

Annual Campus Security & Fire Safety Report

SEPTEMBER 27, 2024

BOSTON COLLEGE

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act require the annual disclosure of certain crime statistics as well as institutional policies regarding campus security. In addition, disclosure of fire safety information and annual fire statistics for on-campus residence halls is required under the Higher Education Opportunity Act. Boston College, in compliance with these laws, is providing the following information to all enrolled students and current employees. This report also includes links to additional, helpful information.

24	Appendix E: Annual Disclosure of Crime Statistics
27	Appendix F: Required Disclosures and Reports
30	Appendix F Exhibit A: Glossary
31	Appendix G: Drug and Alcohol Disclosures
34	Appendix H: Fire Protection/Detection Systems in Residence Halls
41	Appendix I: Annual Disclosure of Fire Statistics

Campus Security Program

CAMPUS SECURITY AWARENESS AND CRIME PREVENTION PROGRAMS

Boston College places a high priority on maintaining a safe and secure campus for all students, faculty, staff, and visitors. Members of the University community have the opportunity to learn about campus security procedures and the prevention of crime, and are encouraged to be responsible for their own security and the security of others, through programs presented by various administrative offices and student clubs and organizations.

The Crime Prevention Unit of the Boston College Police Department (BCPD), staffed by officers with specialized training, provides security awareness and crime prevention programs that stress both good personal safety habits and the importance of community safety.

For additional information regarding these programs, please see *Appendix A*.

REPORTING CRIMES AND OTHER EMERGENCIES

The BCPD is the official reporting authority at Boston College. All crimes and other emergencies are to be reported immediately to the Boston College Police.

The BCPD encourages the accurate and prompt reporting of all crimes and accepts voluntary, confidential reports of crimes. All applicable reports will be included in the annual disclosure of crime statistics.

For additional information, please reference *Appendix B*.

CAMPUS SAFETY NOTIFICATIONS AND EMERGENCY RESPONSE PROCEDURES

In the interest of campus safety and security, Boston College will notify the University community of all crimes considered to pose a threat to its members that are perpetrated on the Boston College campus and reported to campus security authorities or local police agencies. As described below, warnings will be disseminated in a manner that is timely, that aids the prevention of similar occurrences, and that protects the privacy of the victims of such incidents. In addition, Boston College has adopted policies and procedures to provide immediate notification to the campus community of campus emergencies.

PROCEDURES FOR TIMELY WARNING OF CAMPUS CRIME

When a crime on or near the campus is reported, it shall be the responsibility of the Director of Public Safety for the Boston College Police to promptly assess the potential danger or threat it presents to the campus community, or portions thereof. In the event of an immediate threat, the Police Department shall follow the emergency notification procedure described below. In other cases, if the Director of Public Safety believes a serious or ongoing danger or threat exists, he or she, working with other University officials as appropriate, shall provide a timely warning on the "BC Info" and "BC Emergency" web pages. Depending on the particular circumstances of the crime, the Director of Public Safety may also use a variety of other means to communicate the timely warning, including the mass notification methods for the dissemination of Emergency Notices described below.

PROCEDURES FOR IMMEDIATE NOTIFICATION OF CAMPUS EMERGENCIES

In the event of a significant emergency or dangerous situation occurring on campus, Boston College Police shall, without delay, make an initial determination as to whether the situation presents an immediate threat to the health or safety of students and employees. If the Police conclude that such a threat exists, the Police shall immediately notify the appropriate segments of the University community, unless issuing an immediate notification would, in the professional judgment of the Police, compromise efforts to assist a victim, or to contain, respond to, or otherwise mitigate the emergency.

The Director of Public Safety for the BCPD shall also promptly consult with other senior University officials regarding any significant emergency or dangerous situation to determine what follow-up information the campus community may need and how best to disseminate follow-up notices. Please see *Appendix C* for more information.

Content of Emergency Notices

Emergency notices shall describe the emergency or dangerous situation, outline immediate steps to be taken (including, if necessary, shelter and evacuation procedures), and indicate where additional information may be found. Emergency updates and further information will be provided by postings to the listed websites, emails to the Boston College community, and other methods as needed.

Campus Security Program

If the situation requires evacuation, the University will provide members of the community with evacuation instructions. In the event that an extended evacuation is necessary, people will be directed to other buildings/areas on campus for support (information, food, shelter, medical attention, etc.). Specific details about the sites will be included in the emergency notices.

Boston College maintains a comprehensive emergency management plan (CEMP) on the BC Emergency website (<http://www.bc.edu/emergency>) that describes in more detail the University's emergency protocols, including the University's shelter and evacuation procedures.

Dissemination of Emergency Notices

Depending on the incident and nature of the threat, the University will use mass notification methods to provide emergency notifications to the campus community. These methods include:

- Emails to bc.edu accounts
- Text alerts to cell phones
- Posting information to the BC Emergency website (<http://www.bc.edu/emergency>), the "BC Info" website (<http://www.bc.edu/content/bc-web/bcnews.html>) and the BC home page (www.bc.edu)
- Information on the 888-BOS-COLL (888-267-2655) emergency information line
- Other methods as appropriate (media, handouts, phone calls, etc.).

To ensure receipt of the University's emergency notices, all members of the University community are encouraged to provide the University with up-to-date contact information, including a cell phone number, through the University's website portal.

The BCPD will work with the Director of News and Public Affairs to ensure that emergency information is timely shared with local first responders and the local community as appropriate.

Tests

The Director of Emergency Management will oversee regular tests of the University's emergency notification system and evacuation procedures (at least annually). These tests may be announced or unannounced. The Director will publicize the University's emergency response and evacuation procedures in conjunction with at least one test per calendar year. The Director shall document each test, including a description of the exercise, the date and time, and whether the test was announced or unannounced.

MISSING STUDENT NOTIFICATION PROCEDURES

Students residing in on-campus housing have the option through the Boston College Agora Portal to register an individual to be contacted by Boston College in the event the student is determined to be missing for more than 24 hours ("Confidential Contact"). The student's Confidential Contact will be accessible only to authorized campus officials and law enforcement officers in furtherance of a missing person investigation.

Any member of the University community who has reason to believe a student residing in on-campus housing has been missing for more than 24 hours should immediately contact the BCPD. Upon notification, BCPD will initiate an investigation. If BCPD is unable to locate the student through its normal contact network and determines that the student has been missing for more than 24 hours, BCPD will immediately notify the Senior Administrator on Call (AOC), who will notify the student's Confidential Contact within 24 hours of the official determination that the student is missing.

BCPD must notify other local law enforcement agencies once it is determined that the student is missing, regardless of whether or not the student has registered a Confidential Contact. If the missing student is under 18 years of age and not emancipated, the AOC will notify a custodial parent or guardian in addition to the student's Confidential Contact.

Campus Security Program

CAMPUS FACILITIES: SECURITY, ACCESS, AND MAINTENANCE

Boston College is committed to maintaining a safe environment which includes the security, access, and maintenance of its campus facilities. Residence halls, and certain buildings and facilities throughout campus, are posted with notices that identify them as private property and include warnings against trespassing and soliciting. Residence hall exterior doors are locked 24 hours a day. The Boston College Police and the Facilities Department coordinate efforts with respect to maintenance issues affecting the security of campus facilities. For more on the security of BC's facilities, please refer to *Appendix D*.

CAMPUS LAW ENFORCEMENT

In addition to the rules and regulations of the University, Boston College students, faculty, staff, and campus visitors are subject to all local, state, and federal laws. In or upon land or structures owned, used, or occupied by the University, the Boston College Police are responsible for enforcing those laws and maintain a cooperative working relationship with local, state, and federal police agencies.

The Boston College Police force includes approximately 55 sworn police officers. All police officers must attend and graduate from a police academy certified by the Massachusetts Criminal Justice Training Council and be certified as a full-time police officer by the Police Officer Standard Training Commission (POST).

The Boston College Police derive their legal authority from Chapter 22C, Section 63 of the Massachusetts General Laws. Boston College Police officers have full state authority for the investigation of alleged criminal offenses, and may make arrests of individuals accused or suspected of crimes. Local police agencies provide backup assistance to the University if required.

BOSTON COLLEGE CAMPUS SEXUAL VIOLENCE RESPONSE AND PREVENTION PROGRAM

Introduction

Boston College attempts at all times to maintain a safe environment that supports its educational mission and is free from exploitation and intimidation, as well as discrimination based upon gender, including sexual assault, domestic and dating violence, stalking, and all other forms of sexual misconduct. Sexual violence or sexual misconduct of any kind is antithetical to the mission of Boston College and the values it espouses and will be responded to accordingly. The University strives to eliminate sexual misconduct on campus, prevent its occurrence, and address its effects.

Purpose

The purpose of this policy, provided in accordance with the Clery Act and Massachusetts law, is to summarize some of the University's efforts with respect to preventing sexual misconduct, to direct members of the University community to the University's policies and resources regarding sexual misconduct, and to inform students and employees who experience sexual violence about procedures to follow after a sex offense has occurred. In this notice, the term "sexual misconduct" defined below, includes sexual harassment and sexual violence and the term "sexual violence" (or "sex offenses") is deemed to include sexual assault, domestic and dating violence, and stalking. The University's detailed policies with respect to sexual misconduct can be found in the [Title IX Harassment Policy](#), which addresses conduct that falls within the scope of Title IX of the Education Amendments of 1972, and for non-Title IX conduct, the University's [Discriminatory Harassment Policy](#) (addressing sexual harassment complaints against faculty and staff, primarily) and the [Student Sexual Misconduct Policy](#) (addressing sexual misconduct complaints against Boston College students). The Boston College Sexual Assault Network (SANet) is a primary, confidential resource for students who have been affected by sexual misconduct and is reachable at 617-552-2211; employees may seek confidential assistance from a confidential resource provider, reachable at 617-552-3486. For more information on the services and resources provided by SANet and the Boston College Police Department, please visit the following websites: [SANet](#) and [BCPD-Crime Prevention](#). In addition, the University Title IX Coordinator, reachable at 617-552-3334, and the Student Affairs Title IX Coordinator, reachable at 617-552-3482, oversee the University's response to reports of sexual misconduct.

Definitions

In accordance with the Clery Act, the definitions of certain sexual violence terms under Massachusetts law are included below. The [Title IX Harassment Policy](#), the [Discriminatory Harassment Policy](#), and the [Student Sexual Misconduct Policy](#) include definitions of conduct prohibited under those policies, as well as the University's definitions of consent and incapacitation, and these definitions may differ from those below.

Sexual Assault. Sexual assault is defined by the Massachusetts Office of Public Safety as any sexual activity that is forced or coerced or unwanted. Under Massachusetts criminal law, sexual assault includes both indecent assault and battery and rape. Indecent assault is the intentional physical contact of a sexual nature with a person without the person's consent. Massachusetts law defines rape as having sexual intercourse with a person and compelling such person to submit by force and against his/her will, or compelling such person to submit by threat of bodily injury.

Consent. Under Massachusetts law, consent for sexual activity cannot be obtained from an individual who is incapable of giving consent because the person: has a mental, intellectual, or physical disability; or is under the legal age to give consent (16 in Massachusetts); or is asleep, unconscious, physically helpless; or otherwise incapacitated, including through the consumption of alcohol or drugs.

Domestic and Dating Violence. Under Massachusetts law, the definition of "domestic abuse" includes domestic violence and dating violence. Domestic abuse is defined as the occurrence of one or more of the following acts between family or household members: (a) attempting to cause or causing physical harm; (b) placing another in fear of imminent serious physical harm; or (c) causing another to engage involuntarily in sexual relations by force, threat or duress. "Family or household members" are persons who: (a) are or were married to one another; (b) are or were residing together in the same household; (c) are or were related by blood or marriage; (d) having a child in common regardless of whether they have ever married or lived together; or (e) are or have been in a substantive dating or engagement relationship, which shall be adjudged by courts through consideration of the following factors: (1) the length of time of the relationship; (2) the type of relationship; (3) the frequency of interaction between the parties; and (4) if the relationship has been terminated by either person, the length of time elapsed since the termination of the relationship.

Stalking. Under Massachusetts criminal law, stalking is committed when a person (1) willfully and maliciously engages in a knowing pattern of conduct or series of acts over a period of time directed at a specific person which seriously alarms or annoys that person and would cause a reasonable person to suffer substantial emotional distress; and (2) makes a threat with the intent to place the person in imminent fear of death or bodily injury. The conduct, acts or threats includes those conducted by mail, telephone, or electronic communication device.

Sexual Misconduct. Under Massachusetts law (M.G.L. Ch. 6 section 168D), sexual misconduct is defined as an incident of sexual violence, dating violence, domestic violence, gender-based violence, violence based on sexual orientation or gender identity or expression, sexual assault, sexual harassment, or stalking.

Prevention and Education Programs

Boston College provides a variety of education programs to the University community to promote awareness of sexual misconduct, and is enhancing its training and education efforts on an ongoing basis. A description of the University's current prevention and awareness programs and campaigns is included on Exhibit A to this policy.

Sexual Misconduct Response and Reporting

The first priority of a person who experiences sexual violence should be to get to a place of safety and obtain any necessary medical treatment. Students and employees are encouraged to preserve any physical evidence, which may assist in proving that the offense occurred and may also be helpful in seeking a protective order. (Ideally, after a sexual assault, a victim should not take a shower, wash, or change clothing prior to a medical exam.) If possible, the crime scene should remain undisturbed. The University's [Student Sexual Misconduct Policy](#) describes a student's options for reporting sexual violence and other misconduct, including a description of confidential and privileged University resources and an anonymous reporting option. The [Discriminatory Harassment Policy](#) describes reporting options, including an anonymous reporting, for employees, as well as students to report sexual misconduct on the part of faculty or staff.

The University strongly encourages, but does not require, students and employees to report sex offenses and to do so promptly. To report an incident, a student or employee may contact the Boston College Police ("BCPD") at 617-552-4444. For more information about the BCPD, which has the authority to make arrests, see the [Campus Law Enforcement Policy](#). A student may also contact the Student Affairs Title IX Coordinator at 617-552-3482, the Sexual Assault Network at 617-552-2211, the SANet Care Team at 617-552-8099, the Office of the Dean of Students at 617-552-3470, and/or the student confidential resource provider at 617-552-2735. An employee may contact the University Title IX Coordinator at 617-552-3334, the University Harassment Counselor at 617-552-3340, or the employee confidential resource provider at 617-552-3486. For sex offenses that occur off campus, the University will provide assistance upon request in notifying the appropriate local law enforcement agency for the jurisdiction in which the reported crime occurred.

If a student or employee chooses to report a sex offense to the Boston College Police, a specially trained officer will conduct an investigation which involves asking the student or employee to describe the accused and what happened. The officer may ask questions

Campus Security Program

about the scene of the alleged crime, any witnesses, and what happened before and after. The officer will collect any evidence, including assisting the complainant to a hospital to have a sexual assault evidence collection kit performed if the complainant chooses, and will assist the complainant in meeting with a Victim Witness Advocate and the District Attorney's Office if the victim so chooses. If the complainant is a student, the officer will also be available to provide assistance to the student in connection with reporting the incident to the Office of the Dean of Students.

The Boston College Police Department will also notify the student or employee about his or her legal options. In addition to pursuing a criminal complaint or pursuing a complaint under applicable University policy, students or employees who experience sexual violence may seek a restraining order under civil law to prevent further abuse. Under Massachusetts law, victims of dating or domestic violence may be entitled to obtain an abuse prevention order under Chapter 209A of the Massachusetts General Laws, and victims of stalking or harassment may be entitled to obtain a harassment prevention order under Chapter 258E of the Massachusetts General Laws. These orders require the abuse or harassment to cease and can include no contact and stay-away requirements. They may be issued without prior notice to the abuser or harasser if there is a substantial likelihood of immediate danger of abuse or harassment. The Boston College Police will assist students and employees in pursuing these orders. Any student or employee may inform the Boston College Police of the issuance of any protective order related to domestic violence or harassment. BCPD will notify University administrators as appropriate to help ensure that the order is enforced on campus.

Boston College strongly encourages students and employees who experience sexual misconduct to report it to the University. The University will provide the complainant with written notification of his or her options, including information about pursuing a complaint within the University, information about filing a criminal complaint, information about filing for a restraining order, and information about pursuing these options at the same time. This notification will also include information on how to seek reasonably available changes to academic, living, transportation and working situations, as well as a listing of resources and supportive services available on-and off-campus, including counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, student financial aid, and other available services. A list of available on- and off- campus resources, many of which are available to students and employees, is included in the [Student Sexual Misconduct Policy](#).

If a crime is considered to represent a serious danger or ongoing threat to members of the Boston College community, the Boston College Police will disseminate a timely warning.

Adjudication Processes

The University's processes for adjudicating complaints of alleged sexual misconduct are described in the [Title IX Harassment Policy](#), [Student Sexual Misconduct Policy](#), and the [Discriminatory Harassment Policy](#). The University's processes are designed to be prompt, fair and impartial and are conducted by investigators and decision makers who are trained on an annual basis. A responding party will receive notice of an allegation of sexual misconduct that will include the date, time, and location, if known, of the alleged incident and a statement identifying the specific policy or policies violated. The standard of proof in the adjudication of complaints is the preponderance of the evidence. The responding party is presumed not responsible for the alleged conduct until a determination is made. The complainant and the respondent are entitled to the same opportunities to have an advisor of the party's choice present during any meeting related to the complaint and to present witnesses. The parties will have equal opportunities to review and inspect evidence obtained in the investigation that is directly related to the allegations. There may be restrictions on evidence considered by the investigators and/or decision makers, including evidence regarding prior sexual history or character evidence. In no event will the parties directly question each other at any time during the adjudication process. Both the complainant and the respondent are simultaneously informed in writing of the outcome. These policies also describe the procedures for appeal; parties will be informed of any changes to the results that occur prior to the results becoming final and when the results become final. These policies also describe the sanctions that may be imposed following a finding of responsibility for sexual misconduct, which include suspension or dismissal from the University. These policies also describe informal resolution processes that may be available to the parties.

Changes to Academic, Living, and Working Situations

Boston College recognizes the importance of offering support and assistance to students and employees who experience sexual misconduct. Upon request, the University will provide reasonable and appropriate interim measures to help assure the safety and wellbeing of the complainant. These measures may include a University no-contact or stay-away order.

For students, interim measures will be offered through the Office of the Dean of Students, the Student Affairs Title IX Coordinator, and the confidential resource provider for students. For students, these measures may include reasonable academic, housing, and other adjustments as appropriate in the circumstances.

Employees who have experienced sexual misconduct or sexual violence may seek assistance from the BCPD, the University Title IX

Coordinator, or the Harassment Coordinator, or the confidential resource provider for employees. The confidential resource provider and/or the Harassment Coordinator can help facilitate interim supportive measures for an employee complainant, as reasonable and appropriate in the circumstances. Under certain circumstances, an employee who is a victim of domestic violence may be entitled to take time off under the University's Domestic Violence Leave Policy or under another available leave policy (such as a paid or unpaid medical or personal leave). Employees who need time off to address issues related to domestic violence or other sexual misconduct are encouraged to consult with their supervisor or the Benefits Director to determine what, if any, leave may be available to them.

Confidentiality

The University respects the privacy interests of students and employees who report incidents of sexual misconduct, and will protect the confidentiality of the individuals involved to the fullest extent possible. In responding to an affected student or employee's requests for academic, living, or working adjustments, the University will limit disclosures to the minimum necessary to make reasonable adjustments. The University does not include the names or other identifying information of sexual misconduct complainants in any publicly available documents, including any publicly available police reports, logs, or safety notices.

Campus Security Program

Exhibit A

SEXUAL MISCONDUCT PREVENTION, TRAINING, AND EDUCATION PROGRAMS

The University's multifaceted education and prevention efforts include programming, initiatives, strategies, and campaigns intended to help prevent sexual misconduct at Boston College and help ensure an appropriate University response when it does occur. These programs include primary programs (for new students and employees) and ongoing programs, and will continue to evolve and develop as the University assesses them for value, effectiveness, and outcome.

I. STUDENTS

All incoming first-year students participate in primary prevention and awareness programming as part of their orientation and welcome week activities, and returning students participate in ongoing training and related programs. New graduate students are also provided with an on-line sexual assault prevention course.

Each academic year, every student is sent an email that includes a prominent link to the Student Sexual Misconduct Policy, which includes the definitions of prohibited conduct and consent under University policy, a link to the applicable definitions under Massachusetts criminal law, a description of the University's response to reports of sexual misconduct, and a description of resources available to students.

The following primary prevention and awareness programs are provided to all first-year students:

"Voices for Change – Consent" is an interactive on-line prevention program designed for first-year students. The program defines and establishes community standards and addresses issues of sexual violence. The program also outlines all resources and links to the Student Sexual Misconduct Policy, as well as key definitions under the policy and resources on- and off-campus.

"Stand Up BC" is a mandatory peer-facilitated in-person program implemented in the first weekend of the academic year. It is designed to educate first-year students on the contents of the Student Sexual Misconduct Policy, to discuss the concept of consent, and to share resources related to sexual violence prevention and response.

"Bystander Intervention Education" is a mandatory peer-facilitated in-person sexual violence prevention program that focuses on the importance of prosocial bystander behaviors. The program is designed to empower Boston College first-year students to identify sexual violence as a form of oppression and intervene as a prosocial bystander in all instances of oppression.

The following ongoing prevention and awareness programs are provided to students:

"Speak Up BC" Bystander Intervention Education for Student Leaders is a presentation and discussion tailored to student leadership. The program is designed to engage upper-class student leaders to enable them to better understand and make use of their capacity as role models to effect cultural change among their peers and mentees. This program is provided to students who hold registered parties, student leaders in the undergraduate government, resident assistants, orientation leaders, athletes, and facilitators of BC's emerging leaders program.

Alcohol and Drug Education Program is an educational program that helps students better understand the relationship between alcohol and drug use and sexual assault perpetration and victimization. The program uses evidence-based research to decrease abuse during periods of peak activity throughout the academic year. Additionally, first-year students are also required to complete an online alcohol education course.

Wellness Coaching Initiative is an effort by the Center for Student Wellness that includes individual wellness coaching to develop personal goals and strategies to improve health behaviors. Wellness coaches meet with students on a range of topics, including: developing meaningful relationships, cultivating a satisfying social life, and finding belonging in your community.

You Are Not Alone is a comprehensive guide to the University's sexual misconduct reporting options, policies, and resources on and off campus, made available to students in print and on-line.

CARE Week: CARE Week is organized by the Women's Center and held during the spring semester each year. Programming raises awareness of sexual assault and intimate partner violence, including: the definition of consent, ways to recognize and navigate unhealthy relationships, how to help a friend who experienced a sexual assault, and how to be a proactive bystander.

One Love at BC: This program is organized by the Women's Center and is focused on intimate partner violence prevention. Offerings through this program include presentations and workshops.

Sexual Assault Prevention for Graduate Students is an interactive online training designed to support graduate students' interactions with advisors, faculty members, peers, and undergraduate students (including when it comes to reporting options). The program provides links to the University's Student Sexual Misconduct Policy and Title IX Harassment Policy. It also includes a guide of on- and off-campus resources.

II. EMPLOYEES

The University offers a variety of training and education programs to employees intended to help them create and maintain an education and employment environment free from sexual misconduct, harassment and discrimination, and ensure that they have an understanding of applicable law and University policy concerning these issues.

On-line Training: The University, through the Human Resources Department, offers all employees comprehensive on-line training programs that address discriminatory harassment and sexual misconduct. The programs provide an overview of Title IX, the Violence Against Women Act, the Clery Act and University policy. The programs include: (i) an explanation of and definitions of prohibited behavior under University policy and Massachusetts law; (ii) a description of "safe and positive options" for bystander intervention; (iii) information on risk reduction; and (iv) information regarding the University's policies and procedures for prevention and response, including the University's Discriminatory Harassment Policy, the Clery Sexual Violence Response and Prevention Policy, and the Student Sexual Misconduct Policy. Human Resources also provides in-person training on these topics on request.

Education Sessions: The University, through the University Title IX Coordinator, provides regular and ongoing in-person education and awareness programs for departments, deans, faculty and staff regarding student sexual misconduct. These programs are directed to faculty and staff who regularly interact with students and are tailored to the specific audience. They include an explanation of Title IX and its application to sexual misconduct and foster an understanding of the audience's role in helping the University meet its obligation to respond appropriately to a student disclosure of sexual misconduct, including discussions regarding how to discuss the issue of confidentiality and the limits on confidentiality, how to refer a student to appropriate University resources, and the obligation to inform the Student Affairs Title IX Coordinator about any disclosure of sexual misconduct by or against any student.

Faculty and Staff "Step-by-Step" Guide: The Student Affairs Title IX Coordinator distributes a one-page resource and information sheet to faculty and staff to assist them in responding to student disclosures of sexual misconduct. The one-pager includes suggestions on how to handle a disclosure, information on how to support students, student options for filing a complaint, directions for contacting the Student Affairs Title IX Coordinator, and a list of on- and off-campus resources.

In addition to the above, the University also provides education programs that are targeted to specific faculty and staff who have key roles in the University's sexual misconduct prevention and response efforts. These programs include:

Sexual Misconduct Investigators: The University ensures that any employees responsible for investigating sexual misconduct complaints against students are trained annually on sexual misconduct, trauma and victimology, relevant University policies and law, appropriate interviewing techniques, assessing evidence and credibility, and the importance of impartiality and promoting accountability.

Residence Life Staff: All Residence Life staff members receive enhanced training regarding alcohol, emotional wellbeing, and recognizing signs of sexual misconduct and other forms of sexual, gender-based, and interpersonal violence. Residence Life staff is also provided in-depth training on the Student Sexual Misconduct Policy, how to report sexual misconduct, and how to support a student reporting sexual misconduct, including informing students about available University resources and assisting students in seeking interim measures, such as no contact and university stay away orders, housing adjustments, and academic support.

Boston College Police: All Boston College police officers and staff receive annual in-service training on the Clery Act and Title IX, and all detectives and sexual assault investigators periodically attend additional specialized sex crime investigations courses.

Campus Security Program

III. COMMUNITY PREVENTION & AWARENESS PROGRAMMING

The University provides a variety of additional sexual misconduct prevention and awareness programming, initiatives, and campaigns to members of the University community, including:

Concerned About Rape Education (“CARE”) Week: CARE Week is an annual program overseen by the Boston College Women’s Center that is focused on educating the University community about sexual violence and rape on college campuses, including its prevalence, the definition of consent, ways to navigate unhealthy relationships, how to help a friend who has been affected by sexual violence, and available resources on- and off- campus. The Women’s Center works with departments and student groups across campus to offer a variety of programs, including Take Back the Night, dialogues on intersectionality, theatrical performances, trauma-informed art therapy, and a speaker series that includes well-known outside speakers.

Rape Aggression Defense Courses: The Boston College Police Department offers numerous 12-hour Rape Aggression Defense (R.A.D.) courses which include lecture, discussion and self-defense techniques for men and women.

Prevention and Response Awareness Poster Campaign: Residence Life, in partnership with the Women’s Center, provides informational posters in first year residence hall community bathrooms to inform students of the University’s resources and responses to sexual misconduct.

Sophomore Bystander Intervention Campaign: This social marketing campaign for sophomore students promotes active pro-social bystander behavior. The campaign features many well-known Boston College students who are confronted with situations that may lead to sexual violence in familiar spaces in the University community. Campaign postings will appear in all sophomore on-campus living spaces, including lounges, bathrooms, bulletin boards, resident assistant and resident director doors, and are embedded in electronic communications from Residential Life staff to sophomore students.

Parent Orientation Initiative: An orientation session and accompanying information sheet for parents of first year students provide an overview of Title IX, describe the University’s education and prevention programs for first year students, list on- and off-campus resources, and provide contact information for the Student Affairs Title IX Coordinator.

ANNUAL DISCLOSURE OF CRIME STATISTICS

The following Crime Statistics are provided in accordance with the Clery Act: Annual Disclosure of Crime Statistics—*Appendix E*. The Director of Public Safety for the Boston College Police compiles the annual crime statistics from the Boston College police logs, reports of Campus Security Authorities, responses from public police agencies, and the database of the Office of the Dean for Student Development and Residential Life. For more information on the University’s preparation of the Annual Disclosure of Crime Statistics, refer to *Appendix F*.

Boston College makes available, upon request, to an applicant, student, or employee of the institution, a copy of the Annual Crime Report; such individuals may obtain a copy of the report from the Boston College Police Department.

DRUG AND ALCOHOL DISCLOSURES

Boston College prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on University premises or property or as part of its activities. Boston College expects its students and employees to comply with local, state, and federal laws relating to the possession, use, or distribution of drugs and alcohol when they are on University property or taking part in University activities.

Please reference *Appendix G* for a more detailed description of Boston College’s drug and alcohol policies and a description of Boston College’s drug and alcohol abuse education programs.

OBTAINING REGISTERED SEX OFFENDER INFORMATION

In accordance with the federal “Campus Sex Crimes Prevention Act” of 2000, Boston College informs you that law enforcement agency information concerning registered sex offenders, provided by the Commonwealth of Massachusetts, and may be obtained from the following local law enforcement agencies:

Boston Police Department
Sex Offender Registry Unit
617–343–4965

Brookline Police Department
Records Section
617–730–2225

Newton Police Department
Detective Bureau
617–796–2104

Requests for information must be made in person and a request form completed. For questions and further information, please contact the Boston College Police Department or the following web site: www.MASS.gov/SORB.

Fire Safety Program

INTRODUCTION

The Higher Education Opportunity Act (“HEOA”) and its implementing regulations require each institution of higher education that maintains on-campus student housing to establish certain fire prevention and safety procedures and programs and to make annual disclosures regarding these procedures and programs as well as statistics regarding fires in its housing facilities. Boston College maintains this policy to promote fire safety and awareness at the University and to enable the University to comply with these HEOA requirements.

POLICY

Boston College complies with the HEOA fire safety policies and reporting requirements by (i) maintaining a fire log and statistics regarding any fires in on-campus housing facilities; (ii) maintaining fire safety systems in all student housing facilities; (iii) conducting regular fire drills in student housing facilities; (iv) maintaining evacuation plans for each student housing facility; (v) providing and publicizing fire safety and training programs for students and employees; and (vi) annually disclosing the fire statistics and fire safety program information as required by the HEOA as part of the University’s annual campus security and fire safety report. The components of Boston College’s fire safety program are described more fully below.

FIRE LOG & FIRE STATISTICS

The Director of Environmental Health and Safety is responsible for maintaining a fire log that includes information regarding the nature, date, time and general location of each reported fire in an on-campus housing facility. Upon receipt of any information regarding such a fire, the Director shall ensure that the information is included in the log within two business days. The most recent 60-day period of this log is open for public inspection in the Boston College Environmental Health and Safety Office during normal business hours.

In addition to the information available in the public log, the Director of Environmental Health and Safety shall be responsible for gathering the following additional information for each reported fire included in the log: (i) the cause of each fire (such as an intentional or unintentional action, a mechanical failure, or an act of nature); (ii) the number of persons who received fire-related injuries that resulted in treatment at a medical facility, including University Health Services; (iii) the number of any deaths related to the fire; and (iv) the value of property damage caused by a fire, which shall be the estimated replacement cost of any structure and contents that were damaged by fire or related smoke, water, and overhaul. This information will be provided in the annual campus security and fire safety report for each fire occurring in on-campus housing facilities during the three most recent calendar years. On or before October 1 of each year, the Director of Environmental Health and Safety shall also provide the fire statistics to the General Counsel for the purpose of reporting to the Department of Education.

In the event of a fire, residents should pull the nearest fire alarm or call 911, and once outside, notify the Boston College Police at 617-552-4444, who shall promptly report the fire to the Director of Environmental Health and Safety for inclusion in the fire log. The Director of Residential Life shall also promptly report any fire in any residence hall to the Director of Environmental Health and Safety. Any other person wishing to report the occurrence, or suspected occurrence, of a fire for inclusion in the fire log should contact the Boston College Environmental Health and Safety Office at 617-552-0300.

FIRE SAFETY SYSTEMS

The University maintains a variety of fire safety systems (such as alarm systems, fire and smoke detectors, and sprinkler systems) in its on-campus housing facilities, in compliance with all applicable laws and regulations. For the specific systems for each housing facility, please refer to *Appendix H*.

FIREDRILLS

The Office of Environmental Health & Safety works with the Office of Residential Life to conduct at least two fire drills during each year in each of the residence halls. These drills are usually conducted early in each semester. Fire drills are also conducted on a quarterly basis at the Campus School and on a monthly basis at the Child Care Center. The number of drills conducted in each residence hall will be reported in the annual campus security and fire safety report.

RESIDENTIAL FIRE SAFETY RESTRICTIONS

The University’s Residential Life Agreement includes a number of rules and restrictions designed to enhance fire safety in student housing facilities, including rules governing portable electrical appliances, smoking and open flames. While the rules vary slightly for each residence, any source of open flame (e.g., candles and incense), as well as smoking in, and within 20 feet of, any residence hall is strictly prohibited.

The University also prohibits the use of certain portable electrical appliances, including: certain kinds of lights and lamps; non-UL approved power strips; extension cords without surge protection; grills (except in modular housing); and space heaters and heating blankets. The Office of Environmental Health and Safety continually monitors the use of portable electrical appliances and reserves the right to restrict the use of any additional appliances that may pose an unnecessary safety risk. A complete list of non-approved items can be found at [Residential Life, Fire Safety Policies](#).

Only buildings with kitchens or kitchenette areas may have any heat producing kitchen appliance (e.g., toasters, coffee-makers). Students living in a residence hall with a kitchen or a kitchenette should consult with their building's Resident Director to get a complete list of permitted kitchen appliances.

The University conducts random health and safety inspections each semester to enforce these fire safety rules. Any violation will be recorded and students in violation may be subject to disciplinary action.

EVACUATION PROCEDURES

During freshman orientation, incoming students are also informed generally about the University's evacuation procedures and how to obtain a copy of an Emergency Evacuation Plan ("EEP"). Each residence hall has a site specific EEP, which is maintained by the Environmental Health and Safety Office. Copies are held by the Resident Hall Director and made available, upon request, to occupants of each housing facility. The EEP's may also requested by contacting [Environmental Health and Safety, Fire Safety](#) at 617-552-0300

The EEP contains a description of each of the following:

- The plan's purpose
- Preferred means of reporting fires and other emergencies
- Emergency escape procedures
- Procedures to be followed by employees and staff who remain to control critical building operations before they evacuate
- Procedures to account for all occupants after emergency evacuation has been completed
- Rescue and medical duties for those employees who perform them
- The alarm system

Residents are also encouraged to review the floor plans located on the exit doors leading from each residential space. These floor plans show fire extinguisher locations and emergency exits for the building.

FIRE SAFETY EDUCATION AND TRAINING

Boston College hosts several fire safety training opportunities for students, staff and faculty each year.

The Office of Environmental Health and Safety conducts fire safety presentations at a number of scheduled events and upon request. The presentations typically include instruction on best practices for fire prevention, what do in the event of an emergency, fire extinguisher training, and an overview of evacuation procedures.

In the event of a fire or fire alarm, all employees and students are instructed to promptly evacuate in accordance with the plans for the building in which the fire occurs, using stairs instead of elevators, and to follow the instructions of the designated building safety contact, resident assistant, and police and fire department, as applicable.

REVIEW OF THE FIRE SAFETY PROGRAM

The Director of Environmental Health and Safety shall review this policy and all aspects of University's fire safety programs at least once annually to determine if any changes or improvements are warranted. If the Director, in consultation with other appropriate University administrators, determines that future improvements in fire safety are necessary, the plans for any such improvements will be included in the annual campus security and fire safety report.

ANNUAL DISCLOSURE OF FIRE STATISTICS

Please see *Appendix I* for statistics on reported incidents of fire occurring in on-campus housing facilities during the most recent calendar year.

Appendix A: BCPD Crime Prevention

The men and women of the BCPD urge you to become involved in your personal safety. Throughout the year, officers conduct seminars and other community service activities to keep you aware of safety issues. We invite each of you to join us in reducing incidents on campus.

CAMPUS SECURITY AWARENESS AND CRIME PREVENTION PROGRAMS

The Crime Prevention Unit of the Boston College Police Department, staffed by officers with specialized training, provides security awareness and crime prevention programs that stress both good personal safety habits and the importance of community safety. Some of the programs and education efforts include:

Information Fairs Introduction to the Boston College Police Department

This is a program designed to introduce the Boston College Police function and responsibilities to incoming freshmen and transfer students and their parents. The programs are offered during the orientation process.

International Student Seminar

This seminar is designed to introduce the Boston College Police function and responsibilities to international students. The seminar is offered during the fall semester.

Rape Aggression Defense (RAD) Training

RAD is a program of realistic self-defense tactics and techniques for women and men. The RAD system is a comprehensive, course that begins with awareness, prevention, risk education, and risk avoidance. After this, the system progresses to the basics of hands-on defense training. RAD is not a martial arts program. Our courses are taught by Boston College Police Officers who are nationally-certified RAD instructors. The Rape Aggression Defense (RAD) System is dedicated to teaching women defense concepts and techniques against various types of assault. This is done by utilizing easy, effective, and proven self-defense tactics. Our system of realistic defense will provide women and men with knowledge to make an educated decision about resistance.

Community Resource Officer (C.R.O.)

The purpose of the Community Resource Officer is to provide an opportunity for a dedicated point of contact to reach out to and work with staff and residents of this community. The C.R.O. is assigned to all Academic/Administrative Offices, Residence Hall or Community Organizations. The emphasis of the program shall be to enhance the knowledge, communication and overall safety of all within the community through programming, partnerships and outreach efforts.

BC Safe

BC Safe is an online program designed for our incoming freshmen to promote safety and personal responsibility. Included in this online video program are role of the Boston College Police, Campus safety & security, crime prevention programming, fire safety, safety in our local communities and safety in the City of Boston. Following each of the video segments a series of questions are asked about the information which they have just watched.

Operation Identification

Operation Identification is a burglary/theft prevention program. The Operation ID program involves engraving property with an identifying number, such as a license as a means of discouraging burglary and theft. It also provides police with a way to identify property should it be stolen and recovered.

Pamphlets

The Boston College Police Department informs the University community about the realities of crime through pamphlets that address security awareness, crime prevention, and crime reporting procedures. These materials are available at no charge from police headquarters and pamphlet racks.

Specialized Seminars

Additional seminars and training programs in matters that affect personal safety are offered periodically by officers assigned to the Boston College Police.

Appendix B: Reporting Crimes Policy; Boston College Police – Function and Responsibilities

Boston College
Campus Safety and Security Policies
Reporting Crimes and Other Emergencies

PURPOSE

This Policy is promulgated to encourage the timely and accurate reporting of all criminal activity on the Boston College Campus to the Boston College Police Department.

POLICY

Reporting Crimes to the Boston College Police Department. The Boston College Police Department is the official **reporting authority** at Boston College.

All members of the Boston College community, including all students, faculty and staff and their guests, are encouraged to report all crimes and other public safety concerns to the Boston College Police Department in a timely manner, when the victim of a crime elects to report or is unable to make such a report. Accurate and prompt reporting will facilitate timely initiation of warnings and other appropriate emergency response procedures, and will also help ensure the accuracy of crime statistics compiled in compliance with the Jeanne Clery Disclosure and Campus Security Policy and Campus Crime Statistics Act (the “Clery Act”).

The Boston College Police Department accepts voluntary, confidential reports of crimes in cases where the victim or witness of a crime does not wish to pursue either judicial or disciplinary action. All such reports are included in the annual disclosure of crime statistics. A confidential report can help determine if there is a pattern of crime with regard to a particular location, method, or assailant, and can help alert the campus community to potential danger. Note that this Policy does not limit or affect the University’s protocols with respect to any required notifications to the Student Affairs Title IX Coordinator of an alleged incident of sexual violence involving a student. In addition, faculty and staff may have additional reporting obligations under other University policies, including the Protection of Minors on Campus Policy and the professional standards and business conduct policies.

Campus Security Authorities. Campus Security Authorities, as identified below, are **required** to immediately report to the Boston College Police any instance of the crimes listed below occurring within Boston College’s Clery geography of which they become aware, whether by direct observation, disclosure by a victim, witness, or perpetrator, or report by some other person who has learned of the crime. BC’s Clery geography includes (i) buildings and property on the BC campus, (ii) non-campus buildings and property owned or controlled by BC that are used in direct support of, or in relation to, BC educational purposes and frequently used by students, and (iii) public property within or immediately adjacent to and accessible from the BC campus. Crimes that Campus Security Authorities must report to the Boston College Police are:

- Murder and non-negligent manslaughter
- Negligent manslaughter
- Robbery
- Aggravated assault
- Burglary
- Motor vehicle theft
- Arson
- All hate crimes involving bodily injury, larceny-theft, intimidation, simple assault, or vandalism of property
- All liquor, drug or weapons law violations resulting in an arrest.

In addition, all Campus Security Authorities are required to immediately report to the Student Affairs Title IX Coordinator any instance of the following crimes occurring on or near the Boston College Campus, or elsewhere within Boston College’s Clery geography of which they become aware, whether by direct observation, disclosure by a victim, witness, or perpetrator, or report by some other person who has learned of the crime:

- Rape
- Fondling
- Incest
- Statutory rape
- Domestic violence
- Dating violence
- Stalking

Appendix B: Reporting Crimes Policy; Boston College Police – Function and Responsibilities

The Student Affairs Title IX Coordinator shall ensure that these crimes are promptly reported to the Boston College Police Department for the purpose of compiling and reporting accurate crime statistics in accordance with the Clery Act.

All such reports should be made by Campus Security Authorities without investigation or other attempt to determine whether a crime, in fact, took place.

Campus Security Authorities at Boston College include the following: (i) all members of the Boston College Police Department; (ii) any individual who has responsibility for campus security but is not a member of the Boston College Police Department; (iii) any individual or organization specified in campus security policies as an individual or organization to which students and employees should report criminal offenses; and (iv) University officials having significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline, and campus judicial proceedings.

Counselors. Pastoral Counselors and Professional Counselors, as defined below, when acting as such, are not considered to be Campus Security Authorities and are not required to report crimes. The University encourages them if and when they deem it appropriate, to inform persons being counseled of the procedures to report crimes on a voluntary basis for inclusion into the annual crime statistics. A **Pastoral Counselor** is an employee of the University who is associated with a religious order or denomination, recognized by that religious order or denomination as someone who provides confidential counseling and who is functioning within the scope of that recognition as a Pastoral Counselor. A **Professional Counselor** is an employee of the University whose official responsibilities include providing psychological counseling and who is functioning within the scope of his or her license or certification.

Additional Information. The Boston College Police Department is fully operational 24 hours a day, 7 days a week, 365 days a year. It is designed to remain operational during major emergencies, including those involving the loss of power and telecommunications.

Boston College Police emergency and nonemergency telephone numbers are listed in the print and electronic versions of the Boston College Communications Directory published by Information Technology and Human Resources. The telephone numbers are published in materials disseminated by the Police, including official reports and educational brochures, and are displayed on bulletin boards in campus residence halls. Boston College Police officers respond to and document all emergency calls and calls for service and, when necessary and/or required by law, the appropriate local police agencies are contacted for assistance. All telephone calls are recorded and available for immediate recall. These records are maintained for a minimum of 30 days.

Boston College Police Headquarters has a telephone system that allows the Police to maintain telephone service when other campus systems are out of service or are experiencing busy circuits and other problems.

A Boston Area Police Emergency Radio Network, or BAPERN, radio system is in operation which allows the Boston College Police to communicate directly with all other police agencies within its normal level of operations, as well as with a majority of the police agencies in the metro Boston area and eastern Massachusetts. At Boston College Police Headquarters and in police cruisers, local police calls are monitored over the BAPERN radio system. Additional police alerts are monitored over the Law Enforcement Agencies Processing Systems/National Crime Information Center, or LEAPS/NCIC, network, which also allows the Boston College Police to communicate with other police agencies locally and nationally regarding local problems. The on-campus Police operate on radio bands that enable direct communication with Facilities Services personnel, Residential Life staff, and an off-campus community liaison program, the Community Assistance Patrol, sponsored by the Office of Governmental and Community Affairs. Emergency intercoms, identified by blue lights, are located at various sites on campus. The intercoms connect a caller directly to the Boston College Police without the need to dial or use coins, and they enable the Police to respond immediately to the scene of the call.

The Boston College Police Public Blotter lists the arrests and incidents that take place on campus. The blotter is available at Police Headquarters for viewing by members of the University community and the public during normal business hours. The blotter does not contain information on crime victims, juvenile arrests or other information prohibited from release by law.

For additional information regarding the Boston College Police Department, see Boston College Police – Function and Responsibilities.

Appendix B: Reporting Crimes Policy; Boston College Police – Function and Responsibilities

Title: Boston College Police – Function and Responsibilities

Code: 5-350-001

Date: 9-26-2024rev

General

The Boston College Police Department is responsible for the University's law enforcement and security functions. These functions cannot be performed effectively without the support and cooperation of each member of the University community. To assist the University community in this effort, the following general policies and procedures define the role of the police at Boston College.

Policy

1. The primary function of the Boston College Police is to enforce the rules and regulations of the University, to enforce the laws of the Commonwealth of Massachusetts, to protect and safeguard the rights, property, and privacy of individual members of the University community, to protect and safeguard University property, and, generally, to maintain the peace.
2. All police officers must attend and graduate from a police academy certified by the Massachusetts Criminal Justice Training Council and be certified by the Massachusetts Peace Officer Standards and Training Commission.
3. All Boston College Police officers hold warrants under Chapter 22C, Section 63 of the Massachusetts General Laws. These warrants confer complete police powers within the designated jurisdiction, defined as any property owned, used, or occupied by the University.
4. All Boston College Police officers generally hold Deputy Sheriff powers in Middlesex, Norfolk and Suffolk counties. The powers of Deputy Sheriff are similar to the powers of the Sheriff, and include the power to make arrests and to preserve the peace pursuant to the laws of the Commonwealth of Massachusetts. Deputy Sheriff powers provide officers with the authority to respond as law enforcement officials, and to take reasonable action if necessary to prevent serious bodily harm to themselves or others, while on duty and on an assignment that takes them off property owned, used, or occupied by the University.
5. The Detective Bureau of the Boston College Police Department is staffed by officers with specialized investigative training. The members of this unit are responsible for criminal investigation on campus, and are assigned to dignitary protection as well as other duties, as determined by the Chief of the Boston College Police. Assigned officers work closely with students, faculty, and staff as required, and Bureau members serve as department liaison with other law enforcement agencies at the local, state, federal, and international levels.
6. The Boston College Police Department is responsible for regulating parking and traffic on University property. Pursuant to this, the Department's Parking and Traffic Department administers the University's PARKING AND TRAFFIC REGULATIONS, which are disseminated by the Office of Student Services to the University community in print and electronic format. Student Services also issues parking permit decals to all qualified persons to authorize parking during designated hours in designated areas of University property. Enforcement of the PARKING AND TRAFFIC REGULATIONS is the responsibility of the Boston College Police.
7. Any individual, department, or organization that requires the services of police officers for a function or activity sponsored by Boston College, or held on University property, must contract for those services through the office of the Chief of the Boston College Police.

Responsibilities

1. To identify criminal activity and criminal offenders and, where deemed appropriate, to apprehend offenders and participate in subsequent court proceedings.
2. To minimize opportunities for the commission of crime through preventive patrol and other crime prevention measures, such as the determination of lighting and landscape maintenance needs, and the placement of emergency "blue light" intercoms, throughout campus.
3. To facilitate the movement of people and vehicles.
4. To aid those in danger of physical harm.
5. To assist those who cannot care for themselves.
6. To promote and maintain civil order.
7. To resolve conflict.
8. To create and maintain a sense of security in the community.

Appendix B: Reporting Crimes Policy; Boston College Police – Function and Responsibilities

9. To provide other services on an emergency and nonemergency basis.

Departmental Operating Procedures

The following information is provided to enhance the University community's understanding of the role of the Boston College Police.

1. In order to discharge its responsibilities, the Boston College Police Department operates on an around-the-clock schedule. The Communication Center in Headquarters is continuously staffed, and three full shifts are staffed every day, including holidays, throughout the year. Each shift is under the immediate command of a lieutenant and/or a sergeant.
2. All department vehicles and officers are equipped with two-way radios. For emergency use, cruisers are also equipped with emergency lights, sirens, and public address systems.
3. Throughout each 24 hour period, patrols are conducted that cover the entire campus. However, the intensity of the coverage of any given area or facility may vary in accordance with shifting requirements, as determined by the Boston College Police Department in cooperation with the users of the area or facility, or as determined by University policy. These patrols are conducted in accordance with generally recognized police patrol procedures.
4. A number of offices and other areas in which cash or valuable property is kept are equipped with alarm systems connected to Headquarters. Standard operating procedure requires that units respond to any alarm and take appropriate action.
5. To regulate and facilitate the movement of traffic, specified gates to the Lower and Middle Campuses are manned by personnel whose function is to ensure that only vehicles with a Boston College parking permit decal, or visitors who have legitimate business on campus, are allowed to enter during the hours when parking space is most in demand. Boston College Police citations are issued to persons in violation of University traffic and parking regulations. Standard fines for each offense may be assessed, subject to appeal within seven days to the Parking Appeals Board. Vehicles may also be towed for certain violations, including impeding traffic or blocking fire lanes, and for excessive violations. In such instances, a complete record of the transaction is maintained on a Motor Vehicle Tow Report in Headquarters.
6. All complaints received of disturbances on campus are responded to promptly, and are either handled directly by Boston College Police Department action or referred to appropriate University personnel for resolution.
7. Pursuant to state and federal law, the Boston College Police Department keeps and maintains a Public Blotter and Daily Crime Log. Each is written in a format that can be easily understood, recording, in chronological order, all responses to valid complaints received, crimes reported, the names, addresses of persons arrested and the charges against such persons arrested. All entries in said daily logs shall, unless otherwise provided in law, be public records available without charge to the public during regular business hours and at all other reasonable times.

All blotter and log entries are open to public inspection generally within two business days of the initial report to the Department, except where disclosure of such information is prohibited by law, or such disclosure would jeopardize the confidentiality of the victim. If there is clear and convincing evidence that the release of such information would jeopardize an ongoing criminal investigation or the safety of an individual, cause a suspect to flee or evade detection, or result in the destruction of evidence, such information may be withheld until that damage is no longer likely to occur from the release of such information.

8. In addition, each shift makes entries into a Records Management System Dispatch Log which is reviewed and approved by the shift sergeant or lieutenant. In addition to these records, a separate Incident Report must be completed for each significant incident (i.e., those that involve a criminal act, or serious breach of University rules), or if it appears advisable for any reason to retain a permanent and readily accessible record. Separate reports are also prepared that cover fires and automobile accidents on University property, and a separate report is prepared to document any arrest effected by Boston College Police Department officers. Only the Blotter and Crime Log described in paragraph (7) are considered to be public records. All other Boston College Police Department Reports and Records are considered to be Confidential University Records and not generally released, except where required by law, or at the discretion of the Boston College Police Department for routine Department incident reports such as motor vehicle crash reports, or victim requests for theft reports.
9. The Boston College Police Department furnishes, or will arrange for transportation in an emergency to any ill or injured person within its jurisdiction.
10. The Crime Prevention Unit of the Boston College Police Department, staffed by officers with specialized training, provides security awareness and crime prevention programs that stress good personal safety habits and the importance of community safety.
11. The Boston College Police Department provides the services of police officers and security officers, as deemed appropriate by the Chief of the Boston College Police, for various functions or activities sponsored by Boston College or held on University property. Detail services must be requested from the Department at least two weeks in advance of the date the services will be required. It is the responsibility of the Chief to determine the level of police coverage required and, where appropriate, to bill the sponsoring department or organization for services rendered.

Appendix C: Campus Safety Notification and Emergency Response Procedures Policy

Title: Campus Safety and Security Policies—Campus Safety Notification and Emergency Response Procedures

Code: 5-350-220

Date: 9-20-2010rev

PURPOSE

This Policy is promulgated to promote campus safety and security in compliance with requirements of the Jeanne Clery Disclosure and Campus Security Policy and Campus Crime Statistics Act (The “Clery Act”) and additional requirements of the Higher Education Opportunity Act (HEOA).

POLICY

Included among Boston College’s efforts to maintain a safe campus environment are the following procedures designed to provide the campus community with immediate notification of significant campus health and safety emergencies, and timely warnings of crimes on or near the campus that may pose an ongoing or continuing threat.

PROCEDURES FOR IMMEDIATE NOTIFICATION OF CAMPUS EMERGENCIES

In the event of a significant emergency or dangerous situation occurring on campus, Boston College Police shall, without delay, make an initial determination as to whether the situation presents an immediate threat to the health or safety of students and employees. If the Police conclude that such a threat exists, the Police shall immediately notify the appropriate segments of the University community, unless issuing an immediate notification would, in the professional judgment of the Police, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

The Chief of the Boston College Police Department shall also promptly consult with other senior University officials regarding any significant emergency or dangerous situation to determine what follow-up information the campus community may need and how best to disseminate follow-up notices.

Content of Emergency Notices

Emergency notices shall describe the emergency or dangerous situation, outline immediate steps to be taken (including, if necessary, shelter and evacuation procedures), and indicate where additional information may be found. Emergency updates and further information will be provided by postings to the listed websites, emails to the Boston College community, and other methods as needed.

If the situation requires evacuation, the University will provide members of the community with evacuation instructions. In the event that an extended evacuation is necessary, people will be directed to other buildings/areas on campus for support (information, food, shelter, medical attention, etc.). Specific details about the sites will be included in the emergency notices.

Boston College maintains a comprehensive emergency management plan (CEMP) on the BC Emergency website (<http://www.bc.edu/emergency>) that describes in more detail the University’s emergency protocols, including the University’s shelter and evacuation procedures.

Dissemination of Emergency Notices

Depending on the incident and nature of the threat, the University will use mass notification methods to provide emergency notifications to the campus community. These methods include:

- Emails to bc.edu accounts;
- Text alerts to cell phones;
- Posting information to the BC Emergency website (<http://www.bc.edu/emergency>), the “BC Info” website (<http://www.bc.edu/content/bc-web/bcnews.html>), and the BC home page (<http://www.bc.edu/>);
- Information on the 888-BOS-COLL (888-267-2655) emergency information line; and
- Other methods as appropriate (media, handouts, phone calls, etc.).

To ensure receipt of the University’s emergency notices, all members of the University community are encouraged to provide the University with up-to-date contact information, including a cell phone number, through the University’s website portal.

Appendix C: Campus Safety Notification and Emergency Response Procedures Policy

The Boston College Police Department will work with the Director of News and Public Affairs to ensure that emergency information is timely shared with local first responders and the local community as appropriate.

Tests

The Director of Emergency Management will oversee regular tests of the University's emergency notification system and evacuation procedures (at least annually). The Director will publicize the University's emergency response and evacuation procedures in conjunction with at least one test per calendar year. The Director shall document each test, including a description of the exercise, the date and time, and whether the test was announced or unannounced.

PROCEDURES FOR TIMELY WARNINGS OF CAMPUS CRIME

It shall be the responsibility of the Chief of the Boston College Police, when a crime on or near the campus is reported, to promptly assess the potential danger or threat it presents to the campus community, or portions thereof. In the event of an immediate threat, the Police Department shall follow the emergency notification procedure described above. In other cases, if the Chief believes a serious or ongoing danger or threat exists, the Chief, working with other University officials as appropriate, shall provide a timely warning on the "BC Info" and "BC Emergency" web pages. Depending on the particular circumstances of the crime, the Chief may also use a variety of other means to communicate the timely warning, including emails, text messages, and use of campus media. If the Chief deems it necessary, he or she may require University building safety contacts to post notices in campus buildings.

Appendix D: Campus Facilities: Security, Access, and Maintenance

Title: Campus Safety and Security Policies—Campus Facilities: Security, Access, and Maintenance

Code: 5-350-230

Date: 9-20-2024rev

POLICY

Security and Access

Boston College residence halls, and certain buildings and facilities throughout campus, are posted with notices that identify them as private property and that include warnings against trespassing and soliciting. The notices are inspected periodically by Boston College Police officers and replaced as necessary.

Academic and administrative buildings and facilities are secured within a reasonable period of time after the conclusion of normal operating hours. The propping open of secured exterior doors is prohibited. Buildings are patrolled and exterior doors are checked routinely by Boston College Police officers, and all checks are documented.

Residence hall exterior doors are locked 24 hours a day. They operate on an electronic card access system and are equipped with mechanisms that secure the door locks upon entering and exiting the residence halls. The doors are alarmed and wired to the Boston College Police Department, enabling the detection of and response to any propped doors. Security officers patrol the exterior areas of residence halls and check exterior doors during the nighttime hours. Residence hall student rooms are equipped with door and window locks. Entry into residence halls is restricted to members of the University community and their guests. Guests must be registered with the Residence Hall Director or Assistant Director, and must obtain the written authorization of the Director of Residential Life for stays that extend beyond four consecutive nights. All solicitation is prohibited within the residence hall system unless specifically approved by the Director of Residential Life. During periods of low occupancy, such as holidays and vacation periods, a reduced number of residence hall staff remains on site, and the frequency of internal patrols and door checks by Boston College Police officers is increased.

Vehicle entry into the main campus area is restricted and is monitored by Boston College Police officers and security/parking personnel.

Members of the University community are responsible for the actions and conduct of their guests, and for ensuring that visitors know, understand, and adhere to University rules and regulations.

Maintenance

Each year, representatives from the Office of the Financial Vice President and Treasurer, the Boston College Police, Facilities Services, the Office of the Dean for Student Development, and the Undergraduate Government of Boston College conduct a “safety walk” after dark throughout the campus. The purpose of the walks is to determine those areas in need of additional lighting or emergency “blue light” intercoms, or those that require attention to shrubbery and fencing. The recommendations of this group are compiled in a list of maintenance work projects to be undertaken for the upcoming year.

The Boston College Police Department periodically conducts an inspection throughout the campus to identify safety and security concerns such as lighting, emergency “blue light” intercoms, and shrubbery in need of repair or attention. The Police document the resulting maintenance requirements, and file a work order with Facilities Services. Emergency situations are addressed immediately; the Police contact the Facilities Services Administrator on Call or Head Custodian to resolve such situations.

Lighting is regularly inspected after dark throughout the campus. Any lighting found to be inoperative is to be promptly repaired or replaced.

For additional information regarding the Boston College Police Department, please see Boston College Police – Function and Responsibilities in Appendix B.

Appendix F: Required Disclosures and Reports Policy

Boston College
Campus Safety and Security Policies
Required Disclosures and Reports

PURPOSE

This Policy is promulgated to aid University administrators in their efforts to comply with the requirements of the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (the “Clery Act”), as well as additional campus safety disclosure requirements established by the Higher Education Opportunity Act (HEOA). This Policy is based on the Clery Act and its implementing regulations, HEOA and its implementing regulations, the Violence Against Women Act, as well as guidance provided by the U.S. Department of Education concerning these statutes and Title IX.

INTRODUCTION

The Clery Act and HEOA impose three different types of campus safety and security disclosure requirements on institutions of higher learning that participate in federal student financial aid programs. Universities are required to **formulate and disclose policies** dealing with a range of law enforcement, safety and security matters. They are also required to **maintain and provide access to logs and statistics** of crimes reported on campus, or disclosed by local law enforcement agencies, and to maintain logs and statistics concerning fires in on-campus residences. Finally, the Act requires institutions to **disseminate statistics** pertaining to crimes and fires.

POLICY

Boston College complies with the campus safety and security disclosure requirements of the Clery Act and HEOA by (1) establishing and disclosing all required campus safety and security policies; (2) maintaining all required campus crime and fire logs and statistics; and (3) disseminating all required campus safety information through the Annual Campus Security and Fire Safety Report and the annual web-based data collection conducted by the Department of Education, Office of Postsecondary Education. Procedures to be followed to assure compliance with the Clery Act and relevant campus safety and security provisions of HEOA are outlined in more detail below.

Capitalized terms used in this Policy but not defined in the text shall have the meanings ascribed in the glossary attached to this Policy as Exhibit A.

CAMPUS SAFETY AND SECURITY POLICIES. The policies and programs listed or linked to below (“Campus Safety and Security Policies”) are promulgated by Boston College in compliance with the Clery Act and HEOA:

- Campus Safety Awareness and Crime Prevention Programs (See Appendix A)
- Reporting Crimes and Other Emergencies (See Appendix B)
- Boston College Police -- Function and Responsibilities (See Appendix B)
- Campus Safety Notification and Emergency Response Procedures (See Appendix C)
- Campus Facilities Security, Access and Maintenance (See Appendix D)
- Annual Disclosure of Campus Crime Statistics (See Appendix E)
- Drug-Free Campus and Workplace Policy and Alcohol Programs (See Appendix G)
- Campus Law Enforcement (See Campus Security Program Section)
- Campus Sexual Violence Response and Prevention Program (See Campus Security Program Section)
- Missing Student Notification Policy (See Campus Security Program Section)
- Fire Safety Program (See Fire Program Section)

Appendix F: Required Disclosures and Reports

CAMPUS CRIME LOG. As outlined in Boston College Police -- Function and Responsibilities in Appendix B above, it is the responsibility of the Chief of the Boston College Police Department ("BCPD") to maintain a daily Crime Log complying with the requirements of the Clery Act and to make the log open to public inspection as required by the Act.

CAMPUS FIRE LOG. As outlined in Boston College Fire Safety Program, it is the responsibility of the Director of Environmental Health and Safety to maintain a daily Fire Log complying with the requirements of the HEOA and to make such log open to public inspection as required by the Act.

ANNUAL CAMPUS SECURITY AND FIRE SAFETY REPORT. Boston College, acting through the Office of the Financial Vice President, shall distribute on or before October 1 of each year an Annual Campus Security and Fire Safety Report to all enrolled students and employees, and shall make such report available to prospective students and employees upon request. Preparation, distribution and notices of the availability of the Annual Security and Fire Safety Report shall comply with the following:

- Content of Report. The Annual Campus Security and Fire Safety Report shall include the following:
 - (i) All Campus Safety and Security Policies;
 - (ii) Statistics ("Crime Statistics"), indicating, for each of the three most recently ended calendar years, by Geographic Location and crime, the number of: (a) reported Clery Act Crimes, (b) reported Hate Crimes, and (c) Arrests and Referrals for Disciplinary Action; and
 - (iii) Statistics ("Fire Statistics"), indicating the following information for each reported fire in an on-campus student housing facility for the three most recently ended calendar years: the date and time, location, cause, number of injured persons needing medical treatment, number of deaths, and value of damaged property.
- Distribution of the Annual Campus Security and Fire Safety Report. The University shall distribute the Annual Campus Security and Fire Safety Report to enrolled students and employees either by campus mail, or by posting on an internet or intranet web page. In the event electronic posting is utilized, all enrolled students and employees shall receive individual notices of its availability by campus mail or email describing the report, providing the address of the internet or intranet website where it is posted, and instructions for obtaining a printed copy free of charge.
- Notices of Availability to Prospective Students and Employees. Boston College shall provide prospective students and employees with a notice describing the Annual Campus Security and Fire Safety Report and including instructions for either accessing the report on the internet, or for obtaining a printed copy free of charge, in materials normally provided to such persons, such as the University Bulletin.

COMPLETION OF DEPARTMENT OF EDUCATION POSTSECONDARY EDUCATION INSTITUTIONS SURVEY.

Boston College, acting through the Office of the General Counsel, participates in the Department of Education, Office of Postsecondary Education annual web-based collection of campus crime and fire statistics.

PREPARATION OF ANNUAL DISCLOSURE OF CRIME STATISTICS. The following outlines the University's Policy concerning the preparation of the annual disclosure of crime statistics.

- The BCPD is the official reporting authority at Boston College. Pursuant to the University Policy on Reporting of Crimes and Other Emergencies, all such reports should be made either to the BCPD or, in cases of sexual violence, the Student Affairs Title IX Coordinator. Additionally, all Campus Security Authorities shall report to either to the BCPD, or, in cases of sexual violence, the Student Affairs Title IX Coordinator, any allegations of crimes reportable under the Clery Act of which they become aware and that they believe to be made in good faith. The Student Affairs Title IX Coordinator shall ensure that these crimes are promptly reported to the Boston College Police Department for the purpose of compiling and reporting accurate crime statistics in accordance with the Clery Act.

Appendix F: Required Disclosures and Reports

- The Chief of the BCPD shall request annually from the police departments of the City of Boston, Newton, Lawrence, Brockton and Towns of Brookline, Weston, Dover, Cohasset and the MBTA and from the Massachusetts State Police (“Public Police Agencies”) statistics of all reportable crimes that occurred during the most recently ended calendar year on Public Property.
- The Chief of the BCPD shall compile annual Crime Statistics from the following sources, taking care to reconcile all records to eliminate double reporting where possible: BCPD logs, reports of Campus Security Authorities and the Student Affairs Title IX Coordinator, responses from Public Police Agencies, and the databases of the Office of the Dean of Students, and Residential Life.

PREPARATION OF ANNUAL DISCLOSURE OF FIRE STATISTICS. The Director of Environmental Health and Safety shall be responsible for the preparation of the Fire Statistics in compliance with the Boston College Fire Safety Program.

CAMPUS SAFETY AWARENESS AND CRIME PREVENTION PROGRAMS. Boston College places a high priority on maintaining a safe and secure campus for all students, faculty, staff, and visitors. Members of the University community have the opportunity to learn about campus security procedures and the prevention of crime, and are encouraged to be responsible for their own security and the security of others, through programs presented by various administrative offices and student clubs and organizations.

The Crime Prevention Unit of the BCPD, staffed by officers with specialized training, provides security awareness and crime prevention programs that stress both good personal safety habits and the importance of community safety. Specific information about these programs and events can be accessed through visiting the [BCPD’s Crime Prevention](#) website. The University’s training and educational programs regarding sexual violence prevention and response are summarized in the [Campus Sexual Violence Response and Prevention Program](#).

Appendix F: Required Disclosures and Reports

Exhibit A

GLOSSARY

While the meanings of certain terms used in this Policy are indicated wherever possible in the text, certain concepts are discussed below for clarity and ease of reference.

- **Geographic Location.** For purposes of this Policy the term “geographic location” shall refer to the following categories:
 - o **Campus.** Any building or property owned or controlled by the University within the same reasonably contiguous geographic area and used by the institution in direct support of, or in a manner related to, the institution’s educational purposes, including residence halls. Although Boston College is comprised of its Chestnut Hill, Brighton, Newton and Brookline Campuses, these areas are reasonably proximate and operated as part of an integrated environment.
Accordingly, Boston College maintains and reports statistical information as a single campus.
 - o **Non-campus Building or Property.** A building or property owned or controlled by an institution that is used in direct support of, or in relation to, the institution’s educational mission, is frequently used by students and is not within the same reasonable contiguous geographical area of the institution. An example of a Non-campus Building at Boston College is the Connors Family Retreat Center in Dover.
 - o **Public Property.** This term refers to public property, such as streets and sidewalks that is either located within a campus, or immediately adjacent and accessible from the campus.
- **Campus Security Authority.** The Clery Act defines a campus security authority broadly as (i) a member of a campus police department, (ii) any individuals who have responsibility for campus security, but who do not constitute a police or security department (such as gate attendants), (iii) any persons designated in an institution’s campus security policy as a recipient of reports of criminal offenses from students or employees; and (iv) an official of an institution having significant responsibility for student and campus activities. The University’s designation of Campus Security Authorities can be found in the policy on Reporting Crimes and Other Emergencies in Appendix B.
- **Clery Act Crimes.** The Clery Act specifies that institutions must disclose statistics related to reports of particular crimes: murder, non-negligent manslaughter, negligent manslaughter, forcible and non-forcible sex offenses (limited to incest and statutory rape), robbery, aggravated assault, burglary, motor vehicle theft, arson (limited to investigated cases determined by law enforcement authorities to be arson), domestic violence, dating violence, and stalking. Definitions of these offenses are specified by the Clery Act to be those used by the Federal Bureau of Investigation Uniform Crime Reports handbook (“UCR”) and Violence Against Women Act of 1994 (as to the definitions domestic violence, dating violence, and stalking). As outlined in this Policy, the characterization of crimes for purpose of Clery Act statistics is the responsibility of the Chief of the BCPD.
- **Hate Crimes.** The Clery Act requires separate disclosure of reports of Clery Act Crimes, as well as the crimes of (i) simple assault (ii) larceny-theft, (iii) intimidation, (iv) destruction, damage or vandalism of property; and (v) all other crimes involving bodily injury, when such crimes are “Hate Crimes.” For purposes of the Clery Act, “Hate Crimes” are crimes whose reports include factual evidence that the victim was intentionally selected because of the actual or perceived race, gender, religion, national origin, sexual orientation, gender identity, ethnicity, or disability of the victim. As outlined in this Policy, the characterization of crimes for purpose of Clery Act statistics is the responsibility of the Chief of the BCPD.
- **Arrests and Disciplinary Referrals.** The Clery Act also requires disclosure of the number of arrests and “referrals for disciplinary action” for violations of applicable weapons possession, drug, and liquor law violations. “Referral for disciplinary action” is defined as a referral of any person to any official who initiates a disciplinary action of which a record is kept and which may result in the imposition of a sanction.” “Arrest” refers to the process of arrest, citation or summons. A formal charge is not required for an arrest to have taken place; rather any detention by a law enforcement officer of an adult made with the intention of seeking charges, or of a juvenile with the intention of initiating some appropriate process beyond mere warning or admonishment is an arrest.

Appendix G: Drug and Alcohol Disclosures

DRUG-FREE SCHOOLS AND CAMPUSES

Boston College is committed to reducing and preventing drug- and alcohol-related crimes and misuse within the University community. In accordance with the Drug-Free Schools and Communities Act Amendments, the following notifies students, employees, and all members of the University community of important information regarding University standards of conduct, the health risks and legal consequences of substance abuse, applicable University sanctions, and treatment program resources relating to the use of alcohol and drugs. All members of the University community should be aware of Boston College drug and alcohol policies.

UNIVERSITY STANDARDS OF CONDUCT

Consistent with federal, state, and local laws, Boston College prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on University premises or property or as part of its activities. University standards of conduct exceed minimum requirements under applicable laws. Students, faculty, and staff should become familiar with all applicable University's policies regarding alcohol and drugs, including by reviewing the [Boston College Student Code of Conduct](#) and the [Boston College Employee Handbook](#).

UNIVERSITY DISCIPLINARY SANCTIONS

Boston College has established clear and specific sanctions for violations of its standards of conduct. These sanctions, ranging from warnings and mandatory referral to substance abuse awareness programs for minor offenses, to dismissal and/or referral to civil authorities for major and/or multiple offenses, are applied consistently and fairly.

For a more detailed list of potential sanctions, students should consult all applicable policies including the [Boston College Student Code of Conduct](#) and [University residential life policies](#). Employees and faculty should also consult all applicable policies and be familiar with the Drug-Free Workplace Act disclosure provided below, as well as with the [Boston College Employee Handbook](#).

LEGAL SANCTIONS UNDER LOCAL, STATE, AND FEDERAL LAW

Boston College expects its students and employees to comply with local, state, and federal laws relating to the possession, use, or distribution of drugs and alcohol when they are on University property or taking part in University activities. The University will cooperate with law enforcement in the investigation of the alcohol- and drug-related crimes. Students and employees should familiarize themselves with these laws, including by referring to University resources, and should be aware that conviction under the applicable laws can lead to imprisonment, fines, assigned community service, the loss and denial of federal benefits, professional licenses, and employment opportunities. Individuals convicted of drug possession under state or federal laws are ineligible for federal student grants and loans and/or for participation in federally sponsored research grants or contracts for up to one year after the first conviction, and up to five years after the second; those convicted of distributing drugs lose these benefits for five years after the first conviction, for ten years after the second, and permanently after the third. More information about controlled substances under Massachusetts law is available [here](#). More information about controlled substances under federal law is available [here](#).

Boston and Newton have ordinances forbidding the consumption and the possession of an open container of alcohol on any public street, building, parking lot, park, playground, conservation or recreation area, or other public area by a person of any age. These ordinances are vigorously enforced—anyone choosing to violate them can expect to be arrested.

The legal drinking age in Massachusetts is 21 years. Purchasing, attempting to purchase, or knowingly misrepresenting one's age (including by falsifying or defacing an identification card) in order to procure alcoholic beverages while under 21 is prohibited, and subject to a \$300 fine. Massachusetts law prohibits the sale or delivery of alcoholic beverages to persons under age 21 with a fine of up to \$2,000 or imprisonment for up to one year, or both. State law also prohibits the transportation of alcohol in excess of the following quantities: 1.) nine cases or twenty gallons of beer; 2.) three gallons of any other alcoholic beverage.

In Massachusetts, a first conviction of driving under the influence of alcohol carries a penalty of \$500 - \$5,000 in fines, license suspension for up to one year, and up to two and half years in prison. Subsequent offenses are subject to higher penalties. Massachusetts law generally prohibits the possession of open containers of alcoholic beverages by drivers and passengers in the passenger area of a motor vehicle, whether moving or parked. Violations are subject to a fine between \$100 and \$500, in addition to license suspension for drivers under 21 years of age.

Appendix G: Drug and Alcohol Disclosures

Under Massachusetts law, a social host may be held liable for injuries caused by an intoxicated guest under 21 years of age who, having consumed alcohol on the host's premises, does harm to themselves or to a third party, if the host knew or reasonably should have known that the host was furnishing alcohol to a minor, or was allowing a minor to possess alcohol on the host's premises. These penalties apply even if the minor was already otherwise intoxicated when served alcohol. Further, even if the guest was not a minor, a social host will be liable for injuries to third parties if the host knew or should have known that the guest was intoxicated, but nevertheless gave them, or permitted them to take, an alcoholic beverage.

Possession of drugs is illegal without valid authorization. Possession of a relatively large quantity may be considered distribution. Under both state and federal law, penalties for possession, manufacture, and distribution are much greater for second and subsequent convictions. Many laws dictate mandatory prison terms and the full minimum term must be served.

Massachusetts makes it illegal to be in a place where heroin is kept and to be "in the company" of a person known to possess heroin at a private party on or off campus risks a serious drug conviction. Sale and possession of "drug paraphernalia" is illegal in Massachusetts.

Although Massachusetts law permits the recreational use of marijuana by adults over the age of 21, Boston College does not. The possession, use, consumption, manufacturing, sale, or distribution of drugs, including marijuana, by students or employees is prohibited. Federal law prohibits the possession, use, purchase, or sale of marijuana or THC, including edibles.

HEALTH RISKS

The consumption of drugs and alcohol can have significant negative effects on health. Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. High doses of alcohol may cause respiratory depression and death. Repeated use of alcohol can lead to dependence, and cause serious damage to the nervous and circulatory systems, mental disorders, and other health problems. Consumption of alcohol by women during pregnancy may lead to fetal alcohol syndrome.

Drugs and alcohol are chemicals, and any chemical is potentially harmful. Drugs by their very nature cause reactions in the body. Possible effects from non-therapeutic drug use include: convulsions, memory loss, psychosis, anxiety, delusions, hallucinations, and even death.

For more information and a non-exhaustive list of health risks associated with the consumption of drugs and alcohol, please visit our [Alcohol and Drug Education Program](#) page.

COUNSELING, TREATMENT, AND REHABILITATION PROGRAMS

Students

Boston College provides individual and group counseling to students with concerns about their use and abuse of substances. Consultation is also provided to those who have concerns about the abuse of substances by friends, family, or others. Referrals for specialized treatment are arranged as appropriate. The following on-campus offices provide assistance with drug and alcohol counseling and education:

University Counseling Services (617-552-3310)

Assistant Dean for Alcohol and Drug Education (617-552-3470)

University Health Services (617-552-3225 outpatient; 617-552-3227 inpatient)

For additional information, students should visit our [Alcohol and Drug Education Program](#) page.

Employees

The Employee Assistance Program provides professional counseling and referral as well as consultation and information to Boston College employees and their families. For issues of drug and alcohol abuse, short-term counseling is available through this program. If necessary, referrals can be made to private counselors or community agencies. Treatment is also available to employees and family members through their health coverage. All services of the Employee Assistance Program are confidential. For more information contact: Employee Assistance Program (617-552-3340).

Appendix G: Drug and Alcohol Disclosures

DRUG-FREE WORKPLACE ACT OF 1988

A component of the omnibus Anti-Drug Abuse Act of 1988, the Drug-Free Workplace Act enlists federal contract and grant recipients in the battle against unlawful drugs by requiring employers who contract with, or receive grants from, federal agencies to certify that they will meet certain requirements for providing a drug free workplace, and, in the case of grantees who are individuals, by requiring each individual to certify that his or her conduct of grant activity will be drug free. The U.S. Department of Education has interpreted the Act to include Federal aid recipients. All grantees who fail to meet the drug-free workplace requirements may lose current funding and/or become ineligible to receive further contract or grants. The Drug-Free Workplace Act of 1988 requires the University to provide the following information to all employees engaged in the performance of work under a federal contract or grant.

In striving to maintain a drug-free workplace, Boston College prohibits the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance in and on University-owned or controlled property. These restrictions apply to both illegal drugs and prescription drugs taken in non-therapeutic doses. Any Boston College employee determined to have violated this policy may be subject to appropriate personnel action up to and including termination.

All employees engaged in the performance of work under a federal contract or grant who are convicted of any drug-related criminal offense occurring in the workplace are required to notify the Office of Human Resources, in writing, no later than five (5) calendar days following conviction.

An individual grantee convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity is to report the conviction, in writing, within ten (10) calendar days of the conviction, to his or her federal agency officer, or other designee, unless the federal agency has designated a central point for the receipt of such notices.

The University's ongoing Employee Assistance Program offers a drug-free awareness program, as well as information regarding the availability of professional drug abuse counseling, consultation, and referral. Employees of the University who have concerns about substance abuse or dependency are encouraged to utilize the resources of the Employee Assistance Program. This service is confidential.

The employment of those engaged in the performance of work under a federal contract or grant is conditional on their willingness to abide by the terms of this policy. This policy is also available in the [Boston College Employee Handbook](#).
