Thesis and Dissertation

MA Thesis: *Dependency in the Urban Elderly: An Exploratory Study*
Supervisor: Dr. Joan Tiernan

PhD Dissertation: *Understanding the Interface between Formal and Informal Support: The Role of the Caregiving Dyad*
Chair: Dr. Steve Zarit; Committee: Drs. Carol Whitlatch, Aline Sayer, Karen Fingerman, Edward Smith and Steve Foreman

RESEARCH AND SCHOLARSHIP:
My program of research focuses on family and dyadic experiences of chronic illness with particular emphasis on how and why members of the care dyad are similar and different in their appraisals of the illness context (particularly symptoms). I am interested in the impact this similarity/difference has on management of the illness by the couple or family dyad and ultimately how it impacts the health and well-being of both members. I have taken a unique dyadic perspective throughout my career to view the patient or older adult and their family member providing care as a team. I strongly believe this perspective sheds important light on the illness experience and will lead to more ecologically-sound and effective interventions. I have published extensively across the disciplines of nursing, gerontology, and psychology; work that has led to several international collaborations. All of my research has involved interdisciplinary teams; something I highly value and believe essential. Nearly 20 years of empirical evidence culminated in the publication of the *Theory of Dyadic Illness Management*.

PENDING (Jul/21) NIH, K01Role: **Collaborator** (PI: Julie Bidwell). *The symmetry-HF study: Symptom dynamics and clinical biomarkers of heart failure in older adult care dyads after heart failure hospitalization.*4/1/22-3/31/25 ($451,591)

9/1/21-8/31/26 NIH, **K23** AG073516; Role: **Co-Sponsor** (PI: Kalisha Bonds Johnson); *Designing a culturally tailored formal care decision-making intervention for African-American dementia dyads and families.* The goal of this mentored award is to pilot a dyadic sleep intervention for dementia care dyads. ($711,768).

9/1/21-8/31/26 NIH, **K23** AG070378; Role: **Co-Sponsor** (PI: Glenna Brewster); *Using design thinking approaches to tailor a dyadic behavioral sleep intervention for persons*

living with dementia and their caregivers. The goal of this mentored award is to pilot a dyadic sleep intervention for dementia care dyads. ($699,650).

6/1/20-5/30/22 NIH/NCATS, **KL2**, KL2TR001859; Role: **Advisor** (PI: Julie Bidwell); *Symptom dynamics and biomarkers of disease progression in older adult patient-caregiver dyads after heart failure hospitalization.* The purpose of this study is to examine dyadic HF symptom recognition and response in older adults hospitalized for HF and their caregiving spouse/partner as they manage HF during the high-risk post-discharge transitional period ($292,827).

5/1/19-4/30/23 NIA/NIH, **K01**, KAG059839A; Role: **Co-Sponsor** (PI: Lyndsey Miller); *Intraindividual dynamics of objective measures of stress and subjective appraisals of burden among informal dementia caregivers.* The goal of this mentored award is to determine specific sources of stress/burden to inform tailored interventions that optimize caregiver health ($430,000).

5/1/19-4/30/23 NIA/NIH, **K01**; K01AG062681; Role: **Consultant** (PI: Clara Berridge); *Identifying needs for optimal remote monitoring (INFORM) tool: Engaging people with cognitive impairment in decisions about how technology will be used in their care.* The goal of this mentored award will examine the effectiveness of the INFORM tool ($458,600).

6/1/14-5/31/16 NINR/NIH, **F31**, NR015195; Role: **Sponsor/Mentor** (PI: Lyndsey Miller); *Preparing for future dementia care: A study of hospitalized patient-family dyads.* The goal of this study was to examine the incongruence in perceptions of care values in the acute care setting between persons with dementia and their informal caregivers and associations with dyadic and individual outcomes ($85,352).

12/1/13-11/30/16 NINR/NIH, **F31**, NR014760; Role: **Sponsor/Mentor** (PI: Julie Bidwell); *Mechanical circulatory support in patient-caregiver dyads: A longitudinal study.* The goal of this study is to identify patient- and caregiver-level determinants of worse patient clinical and patient-oriented outcomes among adults undergoing left ventricular assist device implantation for advanced heart failure ($119,005).

2013-2015 **National Hartford Center for Geriatric Nursing Excellence**; Role: **Sponsor/Mentor** (PI: Julie Bidwell); *Mechanical circulatory support in patient-caregiver dyads.* The goal of this study is to identify patient- and caregiver-level determinants of worse patient clinical and patient-oriented outcomes among adults undergoing left ventricular assist device implantation for advanced heart failure ($100,000).

2012-2014 **National Hartford Center for Geriatric Nursing Excellence**; Role: **Sponsor/Mentor** (PI: Lyndsey Miller); *Dementia caregiving.* The goal of this study was to examine wandering behavior in dementia and incongruence in care values and predictors of nursing home placement ($100,000).

Internal/Other

6/1/21-5/31/21 Schiller Institute Grants for Exploratory Collaborative Scholarship (SIGECS); Role: **Co-Investigator** (PI: Cal Halvorsen); *An interdisciplinary evaluation of the health benefits of participating in a federally funded community-service employment program for low-income older adults: A pilot study*. The goals of this pilot study are to conduct a robust project that assesses the feasibility and

acceptability of conducting an evaluation of the physical, psychological, social, financial, and interpersonal health and well-being outcomes on SCSEP participants. 5/31/2021-5/1/2022 ($50,000).

6/1/21-5/31/22 Sigma Small Grants Award; Role: **Consultant** (PI: Elliane Irani); *Resourcefulness and health outcomes in persons with cardiovascular disease and their care partners.* The proposed mixed method study will examine the role of resourcefulness on dyadic health in cardiovascular care dyads ($5,000).

2/19/20-2/18/22 Hartford Award for Research & Practice, Oregon Health & Science University School of Nursing; Role: **Consultant** (PI: MinKyoung Song); *An intergenerational approach to addressing cardiovascular health risk among grandchildren who live with their custodial grandparents.* The proposed pilot study will examine risk factors for grandchildren being raised by grandparents. ($25,000).

1/1/18-12/31/18 (NCE) Knight Cancer Institute, Oregon Health & Science University; Role: **Collaborator** (PI: Donald Sullivan); *Pilot study of a progressive exercise program among lung cancer patient-partner dyads.* The goal of this study was to pilot a yoga-based dyadic intervention with care dyads living with lung cancer ($25,000).

10/1/17-9/30/18 (NCE) **Aging & People with Disabilities Quality Care Fund**, Oregon; Role: **Consultant** (PI: Diana White); *Validating the Resident VIEW instrument in nursing homes.* The goal of this study was to validate the Resident VIEW instrument across nursing home and long-term care settings ($149,580).

1/1/17-6/1/18 (NCE) Parkinson's Center of Oregon; Role: **Principal Investigator** (MPIs: **Karen Lyons**/Julie Carter); *Strive to thrive intervention pilot study: Self-management in Parkinson's disease couples.* The goal of this pilot study was to determine the efficacy of a community-based self-management program on the physical, mental and relational health of couples living with Parkinson's disease ($10,000).

2/1016-1/31/17 (NCE) Betty Gray Award, Oregon Health & Science University School of Nursing; Role: **Principal Investigator** (PI: **Karen Lyons**); *Together: A Pilot Study of Young and Middle-Aged Couples with Cancer in Rural and Urban Areas.* The goal of this study was to examine the roles of developmental stage and rural-urban residence on the longer-term physical, mental and relational health of couples who experienced a diagnosis of cancer ($24,819).

9/30/16-9/1/17 (NCE) Hartford Award for Research & Practice, Oregon Health & Science University School of Nursing; Role: **Co-Investigator** (PI: MinKyoung Song); *Happy grandparents, happy grandkids!* The goal of this pilot study was to examine the association between health outcomes of grandparents participating in Weight Watchers and the health of their grandchildren ($30,000).

1/1/16-12/31/17 (NCE) Knight Cancer Institute, Oregon Health & Science University; Role: **Co-Investigator** (PI: Jessica Gorman); *Patient-centered communication to meet the needs of AYA survivors.* The goal of this seed grant was to determine the state of the science regarding patient-centered communication for AYA cancer survivors ($10,000).

7/1/15-10/31/16 Innovation Award, Oregon Health & Science University School of Nursing; Role: **Co-Investigator** (PI: MinKyoung Song); *Healthy parents, healthy families.* The goal of this pilot study was to examine the association between the physical health outcomes of parents participating in Weight Watchers and the physical health of their children ($30,000).

2/1/15-5/31/16 Innovation Award, Oregon Health & Science University School of Nursing; Role: **Principal Investigator** (MPIs: Christopher Lee/**Karen Lyons**); *Influence of symptom evaluation and physical function in heart failure couples (IN STEP) pilot.* The goal of this study was to examine the associations between dyadic symptom appraisal, dyadic illness management and dyadic health in couples living with heart failure ($30,000).

9/1/14-12/31/15 **Oregon Department of Human Services**, OR; Role: **Consultant** (PI: Diana White); *Person-centered care measurement in adult foster care.* The goal of this study was to develop and validate a measure of person-centered care for those living in long-term settings ($72,719).

6/1/07-5/31/09 Betty Gray Award, Oregon Health & Science University School of Nursing; Role: **Principal Investigator** (PI: **Karen Lyons**); *Health status of rural chronically-ill elderly couples: A pilot study.* The goal of this pilot study was to examine the covarying health of chronically-ill couples post-hospitalization ($13,126).

5/1/04-12/31/06 **Oregon Tax Check-Off Alzheimer's Research Fund**, Oregon; Role: **Co-Investigator** (PI: Diana White); *Developing and evaluating measures of family perspectives about person-centered care for persons with dementia in long-term care settings.* The goal of this pilot study was to develop items for a measure of person-centered care ($25,000).

4/1/03-3/31/05 Layton Aging & Alzheimer Center Award, Oregon Health & Science University; Role: **Co-Investigator** (PI: Karen Talerico); *The role of neurological changes in behavioral symptoms in Alzheimer's disease.* The goal of this study was to examine changes in ADRD behavioral symptoms over time ($30,000).

1/1/02-12/31/02 Faculty Intramural Research Award, Oregon Health & Science University School of Nursing; Role: **Principal Investigator** (PI: **Karen Lyons**); *Exploring specific optimism in the caregiving dyad: A pilot study.* The goal of this study was to develop a measure of care-specific optimism ($3000).
