provide documentation regarding your readiness to return to BC to the [Director of UHS](#). You must also submit a [Release of Information for Return from Medical Leave](#).

For a mental-health-related leave of absence: your licensed mental health provider must submit the [Readmission to Boston College from Medical Leave of Absence](#) form to the [Director of UCS](#). You must also submit a [Release of Information for Return from Medical Leave](#) and complete the student section as well.

The Director of UHS or UCS will collect documentation supporting the application for readmission. They may seek additional information and/or request a conversation with the student or treatment provider. The Director will make a recommendation to the appropriate Undergraduate Academic Associate Dean, whose decision will be final.

Majors, Minors, and Concentrations

Majors

A major is a systematic concentration of at least 30 credits taken in a given academic discipline that enables a student to acquire a more specialized knowledge of the discipline, its history, its methodologies and research tools, its subfields, and the areas of concern in which the discipline is presently involved. This is done by means of a hierarchical sequence of courses or appropriate distribution requirements. In order to earn a major, students must have at least 27 credits in the major program that are not used to fulfill requirements for another major or minor.

Minors

Morrissey College of Arts and Sciences

Some departments offer a departmental minor for students who wish to complement their major with intensive study in another area. A departmental minor consists of at least 18 credits. These must include one introductory level course and at least one upper-level course or seminar. *In order to earn a departmental minor, students must have at least 15 credits in the minor program that are not used to fulfill requirements for another major or minor.* Students carrying a double major are advised not to minor.

For a complete list of minors visit the [Majors and Minors](#) page.

Interdisciplinary minors in the Morrissey College of Arts and Sciences must consist of at least 18 credits and must include either a required introductory course or a concluding seminar or project. (Note: Some programs require both.) *In order to earn an interdisciplinary minor, students must have at least 15 credits in the minor program that are not used to fulfill requirements for another major or minor or a Core requirement.* The list and description of the interdisciplinary minors is available in the Morrissey College of Arts and Sciences section of this Catalog. Students choose courses for the minor in consultation with the director of the department's minor program.

Lynch School of Education and Human Development

Lynch School majors may minor in Special Education. Some Lynch School Elementary and Secondary Education majors are eligible to minor in Middle School Mathematics Teaching.

Further information on these minors is available in the Lynch School of Education and Human Development section of the University Catalog.

Connell School of Nursing

CSON students may pursue a Hispanic Studies minor, a Psychology minor, or a Medical Humanities, Health, and Culture minor specifically for Nursing students by contacting the Academic Dean, Undergraduate Nursing Program. Six courses (18 credits) are required to complete the minor. Full details are available on the [CSON website](#).

Carroll School of Management

Students in the Carroll School of Management may select any minor offered by the Morrissey College of Arts and Sciences.

For a complete list of minors visit the [Majors and Minors](#) page.

Concentrations

Carroll School of Management (CSOM)

Concentrations, or areas of specialization, are required for students earning degrees from Carroll School of Management and are available to Carroll School of Management students only. Most concentrations require four courses beyond the Core. However, some require five. Students must complete a concentration in one of the following areas: Accounting, Accounting and Information Systems, Accounting for Finance and Consulting, Business Analytics, Economics, Entrepreneurship, Finance, General Management, Information Systems, Management and Leadership, Managing for Social Impact and the Public Good, Marketing, or Operations Management. Students declare a concentration second semester sophomore year or during the junior year.

Overloads

The standard semester course load for undergraduates is five 3-credit courses and a maximum of 20 credits, including labs and other 1- or 2-credit courses. Students are eligible to overload if they have earned at least a 3.0 overall cumulative GPA or a 3.0 GPA in the semester immediately prior to the one for which the overload is sought, in which case they may register online for a sixth course of 3 credits or more and a maximum of 24 credits, including labs and other 1- and 2-credit courses, starting on the Friday before the first day of classes for the semester.

Students are not permitted to take a sixth course of 3 credits or more during their first semester at Boston College. Second-semester freshmen who wish to overload with a sixth course of 3 credits or more must obtain permission from their Academic Dean.

Students with an overall cumulative GPA between 2.0 and 3.0 may, under exceptional circumstances, be allowed by their Academic Dean to enroll in a sixth course.

Students in a Woods College of Advancing Studies degree program may take a maximum course load of three courses per semester. Authorization for one additional course will be given only if the student has completed three courses in the previous semester, each with a grade of B- or better. Additional courses require authorization. Courses taken without reference to this regulation do not advance a student's Woods College degree program.

Readmission

Students who desire readmission must initiate the process in the Office of the appropriate Academic Dean of their school or college. Applications for readmission should be made at least four weeks before the start of the semester in which the student seeks to resume study. The appropriate Academic Dean will then make the decision about readmission, after careful consideration of the best interests of both the student and the University.

In instances where a sustained period of time (more than one year) has elapsed since a student was last enrolled, the appropriate Academic Dean in consultation with the appropriate representative of the student's department or program will identify the academic requirements, if any, that must be completed after readmission and before awarding the degree. Factors that will determine these requirements include, but are not limited to: the currency of the student's knowledge in the student's proposed academic major(s); the pertinence of courses completed at Boston College to current degree and licensure requirements; any academic work completed elsewhere that is relevant to degree and licensure requirements; and the length of the student's absence.

If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student's readmission to full-time study will apply, unless the Academic Dean specifies otherwise in writing at the time of readmission.

Satisfactory Academic Progress

The requirements for Satisfactory Academic Progress are specified in the academic regulations for each school.

Study Abroad—Office of Global Education

Boston College global programs are open to BC undergraduate students who meet the requirements for study abroad as outlined by their Academic Dean. To be eligible for admission, students must be in good academic standing with a GPA of 3.0 or higher and have a clean disciplinary record. Final approval is at the discretion of the OGE, deans, and Student Affairs. Many programs have additional requirements and a selective application process; students should consult with the OGE for specific admission requirements. Boston College approves an

equal number of students for study abroad in the fall and spring semesters, and not all applicants can be approved for their preferred term. Students should plan accordingly.

Students remain subject to the academic policies of their home department as well as the host institution. They are expected to register for a full course load as defined by BC and the host university in order to earn a full semester's worth of credit.

A student's enrollment in a program of study abroad approved for credit by the home institution may be considered enrollment at the home institution for the purpose of applying for assistance under the Title IV, HEOA programs.

In addition to semester/year programs, BC also offers a selection of 25-30 summer faculty-led programs and internships abroad each year, with separate eligibility and application requirements (see OGE/Summer website for details). Summer programs are available to all students in good academic and disciplinary standing, to participate as early as the summer after their freshman year. The University also welcomes external student participants on a number of summer programs.

Summer Courses

As of summer 2018, summer courses taken at Boston College count for academic credit and all grades earned are factored into students' GPA as regular BC courses. Courses may satisfy Core or major/minor requirements as specified by the department, and will count toward the 120 credits required for the degree. A maximum of 4 courses (12–13 credits total) can be taken in the summer.

BC Summer Courses Abroad

BC summer courses taken abroad through the Office of International Programs (OIP) are factored into students' GPA as regular BC courses, and count for academic credit.

Summer Courses at Other Institutions

Summer courses taken at another university—local, national, international—, must be pre- approved from the Academic Dean using the Course Approval Form. Students will also need departmental approval if they want the summer course to fulfill a Core, language, major, or minor requirement. These summer courses may count for academic degree credit and grades will factor into the GPA if students have credit deficiencies. Students will receive enrichment credit if there is no prior credit deficiency. Enrichment credit means that the course may satisfy Core or major requirements with department permission, but will not count toward the 120 credits required for the degree. Courses, grades, and credits will be listed on the transcript but will not be calculated into the GPA. With the approval of the Academic Dean, students who incur deficiencies may use enrichment courses in previous summers to make up for deficiencies incurred subsequently.

Transcripts

All current students submit requests for academic transcripts at bc.edu/myservices ("Transcript Request and Status"). Alumni should visit bc.edu/transcript for direction on the transcript request process. Students and alumni will be directed to the National Student Clearinghouse transcript fulfillment website as our vendor for transcripts. For more information visit bc.edu/transcript.

Requests are usually processed within 48 to 72 hours of receipt.

Transcript/Diploma Holds

Diplomas will not be issued, nor transcript requests honored, for any student with an outstanding financial obligation to the University. The same policy applies to any student who does not complete the required loan exit interview.

Transfer of Credit

The unit of credit at Boston College is the semester hour. Most courses earn 3 semester hours of credit. Lab sciences usually earn 4 semester hours of credit. Courses in transfer with credit values ranging from 1–4 semester hours of credit will be considered on a course by course basis. A maximum of 30 credit hours for a first semester sophomore, 45 for a second semester sophomore and 60 semester hours of credit for an incoming junior will be allowed in transfer.

No transfer credit will be granted for internships, field experiences, practica, or independent study.

Grade point averages do not transfer with students. A new grade point average begins with the commencement of a student's career at the University and reflects only work completed as a full-time undergraduate at Boston College. A new grade point average also begins when students transfer from the Woods College of Advancing Studies to one of the full-time undergraduate schools or when a full-time undergraduate transfers to the Woods College of Advancing Studies.

Courses taken at other institutions during the summer prior to enrollment at Boston College must be approved in advance by the Office of Transfer Admission. Courses taken through the Boston College Summer Session during the summer prior to enrollment must be approved by the appropriate Academic Dean.

Once a student matriculates, courses may not be taken concurrently at other institutions for credit or enrichment in a Boston College undergraduate degree program.

University Communication Policies and Student Responsibilities

Official communications of the University with its currently-enrolled students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

Postal service and Campus mail: For purposes of written communication, the student's local and permanent addresses on record at Student Services will be regarded as the student's official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses, and to enter corrections at bc.edu/myservices ("Update Your Address/Phone/Emergency Contact Information") if the addresses are not accurate in university records. Students should review their address record for accuracy at the beginning of each semester, and again soon after submitting any corrections.

Students who are studying abroad have a responsibility to provide their local international address via a link on the Office of International Programs website.

E-mail: The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with Boston College e-mail addresses, as well as access to e-mail services from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

All student responses to official e-mail communications from the University must contain the student's Boston College e-mail address in the "From:" and "Reply To:" lines, and should originate from the student's Boston College e-mail address, to assure that the response can be recognized as a message from a member of the University community.

Students may forward their e-mail messages from their Boston College e-mail address to non-university e-mail systems, if they wish. In such cases, however, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

University Degree Requirements

The requirements for the bachelor's degree in the undergraduate day colleges are the completion with a satisfactory cumulative average (at least 1.5 in the Carroll School of Management and at least 1.667 in all other schools) and credit requirements which are distributed as follows:

- Morrissey College of Arts and Sciences students must accumulate at least 120 credits with 96 of the required 120 credits in departments of the Morrissey College of Arts and Sciences. Additional courses may be chosen from the offerings of the professional schools. Students in the Morrissey College of Arts and Sciences complete the Core curriculum, a major of at least 30 credits, and the language proficiency requirement distributed over eight semesters of full-time academic work.
- Carroll School of Management students complete 120 credits for graduation. All Lynch School of Education and Human Development majors complete 120 credits distributed over eight semesters of full-time academic work.
- Connell School of Nursing students complete at least 117 credits distributed over eight semesters of full-time academic work.

Withdrawal from a Course

Undergraduates only may drop a course at a later date in their Academic Dean's office. Please see the [Academic Calendar](#) for the deadline. Students may not drop below 12 credits in a semester.

After the extended drop period, undergraduates who withdraw from a course will have a "W" recorded in the grade column of their academic record. A grade of W has no effect on the GPA. A student may re-take a course for which a W has been recorded, in which case both the W and the subsequent grade are entered on the academic record.

To withdraw from a course all students must go to the [Academic Forms](#) page of the [Student Services](#) website, submit the online form that will then be routed, to the Office of the Academic Dean for their school for review. Students will not be permitted to withdraw from courses after the published deadline. Students who are still registered at this point will receive a final grade for the semester.

Withdrawal from Boston College

Students who wish to withdraw from Boston College in good standing are required to submit an online Withdrawal Form, found on the [Academic Forms](#) page of the [Student Services](#) website, which will be routed to the appropriate Academic Dean's Office for processing. In the case of students who are dismissed for academic or disciplinary reasons, the Academic Dean will process the withdrawal.

University (Senior) Awards and Honors

Morrissey College of Arts and Sciences

Frank J. Bailey, Sr. Award

An award, the gift of the Bailey family, in memory of their father Frank J. Bailey, given to the graduating senior with a distinguished academic record in the field of Middle Eastern and Islamic Studies.

John Bapst, S.J., Philosophy Award

An award in honor of John Bapst, S.J., given to the student whose overall performance in philosophy courses has been outstanding.

J. Robert Barth, S.J., Award for Excellence in the Arts

An award in honor of the Dean of the Morrissey College of Arts and Sciences (1988–1999), who established and nurtured departments and programs in the arts. This award is presented annually to a senior who has made outstanding contributions to Boston College in the fine or performing arts.

Andres Bello Award in Spanish

An award offered by Dr. Philip C. Garber, Consul of Chile in Boston, given to a senior who has excelled in Spanish.

George F. and Jean W. Bemis Award

An award in memory of George Fisher Bemis (1899–1971) and Jean Wilmot Bemis (1903–1987) of Milton, MA, a devoted couple quietly of service to others and with whom it was a delight to work. The award seeks to single out a member of the senior class distinguished for service to others.

Albert A. Bennett Award

In honor of Albert A. Bennett (1888–1971), an accomplished mathematician, distinguished teacher, and a Visiting Professor of Mathematics at Boston College from 1962–1971. This award is given to a member of the senior class, who demonstrates a high level of mathematical achievement and who, in their undergraduate years, has shown interest in or a desire for a career in teaching.

Wendy Berson Language Award

An award, the gift of Mrs. Solomon Berson in memory of her daughter, Wendy Berson, given to the senior who demonstrates excellence in the area of Romance Languages in general and, specifically, the ability to speak one or more languages with great expertise.

Laetitia M. Blain Award for Excellence in Musical Performance

An award named in honor of Laetitia M. Blain, Musician-In-Residence at Boston College (1975–2000). This award is given annually to a senior who has contributed to the musical life on campus in a significant and outstanding way.

Alice E. Bourneuf Award

In honor of Alice E. Bourneuf, Professor of Economics at Boston College (1959–1977), this award is given to an outstanding senior in Economics based on achievement in both major and non-major courses, strength of curriculum, quality of written and creative work, and attitude toward the study of Economics.

Francis A. Brick Award

An award, the gift of Mrs. Francis A. Brick, in memory of her husband, Francis A. Brick, LL.D. 1896, given to the student who has been outstanding in character, loyalty, leadership, and scholarship during their four years at Boston College.

The Dr. Donald S. Brown Award

The Donald S. Brown Award was established in honor of the former director of the Office of AHANA Student Programs from 1978 to 2005. This award honors a senior who throughout their undergraduate career has made extraordinary contributions to the Boston College community in ways that have benefited AHANA students in the areas of leadership, service and academic development.

Donald S. Carlisle Award

An award established by the Department of Political Science in memory of Donald S. Carlisle, Professor of Political Science at Boston College (1968–1997), given each year to a graduating senior for outstanding achievement in political science.

Normand Cartier Award

The Normand Cartier Award is given to a senior who is a member of the Lambda Psi Chapter of the Pi Delta Phi National French Honors Society and has demonstrated leadership in promoting French and francophone literature and culture in the Boston College community.

Brendan Connolly, S.J., Award

An award in honor of Brendan Connolly, S.J. (1913–1974), Director of Libraries at Boston College (1959–1974), a witty and deeply loyal man who loved books and respected learning. This award is given to a member of the senior class who is distinguished for the same characteristics.

Matthew Copithorne Scholarship

An award given to a graduate, exhibiting qualities of character, industry, and intelligence, and who plans to do graduate study at Harvard or MIT.

Cardinal Cushing Award

An award donated by Francis Cardinal Spellman, in honor of Richard Cardinal Cushing, given annually to an undergraduate student for the best writing in fiction published in a Boston College undergraduate publication.

Joseph G. and Margaret M. Dever Fellowship

Founded by Robert Muse, Esq. '42, in honor of his classmate, Joseph Dever, the cash grant is given to a graduating senior who shows promise of a career in writing.

John D. Donovan Award

An award named in honor of John D. Donovan (Boston College, A.B. 1939; M.A. 1941; Harvard, Ph.D. 1951), Professor of Sociology (1952–1988). The Department of Sociology presents this award to the undergraduate student who submits the best paper written for a course in sociology during the previous year.

Patrick Durcan Award

An award, the gift of Mrs. J. Greer, in memory of her brother, Rev. Patrick Durcan, given to the student whose overall performance in history courses has been outstanding.

Figurito Family Award for Scholarly Achievement in Italian

An award presented in honor of Joseph Figurito, Professor of French and Italian at Boston College for over half the twentieth century, to a senior for scholarly achievement in Italian.

Edward H. Finnegan, S.J., Award

An award in memory of Rev. Edward H. Finnegan, S.J., given to the student who has best exemplified in their four years at Boston College the spirit of the College motto, "Ever to Excel."

Mary A. and Katherine G. Finneran Commencement Award

An award, the gift of Misses Elizabeth and Theresa Finneran, given to the student who has achieved outstanding success in studies, while also devoting time and talents to other activities for the enrichment of the College and student life.

William A. Gamson Award

An award established by the Department of Sociology in honor of William A. Gamson, given each year to a graduating senior for outstanding academic achievement in sociology.

Thomas I. Gasson, S.J., Award

An award in honor of Thomas I. Gasson, S. J., President of Boston College (1907–1914), given to the graduating senior with a distinguished academic record over a four-year period.

General Excellence Award

An award, a gift of the Philomatheia Club, given to the student who has achieved general excellence in all branches of studies during their entire four years at Boston College.

Giffuni Prize

An award sponsored by the Giffuni Family Fund in honor of Vincent Giffuni (BC '65), given to a senior who has written an outstanding thesis in economics.

The George J. Goldsmith Award

An award given in memory of longtime Physics Department faculty member George J. Goldsmith, who is remembered for both his scholarship and his selfless dedication to the students of Boston College, this award is given annually to a graduating physics major in recognition of excellence in academic achievement and research.

John L. Heineman Award

This award was established by the History Department in honor of the late John L. Heineman, a challenging and inspirational colleague (1963–2003), a Renaissance man, and a master teacher. It is given each year to a graduating senior in recognition of exceptional historical scholarship.

Janet Wilson James Essay Prize

An award in memory of Professor Janet Wilson James, historian and feminist scholar, given to a senior distinguished for scholarship in women's studies.

The David A. Karp Award

An award in honor of David A. Karp, Professor of Sociology from 1971–2012. While leading the Sociology Honors Program, he inspired generations of students to strive for insightful sociological listening and beautiful writing that is the hallmark of his work.

William A. Kean Memorial Award

An award, the gift of James M. Kean in memory of his brother, William A. Kean '35, given to that member of the graduating class deemed the outstanding English major.

Bishop Kelleher Award

An award, donated by Francis Cardinal Spellman, in honor of The Most Reverend Louis F. Kelleher, given to an undergraduate student for the best writing in poetry published in a Boston College undergraduate publication.

William J. Kenealy, S.J., Award

An award in memory of the late William J. Kenealy, S.J., Dean of the Boston College Law School (1939–1956), whose life was distinguished by a passion for social justice. This award is given to the graduating senior who has been distinguished in both academic work and social concern.

T. Frank Kennedy, S.J., Award for Excellence in the Academic Study of Music

An award given in honor of the co-founder, long-term chair, and guiding spirit of the Music Department to an outstanding senior who has shown consistent excellence in the academic study of Music.

Joseph M. Larkin, S.J., Award

An award presented annually to the senior member of the Boston College Dramatics Society who has most clearly exhibited the qualities of dedication and integrity exemplified by the life and career of Rev. Joseph M. Larkin, S.J.

John Henry Lawton Award

An award presented in memory of John Henry Lawton, to the member of the senior class who has shown outstanding scholarship in the Department of Communication.

Allison R. Macomber, Jr., Award in the Fine Arts

Two awards established and supported primarily by gifts from the Horbach Fund for outstanding work in the Fine Arts in honor of Allison R.

Macomber, Jr., Artist-in-Residence at Boston College, 1963–1979, whose presence and teaching opened the eyes not only of his students but of the entire community to the greatness and wonders of art.

J. Paul Marcoux Award

An award in honor of J. Paul Marcoux, Professor of Theater at Boston College (1964–1994), presented annually to a senior Theater major for excellence and growth, both academically and artistically, over their four years at Boston College.

Richard and Marianne Martin Award

In memory of Richard and Marianne Martin for their dedication to the ideals of art, and for their unstinting devotion to the goals and values of Boston College. Two awards are given by the Boston College Friends of Art; one to an outstanding scholar in art history, the other to a student who excels in studio art.

Denis A. McCarthy Award

The Denis A. McCarthy Award is given to an undergraduate for outstanding work in creative writing.

John McCarthy, S.J., Award

An award established in memory of Rev. John McCarthy, S.J., a most beloved scholar, faculty member, and Dean in the Morrissey College of Arts and Sciences, for those whose Scholar of the College projects are deemed most distinguished in the humanities, the social sciences, the natural sciences and in history.

Gail A. McGrath Award

An award presented in memory of Dr. Gail A. McGrath, a beloved professor of Communication at Boston College (1966–1997), to a member of the senior class pursuing a graduate degree in Communication.

Albert McGuinn, S.J., Award

This award is in memory of the late Albert McGuinn, S.J., long-time Chairman of the Chemistry Department at Boston College, and presented to the senior candidate for the Bachelor of Science degree. The recipient has most successfully combined proficiency in a major field of study with achievements, either academic, extracurricular, or a combination of both, in the social sciences or humanities.

Henry J. McMahon Award

In memory of Henry J. McMahon, faculty member and Associate Dean at Boston College (1946–1984). This award is given annually to the graduating senior of the Morrissey College of Arts and Sciences who has been accepted at a law school and who has been distinguished by scholarship, loyalty, and service to the College.

The John J. Neuhauser Award in Computer Science

An award given to the senior in the Morrissey College of Arts and Sciences who has demonstrated outstanding achievement in computer science.

John F. Norton Award

An award in honor of John F. Norton '22, Boston College professor (1926–1965), given to the student who best personifies the tradition of humanistic scholarship.

Cardinal O'Connell Theology Award

An award, the gift of the late William Cardinal O'Connell, given to the student whose overall performance in theology courses has been outstanding.

The Thomas H. O'Connor Award

An award established by the History Department in honor of the late Thomas H. O'Connor, who taught in the department from 1950–1999, and who also served as Boston College University Historian. It is given each year to a graduating senior in recognition of outstanding achievement in the study of American history.

Princess Grace of Monaco Award

An award offered by Dr. Helene Day, Consul of Monaco, and Dr. Philip C. Garber, Consul of Chile in Boston, given to a senior who has excelled in French.

E. Paul Robsham Distinguished Service Award

An award given annually by the Theater Department to the graduating senior, who though seldom sharing the spotlight, has worked with exceptional professionalism, dedication, creativity and enthusiasm behind the scenes to bring the benefits of the theater to the Boston College community.

Paul J. Sally, Jr., Award

A cash award, in honor of Paul J. Sally, Jr., '54, '56, Professor of Mathematics at the University of Chicago, a highly esteemed mathematician well known for his many contributions to mathematical endeavors at all levels. This award is bestowed on senior mathematics majors who demonstrate excellence in mathematics coursework of a particularly demanding nature.

Secondary Education Minor Award

This award is conferred on a student in the Morrissey College of Arts and Sciences who has completed the Secondary Education Program within the Lynch School of Education and Human Development and has achieved distinguished success as a student teacher.

Harry W. Smith Award

An award, the gift of the Smith Family, in memory of Harry W. Smith, a leader in corporate and community philanthropic work, to honor a member of the senior class who has used personal talents to an exceptional degree in the service of others.

Joseph R. Stanton, M.D., '42 Award

This award is a gift from Stanton Medical Associates in memory of Joseph Stanton, M.D. '42. The award is intended for a graduating senior who has been accepted by a medical school and who has been outstanding in character, loyalty, leadership, and scholarship at Boston College.

Dr. Joseph S. Stanton Memorial Award

An award, the gift of Doctors Richard Stanton '38 and Joseph R. Stanton '42 in memory of their father, Dr. Joseph S. Stanton. The award is given to the student who has been accepted to a medical school and who has been outstanding in character, loyalty, leadership, and scholarship at Boston College.

Tully Theology Award

An award given in memory of the late Dennis H. Tully, given to the student who has written the best paper on a theological subject.

Max Wainer Award

An award, the gift of Anneliese K. Wainer, Ph.D., '72, in honor of her husband, Max Wainer, given annually to the senior who is deemed the outstanding student in Classics.

Lynch School of Education and Human Development

The Reverend Charles F. Donovan, S.J., Award

Presented in honor of Father Donovan, founding dean of the School of Education and Human Development, to a member of the graduating class who exhibits superior leadership, academic, and innovative qualities; demonstrates excellence in professional and personal commitment; and has a genuine concern for the needs and values of others.

General Excellence Award

Presented to a member of the graduating class who has manifested outstanding achievement in all courses of study during four academic years.

Saint Edmund Campion Award

Presented to a member of the graduating class for excellence in an academic major.

Reverend Edward H. Finnegan, S.J., Nominee Award

Presented to the Lynch School nominee for the top undergraduate prize given to the graduating senior who best exemplifies the qualities of excellence, humility, and service to others and who best epitomizes the University's motto, "Ever to Excel."

Dr. Marie M. Gearan Award

Presented in honor of Professor Gearan, a member of the original faculty and the first director of student teaching, to a member of the graduating class for outstanding academic achievement, campus leadership, and distinguished success as a student teacher.

The Blessed Richard Gwyn Award

Presented to a member of the graduating class for outstanding promise as a secondary school teacher.

Reverend Henry P. Wennerberg, S.J., Award

Presented in honor of Father Wennerberg, first spiritual counselor in the School of Education, to an outstanding member of the graduating class for participation and leadership in school and campus activities.

John J. Cardinal Wright Award

Presented in honor of Cardinal Wright to a member of the graduating class who has shown expert use of creativity and imagination to motivate others and has been dedicated to high educational ideals.

John A. Schmitt Award

Presented to a member of the graduating class who, as Professor Schmitt did, consistently demonstrated compassion for their fellow human beings, integrity in dealing with others, diligence in professional work, and courage in the pursuit of what they believe to be right.

Mr. and Mrs. Vincent P. Roberts Award

Presented to a member of the graduating class who is distinguished for loyalty to the ideals and purposes of the Lynch School of Education and Human Development.

Reverend James F. Moynihan, S.J., Award

Presented in honor of Father Moynihan, first chairman of the Psychology Department and professor of Counseling Psychology in Education, to a member of the graduating class in the Applied Psychology and Human Development major who has shown superior scholarship, contributed creatively to the well-being of others, and manifested dedication and commitment to the enhancement of the human development process.

Patricia M. Coyle Award

Presented to a member of the graduating class in Elementary Education who is a clear thinker in the field, able to translate the theories of child development and learning into the practice of teaching young children with enthusiasm and love, and a thoughtful, reflective teacher.

Karen E. Noonan Award

Presented to a member of the graduating class in Elementary Education who has the qualities of a “natural” teacher of young children, can communicate warmth and a sense of excitement for learning, loves the demands of working with challenging students, and makes each child in the classroom feel important and unique.

Cynthia J. Sullivan '79 Memorial Achievement Award

Presented to a graduate who received this award in their junior year who has attained outstanding academic achievement; demonstrated qualities of loyalty, generosity of self, and integrity; and shown an appreciation of the arts.

Cynthia J. Sullivan Award Winner

Presented to last year's winner of the Cynthia J. Sullivan Memorial Achievement Award, this stipend is intended to fund graduate study or postgraduate travel.

Reverend John Christopher Sullivan, S.J., Award

Presented in honor of Father Sullivan, first associate dean in the School of Education, to a member of the graduating class who, as Father Sullivan did, exhibits the qualities of cheerfulness, creativity, enthusiasm, and high energy; who demonstrates respect for individuals and is supportive of others, sharing with them the gift of personal care, regard, individual attention, warmth, and a respectful sense of humor; and whose personality and actions reflect an appreciation of the dignity and value of every individual.

Bernard A. Stotsky/Professor John Eichorn Prize

Presented to a student who has volunteered at the Campus School to supplement their academic program of study in the Lynch School and who has demonstrated great interest in the field of Special Education as an undergraduate student.

Gretchen A. Bussard Award

Presented to a graduate who received this award in their junior year in the Applied Psychology and Human Development Program who has used what they have learned to improve the lives of others.

Albert A. Bennett Award

Presented by the Morrissey College of Arts and Sciences in honor of Professor Bennett (1888–1971), visiting professor of mathematics at Boston College 1962–1971, to a member of the graduating class who demonstrates a high level of mathematical achievement and who has shown interest in or a desire for a career in teaching.

The MCAS Secondary Education Award

Presented to a student in the Morrissey College of Arts and Sciences who has completed the Secondary Education Program and has achieved distinguished success as a student teacher. This award is presented to the recipient at the MCAS awards ceremony.

The Christine Martin Award

Presented to an incoming graduate student who has demonstrated creativity, patience, and curiosity in developing special relationships with children with disabilities while engaged in volunteer service, and who has shown leadership through quiet competence, organizational skills, and enthusiasm for inspiring others.

Lynch School Awards

Presented to graduating seniors for academic excellence and outstanding performance in a variety of areas.

Carroll School of Management

Thomas I. Gasson, S.J., Award

Founded by Boston College for general excellence in all courses of study during the four years in the Carroll School of Management.

The Edward H. Finnegan, S.J. Memorial Award Nominee

The top commencement honor which recognizes a senior who best exemplifies the University's motto: "Ever to Excel."

The James Gips Outstanding Student in Information Systems Award

Awarded to the student who has demonstrated outstanding achievement in the field of Information Systems.

The John B. Atkinson Award

Founded by John B. Atkinson for excellence in all courses studied in the field of Operations Management.

George Aragon Outstanding Student Award

For an outstanding senior concentrating in Finance. The selection is made by the faculty committee of the Finance Department.

The Edgar F. Huse Memorial Award

An award presented annually by the faculty for excellence in Management and Leadership.

The Hutchinson Memorial Award

Presented by the Boston chapter of the American Marketing Association to a Marketing student.

The Raymond F. Keyes Service Award

Awarded to a senior concentrating in Marketing who has demonstrated a desire to provide service to the nonprofit community.

Charles W. Lyons, S.J., Award

Founded by Boston College for excellence in all courses studied in the field of Accounting.

The Patrick A. O'Connell Finance Award

Founded by Patrick A. O'Connell for excellence in all courses studied in the field of Finance.

The Patrick A. O'Connell Marketing Award

Founded by Patrick A. O'Connell for excellence in all courses studied in the field of Marketing.

The Eric Allen Serra Award

Established in 1993 by the friends of Eric Allen Serra and awarded to a graduating senior who is actively involved in the BC community and best represents the attributes for which Eric is remembered by his friends.

The James E. Shaw Memorial Award

An award given to a senior in the Carroll School of Management who has been accepted to a recognized Law School. The student demonstrates a strong personal interest in the welfare of fellow students.

The Rev. Stephen Shea, S.J., Award

Awarded to the senior who has attained the highest average in all courses in Philosophy during four years in the Carroll School of Management.

The James D. Sullivan, S.J., Award

Awarded to a senior outstanding in character and achievement.

Outstanding Student in Business Analytics Award

Awarded to the senior who demonstrates excellence in all courses studied in the Business Analytics discipline.

Dean's Letter of Commendation

Awarded to a senior who is recognized for exemplary accomplishment in the Carroll School community.

Connell School of Nursing

Alumni Award

Established by the alumni to honor a nursing student for general excellence in both the classroom and in the wider Boston College community.

Marie S. Andrews Clinical Performance Award

Established by the faculty to honor the student who has demonstrated, through performance across the clinical education portion of the curriculum, sensitivity to the needs of patients, respect for dignity and “wholeness” of the patient, and outstanding ability to deliver quality nursing care.

Cathy Jean Malek Award

Established by the faculty to honor the student who is a role model for his or her fellow classmates and underclassmen with consistent professionalism and integrity.

William F. Connell Award Undergraduate Nominee

Established by the faculty to honor one graduating student who best demonstrates the attributes of leadership, loyalty, service, achievement, humility, and goodwill.

Edward H. Finnegan, S.J., Award Nominee

Established by the faculty to honor the student, who through excellence, humility, and service to others, exemplifies the Boston College motto of “Ever to Excel.” The faculty of the four undergraduate schools at Boston College each nominates a candidate and the winner is announced at the University Commencement. The award winner will accept the degree for the class at the University Commencement.

Reverend Edward J. Gorman, S.J., Leadership Award

Given to the student who, in the judgment of classmates, best exemplifies leadership and who has contributed to the William F. Connell School of Nursing through dedication, service, and sincerity.

Susan E. Donelan Inclusive Community Award

Given to the student who, in the judgment of classmates, has promoted a spirit of cultural awareness, inclusivity, and support to foster the success of his or her graduating class.

Jean A. O’Neil Achievement Award

Established by the faculty to honor the graduating senior who has shown the greatest academic growth over the course of their four years of study in the baccalaureate nursing program.

Maureen A. Eldredge Leadership and Volunteer Service Award

Established by the faculty to honor the graduate who embodies the Jesuit ideals of being “men and women in service to others” through demonstrated leadership and substantial commitment to others in volunteer service.

Graduate Academic Regulations

Academic Grievances

Any graduate or professional student who believes he or she has been treated unfairly in academic matters should consult with the faculty member or administrator designated by their school to discuss the situation and to obtain information about relevant grievance policies and procedures.

Academic Record

A record of each graduate or professional student’s academic work is prepared and maintained permanently by the Office of Student Services. Student academic records are sealed at the time the degree is conferred. After this date changes may not be made, with the exception of errors or omissions.

Attendance

Graduate and professional students are expected to meet course requirements in classes, internships, and practica as specified in the syllabus or document prepared explicitly for the academic experience. A student who is absent repeatedly from these academic experiences will be evaluated by the responsible faculty member and/or designated supervisor(s) to ascertain the student's ability to continue in the course and to achieve course objectives.

Professors may include, as part of the semester's grades, marks for the quality and quantity of the student's participation in the course.

Professors will announce, reasonably well in advance, tests, examinations and other forms of assessment based on the material covered in the course, as well as other assigned material. A student who is absent from a course is responsible for obtaining knowledge of what happened in the course, especially information about announced tests, papers, or other assignments.

A student who is absent from a course on the day of a previously announced examination, including the final examination, is not entitled, as a matter of right, to make up what was missed. The professor involved is free to decide whether a makeup will be allowed.

In cases of prolonged absence, the student or his or her representative should communicate with the student's graduate Associate Dean as soon as the prospect of extended absence becomes clear. The academic arrangements for the student's return to the course should be made with the Graduate Associate Dean's Office as soon as the student's health and other circumstances permit.

Absences for Religious Reasons

Any graduate or professional student who is unable, because of his or her religious beliefs, to attend classes, internships, or practica, or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination, or study or work requirement, and shall be provided with an opportunity to makeup such examination, study or work requirement that may have been missed because of such absence on any particular day. However, students should notify professors and supervisors at the end of the first course meeting or at least two weeks in advance of any such planned observances, and such makeup examination or work shall not create an unreasonable burden upon the University. No fees will be charged and no adverse or prejudicial effects shall result to any student who is absent for religious reasons.

Audits

Graduate and professional students should consult their school or department for specific policies regarding audits.

Comprehensive Examination or Qualifying Papers: Doctoral

Graduate and professional students should consult their school or department for specific policies regarding comprehensive examinations or qualifying papers for doctoral students.

Comprehensive Examination: Master's Students

Graduate and professional students should consult their school or department for specific policies regarding comprehensive examinations for master's students.

Continuation: Doctoral Candidacy

Graduate and professional students who have completed all required coursework and who have successfully completed the comprehensive examination or the oral defense of a publishable paper are admitted to doctoral candidacy. Doctoral candidates are required to register and pay for Doctoral Continuation (9999) during each semester of their candidacy or its equivalent.

Please refer to your school's regulation for additional information on doctoral candidacy.

Cross Registration

Boston Theological Interreligious Consortium

The Boston Theological Interreligious Consortium (BTI), a consortium of theology faculty primarily in the Boston-Newton-Cambridge area, has as its constituent members the following institutions. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in the BTI.

- Boston College Theology Department
- Boston College School of Theology and Ministry
- Boston University School of Theology
- Gordon-Conwell Theological Seminary
- Hartford Seminary
- Harvard Divinity School
- Hebrew College
- Holy Cross Greek Orthodox School of Theology
- St. John's Seminary and Theological Institute

The Consortium

Boston College is part of a consortium that includes Boston University, Brandeis University, Hebrew College, Hellenic College, Regis College, Northeastern, and Tufts University. Eligible students are allowed to take courses at any of these institutions if the same courses are not offered at Boston College at any time during the academic year. Cross registration materials are available from the Office of Student Services on the [Academic Forms](#) page. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in this consortium.

Consortium for Graduate Studies in Gender, Culture, Women, and Sexuality

Eligible graduate and professional students enrolled in degree programs during the academic year may apply to participate in the Consortium for Graduate Studies in Gender, Culture, Women, and Sexuality, an inter-institutional enterprise established to advance the field of women's studies and enlarge the scope of graduate education through new models of team teaching and interdisciplinary study. Faculty and students are drawn from nine member schools: Boston College, Boston University, Brandeis University, Harvard University, MIT, Northeastern, Simmons, Tufts, and UMass Boston. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in this consortium. Eligible students need to obtain permission from their department or school. Registration forms will be mailed from the Consortium to accepted students.

Degree with Honors

Academic honors are not calculated for graduate students except for law. Law students' Latin honors are calculated as follows: Summa Cum Laude is awarded to the top 2% of the class. Magna Cum Laude is awarded to the top 10% of the class. Cum Laude is awarded to students graduating in the upper third of the class. Honors will be noted on the student's diploma.

Enrollment Status

Full-Time Enrollment Status

Graduate and professional students should consult their school or department for specific policies regarding full-time enrollment status.

Final Examinations

For graduate level courses that have final examinations, professors may use the University's final examination schedule, which is public and set before classes begin, or they may set the day and time of their final examination in the syllabus or document prepared explicitly for the academic experience. All students are responsible for knowing when their final examinations will take place and for taking examinations at the scheduled time. Students who miss a final examination are not entitled, as a matter of right, to a makeup examination except for serious illness and/or family emergency. Students who are not able to take a final examination during its scheduled time should contact the person

designated by the department or school, preferably prior to the examination date, to inform them of their situation and to make alternative arrangements if granted permission to do so.

Foreign Language Requirement

Graduate and professional students should consult their school or department for specific policies regarding foreign language requirements.

Grading

In each graduate course, in which a graduate or professional student is registered for graduate credit, the student will receive one of the following grades at the end of the semester: A, A-, B+, B, B-, C, F, W, J, U, P, or I. The high passing grade of A is awarded for superior work. The passing grade of B is awarded for work that clearly is satisfactory at the graduate level. The low passing grade of C is awarded for work that is minimally acceptable at the graduate level. The failing grade of F is awarded for work that is unsatisfactory.

A pass/fail option is available for a limited number of courses. A Sat/Unsat grade is recorded for courses such as doctoral continuation.

A student's cumulative average is based on grades in courses taken in their program at Boston College, plus other courses specifically approved for credit towards the degree by the Academic Dean. If a student fails a course, the course is not credited toward the degree, but the failing grade remains on the student's transcript and a 0.0 is calculated into the student's cumulative average. A failed course may be retaken for credit, with the new grade added to the GPA, but the original failure remains on the transcript and continues to be counted in the GPA. If a student retakes a failed course and fails it again, the course is again entered on the transcript and the grade is counted in the GPA. If a student retakes a course in which she or he has already received a passing grade, the repeated course is again entered on the transcript and the grade is calculated in the cumulative GPA, but the course is not credited toward the degree.

Please refer to your school's regulation for additional information on grading.

Grading Scale

In computing averages, the following numerical equivalents are used. The entire grading scale is not used by all schools.

- A 4.00
- A- 3.67
- B+ 3.33
- B 3.00
- B- 2.67
- C+ 2.33
- C 2.00
- C- 1.67
- D+ 1.33
- D 1.00
- D- .67
- F .00
- P No effect on GPA
- U No effect on GPA

Grade Changes

Grade changes should be made only for exceptional reasons. The grades submitted by faculty at the end of each semester are considered final unless the faculty member has granted the student an Incomplete. Incompletes may be granted to provide a student time to finish his or her course work after the date set for the course examination or in the course syllabus. Incompletes should only be granted for serious reasons, e.g., illness, and only when the student has been able to complete most of the course work but is missing a specific assignment, e.g., a final paper, an examination, etc. Incompletes are not to be granted to allow the student to complete a major portion of the course work after the end of the semester.

All I grades will automatically be changed to F on March 1 for the fall, August 1 for the spring, and October 1 for the summer except for students in the Boston College School of Social Work.

Graduate and professional students should consult their school or department for more information on grade changes.

Student Work and Assessment

The grading of student work serves as the primary means of individual evaluation; additionally, student work generally may be used to assess course, program, and the related, learning outcomes in support of continuous improvement.

Pass/Fail Electives

Graduate and professional students should consult their school or department for specific policies regarding pass/fail electives.

Good Standing

Grades, satisfactory performance in internships and practica, and timely completion of degree requirements determine a student's good standing in his or her program. Students should be informed in a timely manner if their good standing is in jeopardy and the conditions needed to maintain or establish good standing.

Graduate and professional students should consult their school or department for specific policies regarding academic good standing.

Graduation

The University awards degrees in May, August, and December of each year. Commencement ceremonies are held only in May. Students who have completed all requirements for the degree before a specific graduation date are eligible to receive the degree as of the university's next official graduation date. A diploma will not be dated before all work is completed. Students who graduate in December or August may participate in commencement exercises the following May.

In order to ensure timely clearance, all students who plan to graduate should confirm their diploma names online at bc.edu/my-services according to the deadline listed on the diploma name/address link.

Leave of Absence

Voluntary Leave of Absence

Graduate students who do not register for course work, Thesis or Dissertation Direction, or Interim Study in any given semester must request a leave of absence for that semester. Leaves of absence are not usually granted for more than two semesters at a time, and are rarely granted for students on Doctoral Continuation. Students may apply for a personal or medical leave of absence. As described below, appropriate documentation is required for a medical leave of absence.

Students may submit a personal or medical leave of absence request online using a form found on the Student Services Academic Forms page. Once submitted it will be routed to the appropriate school's Associate Dean's for review.

Leave time for either a personal or medical leave of absence will normally be considered a portion of the total time limit for the degree unless the contrary is decided upon initially between the student and the Associate Dean.

Personal Leave of Absence

Students on an approved personal leave of absence should contact the Associate Dean's Office at least six weeks prior to the semester in which they expect to re-enroll. The appropriate Associate Dean will make the decision on the readmission request.

Medical Leave of Absence

If a student is unable to complete the coursework or other course of study for a semester due to medical reasons, the student may request a medical leave of absence. Medical leave, whether requested for mental health or physical health reasons, must be supported by appropriate documentation from a licensed care provider and be approved by the student's Associate Dean.

The University reserves the right to impose conditions on readmission from a medical leave, which may include: length of time on leave; the submission of documentation from the student's health care provider; the student's consent for the provider to discuss the student's condition with University clinicians, and/or an independent evaluation of the student's condition by University clinicians; and/or making use of University or outside professional services.

The conditions will be specified at the time of leave, and students will be asked to acknowledge their acceptance of them.

Students seeking to return from leave should contact the appropriate Academic Dean prior to seeking readmission no later than four weeks prior to the desired admission date. However, students seeking to return to a practicum, clinical or field education placement must contact the appropriate Academic Dean expressing the intent to seek readmission at least a full semester before the desired return.

Students on Boston College's medical insurance policy may be eligible to continue their health insurance the semester in which they take a medical leave of absence and the following semester. Students should consult with Student Services and can learn more about this policy at: bc.edu/medinsurance. Students granted a medical leave may be entitled to a semester's tuition credit to be provided upon readmission, and should consult their school's policy regarding the tuition credit.

Involuntary Leave of Absence

Students may be separated from the University for academic reasons (please refer to specific school or department policies for more information) or for reasons of health, safety, or when a student's continuance at Boston College poses significant risk to the student or others. For additional information, visit the [Division of Student Affairs](#) website.

Readmission

Graduate and professional students seeking readmission to the University should consult with the policies and procedures specified by their department or school. The decision to re-admit a student will be based on a consideration of the best interests of both the student and the University.

Summer Courses

In graduate programs, summer courses may be an integral part of the curriculum. Graduate and professional students should consult with their schools or departments for specific policies regarding summer courses.

Time-to-Degree

Graduate and professional students should consult their school or department for specific policies regarding time-to-degree.

Transcripts

All current graduate and professional students submit requests for academic transcripts at bc.edu/myervices. Alumni should visit bc.edu/transcript for directions on the transcript request process. Students and alumni will be directed to the National Student Clearinghouse transcript fulfillment website as our vendor for transcripts. For more information, visit bc.edu/transcript.

Transcript/Diploma Holds

The University will not issue diplomas or release transcripts for any graduate or professional student with an outstanding financial obligation to the University, which includes failure to complete a mandatory loan exit interview.

Transfer of Credit

Graduate and professional students should consult their school or department for specific policies regarding transfer of credit.

University Communication Policies and Student Responsibilities

Official communications of the University with its currently enrolled graduate and professional students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

Postal service and Campus mail: For purposes of written communication, the student's local and permanent addresses on record at the Office of Student Services will be regarded as the student's official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses and to enter corrections at bc.edu/myservices if the addresses are not accurate in University records. Students should review their address record for accuracy at the beginning of each semester and again soon after submitting any corrections.

E-mail: The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with e-mail accounts as well as access to e-mail services from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

Students may forward their e-mail messages from their University e-mail accounts to non-university e-mail systems. In such cases, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

All student responses to official e-mail communications from the University must contain the student's University e-mail address in the "From:" and "Reply To:" lines and should originate from the student's University e-mail account, to assure that the response can be recognized as a message from a member of the University community.

Withdrawal from a Course

Graduate and professional students who withdraw from a course after the drop/add period (after the first seven class-days of the semester) will have a "W" recorded in the grade column of their academic record. To withdraw from a course all students must go to the [Academic Forms](#) page of the [Student Services](#) website, submit the online form that will then be routed to the Office of the Academic Dean for their school for review. Students will not be permitted to withdraw from courses after the published deadline. Students who are still registered at this point will receive a final grade for the semester.

Withdrawal from Boston College

Graduate and professional students who wish to withdraw from Boston College in good standing are required to submit an online Withdrawal Form, found on the [Academic Forms](#) page of the [Student Services](#) website, which will be routed to the appropriate Academic Dean's Office for review and processing. In the case of students who are dismissed for academic or disciplinary reasons, the Academic Dean will process the withdrawal.

University Awards and Honors

Please refer to your school or department website for information about awards and honors.

Distance Education Policies & Procedures

Boston College offers a variety of distance education opportunities, designed to offer students a flexible, online alternative to traditional on-campus programs and courses.

In support of Boston College's distance education initiatives, BC is an approved member of the [National Council for State Authorization Reciprocity Agreements](#), or SARA.

As described by SARA, the network provides a voluntary, regional approach to state oversight of postsecondary distance education. When states join SARA, they agree to follow uniform processes for approving their eligible institutions' participation. These policies help protect students and provide benefits to both states and institutions carrying out distance education in multiple states.

Accreditation

Boston College is accredited by the [New England Commission of Higher Education](#) (NECHE) and has been accredited by NECHE since 1935.

NECHE is recognized by the U.S. Secretary of Education as a reliable authority on the quality of education and adheres to the standards of the Council for Higher Education Accreditation. As part of NECHE guidelines, member institutions undergo a peer review process every ten years which involves the preparation of a comprehensive self-study. Boston College's most recent full review for accreditation occurred in March 2017.

Inquiries regarding Boston College's accreditation status should be directed to the Office of the Provost and Dean of Faculties, Boston College, 270 Hammond Street, Chestnut Hill, MA 02467 (617-552-3260); individuals may also contact the New England Commission of Higher Education, 301 Edgewater Place, Suite 210, Wakefield, MA 01880 (781-425-7785).

Additional accreditation-related information may be found at Boston College's [Accreditation Information](#) site.

Authorization

Boston College has been approved to participate in the National Council for State Authorization Reciprocity Agreements (SARA), which permits the university to offer distance education programming in [49 SARA member states, the District of Columbia, the U.S. Virgin Islands, and Puerto Rico](#). Note that courses and programs incorporating a "supervised field experience" (sometimes also referred to as an "out-of-state learning placement") are also covered by the provisions of SARA if under the oversight of a supervisor, mentor, faculty member, or other qualified professional, located in the host state, who has a direct or indirect reporting responsibility to the institution where the student is enrolled. Examples include practica, student teaching, or internships.

Non-SARA States

California does not participate in SARA; however, the [California Bureau for Private Postsecondary Education](#) does not regulate non-public higher education institutions that are degree granting, non-profit, and accredited, and so Boston College may offer distance education programming to students in California.

Coverage and Limitations of SARA

As described by [NC-SARA](#), SARA only applies to postsecondary distance education activities conducted across state lines; it does not apply to distance education activity inside the SARA-participating institution's home state or to on-ground campuses. SARA does not affect the applicability of general purpose state laws; similarly, SARA has no effect on state licensing or certification requirements which often require additional approval from the applicable state board.

Distance Education Programs Leading to Professional Licensure

Boston College is authorized, pursuant to SARA, to enroll students in online programs in the SARA states and territories.

Boston College makes every effort to ensure information about educational requirements for licensure or certification information is current; however, state requirements often change. Separate from educational requirements, state licensure boards may require applicants to complete professional examinations, background checks, years of professional experience, jurisprudence exams, etc. If you are planning to pursue professional licensure or certification in a state other than Massachusetts, it is strongly recommended that you:

- contact the appropriate licensing entity in that state to seek information and guidance regarding licensure or certification requirements before beginning an academic program
- check with departmental personnel in your specific program if you have questions about whether an online program meets licensure requirements in a specific state
- review additional information on state requirements for all programs that lead to licensure which can be accessed at Boston College's central repository of [Notices and Disclosures](#)

Again, SARA does not provide reciprocity for state professional licensing requirements. Academic programs and individual graduates must meet standards set by a state's licensure requirements in order for a graduate to be eligible for a license.

Please see [the table for license eligibility by state](#). [Contact information](#) by state is sourced from NC-SARA and is updated twice per year.

Resources for Distance Education Students

Distance education students at Boston College have access to a wide range of student and academic services, for example:

- [Agora, Institutional Portal](#)
- [Boston College Bookstore](#)
- [Boston College Libraries](#)
- [Student Services](#)
- [University Catalog](#)

International Students

International students are advised to understand and be apprised of the rules, regulations, and requirements related to distance education in their country of residence, particularly:

- If the country will recognize an online certificate or degree;
- Whether the program meets licensure or certification requirements in the country; and
- If the country charges any additional taxes, withholdings, or fees associated with online distance education programs.

International students are encouraged to research the policies pertaining to degree recognition in their home country, or anticipated country of residence, and to contact the program-specific administrator at Boston College for additional information prior to enrolling in a Boston College distance education program.

Veterans

Boston College is approved by the [National Association of State Approving Agencies](#), advocates for quality education and training programs for our nation's veterans.

Complaint Procedures for Students Enrolled in Distance Education Programming

Boston College makes available a variety of means to resolve distance education-related issues. A student enrolled in distance education must first attempt to resolve their complaint with their individual department/program or dean's office. In those instances for when a complaint

cannot be resolved at the individual department/program or dean's office level, the student may contact the Office of Student Services for additional direction and/or questions.

Boston College Contact

Jessica Greene
Waul House 308, 140 Commonwealth Avenue
Chestnut Hill, MA 02467
(617) 552-0163, jessica.greene.2@bc.edu

When a distance education-related complaint cannot be resolved at the department/program or dean's office level, the following pathways to resolution apply:

For Massachusetts Residents and Online Students Located in Non-SARA Member States or Territories

You may file a consumer complaint with the Massachusetts Attorney General's Office (AGO) by using the [consumer complaint form](#). The AGO consumer complaint form should be used by students who are located in:

- Massachusetts
- Non-SARA Member States or Territories (e.g., California, Guam)

For Online Students Located in SARA Member States or Territories

You may file a complaint with the Massachusetts Department of Higher Education (DHE) by using the DHE's [SARA complaint form](#). Please note that for SARA complaints, students are explicitly required to exhaust Boston College's available complaint procedures before filing a SARA complaint with the DHE.

The DHE complaint form should be used by students who are located in [SARA member states and territories](#). This includes all students who are located in SARA member states and territories for the purposes of completing out-of-state learning placements, such as internships, practica, clinical experiences, etc. in SARA member states and territories outside Massachusetts. The SARA complaint process is as follows:

1. Students must first attempt to resolve their complaint using internal administrative procedures offered by the SARA institution.
2. After all administrative remedies have been exhausted with the MA-SARA institution, the student may submit a SARA Complaint to the DHE via the [SARA complaint form](#).
3. The DHE shall send a copy of the complaint to the institution that is the subject of the complaint;
4. Within 30 days of the date that the DHE sends a copy of the complaint to the institution, the institution must provide a written response to the student and the DHE.

For more information, please refer to the DHE's [Complaint Policy and Process](#).

Student Mobility

A requirement of SARA membership, and as directed by current United States Department of Education regulations as presented in the 2019 Higher Education Authorization, institutions must record in which state a student is located while enrolled in a distance education or correspondence course and apply the method to determine location consistently and to all students. (State Authorization 600.9(c)(1)(i)).

SARA and federal regulations consider a student's location to be the **state, territory, or district where the student is located while receiving the instruction; it does not refer to the student's official state of residence**. For prospective students, Boston College's admissions systems reflect the local address as submitted by the student on the student's application, and this information serves as the source for "student location." In the event that this information is not populated, home address information serves as the source for "student location." For enrolled students, Boston College's student information system (UIS) reflects the local address as recorded at the time of the student's initial enrollment, and this information serves as the source for "student location." In the event that this information is not populated, home address information serves as the source for "student location."

Changing one's location prior to enrollment (i.e., during the application process) or while enrolled does not adversely impact a student's academic standing although students should be mindful that, if interested or enrolled in a program leading to professional licensure, a new state of location may have licensure regulations that are not met by Boston College's curriculum. Students should review disclosures on professional licensure and confer with their academic advisor and/or their academic program's department personnel in the event of a location change outside of Massachusetts.

In addition to recording location information related to academic programming, location is also recorded when students participate in learning placements outside of the classroom such as clinical experiences and internships. This information is typically tracked by program departments.

Applicants may update their location information through the application system appropriate to their program or may contact their program's Office of Admission. Enrolled students may update their location information at any time via Boston College's institutional portal, [Agora](#).

In Agora, under the "Account and Personal Info" section, click Address/Phone/Emergency Contact and follow the on-screen instructions. Support for Agora may be found at: bc.edu/content/bc-web/offices/its/support/account-network-access/agora.html.

Student Verification for Distance Education Courses

Boston College employs a multi-pronged student identity verification system to help ensure that the identity of students who are admitted and enroll in distance education courses or programs are the same students who participate in and complete those courses or programs for academic credit.

At the time of application, all candidates must affirm that the contents of their submission are valid and reflect their own educational, professional, and related credentials, experiences, and accomplishments.

At the time of matriculation, students are assigned a Boston College username, password, and unique eight-digit identification number (EagleID) by Information Technology Services; most electronic services and resources that are restricted to the BC community, including the Agora Portal and Canvas (Boston College's learning management system), require authentication by entering one's BC username and password and may also require 2-step verification, thereby serving as an additional means of identity confirmation. Also at the time of matriculation, University students enrolled in on-the-ground and hybrid courses/programs are issued a photo identification card (Eagle-One Card) through the Office of Student Services that serves as the official ID card of Boston College. Proof of identification such as a driver's license or passport must be presented in order to be issued an Eagle-One Card. Students must keep this card available at all times, and cards must be presented to authorized University officials upon request; falsifying, altering, or misusing one's own or another's Eagle-One Card in any way is strictly prohibited and illegal.

Faculty-student engagement is a fundamental dimension of a program's curriculum, and thus, regardless of a course's mode of delivery, the frequent and meaningful interaction between an instructor and student serves as an effective method of student identity assurance. Additionally, course experiences and assignments that encourage student-to-student interaction are also employed, principally to enhance learning, but also to serve as another means by which to verify the identity of students.

An additional means of assuring student identity are the verification tools available to instructors via Boston College's learning management system, Canvas. As students access course materials and discussion groups via Canvas, virtual communication technologies that integrate with Canvas, such as discussion boards, facilitate an instructor's knowledge of a student's writing style, ability, and tone, thereby helping to spotlight deviations. Identity verification is also supplemented via video conferencing by allowing instructors to confirm a student's identity via the comparison of the video image with the student's Eagle-One Card image. If necessary, IP addresses used to access Canvas can be investigated; other analytics, such as page views and log-in dates/times, are also available for review.

Also available to instructors is Respondus:

Respondus LockDown Browser is a custom browser that locks down the testing environment within Canvas (Boston College's learning management system) and prevents students from accessing other information and applications on their computer. When an exam is configured with LockDown Browser, it cannot be taken in another browser.

Respondus Monitor is a program that builds on LockDown Browser and records students as they are taking the exam and flags behavior for further review by the instructor and so is well suited for use in online courses.

Boston College's Center for Teaching Excellence and Center for Digital Innovation in Learning offer support and training for these tools; there is no cost to instructors or students for the use of these resources.

Special Programs

Boston College offers a number of special programs, including the following:

- Capstone Seminar Program
- Faculty and Staff Children Exchange Program (FACHEX)
- Gabelli Presidential Scholars Program
- Office of Global Education (OGE)
- Pre-Health Program
- Pre-Law Advising
- PULSE Program for Service Learning
- Reserve Officers' Training Corps
- Undergraduate Faculty Research Fellows Program

Capstone Seminar Program

The Capstone Seminar Program helps students to "cap off" their Boston College experience by a review of their education and a preview of their major life commitments after college. Capstone offers several integrative seminars each semester exclusively for seniors in all schools. The Capstone seminars explore the struggle to discern your own calling in life as you integrate the four crucial areas of work, relationships, society, and spirituality. Capstone seminars are taught by two dozen faculty from 20 different departments and all four colleges—Morrissey College of Arts and Sciences, Carroll School of Management, Lynch School of Education and Human Development, and Connell School of Nursing. Seminars are limited to 15 to 19 students. All courses are listed between UNCP5500 and UNCP5599 in the *Boston College Catalog*. Many Capstone Seminars are also cross-listed in the home department of the professor and can be taken for elective credit by majors or minors in that department. Department regulations vary. You may take only one Capstone course during your academic career. Capstones cannot be taken as Pass/Fail. If a course requires permission, contact the instructor directly. For other information, contact the Program Director, Fr. James Weiss at james.weiss@bc.edu or see the University Courses section of this Catalog. You may also reference the Capstone Program website with full course descriptions and syllabi at bc.edu/capstone.

Faculty and Staff Children Exchange Program (FACHEX)

FACHEX is an undergraduate tuition remission program for children of full-time faculty, administrators, and staff at participating Jesuit colleges and universities. The program for BC employees is administered through the Benefits Office in cooperation with the Office of Enrollment Management.

For Boston College employees, five consecutive years of full-time employment are required for establishing eligibility for the program. Employees must complete the FACHEX Certification Form available on the Boston College [FACHEX website](#) and return it to the Benefits Office for processing before December 1. Only the Benefits Office can certify an employee child as FACHEX eligible in the FACHEX Database, and this form contains the required information for entry. Employees should review the FACHEX website for information regarding rules of the program. In addition, if an employee's child is interested in applying to any institutions participating in FACHEX, they should be aware of any applicable admission deadlines or requirements at those schools. Contact information for the FACHEX Coordinator at each participating institution can be found on the FACHEX website. BC does not maintain admissions policies of other schools in the program and cannot advise on their behalf.

FACHEX awards tend to be extremely limited in number and are highly competitive in terms of academic selectivity. As a result, there are no guarantees to the children of any given faculty, administrators, or staff that they will be able to utilize the FACHEX benefit at the institution of their choice. Also, many participating schools only consider incoming freshman applicants for FACHEX, so transfer students or upperclassmen may not be eligible.

Employees at other participating institutions should ask their respective Benefits Offices for information on requirements for FACHEX eligibility. Parents and students should then visit the Boston College [FACHEX website](#) to view the necessary procedures and conditions for FACHEX applicants.

Gabelli Presidential Scholars Program

The Gabelli Presidential Scholars Program is an undergraduate academic merit program that annually awards full-tuition scholarships and fully-funded, GPSP-sponsored summer programs to 15 incoming freshmen students. Early Decision and Regular Decision applicants who submit their BC applications by the November 1 priority scholarship deadline will be considered. There is no separate application for this scholarship. Students are selected on the basis of superior academic achievement and promise, leadership potential, and a demonstrated commitment to service to society. The Program offers these extraordinary individuals the richest academic experience available at Boston College, one that encourages the pursuit of excellence both within and beyond the University walls. Presidential Scholars receive a full-tuition merit scholarship.

In addition to enrollment in one of the University's several departmental honors programs, during the academic year Scholars meet weekly to share experiences in applying for study grants, language programs, internships, and fellowships, and to attend cultural events. These gatherings are intended to nurture their development into the nation's future leaders.

During the spring semester freshman Presidential Scholars travel to a country in Europe, while the sophomore Scholars travel to a country in Latin America. These trips are intended to be the starting point in the Scholars' journey of becoming "global citizens."

In the summers, Scholars are challenged to test and apply what they have learned at Boston College to the world beyond the campus by participating in experiential learning programs focusing on service learning (after the first year), independent international study and travel (after the second year), and professional internship (after the third year).

Through this carefully balanced combination of academic rigor and co-curricular opportunities and challenges, the Gabelli Presidential Scholars Program seeks to develop exceptional scholars and leaders for the Boston College community and far beyond.

Office of Global Education (OGE)

Global education is an integral part of the undergraduate experience at BC. Each year approximately 1,200 students—or nearly 50% of a given graduating class—spend a semester, summer, or academic year studying, interning, conducting research, and/or volunteering abroad. BC collaborates with a number of partner universities worldwide to administer programs in over 30 countries. To apply for semester/academic year programs abroad, students are required to have at least a 3.0 GPA and be in good academic and disciplinary standing. The OGE also offers approximately 30 short-term, faculty-led summer programs and internships that are open to both BC and non-BC students and have no minimum GPA requirement. Students should begin planning to go abroad as early as their freshman year. Information on the OGE website, Study Abroad 101 group meetings, and individual meetings with OGE advisors help students choose the best program for their academic needs. For more information, please visit bc.edu/global-education. The OGE is located in Hovey House (258 Hammond Street, 617-552-3827).

Academic Year Programs*

*Note: "BC in —" programs denote those options where there is a resident director or on-the-ground support staff in addition to services offered by the host institution. Services range from full-time coordinators to more limited support.

Argentina

BC in Buenos Aires: Pontificia Universidad Católica Argentina (UCA)

Semester or full-year program at this excellent private institution located in downtown Buenos Aires. Offerings include arts and music, economics and business, law and political science, humanities, and communication. During the study abroad program in Buenos Aires, BC students can participate in an internship in order to gain professional experience, while becoming further immersed in Argentine culture and the Spanish language.

BC in Buenos Aires: Universidad Torcuato Di Tella

Semester or full-year program in Buenos Aires at one of Argentina's most prestigious private universities. Offerings include business, economics, political science, international studies, journalism, and history. During the study abroad program in Buenos Aires, BC students can participate in an internship in order to gain professional experience, while becoming further immersed in Argentine culture and the Spanish language.

Australia

Australian Catholic University

Semester or year program at Australia's premier Catholic university. Open only to CSON students, who study on ACU's Melbourne campus.

Monash University

One of the Australian Group of Eight schools (most distinguished research institutions). Semester or full-year program in a suburb of Melbourne. Offers courses across all disciplines.

Notre Dame University

Semester or full-year program at a small Jesuit university in Fremantle, Western Australia, with a wide range of courses across all subjects, particularly in the arts and humanities. Optional Australian studies course with field trips.

University of Melbourne

One of the Group of Eight schools located in the heart of the city. Semester or full-year program. Exceptional in most subject areas.

University of New South Wales

Semester or full-year program at one of the Group of Eight schools located in Sydney, with broad offerings across all disciplines. Internship opportunities and an optional pre-semester program to study the environment at the Great Barrier Reef.

University of Queensland

Group of Eight school located in Brisbane. Semester or full-year program with a broad curriculum. Exceptional in all subject areas, especially biology, marine studies, psychology, business, and economics. Research opportunities for students.

University of Western Australia

Group of Eight school located in Perth. Semester or full-year program with a broad, excellent curriculum. Strong in all subject areas—particularly sciences, environmental sciences, social sciences, business, education, and music.

University of Sydney

Group of Eight schools located in Sydney. Semester or full-year program with a broad curriculum. The majority of students enroll in arts and social sciences, business, science, engineering, information technologies, or health sciences.

Austria**Vienna University of Economics and Business (WU)**

Semester or full-year program at one of Europe's top business schools, with courses taught in English for CSOM or Economics students. No prior German language is required.

Brazil**BC in Rio de Janeiro: Pontificia Universidade Católica do Rio de Janeiro (PUC-Rio)**

Semester or full-year program with courses in all disciplines. For students with elementary, intermediate, and advanced Portuguese as well as advanced Spanish skills. Offers an English-language track in Brazilian and Latin American culture with a mandatory Portuguese course.

Chile**Pontificia Universidad Católica de Chile (PUC)**

Semester or full-year program in Santiago at Chile's premier Catholic university. Courses include humanities, social sciences, economics, education, business, and law.

Universidad Alberto Hurtado (UAH)

Semester or full-year program at a small, prestigious Jesuit institution in Santiago. Good for social sciences, humanities, philosophy, business, literature, and pre-law.

China, PRC including Hong Kong, SAR**Chinese University of Hong Kong (CUHK)**

Semester or full-year program in a college system setting, with a wide range of courses taught in English. CUHK offers classes in business administration, education, engineering, the natural and social sciences, as well as a summer academic research opportunity (SURP).

Hong Kong University of Science and Technology (HKUST)

Semester or full-year direct enrollment program with a strong focus on business/management for CSOM students only. On-campus housing. Courses taught in English.

Nanjing University (NJU)

Semester or full-year direct enrollment opportunity. Students may enroll in Chinese-instructed classes or a number of English-taught courses in a range of disciplines on the Xianlin campus. Chinese language courses (elementary to advanced levels) are offered. Students receive support through a buddy program and reside on campus.

University of Hong Kong (HKU)

Semester or full-year program suitable for most students, especially those concentrating in the humanities and sciences. Courses taught in English.

Colombia

Pontificia Universidad Javeriana (PUJ)

Semester or full-year program in Bogotá at one of Latin America's premier Jesuit institutions. Courses include humanities, social sciences, economics, education, business, and law.

Croatia

BC in Croatia: War, Peace, and Reconciliation

Semester program based at the European Center for the Study of War and Peace. Students take five courses and choose between an internship, independent research, or language course, with the potential to earn major/minor elective credit toward International Studies, Philosophy, Theology, History, Faith, Peace and Justice.

Czech Republic

Charles University: East and Central European Studies

Semester or full-year program set in Prague. Founded in 1348, Charles is one of the oldest universities in Europe and the premier university in the Czech Republic. Courses are taught in English and are offered in a variety of subject areas, with a focus on Central and Eastern Europe.

Denmark

Copenhagen Business School

Semester or full-year program with courses taught in English for CSOM or economics students.

Copenhagen University

Semester or full-year program with courses taught in English in the humanities, social sciences, law, health science, natural science, and theology.

Ecuador

BC in Quito: Universidad San Francisco de Quito (USFQ)

Semester or full-year program with course offerings across the disciplines. Science and Community health course available for CSON and pre-med students. Students participate in service work as part of the mandatory resident director course. The program includes a trip to the Galapagos Islands and a weekend with a family in an indigenous village.

Egypt

American University in Cairo

Semester or full-year direct enrollment. Courses are taught in English. BC students are strongly encouraged to enroll in language classes through the Department of Arabic Language Instruction. Required on-campus housing in New Cairo.

England

BC in London: King's College London, University of London

Fall semester or full-year program in London with course offerings across many disciplines, including the potential for a pre-medical course track.

BC in London: London School of Economics (LSE)

Full-year program only in social sciences, including economics, finance, political science, and sociology.

BC in London: Queen Mary, University of London

Semester or full-year program in London's vibrant and diverse East End, with courses across the disciplines.

BC in London: Royal Holloway, University of London

Semester or full-year program with a suburban, parkland campus, and a wide range of course offerings for MCAS and CSOM students.

BC in London: School of Oriental and African Studies (SOAS), University of London

Semester or full-year program in central London with specialist studies of Africa, Asia, and the Near and Middle East, including history, languages, politics, religion, and sociology.

BC in London: University College London, University of London

Semester or full-year program with courses across most disciplines.

University of Bristol

Semester or full-year program located in Bristol, England, with courses across the disciplines, including humanities, sciences, and management.

Durham University

Full-year program offering courses across many disciplines including English, history, philosophy, theology, economics, and the sciences.

Lancaster University

Semester or full-year program with courses across the disciplines, including courses in the sciences and in management for CSOM students.

Newcastle University

Semester or full-year program with courses across the disciplines, including humanities, sciences, and management.

University of Liverpool

Semester or full-year program with courses across the disciplines, including humanities, sciences, and management.

University of Oxford, Mansfield College

Full-year program only. Suitable for students in MCAS interested in small, independent study.

France**BC in Paris: Université de Paris**

Semester or full-year program based at the University of Paris. BC students attend the University of Paris IV (Sorbonne) or the University of Paris IX (Dauphine). Offers a wide range of disciplines. Courses are taught in French, with a small number taught in English at the University of Paris IX (Dauphine).

BC in Paris: L'Institut de Langue et de Culture Française (ILCF)

A French language institute connected to L'Institut Catholique de Paris (ICP). The French-taught semester program offers courses in French language, phonetics, grammar, and conversation. English-taught courses in other subjects are available.

BC in Paris: L'Institut Catholique de Paris (ICP)

Semester or full-year program offering French-taught courses in humanities, education, theology, and philosophy.

BC in Paris: L'Ecole Supérieure de Commerce (ESCP)

Semester program based at the oldest business school in France. Students take courses in international business, finance, economics, and marketing. Courses taught in French and/or English.

BC in Paris: L'Institut d'Etudes Politiques de Paris (Sciences Po)

Semester or full-year program offering courses in business, history, communications, law, journalism, political science, international relations, economics, and European studies. Courses taught in French and English.

BC in Champagne: Sciences Po Reims

Semester or full-year program at Sciences Po's campus in Reims, located in the Champagne region of France. Students can take courses in international studies, history, law, political science, economics, and business.

Germany**Eichstätt Catholic University**

Spring semester or full-year program at a small university located near Munich, with course offerings in arts and sciences, business, and education. Intensive pre-semester language program in Munich. Offers beginning and advanced track programs.

Frankfurt School of Business and Management

Semester or full-year program offering courses in business and law. Courses are taught in English. Excellent opportunity for business and economics majors in Frankfurt. Students are required to take a German language course.

Universität Tübingen

Spring semester or full-year program at one of Germany's premier universities for students with German language skills. Courses are available in English and German and cover a variety of subject areas.

Greece

American College of Greece (ACG)

Semester or full-year direct enrollment program in Athens. Course offerings from a wide range of curricula taught in English with highlights in business, communication, and psychology. University housing, activities, service, and internship opportunities.

Ireland

University College Cork

Semester or full-year program offering a broad selection of courses in a wide range of disciplines including business, arts, and sciences. Fall semester students take a university early start program.

BC in Dublin: National University of Ireland Maynooth

Semester or full-year program in a small campus environment outside of Dublin. Mandatory Irish Studies course taught by the BC resident director.

BC in Dublin: Trinity College Dublin

Semester or full-year program at one of Europe's oldest and most prestigious institutions located in the center of Dublin. Wide range of courses across all disciplines. Mandatory Irish Studies course taught by the BC resident director.

BC in Dublin: University College Dublin (UCD)

Semester or full-year program with offerings across the disciplines, including the arts, business, and social sciences. Students in the Arts and Sciences faculties select two departments in which to take their courses. CSOM students take most classes within the Quinn School of Business. Mandatory Irish Studies course taught by the BC resident director.

National University of Galway

Semester or full-year program with course offerings across the disciplines.

Italy

BC in Parma: University of Parma

Semester or full-year program at the University of Parma, with a wide range of disciplines offered. Courses taught in Italian.

BC in Parma: L'Istituto Dante Alighieri, Parma

Semester or full-year program at the Istituto Dante Alighieri, offering a range of courses taught in English.

Bocconi University, Milan

Semester or full-year program based at one of the leading business schools in Europe. Courses taught in English and Italian.

Università Cattolica del Sacro Cuore (UCSC)

Semester or full-year program located at the Università Cattolica del Sacro Cuore ("Cattolica") in Milan. The largest Catholic university in the world, courses are offered in both English and Italian. Students are required to take an intensive pre-semester Italian language course.

Venice International University

Semester or full-year program located at Venice International University, an international higher education and research center co-run by 18 consortium members from around the world. Based on San Servolo Island, a few minutes from St. Mark's Square in the heart of Venice. Students take courses taught in English in the social sciences and international studies.

Japan

Sophia University

Spring semester or full-year program at a Jesuit sister university, with course offerings in English covering a wide range of disciplines. University housing in Tokyo.

Waseda University

Spring semester or full-year program with course offerings in English. University housing and homestay options in Tokyo.

Malaysia

Monash University Malaysia

One of the Australian Group of Eight schools (most distinguished research institutions). Semester or full-year program on Monash University's Malaysia campus. Based in Sunway City outside Kuala Lumpur, one of the fastest-growing cities in Asia, the program offers English-taught courses across all disciplines and an opportunity for cultural immersion.

Mexico

Universidad Iberoamericana: Mexico City

Semester or full-year program for students in most disciplines at this private, Jesuit institution famed for research and social engagement. Courses are taught in Spanish.

Morocco

Al Akhawayn University

Semester or full-year program in Ifrane, with course offerings in English. Excellent opportunity for business students and those looking to study in francophone North Africa. Recommended for Islamic Studies and intensive Arabic language.

Nepal

BC in Kathmandu: Center for Buddhist Studies at RYI

Semester or full-year program offers an in-depth study of Buddhist philosophy. Highly recommended for students interested in comparative religion, theology, and philosophy. Courses in Tibetan or colloquial Nepali language offered. Homestays with local families.

The Netherlands

Amsterdam University College

Semester or full-year program with courses offered in English. Classes are available in the humanities, natural sciences, and social sciences.

University College Utrecht

Semester or full-year program with courses offered in English. Classes are available in the humanities, natural sciences, and social sciences.

University of Amsterdam

Semester or full-year program with English courses available in the humanities and social sciences.

New Zealand

University of Otago

Semester or full-year program at one of New Zealand's top-ranked universities. Exceptional course offerings across the disciplines, especially environmental sciences, business, theology, arts, and humanities.

Norway

University of Bergen

Semester or full-year program with a wide-ranging curriculum in English with strengths in natural and marine sciences.

The Philippines

Ateneo de Manila University

Semester or full-year program at a leading Jesuit university, with a wide-ranging curriculum in English. Good opportunity for CSOM students, as well as those interested in service. Students reside on campus.

Poland**Jagiellonian University: Center for European Studies**

Semester or full-year program at a prestigious Polish university. Courses are taught in English in politics, sociology, Polish language, literature, and culture at the University's Center for European Studies.

Portugal**NOVA School of Business and Economics**

Semester or full-year program at the NOVA School of Business and Economics (Nova SBE), which is located just outside of Lisbon in Carcavelos. NOVA is strictly a business and economics school and does not offer courses outside of these fields. Classes are taught in English.

Universidade Católica Portuguesa

Students take courses at the Lisbon campus, with classes offered in English in the fields of economics, business, and finance. There is also a limited number of courses offered in other fields through their Liberal Arts Curriculum.

Scotland**University of Glasgow**

Semester or full-year program offering courses across all disciplines including economics, business, the sciences, and pre-med.

University of Edinburgh

Semester or full-year program offering courses across all disciplines, including humanities, sciences, and management.

Singapore**National University of Singapore (NUS)**

Semester or full-year program at a leading research university. Wide variety of courses instructed in English.

South Africa**BC in Makhanda: Rhodes University**

Semester or full-year program in Makhanda (formerly Grahamstown) with courses across the disciplines. Supervised service-learning placements through the BC program.

BC in Cape Town: University of Cape Town

Semester or full-year program in Cape Town with courses across the disciplines. Recommended for students majoring in the sciences, business, and humanities. Volunteer and service opportunities available.

South Korea**Seoul National University**

Semester or full-year program at a leading research university with a range of English-taught courses. Opportunities to study Korean language.

Sogang University

Semester or full-year program at a Jesuit university in Seoul, with a range of courses offered in English. On-campus housing.

Spain**BC in Barcelona: Business and Culture**

Spring-only program at the Universitat Pompeu Fabra (UPF), designed specifically for CSOM major/minor students. Students take a mandatory core course, focusing on the neighborhoods of Barcelona, and a mixture of additional courses in business, the social sciences, and humanities.

BC in Barcelona: ESADE

Semester program in Barcelona offering business courses. English-taught curriculum.

BC in Barcelona: Universitat Pompeu Fabra (UPF)

Semester or full-year program in Barcelona offering courses in Spanish in many disciplines, except the sciences.

BC in Granada: Granada Institute of International Studies (GRIIS)

Semester or full-year program with courses focusing on Spanish language, culture, history, literature, art history, economics, and politics.

BC in Madrid: Carlos III Immersion and English Tracks

Based at the Universidad Carlos III de Madrid (UC3M), semester or full-year program for students in most disciplines, especially in the social sciences and business. Immersion and English tracks are available, based on students' level of Spanish proficiency.

BC in Madrid: Universidad Pontificia Comillas

Semester or full-year program for students in many disciplines at this private, Jesuit institution. The ICADE campus offers courses in business, economics, and law. The Sociales campus offers courses in social sciences, humanities, and international relations.

Universidad de Deusto

Semester or full-year program in Spain's Basque country on campuses in San Sebastián and Bilbao. San Sebastián offers courses in business, economics, literature, sociology, philosophy, and communications. Bilbao offers courses in most disciplines.

Taiwan

Fu Jen Catholic University (FJCU)

Students may enroll in Chinese instructed classes, or a number of English-taught courses in a range of disciplines. Evening courses and tutoring in Mandarin are also available. Students receive support through a buddy program, spiritual and pastoral care residing in on-campus dormitories in New Taipei City.

Turkey

Boğaziçi University

Semester or full-year program with a wide range of courses taught in English at one of Turkey's most prominent research universities, located West of the Bosphorus in Istanbul. Off-campus housing.

United Arab Emirates

American University of Sharjah (AUS)

Semester or full-year program in a diverse, English-language university in the heart of the UAE with a large international population. Courses available in the arts, humanities, sciences, languages, and management.

Approved External Programs

To complement BC program offerings and accommodate students who would like to study in a country or a city in which BC currently does not offer direct enrollment options, the Office of Global Education offers a selection of approved external programs as semester and full-year options. Students pay Boston College tuition to participate in provider programs and remain eligible for BC institutional financial aid. For a complete list of approved external programs, visit bc.edu/global-education.

Summer Programs

Faculty-led summer programs and internships are open to BC undergraduate and graduate students, as well as external applicants, with OGE approval. Programs are taught in English, with the exception of language courses. A sampling of Summer 2024 programs listed are subject to change on an annual basis:

Asia

Bangalore, India

Community Engaged Engineering on Energy, Environment and Health in Southern India (1 credit)

Manila, Philippines

Collaborative Service Engineering Project or Innovation through Design Thinking in Manila (3 credits)

Seoul, South Korea

Contentious History and the Politics of Contemporary Korea: Decolonization, Division, Development, and Democratization (3 credits)

Europe

Aix-En-Provence, France

Provence: Art, Culture, Cinema, Diversity (3 credits)

Athens, Greece

Borders and Refugees: The Ethics of Migration (3 credits)

Ballyvaughan, Ireland

Imagination and Creativity in the Irish Landscape (3 credits)

Copenhagen, Denmark

The Ethics of Capitalism: Flourishing in a Commercial Society (3 credits)

Dublin, Ireland

The Business, History & Politics of Sport (3 credits)

Lisbon, Portugal

The EU: The economic and political transformation of Europe (3 credits)

Principles of Public Health: Gateway to Europe (3 credits)

London, United Kingdom

Contemporary Theatre and Drama in London (3 credits)

Which is Better? An Economic Comparison of Health and Health Care in the UK, the US, and France (3 credits)

Madrid, Spain

Spanish Art History: from Al-Andalus to Picasso (3 credits)

Marketing for Digital Nomads: Building the Skills You Need for the Remote Work Revolution (3 credits)

Parma, Italy

Food, Power & Politics (3 credits)

Prague, Czech Republic

Financial Accounting (3 credits)

Rome, Italy

Saints and Sinners (3 credits)

Venice, Italy

History of the Italian Mediterranean: Una Faccia, Una Razza (3 credits)

Vienna, Austria

Vienna Art and Architecture (3 credits)

Oceania

Melbourne, Australia

From Coffee to Collective Action: Studying Sustainable and Socially-Responsible Organizations in Melbourne (3 credits)

Internships

Buenos Aires, Hong Kong, Montevideo, Seoul, Singapore, and Tokyo

Eight-week, independent internship program offers students the opportunity to experience the local work culture first-hand. OGE staff work with students to design the best possible internship based on student interests, majors, and previous work experience. (1 credit)

Other Opportunities

SEA Education Association Programs

The university offers a semester-long opportunity with SEA Education Association (SEA), an Environmental Studies program, which challenges students intellectually and physically by combining a sailing experience with the study of the deep ocean. The interdisciplinary program tracks are designed for students who wish to gain a comprehensive understanding of the world's oceans, as well as explore a specific ocean-related theme, including shore components in Woods Hole, MA, and the Pacific.

Pre-Health Program

The Core curriculum at Boston College is an advantage for students interested in professions in the health field, as it allows students to explore their unique talents and passions. The skills acquired in the study of the sciences and the humanities are readily transferable to careers in the field of health and medicine.

“Science is the foundation of an excellent medical education, but a well-rounded humanist is best suited to make the most of that education.”

—David Muller, Dean for Medical Education and Professor and Chair of the Department of Medical Education and Co-Founder of the Visiting Doctors Program at Mount Sinai Medical School (Julie Rovner of KHN; Kaiser Health News, May 27, 2015).

Finding purpose in an academic program of study remains one of the most important decisions for BC students considering a career in the health professions. English majors acquire analytical skills needed for absorbing medical text. Philosophy majors develop critical thinking skills needed for differential diagnoses. Theology majors evaluate tenets beneficial in medical ethics and palliative care. History majors develop the ability to ask the pertinent questions in formulating patient history. According to the Association of American Medical Colleges' 2022–2023 Report of Applicants and Matriculants to U.S. Medical Schools, the percentage acceptance rate of students majoring in the humanities was higher overall than for those majoring in other disciplines. Listed, as follows, are the acceptance rate percentages by discipline for the 2022–2023 application cycle: Humanities—50%, Mathematics, and Statistics—45%, Physical Sciences—46%, Biological Sciences—40%, and Social Sciences—40%. (Derived from data supplied in Table A-17 of the AAMC summary).

“The humanities provide an outstanding foundation for understanding complexity and human variability, the conceptual basis for understanding medicine.”

—Charles M. Wiener, MD, Professor of Medicine and Director Emeritus, Osler Internal Medicine Training Program at John Hopkins Medical Institute (Beth Howard—AAMC Medical Education, December 12, 2016).

Pre-Health students are encouraged to reflect on who they would like to become as health professionals. Eighty-two percent of BC students participate in campus service and volunteer organizations. This augments the formation of students to be “men and women for others” in the health career of their choice. Health professions graduate schools are interested in students who demonstrate a commitment of service to the underserved and the poor, including populations historically underrepresented in patient care. This dedication to others expands and informs their decision to pursue a career in the health field which supports comprehensive patient care and health equity for all. Students entering the Pre-Health program are encouraged to reflect on the mission of the Core curriculum to refine a purposeful and authentic life that integrates academic disciplines and the building of relationships. Each semester, a student should be engaged in a course (or courses) that inspires them and creates an awareness and a curiosity to explore and grow. Furthermore, Pre-Health students considering their program major are encouraged to reflect upon “The Three Key Questions” posed by Fr. Michael Himes, Professor of Theology at Boston College:

1. What brings me joy?
2. What am I good at?
3. What does the world need me to be?

The Pre-Health program in the Morrissey College of Arts and Sciences is an **open program for all students in every major program of study at Boston College. There is no minimum GPA requirement.** The program provides support and comprehensive advising to undergraduates and alumni of Boston College interested in medical, dental, or veterinary careers, as well as other areas of health profession study. Students benefit from majoring in any of the varied academic disciplines offered at BC, which would help them address the three aforementioned questions. As a Jesuit, Catholic institution, Boston College is dedicated to the continual process of intellectual inquiry and student formation.

Students are encouraged to examine the full spectrum of options and to select a major and find an enriching program of study in which he/she will excel.

Utilizing the Pre-Health Team to Maximize Success

Irrespective of major (humanities or STEM), the BC Pre-Health team meets with students at every stage of their Pre-Health portfolio development, from prospective freshmen to seniors and alumni. The Pre-Health team assists with all aspects of planning when considering a career in the health professions, including selection of a major, course selection, gaining health-related experience, evaluating extracurricular activities, preparing for professional exams (MCAT, DAT, GRE) and all aspects of the pre-and post-application process for health profession schools. If you are considering a career in a health profession, please set up an appointment with our office by emailing premed@bc.edu. For up-to-date information about the Pre-Health program please email us in order to receive notifications regarding programming and upcoming events. Our office resides within the Academic Advising Center and is located in Stokes Hall S132.

All Majors at Boston College Have Access to the Pre-Health Program

It is important to note that medical, dental, and veterinary medical school admissions committees accept a wide variety of majors. Therefore, it is imperative for students to decide on the particular major that would lead to their success as they embark on their unique career path.

Students are invited to think, explore, and discern in order to learn across disciplines and develop their minds and educational experiences to the fullest potential. The goal is to gain the ability to think critically, both broadly and deeply, and at Boston College, a liberal arts education is focused on the whole person. The liberal arts have always been at the center of the Jesuit, Catholic intellectual tradition, which promotes the integration of students' academic and personal goals, inspiring them to reflect on who they are, who they want to become, and how they want to engage in the world for the common good.

Gregory Kalscheur, S.J., Dean of the Morrissey College of Arts and Sciences shares, "At Boston College, we hope our students become women and men of depth of thought and creative imagination, who are ready to engage the needs of our world and well-prepared for meaningful lives of leadership, scholarship, and service."

In choosing a major, we encourage students to allow their choice of major be shaped by academic experiences and exploration in programs of study that resonate with the student's interests, skills, and talents. For example, a student may want to reflect upon evidence of previous academic success in a certain area when selecting a major. However, if a student is considering a major program of study that is new to the student, without prior foundational coursework, then the student may wish to weigh the pluses and minuses in forging new territory, as opposed to leveraging prior academic success. Exploring the groundwork for future immersion in a discipline is the primary tenet of the Core curriculum which fosters a broad and diverse perspective of the humanities and arts, the sciences, and the social sciences.

The BC Pre-Health team works with students to strategize on the optimal timeframe and coursework necessary to complete the foundational requirements. Keep in mind that course requirements vary when applying to health profession schools. Irrespective of any major at Boston College (humanities or STEM), below is a summary of the necessary Pre-Health program requirements. The Pre-Health team encourages interested students to research the requirements for specific medical or dental schools of interest, as well as research elective coursework helpful in preparation for standardized entrance exams.

Program of Study

Suggested Foundational Curriculum for Pre-Health Students:

- Two semesters of Biology with Lab
- Two semesters of General Chemistry with Lab
- Two semesters of Organic Chemistry with Lab and/or one semester of Organic Chemistry with one semester of Biochemistry*
- Two semesters of Physics with Lab (either Calculus-based Physics or Algebra-based Physics is acceptable; refer to major program requirements as well.)
- Two semesters of English

*It is incumbent on the prospective applicant to be knowledgeable of individual medical school requirements when planning his or her course selection. We suggest meeting with a member of the Pre-Health team if uncertain.

The required courses for the professional school of interest may be taken during any of the four undergraduate years in any order with the exception of the General Chemistry– Organic Chemistry sequence. In order to apply to health profession schools directly upon graduation

from BC, the student must complete all course requirements in three years, in addition to successful completion of standardized testing. Most BC applicants, however, elect to distribute the Pre-Health coursework over four years of undergraduate study and apply to medical, dental, or veterinary school as seniors and/or as alumni. The average age of a student matriculating into medical school is approximately 25 years old; therefore, electing to take one or more “growth” years to explore, reflect, and act on a specific health-related problem, clinical, or scientific inquiry may inexorably improve the competitiveness of a student’s candidacy. At Boston College, the Pre-Health team operates as a cohesive advising unit that closely collaborates with students during each undergraduate year of portfolio development to help create a career narrative.

Freshman Year: Interested students should attend the freshman meeting and set up an initial consultation with the Pre-Health program office to learn and capitalize on the benefits of drop-in advising sessions and explore resources.

Sophomore Year: Interested students should attend the sophomore meeting and review progress and achievements with the Pre-Health team. Specific attention should be given to gaining relevant health-related experiences.

Junior Year/Senior Year: Interested students should attend the application meeting and meet regularly with the Pre-Health team to ensure that all materials are complete to initiate the BC committee letter application process.

The BC Pre-Health program collaborates closely with BC alumni and the greater professional community to offer students the full gamut of possible pathways leading to a meaningful career in the health field. A unique aspect of a valued service that BC offers students interested in medical or dental school is the opportunity to obtain a committee letter of recommendation endorsed by the Boston College faculty committee. This letter presents a comprehensive assessment of the student under review by the committee and showcases the accomplishments and achievements of an applicant in a personalized portfolio. Additionally, during the application process, students receive one-on-one expert advising from an individual faculty member on the committee. While the Pre-Health team is dedicated to ushering students through the process of applying for professional health programs, it is important to note that the onus is on students to reflect, discern, and act in order to pursue their unique career path.

Freshman Pre-Health Checklist

1. Register for Pre-Health program announcements at premed@bc.edu
2. Attend the freshman meeting (first week in September —email invitation will be sent out)
3. Read the freshman checklist online
4. Make an appointment with a member of the Pre-Health team by calling [617-552-4663](tel:617-552-4663)
5. Cultivate a mentor (get to know your professors and other administrative staff)
6. Develop study skills, attend office hours, and seek tutoring assistance from the Connors Family Learning Center and/or academic support when warranted
7. Visit academic departments to research programs of study, minors, and concentrations
8. Get involved with a health-related club (e.g., Mendel Society, Predental Society)
9. Get involved judiciously with on- or off-campus service organizations and extracurricular activities

Pre-Law Advising

Boston College has a dedicated pre-law advisor and offers pre-law advising through the Career Center. The Boston College Career Center and two pre-law student associations, the Bellarmine Law Society and the AHANA Pre-Law Student Association, present panels each year on different aspects of the legal profession and the law school admission process. The pre-law advisor is available to meet individually with students interested in law as a career whenever questions or concerns arise. While no particular major is preferred by law schools, it is suggested that students consider including some of the following courses in their programs of study: logic, mathematics, law, public speaking, English (especially intensive writing courses), history, sociology, and political science. You can indicate your interest in receiving announcements of pre-law panels and activities by officially registering as Pre-Law in the Academic Advising Center or Office of Student Services. Before scheduling a pre-law advising appointment, students should review the [Boston College Pre-Law Advising Handbook](#). For further information, contact the Career Center at 617-552-3430 and view the Career Center’s website for information on [Applying to Law School](#).

PULSE Program for Service Learning

For a description of the PULSE Program, please visit the [PULSE website](#).

Reserve Officers' Training Corps

Air Force Reserve Officers' Training Corps

Through a cross-enrolled program with Boston University, interested Boston College students may participate in the Air Force Reserve Officers' Training Corps program. Scholarships (full and partial) are available to qualified students for four, three, or two years and include tuition (full or partial), books, fees, and a monthly stipend. Freshmen and sophomores can compete for 2- and 3-year scholarships, some of which would cover full tuition, others which cover \$15,000 per academic year. Academic specialties for scholarships include all majors. All training, drills, and classes are held at the BU campus. Service obligations are one year for each scholarship year (active duty), while pilots are obligated for eight years active duty after completion of flight school. To obtain further information, contact the Department of Aerospace Studies, Boston University, 617-353-4705, afrotc-all-mail@bu.edu.

Army Reserve Officers' Training Corps

The U.S. Army offers Reserve Officers' Training Corps (ROTC) at Boston College as an extension school in cooperation with Northeastern University. Combined, Boston College and Northeastern University make up the Liberty Battalion. Boston College students attend classes and training on the Chestnut Hill campus. Upon graduation and successful completion of all pre-commissioning requirements, Cadets receive a commission as a Second Lieutenant in the U.S. Army and serve on active duty, U.S. Army Reserves, or National Guard in a variety of fields. Qualified graduates may also be selected to attend professional schools, such as medical or law school.

Scholarships may be available for qualified high school students admitted to Boston College and college students currently attending BC. In addition, scholarships may be available to Boston College Nurses through the ROTC program. All scholarships include full tuition and mandatory fees, a monthly stipend, and money for books. Boston College also awards additional incentives for Army ROTC scholarship Cadets. For more information including an application, contact the Liberty Battalion Enrollment and Scholarship Officer at 617-373-2376 or visit the [BC Army ROTC website](#) and rotc.northeastern.edu.

Marine Corps Platoon Leaders' Class (PLC)

Available in connection with the Marine Officers Selection Office, Boston, the PLC Program is open to qualified freshmen, sophomores, and juniors. No formal classes or training takes place during the academic year. Students/candidates attend Officer Candidate School (Quantico, VA) training either in two 6-week sessions (male freshmen/sophomores) or one 10-week session (male and female juniors/seniors). Pay and expenses are received during training. No commitment to the USMC is incurred after OCS until a degree is awarded and a Second Lieutenant's commission issued. Service obligations are then three and a half years active duty or longer for aviation positions. Students/candidates may drop from the program at any time prior to commissioning. For more information, contact the Marine Officer Selection Office, Boston, at 888-753-8762.

Navy Reserve Officers' Training Corps

Qualified BC students may cross enroll in Navy Reserve Officers' Training Corps (and the Marine Corps Option) at Boston University. There are 3- and 4-year programs with possible scholarships (full tuition, some books/fees expenses, monthly stipend, but no room and board). All classes and drills are held at Boston University. Scholarship students incur an active duty service obligation. For further information, please contact the Department of Naval Sciences, Boston University, 617-358-0471, burotc@bc.edu.

*ROTC courses display on the academic record but do not count towards the required number of credits for graduation or in the G.P.A.
Beginning with the class of 2026, 6 credits from ROTC courses can be counted towards credits and G.P.A.*

Undergraduate Faculty Research Fellows Program

Boston College established the Undergraduate Faculty Research Fellows Program (URF) for the purpose of enhancing the academic experience of undergraduates by cultivating their research skills and fostering mentor relationships between undergraduates and faculty. The program provides a grant to faculty to pay for a student's research assistance with a faculty member's research project. It is considered student employment and the student may work up to 20 hours a week during the academic semester, up to 40 hours a week during semester breaks or the summer, depending on faculty need, the funding available, and student availability. Students do not apply directly.

The application for an Undergraduate Research Fellowship must come from the faculty member whose research project the student will assist. Students can inquire directly with faculty to express their interest in being involved in the faculty member's research. Students cannot receive academic credit for work done under an URF.

Trustees & Leadership

The University is led by [William P. Leahy, S.J.](#), 25th President of Boston College.

Provost and Dean of Faculties [David Quigley](#) oversees the University's academic life and leads its distinguished faculty.

Boston College's eight schools and colleges are led by academic deans, who report to the provost and direct the academic initiatives related to their schools. University vice presidents oversee Boston College's administrative areas.

Boston College Board of Regents 2024–2025

The Boston College Board of Regents serves as ambassadors and provides support to the president and the Board of Trustees on strategic priorities and matters essential to the future of the University. Rooted in the ideals of Jesuit higher education and the mission of Boston College, regents explore the value of the University in the world today and imagine the possibility of its impact on the world of tomorrow.

About BC

Education with a heart and soul—and the power to transform

Boston College, the first institution of higher education to operate in the city of Boston, is today among the nation's foremost universities, a leader in the liberal arts, scientific inquiry, and student formation.

Grounded in the ideals that inspired our Jesuit founders, Boston College urges students to look inward but always to reach out—to develop their minds and talents to the fullest and use them in service to others.

We ask our students to explore the big questions and challenge them to ask: What difference will I make? How will my knowledge serve the world?

We ask our students to explore the big questions and challenge them to ask: What difference will I make? How will my knowledge serve the world?

BC Basics

Origin

Founded in Boston's South End in 1863.

Colors

Maroon and gold

Motto

"Ever to Excel" from Book Six of *The Illiad*

Mascot

The Eagle

- **Spotlight**

- **BC Global**

- True to our Jesuit, Catholic heritage, Boston College has been committed to international collaboration since our founding in 1863. The Global Engagement Committee will explore new opportunities, challenges, and resources needed for enhancing our international presence.

Boston College Traditions

- **Convocation**

- **[“Set the World Aflame”](#)**

- Freshman Eagles begin their BC journey with the traditional “first flight”—a lantern-led procession down the Higgins stairs to the Conte Forum for an inspiring guest speaker.

- **Beanpot**

- **[Best of Boston](#)**

- Since 1952, teams from BC, BU, Harvard, and Northeastern have competed for hockey dominance in this legendary two-week tournament.

- **Red Bandana**

- **[Remembering Welles Crowther](#)**

- Every year, the BC community honors the memory of alumnus and 9/11 hero Welles Remy Crowther '99 with a 5k “Red Bandana Race” and a dedicated football and lacrosse game.

- **Arts Festival**

- **[Creativity on Campus](#)**

- Music, theater, dance, poetry—this vibrant community event draws more than 1,000 talented student and faculty performers.

- **ALC Showdown**

- **[Let’s Dance!](#)**

- BC’s largest annual student dance competition promotes diversity and cultural awareness through dance.

- **Marathon Monday**

- [A Boston Tradition](#)

- Every Patriot's Day, the BC community cheers on runners in the Boston Marathon, including the BC Campus School team, as they make their way up Commonwealth Avenue.

- **Superfans**

- [Gold Rush](#)

- Superfans wear gold and get loud as they cheer the Eagles to victory.

- **Student Involvement Fair**

- [Find Your Spot](#)

- This annual fair gives incoming students a chance to explore the more than 300 diverse organizations, programs, and offices on campus.

- **Mass of the Holy Spirit**

- [Blessings for a New Year](#)

- A Jesuit tradition dating back to the Middle Ages, the Mass of the Holy Spirit brings the BC community together to mark the opening of the school year.

- **Christmas Tree Lighting**

- [Celebrating the Holidays](#)

- BC kicks off the Christmas season with a tree lighting ceremony featuring festive performances, games, and a chance to take a selfie with Santa.

- **ALS Awareness Game**

- [Fenway Park Takeover](#)

- For one night a year, the BC baseball team plays a home game at Fenway Park to raise money in the fight against ALS.

- **Commencement**

- [Congrats, Grads!](#)

- Graduating students and their families celebrate their academic accomplishments and hear from inspiring speakers at the University Commencement ceremony.

President's Message

Boston College: Answering Society's Call

On behalf of the entire Boston College family, I am pleased to introduce you to Boston College, and to offer my vision for the University.

The history of Boston College is a narrative of response to society's call. In 1863, that call came from an immigrant community that sought a Jesuit education to foster social mobility. Boston College offered that promise.

Today, the call emanates from a world that has experienced an explosion of knowledge, but not a corresponding growth in understanding; a world that too often lacks trust in its leaders and faith in its institutions. It is a world that has developed wondrous technologies that link continents, but isolate human beings, leaving many men and women weary and dispirited, feeling distant from moral purpose, uncertain about knowledge or the very worth of human endeavor.

Boston College is uniquely capable of answering this call, of speaking to this world. As an institution of higher education, Boston College is committed to the discovery and transmission of knowledge. But reflecting its Jesuit and Catholic heritage, it also seeks to integrate excellence and religious commitment, to both inform and form its students.

Boston College endeavors to educate a new generation of leaders—men and women who will be capable of shaping the future with vision, justice, and charity—with a sense of calling, with concern for all of the human family.

We pursue this challenge because it is a worthy goal for any university, but particularly for Boston College, a university uniquely suited to be a beacon of hope and light for all. I invite you to join us, as a prospective student, parent, or friend.

William P. Leahy, S.J.
President

Mission & History

Where We Began

Boston College was founded in 1863 by the Society of Jesus (the Jesuits) to educate Boston's predominantly Irish, Catholic immigrant community. It opened its doors on September 5, 1864, in a building on Harrison Avenue in Boston's South End, a "small streetcar college" for commuting students.

When it outgrew the limitations of the space, then-president Rev. Thomas I. Gasson, S.J., bought 31 acres of the former Lawrence Farm in Chestnut Hill, Massachusetts, and broke ground in 1909 on a new campus, today fondly known as "the Heights."

BC began as an undergraduate liberal arts college, but as its aspirations grew, it added graduate programs and professional schools fulfilling its charter as a university.

Through the decades, Boston College has become an internationally respected research university and a center of academic excellence.

Where We Are Going

Boston College builds upon its traditions. It seeks to be the national leader in the liberal arts; to fulfill its Jesuit, Catholic mission of faith and service; to continue to develop model programs to support students in their formation; and to seek solutions—as researchers, educators, leaders, and caregivers—that directly address the world's most urgent problems.

Guiding Our Path

Boston College remains committed to leading its students on a comprehensive journey of discovery—one that integrates their intellectual, personal, ethical, and religious formation.

Inspiration for Boston College's academic and societal mission is drawn from the University's distinctive religious and intellectual heritage. As a Jesuit, Catholic University, Boston College is rooted in a world view that calls us to learn, to search for truth, and to live in service to others. To fulfill that mission, we welcome and embrace the contributions of a diverse student body from many faith traditions.

Advanced Placement

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Students seeking Advanced Standing, which is the option to complete their undergraduate studies in six semesters of full-time study, shall be in touch with their Academic Dean no sooner than the completion of their first semester at BC. Qualifying scores will be assigned advanced placement units as outlined in the tabs below.

For current Boston College students:

If your Advanced Placement scores are not reflected on your record on the Agora Portal, please order a new score report from the College Board and have it sent to Boston College. Our code is 3083. Please keep in mind that scores take approximately two weeks to arrive from the College Board. If you have questions about your scores and/or placement, please contact the Office of Undergraduate Admission at admission@bc.edu.

- Advanced Placement
- International Baccalaureate
- SAT Subject Tests
- British A-Levels
- French Baccalaureate
- Italian Maturità
- German Abitur
- Swiss Maturité
- Advanced Standing - Graduating in 3 Years
- College Courses Taken During High School

Boston College participates in the Advanced Placement program of the College Entrance Examination Board. Applicants interested in advanced placement should make arrangements to take the Advanced Placement Examinations given by the College Board in May of each year.

The following table displays Boston College's Advanced Placement policy. Boston College reserves the right to change this policy, as is determined by campus administrators. In general, a student scoring four or five on the exams will be awarded advanced placement. In some instances, a score of three will make a student eligible for advanced placement. In most cases, students do not earn actual credit, rather, they fulfill corresponding requirements in the University Core Curriculum. You will still be required to take the full 120 credits necessary for graduation unless you have the equivalency of 30 AP credits, in which case you may qualify for advanced standing and would be eligible to graduate from Boston College in 3 years.

Advanced Placement Exam	Exam Score Minimum	Advanced Placement Units	Requirements Fulfilled*
Art History	4	3	Arts Core
Biology	4	6	2 Natural Science Core

Calculus AB (or AB sub score)	4	3	Math Core / Math 1100 or Math 1102 course equivalent
Calculus BC	4	6	Math Core / Math 1100, Math 1101, Math 1102 or Math 1103 course equivalent
Chemistry	4	6	2 Natural Science Core
Chinese Language and Culture	4	6	2 Slavic Language Electives and Language Proficiency
Comparative Government and Politics	4	3	1 Social Science Core
Computer Science (A or Principles)	N/A	N/A	Students must consult with the department to determine if any placement within the major is appropriate.
**Economics (Macro)	4	3	1 Social Science Core / no placement for ECON1101
**Economics (Micro)	4	3	1 Social Science Core / no placement for ECON1101
English Language and Composition	4	3	Writing Core

English Literature and Composition	4	3	Literature Core

Physics C E+M	4	3	1 Natural Science Core
Physics C Mechanics	4	3	1 Natural Science Core
Precalculus	N/A	N/A	No BC equivalent
Psychology	4	3	1 Social Science Core. Please consult with the department to determine if any placement within the major is appropriate.
Research	N/A	N/A	No BC equivalent
Seminar	N/A	N/A	No BC equivalent
Spanish Language and Culture	3	0	Demonstrates Language Proficiency
Spanish Language and Culture	4	3	1 Romance Language Elective and Language Proficiency
Spanish Literature and Culture	3	0	Demonstrates Language Proficiency

Spanish Literature and Culture	4	3	1 Romance Language Elective and Language Proficiency
Statistics	5	3	Fulfills Business Statistics Requirement for CSOM students beginning with Class of 2024
Studio Art	4	3	1 Fine Arts Elective
U.S. Government and Politics	4	3	1 Social Science Core
U.S. History	4	6	Units included when students apply for Advanced Standing . No University Core / department placement earned.
World History	4	6	History Core I and II

*Students in the Connell School of Nursing fulfill their Natural Science and Mathematics Core Curriculum requirements through coursework taken during their freshman year. Therefore, qualifying exam scores cannot be used to fulfill those requirements for nursing students.

**Beginning with students entering the Spring 2022 term and later, a qualifying score in both Macroeconomics and Microeconomics earns placement for *ECON1101 Principles of Economics*, which fulfills 1 Social Science Core. Students with qualifying scores in both Macroeconomics and Microeconomics would still need to satisfy the second Social Science Core requirement.

Each score of 6 or 7 on Higher Level exams will earn advanced placement units and will generally satisfy a core requirement. You will still be required to take the full 120 credits necessary for graduation, unless you have the equivalency of 30 credits, in which case you may qualify for advanced standing and would be eligible to graduate from Boston College in 3 years. Please reference the table below for specific exams.

IB Exam	Exam Score	Advanced Placement Units	Requirements Fulfilled*
---------	------------	--------------------------	-------------------------

Dance	N/A	N/A	N/A
Film	6/7	3	1 Arts Core
Music	6/7	3	1 Arts Core
Theatre	6/7	3	1 Arts Core
Visual Arts	6/7	3	1 Arts Core
Individuals and Societies IB Exam	Exam Score	Advanced Placement Units	Requirements Fulfilled*
Business and Management	N/A	N/A	N/A
Economics	6/7	3	1 Social Science Core. For Economics majors/minors, will also satisfy Principles of Economics (ECON 1101).
Geography	N/A	N/A	N/A
Global Politics	6/7	3	1 Social Science Core
History of the Americas	6/7	6	History Core I and II
History of Asia and Oceania	6/7	6	History Core I and II
History of Europe	6/7	6	History Core I and II

Information Technology in a Global Society	N/A	N/A	N/A
Islamic History	6/7	3	No Core; 1 History Elective
Philosophy	6/7	3	1 Philosophy Core
Psychology**	6/7	6	1 Social Science Core + 1 Natural Science Core
Social and Cultural Anthropology	6/7	3	1 Social Science Core
World Religion	6/7	3	1 Theology Elective
Sciences IB Exam	Exam Score	Advanced Placement Units	Requirements Fulfilled*
Biology	6/7	6	2 Natural Science Core
Chemistry	6/7	6	2 Natural Science Core
Computer Science	6/7	3	1 Computer Science Elective***
Design Technology	N/A	N/A	N/A
Environmental Systems	6/7	3	1 Natural Science Core
Physics	6/7	6	2 Natural Science Core

Math IB Exam	Exam Score	Advanced Placement Units	Requirements Fulfilled*
Mathematics	6/7	3	1 Math Core
Further Mathematics	6/7	3	1 Math Core
Analysis and Approaches	6/7	3	1 Math Core
Applications and Interpretation	6/7	3	1 Math Core
Language IB Exam	Exam Score	Advanced Placement Units	Requirements Fulfilled*

English A Language and Literature	6/7	3	Writing and Literature Core
English B Language	N/A	N/A	N/A
Foreign Language	6/7	6	MCAS Language Proficiency
Modern Classical Language	6/7	6	MCAS Language Proficiency

* IB elective units cannot be used to fulfill the four arts and sciences electives required for CSOM, but can count toward the 30 units required to be eligible to apply for advanced standing. Electives do not count toward the degree in any other scenario because IB units are generally used for placement only, not credit.

** Psychology majors will satisfy both PSYC1110 and PSYC1111. Neuroscience majors will satisfy PSYC1110. Psychology majors will need to take two additional Psychology electives and Neuroscience majors will need to take one additional Neuroscience elective should they use

their IB Psychology credit to bypass the introduction course(s). Please consult with your respective major requirements checklists for more information.

*** Students interested in the Computer Science major must consult with the Computer Science Department to determine if these electives can in any way apply to the major.

Sports, Exercise and Health Science IB is not recognized by Boston College.

All students in the Morrissey College of Arts and Sciences must demonstrate intermediate-level proficiency in a foreign language in order to graduate from Boston College. The SAT Subject Test scores below demonstrate intermediate-level proficiency at Boston College.

SAT Subject Test	Exam Score Minimum	Requirements Fulfilled
Chinese	700	Demonstrates Language Proficiency
French	550	Demonstrates Language Proficiency
German	600 700*	Demonstrates Language Proficiency (*beginning with the Class of 2025)

* There are other A-Level courses offered that do not apply to a degree at Boston College. If the course is not listed here, no advanced placement units can be earned.

French Baccalaureate

Scores of 14 or higher* will be considered for a maximum of six placement units for each 12th grade Spécialité subject.

A minimum score of 12* for each 12th grade Spécialité subject will be considered for a maximum of three placement units.

Students completing the French International Baccalaureate (BFI)/French Baccalaureate with International Option (OIB) may earn advanced placement units in English and history for corresponding exam scores.

Scores below 10 do not qualify.

Units may be used to fulfill corresponding University Core or major requirements.

*Advanced Placement is based on the French Baccalaureate exam results and is considered in the context of departmental review. Boston College reserves the right to change this policy, as is determined by campus administrators.

Italian Maturità

For students who earn an exam score of 70 or higher on the final exam, advanced placement units will be awarded only for subjects in which the written exam was taken (no placement for oral exams) and the average score for the final exam over the last two years is 7 or higher. No advanced placement units can be earned for English.

German Abitur

Placement will be considered for the four subjects scored in the Abitur final exams. For two subjects listed as the "main subject," scores of 10 or higher will earn 6 advanced placement units in corresponding subject areas. For two additional "basic courses" with scores of 10 or higher, 3 advanced placement units will be earned in the corresponding subject areas. No advanced placement units can be earned for English.

Swiss Maturité

Advanced placement units can be earned for exam scores of 4 or better. No advanced placement units can be earned for English.

Advanced Standing — Graduating in 3 Years

Students who earn a total of 30 Advanced Placement units may be eligible for Advanced Standing and have the option to complete their undergraduate studies in three years. Students interested in this option should be in touch with their Dean following completion of their first semester at BC. No decisions on Advanced Standing will be made prior to that time. Students seeking Advanced Standing must be able to complete all degree requirements by the proposed graduation date and be approved for Advanced Standing by the Dean before the start of their third year of undergraduate study.

College Courses Taken During High School

Advanced placement units can be earned for college courses taken during high school according to the following guidelines:

Students enrolled in courses designated as “college courses” that are taken at the high school with a high school teacher may only earn advanced placement units if corresponding College Board AP exams are taken and qualifying scores are earned. A college transcript alone cannot be used to earn advanced placement units for these courses.

College coursework taken on a college campus with a college professor and with other college students either during the academic year or over the summer may be evaluated for advanced placement units. Only courses that are deemed equal in depth and breadth to coursework taught at Boston College and are being used to supplement high school coursework (and not to fulfill high school requirements) will be considered.

Each 3 or 4 credit course with a grade of B or better will earn 3 advanced placement units. Students will still be required to take the full 120 credits necessary for graduation, unless they have the equivalency of 30 credits, in which case they may qualify for Advanced Standing and would be eligible to graduate from Boston College in 3 years. College transcripts **as well as the verification form signed by a high school administrator** for these courses should be submitted to the Office of Transfer Admission by August 1. Students who enroll at a local college to satisfy high school graduation requirements are not eligible for advanced placement units unless they take the corresponding College Board AP exams and earn qualifying scores.

Family Educational Rights and Privacy Act (FERPA)

The Executive Director of Student Services and the Vice President for Student Affairs are responsible for notifying students annually of their rights under FERPA. The annual notice is to appear in the *Boston College Bulletin* and in the *Boston College Student Guide*.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student.

Student Rights Under FERPA

Boston College maintains a large number of records regarding its students in the administration of its educational programs, as well as its housing, athletics, and extracurricular programs. The University also maintains employment and financial records for its own use and to comply with state and federal regulations. Boston College is committed to protecting the privacy interests of its students and to maintaining the confidentiality of student records in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA).

These rights are as follows:

- The right to inspect and review the student's education record within 45 days of the day the University receives a request for access.

Any student who wishes to inspect and review information contained in an education record maintained by any office of the University may, with proper identification, request access to the record from the office responsible for maintaining that record. Unless the circumstances require the existence of a formal request, an oral request may be honored.

Whenever an office responsible for maintaining education records is unable to respond, the student may submit to the Office of Student Services, dean, academic department head, or other appropriate official a written request that identifies the record he or she wishes to inspect. The University official shall provide access within 45 days after the University receives the request, and shall notify the student of the time and place the record may be inspected. If the record is not maintained by the University official to whom the request is submitted, that official is to advise the student of the correct official to whom the request is to be addressed.

- The right to request the amendment of the student's education record if the student believes that information contained in his or her record is inaccurate, misleading or in violation of his or her rights of privacy.

Any student who believes that information contained in his or her education record is inaccurate, misleading, or in violation of his or her rights of privacy is to write to the University official responsible for the record, clearly identifying the part of the record he or she wants changed, and specifying why the record should be amended.

If the University concludes that the record should not be amended as requested, the University will notify the student, advise the student of his or her right to a hearing and provide information about the hearing process.

- The right to consent to the disclosure of personally identifiable information contained in the student's education record, except to the extent permitted under FERPA. One exception that permits disclosure without consent is disclosure to University officials with legitimate educational interests, which may include employees in administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); members of the Board of Trustees; and students serving on an official committee, such as a disciplinary or grievance committees, or assisting another University officials in performing their tasks. University officials may also be contractors, consultants, volunteers or other outside parties to whom the University has outsourced institutional services or functions that would ordinarily be performed by University employees. The University may disclose education records without consent to officials of other educational institutions that have requested the records and in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.
- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. Written complaints may be directed to the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

Please note that as part of the Solomon Amendment, Boston College is required by law to provide branches of the military access to certain student directory information which normally would be denied to them under the Family Educational Rights and Privacy Act (FERPA).

[FERPA Release Form](#)

Student Loan Code of Conduct for Employees

All Boston College employees whose job responsibilities include matters related to student financial aid are expected to maintain exemplary standards of professional conduct and must adhere to this Code of Conduct in compliance with Federal regulations. The Executive Director of Student Services shall notify these employees annually of their obligations under this Code.

Boston College:

- Prohibits all revenue-sharing arrangements with lenders. The University will not promote or recommend any lender in exchange for a fee or other material benefit from that lender.
- Does not request or accept offers of funds for private loans, including opportunity pool loans.
- Certifies loans from any lender selected by a borrower without undue delay, and will not direct a first-time borrower's loan to a particular lender.
- Ensures that the process through which the student signs a Master Promissory Note preserves the student's right to select the lender of his or her choice.
- Does not arrange for alternate loan programs that disadvantage students or parents not enrolled in the program or receiving such loan terms.
- Prohibits the request or acceptance of staffing assistance from lenders.
- Prohibits employees or agents of a lender from identifying themselves, either directly or by implication, as an employee of Boston College to students, parents or any persons seeking information from Boston College.
- Bases the selection of lenders for a preferred lender list solely on the best interests of the students and parents.
- Fully discloses the selection process for a preferred lender.
- Provides borrowers with consumer information about the loan products offered by the lenders on a preferred lender list, including any agreements lenders have to sell their loans to other entities.
- Informs students and parents that they are not required to use any of the lenders on a preferred lender list and can select any lender of their choice.

Every Boston College employee involved in any aspect of the loan process (this includes, but is not limited to, the Financial Aid staff, both on the main campus and at the Law School, and the Enrollment Management staff) must avoid any situations that create a potential conflict of interest between the employee's personal or outside interests and his or her role and responsibilities as an employee of Boston College, and must disclose to his or her supervisor any potential conflict as it arises.

Specifically, staff members must not:

- Solicit or accept gifts with more than a de minimis value from any business entity involved in any aspect of student financial aid, including, without limitation, cash payments, stocks, club memberships, favors, discounts, lodging, meals, entertainment, and services. This prohibition extends to a staff member's family (includes staff member's and spouse's: parent or stepparent; sibling or step-sibling; child or stepchild; and grandchild or step-grandchild, as well as a child's spouse and a sibling's spouse).
- Undertake any activity, whether compensated or not, outside of Boston College that has the potential to create a conflict of interest with the staff member's duties as a financial aid professional employed by Boston College, including accepting any fee, payment, or other financial benefit as compensation for any type of employment, consulting or other arrangement with a lender, guarantor, or servicer.
- Receive any compensation for serving on an advisory board, commission, or group established by a lender, guarantor, or group of lenders or guarantors. A staff member wishing to serve on an advisory board must seek prior approval from his or her supervisor, and may be reimbursed only for reasonable expenses while serving on an approved advisory board.

Staff members should understand and adhere to all institutional policies and any local, state and federal requirements that are applicable to their conduct or job performance. Any staff member who has a question whether a particular situation or activity creates a conflict of interest or violates any law or policy should immediately notify their supervisor prior to commencing such activity, or at the earliest time when such a question arises. Supervisors shall contact the Office of the General Counsel upon receipt of any inquiries.

Confidentiality of Student Records

Certain personally identifiable information from a student's education record, designated by Boston College as directory information, may be released without the student's prior consent. This information includes name; term, home, local, and electronic mail addresses; telephone listing; date and place of birth; photograph; major field of study; enrollment status; grade level; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; school/college of enrollment; anticipated date of graduation; degrees and awards received; the most recent previous educational agency or institution attended; and other similar information.

A student can prevent the release of all directory information including verification of enrollment, and may suppress selected directory information either to the Boston College community or to the general public. In order to do this, students must visit the [Agora Portal](#) to suppress the release of all or selected directory information. Suppression is available by selecting Privacy Preferences. Student directory information will not be blocked from faculty and staff conducting official University business.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student unless an exception under FERPA permits the disclosure. For more information, access Boston College's [Student Educational Records](#) policy.

Disclosures to Parents of Students

When a student reaches the age of 18, or attends a postsecondary institution regardless of age, FERPA rights transfer to the student.

Guidelines for the disclosure of information to parents are as follows:

- Parents may obtain directory information at the discretion of the institution.
- Parents may obtain nondirectory information (e.g., grades, GPA) at the discretion of the institution and after it is determined that the student is legally dependent on either parent.
- Parents may also obtain nondirectory information if they have a signed consent from the student.

Notice of Nondiscrimination

Visit the link below to view the Notice of Nondiscrimination.

[Notice of Nondiscrimination](#)

University Communication Policies and Student Responsibilities

Official communications of the University with its currently enrolled students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or email. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

Postal Service and Campus Mail

For purposes of written communication, the student's local and permanent addresses on record at Student Services will be regarded as the student's official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses, and to enter corrections in the [Agora Portal](#) if the addresses are not accurate in University records. Students should review their address record for accuracy at the beginning of each semester, and again soon after submitting any corrections.

Students who are studying abroad have a responsibility to provide their local international address to the Office of Global Education.

Email

The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with Boston College email addresses, as well as access to email services from computer stations at various locations on campus. All students are expected to access their email accounts regularly, to check for official University communications, and to respond as necessary to such communications.

All student responses to official email communications from the University must contain the student's Boston College email address in the "From:" and "Reply To:" lines, and should originate from the student's Boston College email address, to assure that the response can be recognized as a message from a member of the University community.

Students may forward their email messages from their Boston College email address to non-university email systems, if they wish. In such cases, however, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University email account on a regular basis, to confirm that their email service is functioning reliably.

Voter Registration Information

Boston College believes that every student has a responsibility to be an engaged community member. To that end, we have partnered with TurboVote to provide you with the information and materials you need to vote in every election from local to presidential.

TurboVote gives you the tools to help you register to vote online. You may learn more about this service at turbovote.org.

For questions or concerns, please contact Boston College Student Affairs at bcsa@bc.edu.

Medical Insurance

The student health insurance plan for the 2024–2025 policy year, effective August 7, 2024, will continue to be provided by UnitedHealthcare underwritten by Harvard Pilgrim. The plan design is similar to last year’s insurance plan, with a change in network to UnitedHealthcare Choice Plus Network. For more details about coverage, please refer to the Summary of Benefits or contact UnitedHealth Care at 866-948-8472 or <http://customerservice@uhcsr.com/bc>. The network of providers can be found at UHC Options PPO - Harvard Pilgrim Joint Venture by visiting [this website](#) and selecting Find a Doctor.

[Summary of Benefits](#)

[FAQ](#)

2024–2025 Medical Insurance Information

- Enrollment (2024–2025)
- Waivers (2024–2025)
- ID Cards & Your UnitedHealthcare Account (2024–2025)
- Forms (2024–2025)
- Contact Information (2024–2025)
- Summer Enrollment for New Students (2024–2025)

Enrollment (2024–2025)

All students listed below are **automatically enrolled** in and billed for the student health insurance plan:

- Students enrolled in a degree program, regardless of credit hours
- Students who are not citizens or permanent residents of the U.S.
- Non-degree students enrolled at least 75% of full-time. Students are responsible for monitoring their eligibility status. (For graduate students in the schools of Morrissey College of Arts and Sciences, Lynch School of Education and Human Development, Carroll School of Management, Connell Graduate School of Nursing, School of Social Work, Clough School of Theology and Ministry, and Woods College of Advancing Studies, 75% of full-time is 7 credits or more. For undergraduates in the Woods College of Advancing Studies, 75% of full-time is 9 credits or more.)

Graduate students (non-Law): Registration for classes triggers your insurance enrollment, and it takes 5–7 business days for your insurance to show as active in the carrier’s system. While the fall semester coverage begins on August 7 regardless of when you register, keep this timeframe in mind if you have health care providers who will need to verify your coverage with the insurance company. You should register for classes by mid-July if you need your insurance to show as active in the insurance system on August 7. This is also important if you plan to enroll dependents.

Post-doctorate students are eligible to enroll on a voluntary basis.

Dependent Enrollment

Insured students have the option of enrolling their **eligible dependents** (a spouse or a child under the age of 26). The enrollment form is available under the Forms tab. Dependents must be enrolled for the same time period as the student. For example, a student enrolled beginning in the fall semester cannot purchase dependent coverage starting in the spring unless there is a qualifying event; see the enrollment form for further details. Dependents enrolled for the fall must be re-enrolled for the spring, and you are responsible for enrolling and re-enrolling your eligible dependents each semester. The deadline to enroll dependents is September 20, 2024 for the fall semester and January 24, 2025 for students newly enrolling for the spring. Enrollment forms received after that date will not be accepted.

Note to students: You need to be enrolled in the insurance plan in order to enroll dependents. To make the dependent enrollment process as smooth as possible, you should register for classes as early as you are able.

Premium Amounts

	First Semester (8/7/24–1/9/25)	Second Semester (1/10/25–8/6/25)
Student	\$1,830	\$2,451
Spouse	\$1,830	\$2,451
One child	\$1,830	\$2,451
Two or more children	\$3,660	\$4,902
Spouse and two or more children	\$5,490	\$7,353

Insurance Plan Benefits

UnitedHealthcare Coverage

The plan offers comprehensive benefits that include hospital room and board, inpatient and outpatient surgical procedures, lab work, x-rays, chemotherapy, radiation, inpatient and outpatient mental health, physician office and consultant visits, ambulance, and prescription drugs.

Refer to the benefits information and the information available at [UnitedHealthcare](#) for complete details about coverage, limitations and exclusions.

Referrals from University Health Services

A referral is not required with the UnitedHealthcare Plan, but there are many benefits to first seeking care or advice from Boston College's University Health Services. Visit [University Health Services'](#) website for more information.

Coverage off Campus

If you paid the premium for the entire year, you will be covered from August 7, 2024 through August 6, 2025. UnitedHealthcare provides coverage whether you are in Massachusetts, out of state, or studying or travelling abroad.

While studying or traveling abroad, keep your identification card with you. When outside the United States, you will likely be asked to pay for your medical care first and then will need to seek reimbursement. Covered expenses will be reimbursed on a non-network basis. When you submit claims for reimbursement, you may need to have the itemized bill(s) translated into English and include additional information. UHC Global can be reached toll-free from within the United States at 800-527-0218 or collect from outside of the United States at 410-543-6330, or email at assistance@UHCGlobal.com.

Leave of Absence

If a student who is enrolled in the student insurance plan takes a medical leave of absence effective mid-semester, they will continue to be covered for the remainder of that semester. Coverage may also be extended for the following semester with approval from Boston College. Enrollment is not automatic. Please contact the Office of Student Services for information about enrollment and dates of eligibility.

Enrollment After Waiving the Student Health Insurance Plan

Students who initially waive participation in the student plan and subsequently wish to enroll prior to the waiver deadline may rescind waivers by deleting the prior waiver in the [Agora Portal](#) or by completing the Rescind Waiver form, available on the Forms tab. After the waiver deadline, a student may enroll in the student plan only on the basis of a **qualifying event**. Qualifying events include marriage, birth of a child, or loss of coverage from an existing policy. Students who qualify may submit a Petition to Add form, which will be available under the Forms tab after the waiver deadline.

Graduating Students

Coverage for graduating students ends on January 9, 2025 (for fall graduates) or August 6, 2025 (for spring and summer graduates). There is not an option to extend the student plan. You can contact UnitedHealthcare about enrolling directly, or explore your options through your state Health Connector. The site for the MA State Health Connector is <https://www.mahealthconnector.org/>.

Waivers (2024–2025)

Waiver forms can be found on the Forms tab.

Semester	Waiver Deadline	Insurance Coverage Period
Fall	September 20, 2024	August 7, 2024–January 9, 2025
Spring	January 24, 2025	January 10, 2025–August 6, 2025

Domestic Students Waiver Requirements (U.S. Citizens and Permanent Residents)

Students who are enrolled in a health plan that is comparable to the student plan may waive the BC coverage through the [Agora Portal](#) if they are at least 18 years old. Students under the age of 18 cannot file an electronic waiver; see the Forms tab for the under 18 waiver.

Before waiving coverage, review your plan with the following in mind:

Please review your insurance carefully. If you waive coverage and find later that your insurance does not cover a claim, you cannot enroll in the BC plan later to have the claim covered. You would need to wait until the next open enrollment period the following year.

Your plan should be compliant with the Affordable Care Act. It should include, but not be limited to, the following:

- preventative and non-urgent care
- prescription drugs

- emergency care
- mental health and substance abuse treatment
- surgical care
- inpatient and outpatient hospitalization
- lab work and diagnostic x-ray
- physical therapy and chiropractic care
- immediate coverage for pre-existing conditions
- no annual maximum benefits

Your plan should cover these services in **Massachusetts and near campus**. It should not limit coverage to your home state, or limit you to emergency services only while in Massachusetts.

Medicaid plans outside of Massachusetts are not eligible for a waiver because they limit what coverage is available outside of your home state. MassHealth plans qualify for a waiver, but the following MA Medicaid plans do **not** qualify for a waiver: Children's Medical Security Program, MassHealth Limited and Health Safety Net. These plans do not qualify for a waiver due to their limited coverage.

If you plan to travel in or outside of the U.S., your plan should cover you in those locations.

The state of Massachusetts does not permit waivers with socialized (foreign National Health Service program) plans.

Your plan should cover you for the full academic year.

Please note:

Incomplete waivers will not be processed. Waivers must be completed every year. **All waivers must be submitted by the deadlines above.** Students who do not complete a waiver prior to the deadline will automatically be enrolled in and charged for the UnitedHealthcare student plan. Once the waiver is submitted, the charge will be removed from the student account in one business day; students and authorized payers can verify the adjustment by logging in to the [Agora Portal](#) ("My Bill") and viewing Current Activity on the View & Pay Accounts tab. **Students are responsible for verifying that their waiver was submitted correctly.**

Providing insurance information to other offices on campus (e.g., Athletics, Health Services) does not fulfill the Massachusetts waiver requirement. If a student does not complete a waiver with the Office of Student Services, either through the [Agora Portal](#) or on paper, prior to the deadline, they will automatically be enrolled in and charged for the student insurance plan.

International Students Waiver Requirements (Students who are Not U.S. Citizens or Permanent Residents)

To ensure international students are covered by a plan that provides sufficient coverage, **international students are not eligible to waive BC's Student Health Insurance Plan except in very limited situations:** you are insured through (1) your own or a parent/guardian/spouse's health insurance plan offered through a U.S. employer or (2) certain government-sponsored programs such as the Government of Kuwait/UAE or Government of Saudi Arabia. MA Medicaid Plans such as Children's Medical Security Program, MassHealth Limited, and Health Safety Net do not qualify for a waiver.

The following plans are not eligible for waivers in Massachusetts: non-U.S.-based and international insurance plans, socialized or standard medical policies (including Canadian policies), travel insurance plans, or short-term medical plans. Plans must be fully compliant with the Affordable Care Act. **Your insurance must be effective on or before August 7, 2024 (for fall and annual waivers) or January 10, 2025 (for spring waivers) to qualify for a waiver. For example, a policy beginning on September 1, 2024 does not cover your full time here and would not qualify for a fall or annual waiver.**

ID Cards & Your UnitedHealthcare Account (2024–2025)

Creating Your United Account

Follow the steps to create your UnitedHealthcare account and access your ID card once the plan begins on August 7. When prompted, use your BC student ID and your BC email in username@bc.edu format.

[Instructions to Create Your United Account](#)

Students new to the plan: Your mobile-friendly online UnitedHealthcare account is the resource for

- Your ID card
- Viewing policy information and estimating the cost of care that you need
- Viewing claims statuses and details
- Seeing what is covered and what additional benefits are available to you

See the instructions above to create your account.

Students who had the plan last year: Your United ID number will not change, but your network provider will effective August 7. Once the new plan begins, you should log in to your United account and download your updated ID with the new network information. (In an analysis of the top 2,035 health care providers used by BC students last year, there was no change in coverage with the new network. Contact UnitedHealthcare for more information.)

ID Cards

Once you've created your online United Healthcare account, you can access your ID card once the policy is active on August 7 by logging in and selecting the ID Card tab.

If you are unable to access your ID card, check the date of the insurance charge on your bill. If you have recently registered, allow 5–7 business days for your ID card to be viewable. Graduate students (non-Law): Your insurance enrollment is activated by your registration for classes, so if you do not have an insurance charge on your BC student account, you need to register for classes, and then allow 5–7 business days for your ID card to be viewable.

Important note: If a health care provider is verifying your coverage, make sure that they call the United phone number on your ID card and our website. United has different divisions, and if a provider calls a different United number that they have in their files, they may not reach the student plan division.

2024–2025 Forms

Fall 2024

Enrollment Forms

Petition to Add: [This form](#) is for mid-semester enrollment for students who have lost their prior coverage due to a qualifying event (such as loss of prior coverage).

Spring 2025

Waiver Forms

[Appeal to Waive After Deadline](#)

Students in exclusively online degree programs: If you are enrolled online only and not visiting Massachusetts, complete [this form](#). You must be logged in to your BC Gmail or Google account to access the form.

Enrollment Forms

Petition to Add: [This form](#) is for mid-semester enrollment for students who have lost their prior coverage due to a qualifying event (such as loss of prior coverage).

For new students starting their program in the summer 2025, insurance enrollment begins in May. Please check back later.

Dental and Vision Information

Like most medical insurance plans, the student insurance has limited **pediatric** dental and vision benefits. See United’s coverage information for details. Your student insurance includes **discount** (not insurance) plans for dental and vision.

Coast to Coast Vision Discount Plan: You are automatically enrolled in the Coast to Coast discount plan if you are enrolled in the student medical insurance plan. Note that this is a discount program, not a vision insurance plan. Please visit the [Gallagher Student website](#) or contact Gallagher at 800-252-3059 for more information.

Uni-Care Dental Savings Program: You are automatically enrolled in the Uni-Care discount plan if you are enrolled in the student medical insurance plan. Note that this is a discount program, not a dental insurance plan. Visit [Gallagher Student website](#) or contact Gallagher at 800-252-3059 for more information.

SilverCloud Behavioral Health: Your insurance includes access to SilverCloud, which offers online, self-guided programs to assist with mental health issues. SilverCloud is available on any device. Visit <https://gsh.silvercloudhealth.com/signup/> for more information.

Summer Enrollment for New Students (2024–2025)

The academic year insurance coverage periods are fall (August 7, 2024–January 9, 2025) and spring (January 10, 2025–August 6, 2025). Students enrolled in the spring insurance will continue to be enrolled through August 6.

New graduate students who are starting their program during the summer term are eligible to enroll in the insurance for a summer period beginning May 10 and ending August 6.

Summer 2024 Enrollment

To enroll, log in to your [Gallagher account](#) using your BC username and password. Select the “Enroll” button under "2023–2024 Boston College Student Health Insurance Plan - Summer" and follow the prompts. The summer premium is \$1,005 for enrollment from May 10 to August 6. (The fall enrollment period begins on August 7.)

Summer 2025 Enrollment

Summer 2025 enrollment will open in early May 2025.

Waivers

Medical insurance is automatically charged for the fall and spring insurance periods. If you are beginning your program in the summer, you will not be automatically charged for summer insurance and do not need to file a waiver for the summer.

Please be sure to file a waiver for the fall and spring. These waivers are available by mid-June each year; please see the Forms tab.

2023–2024 Medical Insurance Information

- Enrollment (2023–2024)
- Waivers (2023–2024)
- ID Cards & Your UnitedHealthcare Account (2023–2024)
- Forms (2023–2024)
- Contacts & Questions (2023–2024)
- Summer Enrollment for New Students

Enrollment (2023–2024)

All students listed below are **automatically enrolled** in and billed for the student health insurance plan:

- Students enrolled in a degree program, regardless of credit hours
- Students who are not citizens or permanent residents of the U.S.
- Non-degree students enrolled at least 75% of full-time. Students are responsible for monitoring their eligibility status. (For graduate students in the schools of Morrissey College of Arts and Sciences, Lynch School of Education and Human Development, Carroll School of Management, Connell Graduate School of Nursing, School of Social Work, Clough School of Theology and Ministry, and Woods College of Advancing Studies, 75% of full-time is 7 credits or more. For undergraduates in the Woods College of Advancing Studies, 75% of full-time is 9 credits or more.)

Graduate students (non-Law): Registration for classes triggers your insurance enrollment, and it takes 5–7 business days for your insurance to show as active in the carrier’s system. While the fall semester coverage begins on August 7 regardless of when you register, you should keep this timeframe in mind if you have health care providers who will need to verify your coverage with the insurance company. You should register for classes by mid-July if you need your insurance to show as active in the insurance system on August 7.

Post-doctorate students are eligible to enroll on a voluntary basis.

Dependent Enrollment

Insured students have the option of enrolling their **eligible dependents** (a spouse, domestic partner, or a child under the age of 26). The enrollment form is available under the Forms tab. Dependents must be enrolled for the same time period as the student. For example, a student enrolled beginning in the fall semester cannot purchase dependent coverage starting in the spring unless there is a qualifying event;

see the enrollment form for further details. Dependents enrolled for the fall must be re-enrolled for the spring, and you are responsible for enrolling and re-enrolling your eligible dependents each semester. The deadline to enroll dependents is September 22, 2023 for the fall semester and January 26, 2024 for students newly enrolling for the spring. Enrollment forms received after that date will not be accepted.

Note to students: You need to be enrolled in the insurance plan in order to enroll dependents. To make the dependent enrollment process as smooth as possible, you should register for classes as early as you are able.

Premium Amounts

	First Semester (8/7/23–1/11/24)	Second Semester (1/12/24–8/6/24)
Student	\$1,795	\$2,338
Spouse	\$1,795	\$2,338
One child	\$1,795	\$2,338
Two or more children	\$3,590	\$4,676
Spouse and two or more children	\$5,385	\$7,014

Insurance Plan Benefits

UnitedHealthcare Coverage

The plan offers comprehensive benefits that include hospital room and board, inpatient and outpatient surgical procedures, lab work, x-rays, chemotherapy, radiation, inpatient and outpatient mental health, physician office and consultant visits, ambulance, and prescription drugs.

Refer to the benefits information (available in late June) and the information available at [UnitedHealthcare](#) for complete details about coverage, limitations and exclusions.

Referrals from University Health Services

A referral is not required with the UnitedHealthcare Plan, but there are many benefits to first seeking care or advice from Boston College's University Health Services. Visit [University Health Services'](#) website for more information.

Coverage off Campus

If you paid the premium for the entire year, you will be covered from August 7, 2023 through August 6, 2024. UnitedHealthcare provides coverage whether you are in Massachusetts, out of state, or studying or travelling abroad.

While studying or traveling abroad, keep your identification card with you and take a copy of the brochure for reference. When outside the United States, you will likely be asked to pay for your medical care first and then will need to seek reimbursement. Covered expenses will be reimbursed on a non-network basis. When you submit claims for reimbursement, you may need to have the itemized bill(s) translated into English and include additional information. UHC Global can be reached toll-free from within the United States at 800-527-0218 or collect from outside of the United States at 410-543-6330, or email at assistance@UHCGlobal.com.

Leave of Absence

If a student who is enrolled in the student insurance plan takes a medical leave of absence effective mid-semester, they will continue to be covered for the remainder of that semester. Coverage may also be extended for the following semester with approval from Boston College. Enrollment is not automatic. Please contact the Office of Student Services for information about enrollment and dates of eligibility.

Enrollment After Waiving the Student Health Insurance Plan

Students who initially waive participation in the student plan and subsequently wish to enroll prior to the waiver deadline may rescind waivers by deleting the prior waiver in the [Agora Portal](#) or by completing the Rescind Waiver form, available on the Forms tab. After the waiver deadline, a student may enroll in the student plan only on the basis of a **qualifying event**. Qualifying events include marriage, birth of a child, or loss of coverage from an existing policy. Students who qualify may submit a Petition to Add form, which will be available under the Forms tab after the waiver deadline.

Graduating Students

Coverage for graduating students ends on January 11, 2024 (for fall graduates) or August 6, 2024 (for spring and summer graduates). There is not an option to extend the student plan. You can contact UnitedHealthcare about enrolling directly, or explore your options through your state Health Connector. The site for the MA State Health Connector is <https://www.mahealthconnector.org/>.

Waivers (2023–2024)

The medical insurance coverage periods are August 7, 2023 to January 11, 2024 for the fall and January 12, 2024 to August 6, 2024 for the spring. Waivers received by September 22, 2023 are for the entire academic year, and those received by January 26, 2024 are for the spring. By waiving the BC Student Health Insurance Plan, a student is waiving coverage for the full coverage period.

Waiver forms can be found on the Forms tab.

Domestic Students Waiver Requirements (U.S. Citizens and Permanent Residents)

Students who are enrolled in a health plan that is comparable to the student plan may waive the BC coverage through the [Agora Portal](#) if they are at least 18 years old. Students under the age of 18 cannot file an electronic waiver. You and your parent or guardian must **sign and submit a waiver form** before the deadline.

To provide proof of comparable coverage, a student will need to have information about his or her current health insurance plan readily available. By waiving the BC coverage, a student is confirming the following:

- The student is covered by the indicated medical insurance policy and will maintain coverage for the full 2023–2024 academic year.
- The student has compared their policy to the BC student plan and certifies that their plan provides benefits that are at least comparable to the plan: UnitedHealthcare Benefits Information (available in late June).
- The student's plan provides reasonable comprehensive coverage of health services, including primary care, emergency services, surgical services, hospitalization benefits, ambulatory patient services, and mental health services, along with coverage for lab work, diagnostic x-rays, physical therapy, chiropractic care, and prescription coverage, and that these services are reasonably accessible in the area where the student is attending school. A plan that provides coverage through a closed network of providers, not reasonably accessible to the student in the area where they attend school, for all but emergency services, does not qualify for a waiver.

- The student's plan is **not an out-of-state Medicaid plan**, or one of the following MA Medicaid Plans: Children's Medical Security Program, MassHealth Limited and Health Safety Net. These plans do not qualify for a waiver. MassHealth plans other than those listed here are acceptable for a waiver.
- No claims have been submitted for payment under the UnitedHealthcare student plan for the 2023–2024 enrollment periods.
- The student assumes full responsibility for any medical expenses incurred during the insurance enrollment periods and neither Boston College nor the insurance company will be held responsible for any expenses incurred. If a student's plan does not cover a claim, they cannot enroll in the BC plan later to have the claim covered.
- Students traveling outside of the United States certify that their insurance plan provides reasonable and comprehensive coverage in the location where they are studying. If the student visits the United States during the 2023–2024 academic year, they will purchase a U.S.-based qualifying medical plan (as described above) for the period of their stay in the U.S.
- The student's plan is U.S.-based and is NOT a socialized (foreign National Health Service programs) plan. The state of Massachusetts does not permit waivers with these plans.

Incomplete waivers will not be processed. Waivers must be completed every year. **All waivers must be submitted by September 22, 2023 for the entire academic year or by January 26, 2024 for the spring semester only.** Students who do not complete a waiver prior to the deadline will automatically be enrolled in and charged the student-only premium for the UnitedHealthcare student plan. Once the waiver is submitted, the charge will be removed from the student account in one business day; students and authorized payers can verify the adjustment by logging in to the [Agora Portal](#) ("My Bill") and viewing Current Activity on the View & Pay Accounts tab. **Students are responsible for verifying that their waiver was submitted correctly.**

Providing insurance information to other offices on campus (e.g., Athletics, Health Services) does not fulfill the Massachusetts waiver requirement. If a student does not complete a waiver with the Office of Student Services, either through the [Agora Portal](#) or on paper, prior to the deadline, he or she will automatically be enrolled in and charged for the student insurance plan.

Students who missed the deadline, but have extenuating circumstances, may submit a Petition to Waive After Published Deadline form, available on the Forms tab for a limited period of time.

Students are eligible for the insurance plans offered through the Health Connector but should review these plans carefully, because they may have high deductibles.

International Students Waiver Requirements (Students who are Not U.S. Citizens or Permanent Residents)

To ensure international students are covered by a plan that provides coverage which meets or exceeds the Student Health Insurance Plan, **international students are not eligible to waive BC's Student Health Insurance Plan.** If you are insured through (1) your own or a parent/guardian/spouse's health insurance plan offered through a U.S. employer or (2) a government sponsored program, (for example Government of Kuwait/UAE or Government of Saudi Arabia), you may be eligible for a waiver. MA Medicaid Plans: Children's Medical Security Program, MassHealth Limited, and Health Safety Net do not qualify for a waiver.

International insurance plans, socialized or standard medical policies (including Canadian policies), travel insurance plans, short-term medical plans, or plans not fully compliant with the Affordable Care Act are not acceptable and will not be considered. Your insurance must be effective on or before August 7, 2023 (for fall and annual waivers) or January 12, 2024 (for spring waivers) to qualify for a waiver. For example, a policy beginning on September 1, 2023 would not qualify for a fall or annual waiver.

The waiver form can be found on the Forms tab.

ID Cards & Your UnitedHealthcare Account (2023–2024)

Your mobile-friendly online UnitedHealthcare account is the resource for

- Your ID card
- Viewing policy information and estimating the cost of care that you need
- Viewing claims statuses and details
- Seeing what is covered and what additional benefits are available to you

Follow the steps below to create your account once the policy is active on August 7. If you created an account last year, you can use your existing login and do not need to create an account.

1. Go to www.uhcsr.com/BC and click “Create Account” at the bottom of the page.
2. Enter your first and last name, date of birth, and your Eagle ID.
3. Create your username and password, and click Next to activate your My Account.
4. Log in using the username and password you just created.
5. Verify your identity using your BC email address. Remember that your email address format can be either `username@bc.edu` or `firstname.lastname@bc.edu`, and you should use the `username@bc.edu` version. You'll be sent a code to enter to complete your verification.

ID Cards

Once you've created your online United Healthcare account, you can access your ID card once the policy is active on August 7 by logging in and selecting the ID Card tab.

If you are unable to access your ID card, check the date of the insurance charge on your bill. If you have recently registered, allow 5–7 business days for your ID card to be viewable. **Graduate students** (non-Law): Your insurance enrollment is activated by your registration for classes, so if you do not have an insurance charge on your BC student account, you need to register for classes, and then allow 5–7 business days for your ID card to be viewable.

2023–2024 Forms

For summer enrollment, select the Summer Enrollment tab on the left.

Dental and Vision Information

The student insurance has limited **pediatric** dental and vision benefits. See United’s coverage information for details. Your student insurance includes **discount** (not insurance) plans for dental and vision.

Coast to Coast Vision Discount Plan: You are automatically enrolled in the Coast to Coast discount plan if you are enrolled in the student medical insurance plan. Note that this is a discount program, not a vision insurance plan. Please visit the [Gallagher Student website](#) or contact Gallagher at 800-252-3059 for more information.

Uni-Care Dental Savings Program: You are automatically enrolled in the Uni-Care discount plan if you are enrolled in the student medical insurance plan. Note that this is a discount program, not a dental insurance plan. Visit [Gallagher Student website](#) or contact Gallagher at 800-252-3059 for more information.

Summer Enrollment for New Students (2023–2024)

The academic year insurance coverage periods are fall (August 7, 2023 – January 11, 2024) and spring (January 12, 2024 – August 6, 2024). Students enrolled in the spring insurance will continue to be enrolled through August 6.

New graduate students who are starting their program during the summer term are eligible to enroll in the insurance for a summer period beginning May 10 and ending August 6.

Summer 2023 Enrollment

Summer 2023 Enrollment has closed.

Summer 2024 Enrollment

To enroll, log in to your [Gallagher account](#) using your BC username and password. Select the “Enroll” button under "2023–2024 Boston College Student Health Insurance Plan - Summer" and follow the prompts. The summer premium is \$1,005 for enrollment from May 10 to August 6. (The fall enrollment period begins on August 7.)

Waivers

Medical insurance is automatically charged for the fall and spring insurance periods. If you are beginning your program in the summer, you will not be automatically charged for summer insurance and do not need to file a waiver for the summer.

Please be sure to file a waiver for the fall and spring. These waivers are available by mid-June each year; please see the Forms tab.

Tuition & Fees

All fees are proposed and subject to change.

The University reserves the right to correct typographical errors or to adjust the Tuition and Fees schedule at any time it deems necessary. The Trustees of Boston College reserve the right to change the tuition rates and to make additional charges within the University whenever such action is deemed necessary.

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the [Office of Student Services](#).

Tuition Rates
2024–2025 Academic Year

Program	Cost Per Year	Cost Per Semester	Cost Per Credit
Undergraduate		\$34,700	\$2,314 Extra Courses Only
Undergraduate Summer, Including Woods Undergraduate Non-Degree Summer			\$1,064
Messina College: Two-Year Associate's Program	\$30,000 (including summer)		
Messina College: Foundations Program	\$69,400 (including summer)		
Woods College of Advancing Studies—Undergraduate Degree Students			\$630
Woods College of Advancing Studies—Graduate Leadership			\$1,124

Residential Meal Plan (except for Messina)		\$3,600	
Messina Residences	\$12,800 (from July to May)		
Messina Meal Plan	\$9,800 (from July to May)		Mandatory

[Housing Cancellation and Refund Policy](#) (PDF)

*Students living in residence halls with kitchen facilities are not charged for the mandatory board plan. Flex dining plans are available. For more information, visit the [Dining Services](#) website.

University Fees

2024–2025 Academic Year

General University Fees

Fee	Amount	Frequency
-----	--------	-----------

Undergraduate Application Fee (not refundable)	\$80	Once
Enrollment Confirmation Fee*	\$500	Once
Medical Insurance Fall Semester (coverage 8/7/24–1/9/25)	\$1,830	Once Per Fall Semester
Medical Insurance Spring Semester (coverage 1/10/25–8/6/25)	\$2,451	Once Per Spring Semester
First-Year Student Orientation Fee	\$666	Once In First Semester
Identification Card Initial Fee	\$50	Once In First Semester
Identification Card Replacement Fee	\$30	Per Card
Campus Health Fee (Infirmary)	\$622	Per Year
Lab/Course Fees (see Laboratory/Course Fees tab above)	\$55–\$360	Per Course/Per Semester
Transcript Fees (all fees paid directly to National Student Loan Clearinghouse)	Electronic copy: \$5.50 Paper copy sent via USPS: \$7.75 (additional fees apply for express shipping)	Per Transcript
Law School Association Fee	\$305	Per Year

Nursing Exam Fee (NCLEX Assessment Practice Test)	\$70	Senior Year
Late Payment Fee (All Students)	\$150	Per Semester

*This fee will be applied towards students' tuition in the second semester of their senior year. Students forfeit this fee if they withdraw prior to completing their degree.

^The policy for international students includes coverage for medical evacuation and repatriation.

Registration Fees

Fee	Amount	Frequency
Woods College of Advancing Studies	\$25	Per Semester
Summer Session	\$45	Per Semester

Late Registration Fees

Fee	Amount	Frequency
Graduate Students	\$150	Per Semester
Woods College of Advancing Studies	\$30	Per Semester
Summer Session (excluding GSMCAS and LGSEHD)	\$50	Per Semester

Returned Check Fines

Fee	Amount	Frequency
First three checks	\$25	Per Check

Additional checks	\$40	Per Check
Any check in excess of \$2,000	\$65	Per Check

Student Activity Fees

Fee	Amount	Frequency
Undergraduate	\$680	Per Year
Graduate (except Law and CGSOM) fewer than 7 credits	\$40	Per Semester
Graduate (except Law and CGSOM) 7 or more credits	\$58	Per Semester
Graduate (CGSOM) fewer than 7 credits	\$40	Per Semester
Graduate (CGSOM) 7 or more credits	\$69	Per Semester

Messina College Fees

Fee	Amount	Frequency
Messina College Comprehensive Fee (Includes health, student activities, Orientation, and ID fees)	\$2,000	Per Year

Tuition does not include the cost of lab fees, textbooks, or other required materials for specific courses. In general, full-time graduate and undergraduate students should anticipate costs for textbooks and course supplies of \$1,300–\$2,200 for the academic year. Textbook costs for specific courses can be found on the website of the Boston College Bookstore.

For the full cost of attendance, please see the following:

- [Undergraduate Cost of Attendance](#)
- [Messina College Cost of Attendance](#)
- [WCAS Undergraduate Cost of Attendance](#)
- [Graduate and Law Cost of Attendance](#)

Students taking zero credit courses are still subject to mandatory fees.

Undergraduate students attempting to accelerate their graduation to graduate in fewer than eight full academic year semesters are subject to additional charges. For more information, view the Graduation, Advanced Standing, and Acceleration section of the [Undergraduate Academic Regulations](#) page.

The University reserves the right to correct typographical errors or to adjust the Tuition and Fees schedule at any time it deems necessary.

The Trustees of Boston College reserve the right to change the tuition rates and to make additional charges within the University whenever such action is deemed necessary.

Collection Cost and Fees

Matriculated students at Boston College are individually, personally, and primarily responsible to the University for paying all tuition and other fees associated with enrollment and housing and food. This obligation also applies to any additional tuition and fees resulting from adjustments to course schedules. Students remain responsible in accordance with University policy for tuition and fees for classes for which they register, including any classes for which they have been withdrawn, been dropped, failed, or failed to attend. Students must formally withdraw from any/all classes that they do not attend in a particular semester. Students will not be relieved of their responsibility to pay tuition unless they withdraw from classes in accordance with the withdrawal timelines and procedures published by the Office of Student Services in the University Catalog.

All billing statements are sent electronically. Information on how to access student bills and related account information is available on the Office of Student Services website, including at www.bc.edu/mybill. Students are responsible for reviewing their billing statements, making payments by the due date stated in the billing statement, and notifying the University's Office of Student Services in a timely manner of any errors or discrepancies. A student may authorize parents, guardians or others to view their statements and pay on their behalf, but each student shall remain individually, personally and primarily responsible for the payment of all amounts charged to their accounts. There may be a \$150 late payment fee assessed to unresolved accounts by the due date. Students will also be charged a fee of \$25.00 for a returned check or returned electronic payment (\$65 for any returned item over \$2,000).

In the event a student's account becomes delinquent or fails to comply with a payment plan approved by Boston College, then Boston College may withdraw the student, place holds on the student's transcript and diploma, and deny access to University services, including registration, dining, residence hall selection, library, travel abroad and recreation services.

In the event a student's account becomes delinquent or if the student fails to comply with a payment plan approved by Boston College to bring the delinquent account current, Boston College may refer the student's delinquent account to a collection agency, attorney or other third party that provides collection-related services. In addition to the student's responsibility for paying any amounts due on the account prior to referral for collection-related services, the student shall be responsible for (a) paying any and all collection-related fees, which may be based on a percentage of a student's delinquent account balance, provided that such percentage does not exceed 40%, and (b) paying any and all costs incurred in connection with the efforts to collect on the student's delinquent account, including without limitation court costs and reasonable attorneys' fees. The University, or its agents, may also report a student's account delinquency to one or more of the national credit bureaus.

Notice of Consent to Collection Communications

By registering for a course at Boston College, a student authorizes Boston College and its agents and contractors to contact the student at any current or future phone number(s), email address(es) and wireless device(s) regarding the student's account and/or any payments owed to Boston College. Students also authorize Boston College and its agents and contractors to use automated telephone dialing equipment, artificial or prerecorded voice or text messages, and personal calls and emails, in their efforts to contact me. Students also consent to Boston College, or its affiliates, agents, and service providers, to recording telephone calls regarding the student's account in assurance of quality and/or other reasons.

Laboratory/Course Fees

Biology**2024–2025 Academic Year**

Course Number	Course Title	Amount

Tuition Refund Schedule: Fall and Spring

Withdrawals and Refunds

Fees are not refundable.

Tuition is canceled subject to the following conditions:

- Notice of withdrawal must be made in writing to the dean of the student's school.
- The date of receipt of written notice of withdrawal by the Dean's Office determines the amount of tuition canceled.

The cancellation schedule that follows will apply to students withdrawing voluntarily, as well as to students who are dismissed from the University for academic or disciplinary reasons. A student who drops, withdraws or fails to attend some or all of the classes for which the student registers will be responsible for paying all or a portion of tuition and fees in accordance with the refund schedules below. A student's failure to attend class does not absolve the student of his or her financial responsibility as described herein.

Full-time Undergraduate Day, Messina College, and Law School Refund Schedule 2024–2025 Academic Year

Full-time undergraduate day, Messina College, and Law School students withdrawing by the following dates will receive the tuition refund indicated below.

First Semester

- by Aug. 23, 2024: 100% of tuition charged is canceled
- by Sept. 6, 2024: 80% of tuition charged is canceled
- by Sept. 13, 2024: 60% of tuition charged is canceled
- by Sept. 20, 2024: 40% of tuition charged is canceled
- by Sept. 27, 2024: 20% of tuition charged is canceled

Second Semester

- by Jan. 10, 2025: 100% of tuition charged is canceled
- by Jan. 24, 2025: 80% of tuition charged is canceled
- by Jan. 31, 2025: 60% of tuition charged is canceled
- by Feb. 7, 2025: 40% of tuition charged is canceled
- by Feb. 14, 2025: 20% of tuition charged is canceled

No cancellations are made after the fifth week of classes.

Graduate and Woods College of Advancing Studies Refund Schedule 2024–2025 Academic Year

Graduate (excluding Law and the BC Companions Program) and Woods College of Advancing Studies students withdrawing by the following dates will receive the tuition refund indicated below.

First Semester

- by Sept. 4, 2024: 100% of tuition charged is canceled
- by Sept. 6, 2024: 80% of tuition charged is canceled
- by Sept. 13, 2024: 60% of tuition charged is canceled
- by Sept. 20, 2024: 40% of tuition charged is canceled
- by Sept. 27, 2024: 20% of tuition charged is canceled

Second Semester

- by Jan. 22, 2025: 100% of tuition charged is canceled
- by Jan. 24, 2025: 80% of tuition charged is canceled
- by Jan. 31, 2025: 60% of tuition charged is canceled
- by Feb. 7, 2025: 40% of tuition charged is canceled
- by Feb. 14, 2025: 20% of tuition charged is canceled

No cancellations are made after the fifth week of classes.

Federal Regulations Governing Refunds

If a student does not wish to leave any resulting credit balance on his or her account for subsequent use, he or she should request a refund in the [Agora Portal](#) ("Request Student Account Refund"). If a student has a credit balance as a result of Federal Aid and he or she does not request a refund, the University will, within two weeks, send the credit balance to his/her local address.

Federal regulations establish procedural guidelines applicable to the treatment of refunds whenever the student has been the recipient of financial assistance through any program authorized under Title IV of the Higher Education Act of 1965. These guidelines pertain to the Federal Pell Grant, the Federal Supplemental Educational Opportunity Grant, the Federal College Work-Study, and the Federal Stafford and PLUS Loan. In such cases, the regulations require that a portion of any refund be returned according to federal guidelines. Further, if a student withdraws, the institution must determine if any cash disbursement of Title IV funds, made directly to the student by the institution for non-instructional purposes, is an overpayment that must be repaid to the Title IV program. University policy developed to comply with the regulations at Boston College will be available upon request from the Office of Student Services.

Tuition Refund Schedule: Fall and Spring 1/2 Term courses

Once a class officially begins, you have until the add/drop deadline for your fall or spring 1/2 term to drop the course in EagleApps and receive a 100% refund. After the add/drop deadline, there is no cancellation of tuition for withdrawing from a course. Students will be required to pay the full cost of the course for any withdrawals after the stated add/drop deadline.

To view the add/drop deadline for your term, visit the [Academic Calendar](#) page.

Tuition Refund Schedule: Summer

Once a class officially begins, you have until the add/drop deadline for your specific summer term to drop the course in EagleApps and receive 100% refund. After the add/drop deadline, there is no cancellation of tuition for withdrawing from a course. Students will be required to pay the full cost of the course for any withdrawals after the stated add/drop deadline.

To view the add/drop deadline for your term, visit the [Academic Calendar](#) page.

Tuition Insurance Plan

Boston College is pleased to offer students a way to help protect their substantial financial investment in a college education. The Tuition Insurance Plan is an optional private insurance plan offered through Dewar, Inc. that assures subscribers who withdraw for illness or accident a refund throughout the semester, even if Boston College's own refund policy has expired.

For costs, benefit levels, further information, or an application form, visit [Dewar's website](#) or contact Dewar at 617-774-1555 or trp@dewarinsurance.com.

Transcript Requests

The National Student Clearinghouse (NSCH) is the authorized vendor for delivery of official Boston College transcripts. Transcripts can be ordered to be sent electronically or on paper via regular or express mail. Electronic and paper transcript requests will be processed in 1–3 business days. Historical transcripts (those prior to 2001) may take several additional days for processing. Requests for Federal Express shipping will only expedite the shipping after the processing period.

There is a \$5.50 charge per electronic transcript and a \$7.75 charge per paper transcript (all fees are paid directly to National Student Loan Clearinghouse). Additional fees are required for express mail service. Details including payment options are on the Clearinghouse transcript ordering website.

Current students should request official transcripts via the transcript request link in the [Agora Portal](#). **Alumni** requesting official transcripts should log into the [National Student Clearinghouse](#) transcript ordering site to submit a request. Unofficial transcripts are only available as hard-copy documents. They may only be requested and picked up in person by the record-holder with a valid BC or government ID in the Office of Student Services. Unofficial transcripts cannot be sent by Boston College electronically to the record-holder or any third-party. Please contact the Office Student Services with any additional questions.

- Students must know their Eagle ID number when requesting transcripts via NSCH. If you do not know your Eagle ID number please contact the Office of Student Services at 617-552-3300 or 800-294-0294 for assistance prior to logging into the NSCH site to make your request.
- Students who were enrolled at BC prior to the use of Eagle IDs should contact the Office of Student Services at 617-552-3300 or 800-294-0294 to receive their unique identification number.
- International students should review additional information in the accordion below regarding the social security number (SSN) requirement.
- Transcript requests will not be honored for any student with an outstanding financial obligation to the University. The same policy applies to any student who does not complete the required loan exit interview.

Additional Instructions for International Students

In addition to Eagle ID number, a student's social security number (SSN) is required as a secondary security measure when requesting transcripts via the NSCH. For international students without SSNs, the Office of Student Services recommends using 999-99-9999 in the SSN field. This is a completely valid option for international students without SSNs looking to proceed with the request of a transcript.

Apostilles or Authentication of Documents

Some foreign governments and agencies require that diplomas, transcripts, or enrollment verifications be certified with an apostille. An apostille is a document issued by the Massachusetts' Secretary of the Commonwealth that verifies the authenticity of the signature on the document; the capacity in which the person signing the document acted; and the identity of any stamp or seal affixed to the document. The apostille is a specific form of authentication for countries that participate in the Hague Convention of 1961. The Secretary of the Commonwealth's office is the only agency in Massachusetts that is authorized to issue an apostille or certification for a notarized document going to a foreign country. Massachusetts does not certify out-of-state documents. They must be certified by the state of origin. Additional information can be found at <http://www.sec.state.ma.us/pre/precom/comidx.htm>.

Complete the [Apostille Request Form](#). Boston College will notarize the documents as selected and return them to the requestor for further processing for the Apostille.

Instructions for Pine Manor College Alumni

Pine Manor College alumni requesting an official transcript should log into the [National Student Clearinghouse](#) transcript ordering site to submit a request.

Fall 2024 Half-Term 1

Start of Fall 2024 Half-Term 1	8/26/2024
