

Boston College and The Triggered Project present:

TRIGGERED LIFE

October 27, 2023 | 4:30pm–6:30pm
Robsham Theater @ Boston College

Triggered Life is a multi-sensory, multimedia, post-traumatic story. How exactly does sexual trauma cast a shadow over the wholeness of Black male selfhood? When the shared cultural values of Black and Brown communities demand that men suppress their vulnerabilities and meet with their psychology alone.

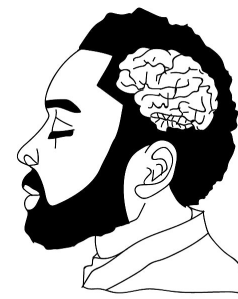

Triggered Life follows a day in the life of two such men, Ishmael and Keith. As these men relive their stories of abusive childhoods, they embark on a journey to define their own manhood and identity.

The Triggered Life experience is a 90-minute tour de force followed by talkbacks facilitated by Roxann Mascoll MS, MSW LICSW.

For attendees seeking support after viewing the film, we are pleased to inform you that licensed clinicians from Boston College's School of Social Work and Connell School of Nursing will be available on-site.

Food will be available in the Lobby after the event.

Taking photos or videos during performance is not permitted. We appreciate your assistance and understanding.
